Case No. GC-2009-0236

**Sam Waheed v. AmerenUE**

Missouri Public  
Service Commission

Reply Form

Return this document to:

Missouri Public Service Commission, P.O.Box 360, Jefferson City, MO 65201-0360  
no later than April 2, 2009.

1. Statement:

AmerenUE sent Sam Waheed a gas bill using an incorrect constant.

☒ I don't know whether the statement is true or false.

☐ The statement is entirely true.

The statement is not entirely true because: Starting in Nov. 2008, they

start charging me at 1-656. I didn't saw anywhere in their (meter

reading) statements showing they charge me that Constant. I think

they charge me 3 months before they change their mind.

2. Statement:

AmerenUE sent Sam Waheed a first corrected gas bill dated October 9, 2008, for the previous 24 months using an incorrect constant of 1.656.

☐ I don't know whether the statement is true or false.

☒ The statement is entirely true.

The statement is not entirely true because: \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

3. Statement:

AmerenUE sent Sam Waheed a second corrected gas bill as set forth in Exhibit 3HC, attached to the Amendment to Answer, that used the correct constant of 1.317.

☐ I don't know whether the statement is true or false.

☐ The statement is entirely true.

The statement is not entirely true because: Honestly, I don't know  
where to find Exhibit 3HC. They send me the statement  
saying the new Constant is now 1.317.

4. Statement:

The amount due as set forth in Exhibit 3HC, attached to the Amendment to Answer, is correct.

☐ I don't know whether the statement is true or false.

☐ The statement is entirely true.

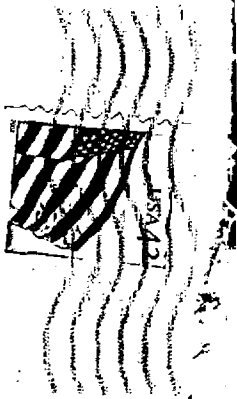

The statement is not entirely true because: I don't agree with the new  
figure. Because in early 2008 they shut down the gas meter why  
they didn't find out if there was a problem. How I know that  
new Constant 1.317 is correct. They didn't give any concrete  
proof that the 1 Constant was incorrect.

So, please ask them to remove the charges. I don't agree with  
them that for 2 years they were using wrong thing to calculate.  
If a Constant can change in 3 months then I need to know why it  
can't change in 2 years.

THANK YOU.
