Missouri Public Service Commission

DIRECT TESTIMONY

OF

CRAIG A. UNRUH

St. Louis October 29, 2004

EXTINE 1.J. 2005-0035 Jatetremarked Case No. TOottes \*\*\*\*

#### BEFORE THE PUBLIC SERVICE COMMISSION

#### OF THE STATE OF MISSOURI

In the Matter of the Second Investigation into the State of Competition in the Exchanges of Southwestern Bell ) Case No. TO-2005-0035 Telephone, L.P., d/b/a/ SBC Missouri.

#### AFFIDAVIT OF Craig A. Unruh

STATE OF MISSOURI	)	
	)	SS
CITY OF ST. LOUIS	)	

I, Craig A. Unruh, of lawful age, being duly sworn, depose and state:

- 1. My name is Craig A. Unruh. I am presently Executive Director Regulatory for Southwestern Bell Telephone, L.P., d/b/a/ SBC Missouri.
- 2. Attached hereto and made a part hereof for all purposes is my direct testimony.
- 3. I hereby swear and affirm that my answers contained in the attached testimony to the questions therein propounded are true and correct to the best of my knowledge and belief.

Craig A. Unruh

Subscribed and sworn to before this 29 day of October, 2004

8	SUMMARY
9	

I

1 2 3 4 5		CASE NO. TO-2005-0035 SOUTHWESTERN BELL TELEPHONE, L.P. D/B/A/ SBC MISSOURI DIRECT TESTIMONY OF CRAIG A. UNRUH
6 7	INT	RODUCTION
8	Q.	PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
9	A.	My name is Craig A. Unruh and my business address is One SBC Center, Room
10		3528, St. Louis, Missouri, 63101.
11		
12	Q.	BY WHOM ARE YOU EMPLOYED AND IN WHAT POSITION?
13	A.	I am employed by Southwestern Bell Telephone, L.P. d/b/a SBC Missouri (SBC
14		Missouri) and serve as its Executive Director – Regulatory. I am responsible for
15		advocating regulatory policy and managing SBC Missouri's regulatory
16		organization.
17	,	
18	Q.	HAVE YOU PREPARED AN EXHIBIT THAT SUMMARIZES YOUR
19	,	PROFESSIONAL AND EDUCATIONAL BACKGROUND AND
20	)	EXPERIENCE BEFORE THE MISSOURI PUBLIC SERVICE
21		COMMISSION (COMMISSION)?
22	A.	Yes. This information is contained in Unruh - Schedule 1.
23	•	
24	PUI	<b>RPOSE AND MAIN POINTS OF TESTIMONY</b>
25	5 Q.	WHAT IS THE PURPOSE OF YOUR TESTIMONY?

2

.

1	A.	My testimony states what SBC Missouri seeks from this application, explains that
2		the time is right for creating more full and open competition by regulating SBC
3		Missouri's retail services in the same fashion as its other regulated competitors
4		and provides evidence demonstrating that SBC Missouri faces effective
5		competition for its services.
6		
7	Q.	WHAT ARE THE MAIN POINTS THE COMMISSION SHOULD
8		UNDERSTAND ABOUT YOUR TESTIMONY?
9	A.	The Commission should understand the following points about my testimony and
10		this case in general:
11	•	SBC Missouri faces effective competition throughout its exchanges. There are a
12		multitude of competitors actively competing in SBC Missouri's exchanges.
13	٠	The communications marketplace is rapidly changing and is now characterized by
14		converging technologies, services, and providers which require changes to public
15		policy and regulation of historical landline incumbent telephone companies like
16		SBC Missouri.
17	•	The intent of the statute is clear – lawmakers envisioned all providers competing
18		on equal terms with price caps being an interim mechanism in the transition to a
19		fully competitive market.
20	٠	The legislature clearly understood the need for regulatory parity.
21	•	The legislature understood that a fully competitive market brings the greatest
22		benefit to consumers.

3

.

1 A fully competitive market, where all providers are regulated equally with 2 minimal government intervention, facilitates a more optimal mix of investment, 3 innovation and jobs. • After granting competitive classification, the Commission maintains a backstop to 4 5 reinstate price cap regulation if, at a future date, it finds that effective competition 6 no longer exists. 7 • The Commission should recognize that, even after finding effective competition 8 exists, it retains authority under the federal Telecommunications Act of 1996 (the 9 federal Act) to arbitrate disputes between SBC Missouri and its wholesale 10 customers concerning the prices for SBC Missouri's wholesale services (e.g., unbundled network elements ("UNE's") and resale). Accordingly, the 11 Commission retains significant oversight over wholesale pricing which influences 12 13 retail pricing practices. 14 WHAT IS THE PURPOSE OF THIS CASE? 15 Q. SBC Missouri seeks a competitive classification for its services under the 16 Α. 17 provisions of Section 392.245 RSMo. To do so, the Commission must find that SBC Missouri's services are subject to effective competition. 18 19 WHY ARE YOU SEEKING A COMPETITIVE CLASSIFICATION FOR 20 **Q**. **YOUR SERVICES?** 21

1

1	A.	In today's highly competitive and rapidly evolving telecommunications
2		marketplace, all providers should be treated equally. This is particularly true with
3		respect to the regulation of retail services (i.e., services offered directly to end user
4		customers). We are witnessing a convergence of technologies and services within
5		a patch-work of outdated regulations that treat providers differently. For example,
6		wireless providers are not subject to this Commission's oversight while traditional
7		landline telephone companies are regulated by the Commission. Even within the
8		Commission's oversight of traditional landline telephone companies, SBC
9		Missouri faces more onerous regulations than does its traditional landline
10		competitors (i.e., competitive local exchange carriers or CLECs). It is time for
11		SBC Missouri to be regulated more like its competitors. A competitive
12		classification is a step in that direction.
13		
14	Q.	WHY IS A COMPETITIVE CLASSIFICATION ONLY A STEP IN THE
15		DIRECTION OF TREATING ALL PROVIDERS THE SAME?
16	A.	A competitive classification would grant SBC Missouri the same retail pricing
17		flexibility that its CLEC competitors enjoy. Even with a competitive
18		classification, SBC Missouri will still be subject to additional regulations, such as
19		those governing wholesale unbundling and resale of its network and services at a
20		discount. Moreover, even with a competitive classification, SBC Missouri will
21		remain subject to Commission oversight while its wireless competitors, and at
22		least some Voice over Internet Protocol (VoIP) competitors, will not.

5

\_

1

# Q. PLEASE EXPAND ON YOUR COMMENT THAT WE ARE WITNESSING A CONVERGENCE OF TECHNOLOGIES AND SERVICES IN THE TELECOMMUNICATIONS INDUSTRY.

5 A. The historical distinction between local telephone companies, long distance 6 telephone companies, cable TV companies, wireless companies, and now VoIP 7 providers is rapidly blurring. Cable companies are providing telephone service and telephone companies are providing video services. Wireless service is being 8 9 used by customers to replace landline service. Local services and long distance 10 services are blurring as customers purchase "all you can eat" plans from landline 11 carriers that provide unlimited local and long distance voice calling. VoIP 12 providers are bringing the benefits of Internet-based technology (e.g., Internet 13 Protocol) to voice calling. Customers use email, instant messaging and text messaging as additional ways in which they communicate. The 14 15 telecommunications marketplace has changed and outdated regulation should 16 change as well if we are to advance our state's interests in having advanced 17 telecommunication services available to Missouri's consumers. A policy 18 framework of promoting full competition and limiting government intervention 19 and management of the marketplace will facilitate innovation, investment and 20 jobs.

21

22 Q. WHAT ARE THE BENEFITS OF A COMPETITIVE CLASSIFICATION?

1 A. As mentioned above, a competitive classification means SBC Missouri will have the same pricing flexibility as, and will be regulated more like, its CLEC 2 3 competitors. This will enhance competition. Open and full competition, 4 combined with minimal government intervention, is the best way to maximize 5 consumer benefits in the telecommunications marketplace. A fully competitive 6 marketplace drives to a more appropriate mix of investment, innovation, and jobs. 7 Ultimately, consumers win when companies are freely competing for their 8 business. 9 HAVE LEGISLATORS RECOGNIZED THE BENEFITS OF MOVING 10 Q. FORWARD WITH A PRO-COMPETITIVE, LIMITED REGULATION 11 12 **ENVIRONMENT?** 13 Yes. In addition to the intent of Missouri legislators in passing the legislation Α. relevant to this proceeding, which I will discuss in more detail below, both the 14 American Legislative Exchange Council (ALEC)<sup>1</sup> and the National Conference of 15 State Legislatures (NCSL) have endorsed the concept of equal and limited 16 regulation of telecommunications services. The NCSL resolution states<sup>2</sup>: 17 18 [... government and industry should strive for a 19 telecommunications policy framework that promotes and ensures 20 fair and open competition, removes obsolete barriers that result 21 from outdated burdensome regulation and requirements, ensures 22 similar government regulation for all technologies that provide 23 similar services, encourages innovation and investment and allows

<sup>&</sup>lt;sup>2</sup> Unanimously approved at the NCSL General Business Meeting on Friday, July 23, 2004.

<sup>&</sup>lt;sup>1</sup> Approved by the Telecommunications & Information Task Force on July 30, 2004. Pending National Board approval.

1 2 3		consumers and the marketplace to determine winners and losers not government regulation.]
4		The ALEC resolution states:
5 6 7 8 9 10		[ be it resolved that ALEC shall voice its support of minimal, competitively neutral state and federal regulation of all telecommunications providers, including incumbent and competitive wireline carriers, wireless carriers and cable telephony providers]
11	CAS	E OVERVIEW
12	Q.	FOR WHAT SERVICES IS SBC MISSOURI SEEKING A COMPETITIVE
13		CLASSIFICATION?
14	A.	SBC Missouri is seeking a competitive classification for its access line and related
15		services, except for switched access service, and directory services that have not
16		already been declared competitive. Generally speaking, these include residential
17		access line services, residential line-related services (e.g., vertical services),
18		business access line services, business line-related services (e.g., vertical
19		services), and directory services. SBC Missouri seeks a competitive classification
20		for these services in every SBC Missouri exchange that has not already been
21		declared competitive. SBC Missouri's residential services have been declared
22		competitive in the exchanges of Harvester and St. Charles. SBC Missouri's
23		business services have been declared competitive in the exchanges of St. Louis
24		and Kansas City. SBC Missouri has 160 exchanges in Missouri, so SBC Missouri
25		seeks a competitive classification for its residential services in 158 exchanges and

1

1		a competitive classification for its business services in 158 exchanges. A listing
2		of the specific services is attached as Unruh – Schedule 2.
3		
4	Q.	HOW HAS SBC MISSOURI PRESENTED ITS EVIDENCE IN THIS
5		CASE?
6	A.	SBC Missouri is sponsoring the following witnesses:
7 8 9 10 11 12 13 14		WitnessArea(s)Craig UnruhPolicy and Competitive DataDr. Debra AronEconomic PolicyChip ShooshanWireless CompetitionSylvia Acosta FernandezBusiness Services and Competitive DataElizabeth StoiaResidential Services and Competitive DataSandy MooreDirectory Services and Competitive Data
15	BAC	CKGROUND
16	Q.	PLEASE EXPLAIN HOW PRICING CHANGES FOR SBC MISSOURI'S
17		RETAIL SERVICES ARE REGULATED WITHOUT A COMPETITIVE
18		CLASSIFICATION.
19	А.	SBC Missouri's services that are not subject to a competitive classification are
20		regulated under Section 292.245 RSMo (price cap statute). The price cap statute
21		places regulatory imposed limits on the prices SBC Missouri can charge for its
22		services. The price cap statute is part of SB 507 which the Missouri Legislature
23		enacted in 1996.
24		
25	Q.	WHAT WAS THE INTENT OF SB 507?

- --

-- ---

9

.

.

1	A.	In response to the continuing competitive evolution of the telecommunications
2		industry, the Missouri Legislature passed a law in 1996 that authorized CLECs to
3		begin providing basic local exchange service under Missouri law. In recognizing
4		the advancement of service offerings by new competitors, it included provisions
5	,	to ensure a level playing field for all providers, by allowing the incumbent local
6		exchange carriers (ILECs) the opportunity to gain freedom from rate of return
7		regulation. The law provided for a phased in approach. The Commission was
8		directed to regulate incumbent LECs via price cap regulation upon the initiation of
9		local competition in the incumbent's service area. Five years after the initiation of
10		competition in an exchange, the legislative intent was for price cap regulation to
11		be eliminated recognizing that the fullest consumer benefits will be derived from a
12		market where all providers are regulated in the same manner.
12		

13

#### 14 Q. HOW DOES AN INCUMBENT LOCAL EXCHANGE CARRIER GAIN

#### 15 PRICE CAP AUTHORITY?

A. Under the Missouri Statute 392.245.2, a large incumbent local exchange carrier is
subject to price cap regulation when an alternative local exchange
telecommunications company has been certified to provide basic local
telecommunications service and is providing such service in any part of the large
incumbent company's service area.

i

-

1	Q.	WHEN DID SBC MISSOURI BECOME A PRICE CAP REGULATED
2		COMPANY?
3	A.	On March 21, 1997, SBC Missouri sought price cap regulation. The Commission
4		in Case No. TO-97-397 confirmed that SBC Missouri met the conditions for
5		regulation as a price cap company effective September 26, 1997.
6		
7	Q.	WHAT ARE THE GENERAL REQUIREMENTS FOR PRICE CAP
8		COMPANIES?
9	А.	Under price caps, after January 1, 2000, the maximum allowable prices to be
10		charged for exchange access (switched access) and basic local
11		telecommunications services are changed annually by either the change in the
12		telephone service component of the Consumer Price Index (CPI-TS) for the
13		preceding twelve months, or upon request by the company and approval of the
14		Commission, by the change in the Gross Domestic Product Price Index (GDP-PI)
15		for the preceding twelve months minus the productivity offset established for
16		telecommunications service by the FCC and adjusted for exogenous factors. In
17		addition, a price cap company can raise rates on non-basic services by a maximum
18		of eight percent for each of the following twelve-month periods.
19		
20	Q.	WHAT HAS HAPPENED WITH CPI-TS SINCE SBC MISSOURI HAS
21		BEEN REQUIRED TO USE IT TO DETERMINE THE MAXIMUM

## 1 PRICES FOR BASIC LOCAL SERVICES AND SWITCHED ACCESS 2 SERVICES?

3 It has been trending downward. On October 15, 2004, SBC Missouri filed price A. 4 reductions for basic local and switched access services resulting from a 2.68% 5 decline in CPI-TS. CPI-TS is composed of pricing changes for local services, 6 long distance services and wireless services. Since long distance and wireless 7 prices have been declining, the CPI-TS has trended downward thus leading to 8 regulatory-imposed price reductions on SBC Missouri's basic local and switched 9 access services. A significant portion of SBC Missouri's intrastate regulated 10 revenues are subject to the CPI-TS cap.

11

## Q. HAS THE COMMISSION CONDUCTED ANY PREVIOUS REVIEWS REGARDING THE STATUS OF COMPETITION FOR SBC MISSOURI'S SERVICES UNDER SECTION 392.245?

15 Yes. In Case No. TO-2001-467, the Commission investigated the status of Α. competition in SBC Missouri's exchanges. The Commission granted SBC 16 17 Missouri a competitive classification under 392.245 for residential services in the 18 Harvester and St. Charles exchanges, business services in St. Louis and Kansas 19 City, and LIDB and CCS/SS7 in all exchanges. The Commission also confirmed 20 that intraLATA toll, private line, special access, WATS, 800 and several operator 21 services had already become competitively classified under Sections 392.361 and 22 392.370.1 RSMo. These statutory provisions existed prior to the price cap statute

	and provided a mechanism for services to become competitively classified. In
	TO-93-116, the Commission determined that these services should be
	transitionally competitive. The Commission found in TO-2001-467 that these
	services had automatically transitioned from transitionally competitive to
	competitively classified under the provisions of 392.361. <sup>3</sup>
Q.	WHAT HAS HAPPENED WITH THE SERVICES THAT BECAME
	COMPETITIVELY CLASSIFIED?
A.	In many cases, SBC Missouri has treated the competitively classified services in
	the four competitively classified exchanges the same as the services in the
	remaining exchanges. Even though SBC Missouri could increase the price of
	residential basic local in Harvester and St. Charles, it has elected not to.
	SBC Missouri did restructure its intraLATA toll service because the competitive
	market for toll had evolved to a different pricing structure. Prior to a competitive
	classification, SBC Missouri's intraLATA toll pricing was based on numerous
	mileage bands so the price of a call depended on how far the call was between the
	two parties (e.g., a 10 mile call cost less than a 50 mile call). The marketplace for
	basic long distance service had evolved to a more simple time of day approach
	where it no longer mattered how far you were calling. To remain competitive,
	-

<sup>&</sup>lt;sup>3</sup> In WD63075, the Western District of the Missouri Court of Appeals remanded a portion of the Commission's Order in TO-2001-467 finding that the Commission could no longer rely on 392.361 for granting a competitive classification once a company became subject to price cap regulation under 392.245.

SBC Missouri restructured its toll pricing structure to match the structure that had
 become prevalent in the marketplace.

- SBC Missouri also chose to reduce the disparity between its single line and multiline business prices in the St. Louis and Kansas City exchanges. Past public
  policy decisions had caused the prices for basic local service to be significantly
  different for a company buying one single line service and a similar company
  buying two multi-line services. The wide pricing disparity that existed prior to
  gaining a competitive classification made little sense in the competitive market so
  SBC Missouri has taken steps to reduce that disparity.
- 11

3

#### 12 Q. HAVE CUSTOMERS OF COMPETITIVELY CLASSIFIED SERVICES

#### 13 COMPLAINED BECAUSE THEY THOUGHT THEY WERE BEING

#### 14 HARMED BY SBC MISSOURI'S COMPETITIVE CLASSIFICATONS?

15 A. No. I am not aware of any complaints or concerns expressed by consumers

16 regarding SBC Missouri's competitive classifications.

17

#### 18 Q. HAS THE COMMISSION GRANTED A COMPETITIVE

## 19 CLASSIFICATION UNDER 392.245 FOR COMPANIES OTHER THAN 20 SBC MISSOURI?

If and when that decision becomes final, the matter will be addressed by the Commission in another proceeding.

i.

1	А.	Yes. The Commission has granted a competitive classification under 392.245 for
2		a number of services offered by Sprint Missouri, Inc. (Sprint). On a state-wide
3		basis, the Commission granted a competitive classification for Centrex, private
4		line, ATM, frame relay, intraLATA MTS, intraLATA WATS, Line Information
5		Data Base (LIDB) and Speed Dial. Additionally, the Commission granted a
6		competitive classification for Sprint's residential and business services in
7		Kearney, Rolla and Norborne. Sprint also requested a competitive classification
8		for its business and residential services in Platte City and St. Robert, but the
9		Commission chose not to grant Sprint's request.
10		
11	Q.	WHAT ARE THE STATUTORY PROVISIONS GOVERNING THE
		CONTRACTORIC DEVIENT IN THE CASE O
12		COMMISSION'S REVIEW IN THIS CASE?
12 13	A.	Section 392.245.5 provides the framework for the Commission's review. It reads

The commission shall, from time to time, on its own motion or motion by an incumbent local exchange telecommunications company, investigate the state of competition in each exchange where an alternative local

. ....

~~~~~

1 certification of an alternative local exchange 2 telecommunication company in such exchange, whether effective competition exists in the exchange for the various 3 4 services of the incumbent local exchange telecommunications 5 company. If the commission determines that effective 6 competition exists in the exchange, the local exchange 7 telecommunications company may thereafter adjust its rates for 8 such competitive services upward or downward as it 9 determines appropriate in its competitive environment. If the 10 commission determines that effective competition does not exist in the exchange, the provisions of paragraph (c) of 11 subdivision (2) of subsection 4 of section 392.200 and the 12 13 maximum allowable prices established by the provisions of subsections 4 and 11 of this section shall continue to apply. 14 The commission shall from time to time, but no less than every 15 16 five years, review the state of competition in those exchanges where it has previously found the existence of effective 17 competition, and if the commission determines, after hearing, 18 that effective competition no longer exists for the incumbent 19 20 local exchange telecommunications company in such exchange, it shall reimpose upon the incumbent local exchange 21 telecommunications company, in such exchange, the provisions 22 23 of paragraph (c) of subdivision (2) of subsection 4 of section 392.200 and the maximum allowable prices established by the 24 provisions of subsections 4 and 11 of this section, and, in any 25 such case, the maximum allowable prices established for the 26 27 telecommunications services of such incumbent local exchange telecommunications company shall reflect all index 28 adjustments which were or could have been filed from all 29 30 preceding years since the company's maximum allowable prices were first adjusted pursuant to subsection 4 or 11 of this 31 section. 32 33 34 Under this provision, the Commission determines whether effective competition 35 exists. Upon a finding of effective competition, the service becomes 36 competitively classified. 37

38 Q. IS EFFECTIVE COMPETITION DEFINED IN THE STATUTES?

| 1                                                                    | A. | Yes. Effective competition is defined in section 386.020.13 of the Missouri                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 23                                                                   |    | Commission's authority.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

<sup>&</sup>lt;sup>4</sup> Not all VoIP providers are under the Commission's authority today. Many parties argue that VoIP services are information and/or interstate services and, therefore, are not subject to the Commission's authority over telecommunications services. There are many VoIP providers offering service in Missouri who have not sought certification from, nor have they filed tariffs with, the Commission. These providers also do not file annual reports with the Commission disclosing their customer line counts, revenues and other information that is required of traditional telecommunications companies providing traditional intrastate telecommunications services.

#### EQUIVALENT OR SUBSTITUTABLE SERVICES EXIST FOR SBC MISSOURI'S SERVICES?

Since SBC Missouri is required under the federal Telecommunications Act 996 ("Act") to resell its retail telecommunications services to its competitors. provides the opportunity for competitors to provide the same services that 6 SBC Missouri provides since SBC Missouri is the underlying provider of the service. The FCC in its First Report and Order at paragraph 332 discusses that 7 CLECs offering services via resale are offering the same service that the 8 9 incumbent is offering at retail. This demonstrates that CLECs are providing substitutable services when they are reselling SBC Missouri's services. While 10 resale is an important alternative available to SBC Missouri's competitors, the 11 12 vast majority of CLEC competition in SBC Missouri's exchanges is from service 13 providers using their own facilities or SBC Missouri's UNEs.

14

#### 15 Q. IN ADDITION TO THE RESALE OPTION YOU DESCRIBED ABOVE,

16 HOW ELSE CAN CLECS PROVIDE SERVICE?

A. In addition to the resale of SBC Missouri's services, CLECs can use SBC
Missouri's network facilities, their own network facilities, or the facilities of
another carrier.

I

| 1  | Q. | SHOULD THE COMMISSION REQUIRE A CERTAIN "LEVEL" OF                                  |
|----|----|-------------------------------------------------------------------------------------|
| 2  |    | <b>COMPETITION BEFORE GRANTING A COMPETITIVE</b>                                    |
| 3  |    | CLASSIFICATION?                                                                     |
| 4  | A. | No. As explained by Dr. Aron in her direct testimony, requiring a certain           |
| 5  |    | threshold, or level, of competition as defined by something such as market share is |
| 6  |    | inappropriate because such measures may not accurately reflect the level of         |
| 7  |    | competition.                                                                        |
| 8  |    |                                                                                     |
| 9  | Q. | HAS SBC MISSOURI, NONETHELESS, PRESENTED SIGNIFICANT                                |
| 10 |    | EVIDENCE DEMONSTRATING THE ACTIVITY OF CLECS AND                                    |
| 11 |    | OTHER COMPETITORS IN SBC MISSOURI'S EXCHANGES?                                      |
| 12 | A. | Yes. While decisions to grant competitive classifications based on the availability |
| 13 |    | of alternatives rather than on specific "levels" of perceived competition are       |
| 14 |    | economically rational, I recognize that this Commission might want to see           |
| 15 |    | evidence beyond availability, so my testimony, and the testimony of other SBC       |
| 16 |    | Missouri witnesses, presents a wide range of data to highlight competitive activity |
| 17 |    | and to estimate the "level" of competition within SBC Missouri's exchanges.         |
| 18 |    |                                                                                     |
| 19 | Q. | IN GENERAL, WHAT ARE SOME OF THE OVERALL NUMBERS                                    |
| 20 |    | DEMONSTRATING THE LEVEL OF TRADITIONAL LANDLINE (E.G.,                              |
| 21 |    | CLEC) COMPETITION IN SBC MISSOURI'S SERVICE TERRITORY?                              |
|    |    |                                                                                     |

1 As of June, 2004, CLECs now serve over 560,000 lines throughout SBC A. 2 Missouri's service territory. This represents a minimum CLEC market share 3 estimate in the traditional landline market of 21%. This includes a minimum 4 number of CLEC business lines of 383,000 which represents a 36% market share 5 estimate in the traditional landline market. CLECs have a minimum of 178,000 6 residential lines representing a 11% market share estimate in the traditional 7 landline market. As you will see from other evidence in my testimony, the CLEC market share in many of the exchanges is much higher than these state-wide 8 9 numbers reflect. Based on the number of CLECs passing orders during recent 10 months, there are over 65 CLECs actively competing in SBC Missouri's service territory throughout the state. There are CLECs operating in all of SBC 11 Missouri's exchanges. The following table shows some state-wide numbers 12 13 signifying the extent of competition and the growth in these numbers since the dates of the data used by SBC Missouri in the last competitive classification case 14 15 (Case No. TO-2001-467):

|                                   | June/July<br>2001 | June 2004 | Change  |
|-----------------------------------|-------------------|-----------|---------|
| Minimum CLEC<br>Lines             | 288,037           | 561,847   | 273,810 |
| Minimum CLEC<br>Business Lines    | 230,528           | 383,381   | 152,853 |
| Minimum CLEC<br>Residential Lines | 57,509            | 178,466   | 120,957 |
| Interconnection<br>Trunks         | 114,785           | 151,021   | 36,236  |
| CLEC E-911<br>Listings            | 143,444           | 308,501   | 165,067 |
| CLEC UNE-P<br>Lines               | 58,263            | 230,137   | 171,874 |

| CLEC Resale           | 94,046    | 23,209    | (70,837)  |
|-----------------------|-----------|-----------|-----------|
| Lines                 |           |           |           |
| Ported Numbers        | 253,798   | 547,399   | 293,601   |
| SBC Missouri          | 807,448   | , 691,954 | (115,494) |
| <b>Business Lines</b> |           |           |           |
| SBC Missouri          | 1,735,220 | 1,475,078 | (260,142) |
| Residential Lines     |           |           |           |

1

Unruh – Schedule 3 shows the growth in CLEC lines over time along with the
relative use of resale, unbundled network element – platform (UNE-P), and the
CLECs' own switching as reflected in E-911 listings. Unruh – Schedule 4 shows
for the corresponding timeframe the loss of SBC Missouri retail lines. As you can
see from this information, SBC Missouri lost over 375,000 lines during the past 3
years while CLECs gained over 273,000 lines during the same 3 year period.

9

8

#### Q. DO YOU HAVE DATA REGARDING COMPETITIVE SWITCHES

10

#### **OPERATING IN MISSOURI?**

A. Yes. Unruh – Schedule 5 is a map depicting where CLECs have located NPANXX codes or 1000 blocks (numbering resources)<sup>5</sup>. By having numbering
resources in an exchange, the CLEC can provide voice services to customers in
that exchange. This also signifies the use by a CLEC of its own switching
facilities, or at least the use of another party's switching facilities, rather than
through the use of SBC Missouri's unbundled switching (typically in a UNE-P
fashion). This map also shows where CLEC have switches and points of

<sup>&</sup>lt;sup>5</sup> This is based on information from the Local Exchange Routing Guide (LERG) which is an industry database used for, among other things, routing traffic between carriers.

1

ł

| 1  |    | interconnection where numbering resources are linked. According to the LERG,       |
|----|----|------------------------------------------------------------------------------------|
| 2  |    | there are 30 traditional "class 5" circuit-switched type competitive switches      |
| 3  |    | located in SBC Missouri's territory that can be used by carriers to provide voice  |
| 4  |    | services to customers. There are also competitive switches located in other states |
| 5  |    | that serve SBC Missouri customers. For example, NuVox has a switch in Lenexa,      |
| 6  |    | KS that has Missouri NPA-NXXs associated with it. The map identifies two such      |
| 7  |    | examples.                                                                          |
| 8  |    |                                                                                    |
| 9  | Q. | YOU ALSO MENTIONED "POINTS OF INTERCONNECTION WHERE                                |
| 10 |    | NUMBERING RESOURCES ARE LINKED". WHAT DO YOU MEAN BY                               |
| 11 |    | THIS?                                                                              |
| 12 | A. | In addition to the traditional "class 5" circuit switch type, the LERG also        |
| 13 |    | identifies various other types of equipment that are identified by companies as    |
| 14 |    | being used in the routing of traffic. This equipment can be things like ATM        |
| 15 |    | switches, soft switches or routers. In the LERG, competitive carriers have         |
| 16 |    | "pointed" NPA-NXXs to these pieces of equipment. The CLEC switch map also          |
| 17 |    | identifies the location of these various pieces of equipment which are labeled as  |
| 18 |    | "other locations". The map identifies 38 of these alternative switch/switch-like   |
| 19 |    | pieces of equipment.                                                               |
| 20 |    |                                                                                    |
| 21 | Q. | CAN COMPETITIVE SWITCHES SERVE BROAD GEOGRAPHIC                                    |
| 22 |    | AREAS?                                                                             |
|    |    |                                                                                    |

| 1  | A. | Yes. While, historically, SBC Missouri typically placed a switch in virtually      |
|----|----|------------------------------------------------------------------------------------|
| 2  |    | every exchange, and sometimes multiple switches within an exchange, today          |
| 3  |    | CLECs do not need to deploy, nor have they deployed, their network in this         |
| 4  |    | fashion. CLECs tend to only deploy one to a few switches to serve broad            |
| 5  |    | geographic areas. For example, according to the LERG, LightCore has a switch       |
| 6  |    | located in St. Louis with some of its associated numbering resources in Kansas     |
| 7  |    | City.                                                                              |
| 8  |    |                                                                                    |
| 9  | Q. | HAVE YOU ESTIMATED THE NUMBER OF CLECS ACTIVELY                                    |
| 10 |    | SERVING CUSTOMERS IN EACH OF SBC MISSOURI'S EXCHANGES?                             |
| 11 | Α. | Yes. Unruh – Schedule 6HC is a map identifying the minimum number of               |
| 12 |    | CLECs (within a range) actively serving customers in each of SBC Missouri's        |
| 13 |    | exchanges. We identify a CLEC as actively serving customers by their purchase      |
| 14 |    | of resold lines, purchase of UNE-P, or the presence of an E-911 listing in the 911 |
| 15 |    | database. Additionally, Unruh – Schedule 13HC, as described more fully below,      |
| 16 |    | identifies the actual minimum number of CLECs actively serving customers in        |
| 17 |    | each SBC Missouri exchange. These schedules do not reflect the number of other     |
| 18 |    | providers such as wireless and VoIP.                                               |
| 19 |    | · ·                                                                                |
| 20 | Q. | HAVE YOU IDENTIFIED THE NUMBER OF CLECS HOLDING                                    |
| 21 |    | THEMSELVES OUT TO PROVIDE SERVICE IN EACH OF SBC                                   |
| 22 |    | MISSOURI'S EXCHANGES?                                                              |
|    |    |                                                                                    |

| 1  | A. | Yes. Unruh - Schedule 7 identifies the CLECs which offer service within each       |
|----|----|------------------------------------------------------------------------------------|
| 2  |    | exchange. This data was obtained from the Commission's website <sup>6</sup> and    |
| 3  |    | presumably indicates the identified CLEC is certified to provide service in the    |
| 4  |    | exchange and has an approved tariff that indicates the CLEC offers service in the  |
| 5  |    | exchange. The tables in the schedule identify if the CLEC provides residential     |
| 6  |    | service, business service, or both within the exchange. We have not included       |
| 7  |    | CLECs that the website identifies as providing prepaid service.                    |
| 8  |    |                                                                                    |
| 9  | Q. | DO YOU BELIEVE THERE ARE SOME ERRORS IN THE                                        |
| 10 |    | INFORMATION CONTAINED ON THE COMMISSION'S WEBSITE?                                 |
| 11 | A. | Yes. There are a few SBC Missouri exchanges where the Commission's website         |
| 12 |    | does not identify any CLEC providers, however, if you look at the information in   |
| 13 |    | the tables you will see that a number of CLECs offer service throughout all of     |
| 14 |    | SBC Missouri's exchanges so it is not likely that those CLECs that hold            |
| 15 |    | themselves out as providing service throughout SBC Missouri's service territory    |
| 16 |    | would exclude a couple of exchanges from where they serve. I have added a          |
| 17 |    | footnote in the tables to identify where I believe these errors of omission occur. |
| 18 |    |                                                                                    |
| 19 | Q. | ASSUMING THESE ARE MISTAKES, WHAT IS THE SMALLEST                                  |
| 20 |    | NUMBER OF CLECS WITHIN AN EXCHANGE THAT HOLD                                       |
| 21 |    | THEMSELVES OUT TO PROVIDE SERVICE?                                                 |

<sup>&</sup>lt;sup>6</sup> See http://www.psc.mo.gov/teleco/exchange.asp The Commission website information indicates which CLECs are available in each exchange along with information on the type of services they provide

| 1  | A. | Based on the Commission's website, there appear to be at least 21 CLECs in each     |
|----|----|-------------------------------------------------------------------------------------|
| 2  |    | exchange that hold themselves out to provide residential service and at least 29    |
| 3  |    | CLECs in each exchange that hold themselves out to provide business service.        |
| 4  |    | Again, these numbers exclude prepaid providers.                                     |
| 5  |    |                                                                                     |
| 6  | Q. | CAN CLECS IDENTIFY THEMSELVES AS PROVIDERS IN THE                                   |
| 7  |    | WHITE PAGE DIRECTORY?                                                               |
| 8  | A. | Yes, and many do. There is a section in the front of the white page directories     |
| 9  |    | where CLECs can identify themselves as a local service provider. All of SBC         |
| 10 |    | Missouri's white page directories in Missouri contain multiple CLEC listings.       |
| 11 |    | Unruh – Schedule 8 includes these pages from SBC's white page directories           |
| 12 |    | throughout the state. These directories cover all the exchanges served by SBC       |
| 13 |    | Missouri. At the end of Unruh – Schedule 8, I have included a table that identifies |
| 14 |    | the communities served by each SBC white page directory along with the number       |
| 15 |    | of CLECs identified at the front of the white pages for that book. As you can see   |
| 16 |    | from the schedule, there are at least 17 CLECs identified in each of these white    |
| 17 |    | page directories. <sup>7</sup>                                                      |
| 18 |    |                                                                                     |

#### 19

#### Q. HAVE YOU IDENTIFIED THE EXCHANGES WHERE CLECS HAVE ESTABLISHED COLLOCATION? 20

characterized as business, residential, or prepaid. <sup>7</sup> Since prepaid CLEC line numbers have been removed from the exchange-specific CLEC line count data, I do want to note that the white page listings do include CLECs who appear to be prepaid service providers.

| 1              | A.              | Yes. Unruh – Schedule 9HC is a map identifying the exchanges in which CLECs                                                                                                                                |
|----------------|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2              |                 | have established collocation. This information excludes SBC Missouri's affiliate,                                                                                                                          |
| 3              |                 | SBC Advanced Services, Inc. (ASI) which collocates in SBC Missouri's central                                                                                                                               |
| 4              |                 | offices. As you can see from the map, CLECs have collocation arrangements in                                                                                                                               |
| 5              |                 | several of SBC Missouri's exchanges around the state including in a significant                                                                                                                            |
| 6              |                 | number of more rural exchanges. Approximately 88% of the traditional landlines                                                                                                                             |
| 7              |                 | in SBC Missouri's territory are in exchanges where CLECs have established                                                                                                                                  |
| 8              |                 | collocation arrangements.                                                                                                                                                                                  |
| 9              |                 |                                                                                                                                                                                                            |
| 10             | Q.              | WHY IS COLLOCATION IMPORTANT?                                                                                                                                                                              |
| 11             | A.              | It identifies areas where CLECs have deployed equipment to serve customers. For                                                                                                                            |
| 12             |                 | example, a CLEC may have built a collocation cage inside an SBC Missouri                                                                                                                                   |
| 13             |                 | central office and now houses equipment inside the cage that interconnects with                                                                                                                            |
| 14             |                 | SBC Missouri's facilities. In this example, the CLEC could be purchasing                                                                                                                                   |
| 15             |                 | unbundled loops from SBC Missouri, interconnecting those loops to the CLEC's                                                                                                                               |
|                |                 |                                                                                                                                                                                                            |
| 16             |                 | facilities in the collocation cage, and then providing the switching functionality                                                                                                                         |
| 16<br>17       |                 |                                                                                                                                                                                                            |
|                |                 | facilities in the collocation cage, and then providing the switching functionality                                                                                                                         |
| 17             | Q.              | facilities in the collocation cage, and then providing the switching functionality                                                                                                                         |
| 17<br>18       | Q.              | facilities in the collocation cage, and then providing the switching functionality through the CLEC's own switch located in some other area.                                                               |
| 17<br>18<br>19 | <b>Q.</b><br>A. | facilities in the collocation cage, and then providing the switching functionality<br>through the CLEC's own switch located in some other area.<br><b>DO CLECS WHO USE THEIR OWN FACILITIES HAVE TO BE</b> |

established collocation. For example, a CLEC with a collocation arrangement in
 Moberly could use an EEL to serve a customer in the neighboring exchange of
 Higbee.

4

## 5 Q. HAVE YOU ESTIMATED THE NUMBER OF CLEC LINES IN EACH OF 6 SBC MISSOURI'S EXCHANGES?

7 Yes. Unruh – Schedule 10HC presents an estimate of the minimum number of A. CLEC lines in each of SBC Missouri's exchanges.<sup>8</sup> Unruh – Schedule 11HC 8 9 presents an estimate of the minimum number of CLEC lines serving business 10 customers in each of SBC Missouri's exchanges. Unruh - Schedule 12HC presents an estimate of the minimum number of CLEC lines serving residential 11 customers in each of SBC Missouri's exchanges. Unruh - Schedule 13HC 12 presents additional detail on the types of CLEC lines in each of the SBC Missouri 13 14 exchanges. This schedule shows how many of the CLEC lines are provisioned via resale, UNE-P, and CLEC switched-based lines as represented by 911 listings. 15 Each of these schedules also provides the equivalent number of SBC Missouri 16 retail lines and a corresponding estimate of the minimum market share of 17 traditional landlines in each exchange. This minimum market share estimate does 18 not take into account the extent of competition from other sources like wireless 19 20 and VoIP.

<sup>&</sup>lt;sup>8</sup> All exchange-specific CLEC counts, CLEC line counts and related SBC Missouri retail line counts are as of June 2004 unless otherwise noted.

# Q. WHY DO YOU SAY THIS IS AN ESTIMATE OF THE MINIMUM NUMBER OF CLEC LINES AND CLEC MARKET SHARE OF THE TRADITIONAL LANDLINE MARKET?

The CLEC lines and market share identified in my testimony represents only the 4 A. 5 minimum number of CLEC lines and the actual number of SBC Missouri lines. 6 and, therefore, CLEC market share is likely higher than reported. SBC Missouri 7 knows when a CLEC resells SBC Missouri's service and when a CLEC purchases unbundled network elements (UNEs) from SBC Missouri to provision its service. 8 Additionally, SBC Missouri can identify the number of E-911 listings that CLECs 9 place in 911 databases. However, SBC Missouri does not know the total number 10 of lines served by CLECs on a pure facility basis. For example, the number of 11 CLEC E-911 listings understates the number of access lines served by facilities 12 based CLECs since only outbound lines have 911 listings associated with them. 13 So, for example, a business with many inbound lines, such as a call center, might 14 only have one E-911 listing but the CLEC could be providing hundreds or 15 thousands of lines to the customer. 16

17

## 18 Q. HOW DID YOU CALCULATE THE MINIMUM ESTIMATE OF CLEC 19 LINES IN EACH EXCHANGE?

A. The minimum estimate of CLEC lines used in my testimony is based on the sum
of resold lines purchased by CLECs from SBC Missouri, UNE-P lines purchased

1 by CLECs from SBC Missouri, and CLEC entered E-911 listings in 911 2 databases. 3 4 **Q**. **DOES THIS INFORMATION INCLUDE "PREPAID" LINES?** 5 Α. The lines of CLECs identified by the Commission's website as prepaid-only 6 CLEC providers have not been included in the minimum estimate of CLEC lines in each exchange.9 7 8 9 WHAT DO THESE SCHEDULES HIGHLIGHT? 0. They demonstrate that CLECs are very active in SBC Missouri's territory. They 10 A. demonstrate that CLECs are serving rural Missouri in addition to urban Missouri. 11 They demonstrate that a significant number of CLECs are actively serving 12 customers in the vast majority of SBC Missouri exchanges. \*\* \*\* of SBC 13 Missouri's 160 exchanges have \*\* \*\* or more non-prepaid CLECs actively 14 serving customers. \*\*\_\*\* exchanges have \*\*\_\*\* or more non-prepaid CLECs 15 actively serving customers and \*\*\_\*\* of SBC Missouri's exchanges have at least 16 \*\* \*\* CLECs actively serving customers. The data shows that \*\*\_\*\* exchanges 17 have a minimum CLEC landline market share of \*\*\_\*\* and \*\*\_\*\* exchanges 18 have a minimum CLEC landline market share of \*\* \*\*. For business lines, 19

<sup>&</sup>lt;sup>9</sup> Information on the Commission's website identifies CLECs that only provide prepaid service which is the term used to describe the service where customers are required to pre-pay for their service before they receive it. While SBC Missouri believes these providers offer an option in the marketplace, my testimony does not include their numbers in an effort to eliminate debate about whether or not these providers constitute "competition". Other parties have historically alleged that prepaid providers do not represent real

| 1  |    | Unruh – Schedule 11HC shows that **_** exchanges have a minimum CLEC                    |
|----|----|-----------------------------------------------------------------------------------------|
| 2  |    | landline market share of <b>**_</b> ** and <b>**_</b> ** exchanges have a minimum CLEC  |
| 3  |    | landline market share of <b>**_</b> **. For residential lines, Unruh – Schedule 12HC    |
| 4  |    | shows that **_** exchanges have a minimum CLEC landline market share of                 |
| 5  |    | **** and **** exchanges have a minimum CLEC landline market share of                    |
| 6  |    | **** <sup>10</sup>                                                                      |
| 7  |    |                                                                                         |
| 8  | Q. | DOES THE USE OF CLEC LINES COMPLETELY REFLECT THE                                       |
| 9  |    | LEVEL OF COMPETITION IN SBC MISSOURI EXCHANGES?                                         |
| 10 | А. | No. First, these line-based market share numbers only reflect an estimate of the        |
| 11 |    | lines for traditional circuit-switched landline service. It does not reflect the extent |
| 12 |    | to which other forms of communication, such as wireless and VoIP, compete for           |
| 13 |    | SBC Missouri's services. Additionally, though, even when just looking at                |
| 14 |    | competition between CLECs and SBC Missouri, the use of lines can understate             |
| 15 |    | the level of competition. CLECs tend to target customers that spend more on             |
| 16 |    | telecommunications. For example, as is explained more fully in Ms. Stoia's direct       |
| 17 |    | testimony, CLECs tend to focus their marketing efforts on residential customers         |
| 18 |    | that spend above average amounts on telecommunications services (and it is that         |
| 19 |    | group that is more likely to have left SBC Missouri). As a result, an estimate of       |

competition. Since our evidence without prepaid provider lines demonstrates that we face effective

competition, SBC Missouri does not wish to argue this point in this case. <sup>10</sup> These numbers do not include exchanges that are already competitively classified. For residential lines, these do not include the Harvester and St. Charles exchanges. For business line, these do not include the St. Louis and Kansas City exchanges.

.

| 1  |    | CLEC market share for residential telecommunications services based on                   |
|----|----|------------------------------------------------------------------------------------------|
| 2  |    | revenues would likely be higher than the estimates based on lines.                       |
| 3  |    |                                                                                          |
| 4  | Q. | WHAT ARE THE CLEC MARKET SHARE ESTIMATES WITHIN THE                                      |
| 5  |    | METROPOLITAN CALLING AREAS (MCA)?                                                        |
| 6  | А. | The MCAs essentially represent the local market areas for St. Louis, Kansas City         |
| 7  |    | and Springfield. In the St. Louis MCA, the estimated CLEC market share of the            |
| 8  |    | traditional landline market is **_**. In the Kansas City MCA, the estimated              |
| 9  |    | CLEC market share of the traditional landline market is <b>****</b> . In the Springfield |
| 10 |    | MCA, the estimated CLEC market share of the traditional landline market is               |
| 11 |    | ****. The following table provides additional information on CLEC market                 |
| 12 |    | share of the traditional landline market within the MCAs:                                |

13

14

I

ł

- 1On average, there are \*\*\_\*\* CLECs that are currently serving customers within2the MCA exchanges. As you can see, CLECs are actively and successfully3competing within the MCAs in Missouri.
- 4

#### 5 Q. WHAT ABOUT CLEC MARKET SHARE FOR AREAS OUTSIDE THE

#### 6 MCA AREAS?

7 A. There are a number of exchanges outside the MCA areas where the CLEC market
8 share is significant. Moreover, there are a significant number of CLECs that are
9 actively competing in these areas outside the MCAs. The table below contains
10 some examples:

11

|    | Exchanges<br>outside the<br>MCAs | Number of<br>Active<br>non-<br>prepaid<br>CLECs | Estimated<br>Minimum CLEC<br>Market Share of<br>Traditional<br>Landline Market | Estimated<br>Minimum CLEC<br>Business Market<br>Share of<br>Traditional<br>Landline Market | Estimated<br>Minimum<br>CLEC<br>Residential<br>Market Share of<br>Traditional<br>Landline<br>Market |
|----|----------------------------------|-------------------------------------------------|--------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| ** | **                               | ** **                                           | ** **                                                                          | ** **                                                                                      | ** **                                                                                               |
| ** | **                               | ** **                                           | ** **                                                                          | ** **                                                                                      | ** **                                                                                               |
| ** | **                               | ** **                                           | ** **                                                                          | ** **                                                                                      | ** **                                                                                               |
| ** | **                               | ** **                                           | ** **                                                                          | ** **                                                                                      | ** **                                                                                               |
| ** | **                               | ** **                                           | ** **                                                                          | ** **                                                                                      | ** **                                                                                               |

12

13

In other cases, the CLECs appear to be focusing more on business customers in

some exchanges outside the MCAs. The following table highlights a few

15 examples:

| Exchange | Number of Active | Minimum Estimated CLEC |   |
|----------|------------------|------------------------|---|
|          |                  |                        | • |

|       | non-prepaid CLECs | Business Market Share of the<br>Traditional Landline Market |
|-------|-------------------|-------------------------------------------------------------|
| ** ** | ** **             | ** **                                                       |
| ** ** | ** **             | ** **                                                       |
| ****  | ** **             | ** **                                                       |
| ** ** | ** **             | ** **                                                       |
| ** ** | ** **             | ** **                                                       |
| ** ** | ** **             | ** **                                                       |
| ** ** | ** **             | ** **                                                       |
| ** ** | ** **             | ** **                                                       |

SBC Missouri's rate group B exchanges consist of the larger exchanges beyond 3 the St. Louis, Kansas City and Springfield exchanges.<sup>11</sup> The CLEC market share 4 estimate of the traditional landline market for rate group B exchanges collectively, 5 is \*\* \*\*. I will also note that the CLECs, particularly for business lines, are 6 targeting SBC Missouri's smaller rate group A exchanges also. For example, 7 from the above lists, \*\* 8 \*\* are 9 all rate group A exchanges. This evidence demonstrates that CLECs are capable of, and currently are, serving customers throughout SBC Missouri's exchanges, 10 including smaller rural exchanges. 11 12 YOUR TESTIMONY SO FAR HAS GENERALLY FOCUSED ON CLEC 13 Q. **COMPETITION. DO YOU HAVE INFORMATION REGARDING** 14

<sup>&</sup>lt;sup>11</sup> St. Louis and Kansas City are the rate group D exchanges. Springfield is the rate group C exchange. Rate group B exchanges are those exchanges with 5,000 to 59,999 access lines. Rate group A exchanges are those exchanges with less than 5,000 access lines.

<sup>1</sup> 2

| 1  | A. | Yes. I will present some information on wireless and VoIP providers, however, I              |
|----|----|----------------------------------------------------------------------------------------------|
| 2  |    | will point out that identifying and gauging the level of competition from these              |
| 3  |    | alternatives is more difficult than CLEC-based competition. SBC Missouri does,               |
| 4  |    | however, present some compelling evidence on wireless competition including the              |
| 5  |    | results from a survey of Missouri customers.                                                 |
| 6  |    |                                                                                              |
| 7  | Q. | WHAT ABOUT WIRELESS COMPETITION?                                                             |
| 8  | A. | Other SBC Missouri witnesses go into more detail about how wireless services are             |
| 9  |    | competing against SBC Missouri's services and how wireless service would                     |
| 10 |    | provide an effective constraint on SBC Missouri's pricing in the absence of price            |
| 11 |    | cap regulation. However, I will highlight the fact that there are over 2,691,255             |
| 12 |    | wireless subscribers in Missouri based on the FCC's latest information. <sup>12</sup> SBC    |
| 13 |    | Missouri estimates that there are over 1.32M residential wireless subscribers in             |
| 14 |    | SBC Missouri's service territory <sup>13</sup> which means there is almost as many           |
| 15 |    | residential wireless subscribers as there are traditional residential landlines within       |
| 16 |    | SBC Missouri's service territory. <sup>14</sup> The number of wireless subscribers continues |
| 17 |    | to grow rapidly. Increasingly, customers are substituting their use of traditional           |
| 18 |    | landline telephone service for wireless service. Mr. Shooshan sponsors the results           |
| 19 |    | of a survey conducted with Missouri consumers gauging their use of and                       |
| 20 |    | satisfaction with wireless services. Mr. Shooshan's direct testimony shows that              |

 <sup>&</sup>lt;sup>12</sup> FCC Local Competition Report - June 18, 2004, Table 13.
 <sup>13</sup> This estimate is based on the ratio of FCC reported wireless subscribers and Missouri households. The ratio is then applied to households within the SBC Missouri service territory.

18% of wireless customers do not have traditional landline telephone service in 1 2 their homes and that there is a wireless user in 70% of households. His testimony 3 also demonstrates that 64% of wireless customers who also have traditional 4 telephone service frequently use their wireless phones in their homes. Moreover, 5 16% of wireless customers who also have traditional landline service use their wireless phone as their primary phone. 6 7 8 Q. DO YOU HAVE INFORMATION REGARDING THE PRESENCE OF 9 WIRELESS CARRIERS IN SBC MISSOURI'S EXCHANGES? Yes. Unruh - Schedule 14 is a map depicting the minimum number of wireless 10 Α. carriers, excluding Cingular and AT&T Wireless,<sup>15</sup> providing service within each 11 SBC Missouri exchange. There may be additional wireless carriers available in 12 13 certain areas. For example, we did not identify where Virgin Mobile is providing service. It appears from Virgin Mobile's website that Virgin Mobile uses 14 15 spectrum from Sprint PCS in Missouri, so their service area likely overlaps Sprint's service area. Virgin Mobile does offer their own plans so they would be 16 17 an additional choice in certain exchanges. Unruh – Schedule 15 identifies 18 selected wireless providers providing service in each SBC Missouri exchange. 19 Again, I do not believe the table necessarily identifies every wireless provider that 20 is available in each exchange. According to the information we gathered, 75% of

<sup>&</sup>lt;sup>14</sup> As of June, 2004, we estimate there are approximately 1.65M residential landlines within SBC Missouri service territory.

| 1                                |                 | SBC Missouri's exchanges have two or more wireless providers, even after                                                                                                                                                                                                                                                                                                                                 |
|----------------------------------|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2                                |                 | excluding both Cingular and AT&T Wireless. We estimate that at least 96% of                                                                                                                                                                                                                                                                                                                              |
| 3                                |                 | landline customers in SBC Missouri's service territory have access to at least two                                                                                                                                                                                                                                                                                                                       |
| 4                                |                 | wireless carriers, even after excluding Cingular and AT&T Wireless.                                                                                                                                                                                                                                                                                                                                      |
| 5                                |                 |                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6                                | Q.              | DO YOU HAVE INFORMATION COMPARING THE AVERAGE                                                                                                                                                                                                                                                                                                                                                            |
| 7                                |                 | HOUSEHOLD EXPENDITURES ON WIRELESS AND TRADITIONAL                                                                                                                                                                                                                                                                                                                                                       |
| 8                                |                 | WIRELINE SERVICES?                                                                                                                                                                                                                                                                                                                                                                                       |
| 9                                | A.              | Yes. The average household spends \$48 on traditional wireline voice service and                                                                                                                                                                                                                                                                                                                         |
| 10                               |                 | \$46 on wireless voice service. <sup>16</sup>                                                                                                                                                                                                                                                                                                                                                            |
|                                  |                 |                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11                               |                 |                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11<br>12                         | Q.              | WHAT ABOUT COMPETITION FROM VOIP PROVIDERS?                                                                                                                                                                                                                                                                                                                                                              |
|                                  | <b>Q.</b><br>A. | WHAT ABOUT COMPETITION FROM VOIP PROVIDERS?<br>As with wireless competition, other SBC Missouri witnesses will provide                                                                                                                                                                                                                                                                                   |
| 12                               |                 |                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12<br>13                         |                 | As with wireless competition, other SBC Missouri witnesses will provide                                                                                                                                                                                                                                                                                                                                  |
| 12<br>13<br>14                   |                 | As with wireless competition, other SBC Missouri witnesses will provide<br>additional information on VoIP competitors.  <sup>&</sup>lt;sup>15</sup> Cingular is jointly owned by SBC Communications and BellSouth Corporation. Cingular recently completed the purchase of AT&T Wireless. For purposes of this testimony, I have excluded Cingular and AT&T Wireless from the wireless provider counts.
 <sup>16</sup> Based on TNS Telecoms bill harvesting data of SBC region households – 4<sup>th</sup> qtr 2003.

| 1  |    | have enhanced their networks and are now providing VoIP services. Business            |
|----|----|---------------------------------------------------------------------------------------|
| 2  |    | customers are increasingly buying VoIP services, particularly because of the          |
| 3  |    | reduced cost of administering only one network rather than the historical need to     |
| 4  |    | manage both a voice network and a data network. And VoIP services are                 |
| 5  |    | attractive in the residential market because of lower prices and the ability for      |
| 6  |    | enhanced services that integrate the best of computer and Internet capabilities with  |
| 7  |    | voice services.                                                                       |
| 8  |    |                                                                                       |
| 9  | Q. | DO YOU HAVE INFORMATION ON WHERE VOIP PROVIDERS ARE                                   |
| 10 |    | <b>OFFERING SERVICE IN MISSOURI?</b>                                                  |
| 11 | A. | Yes. We have identified selected VoIP providers and attempted to identify where       |
| 12 |    | in Missouri they make their service available. Our effort by no means has             |
| 13 |    | captured all VoIP providers that might be operating in Missouri. I will also point    |
| 14 |    | out that a significant amount of VoIP activity, particularly for businesses, involves |
| 15 |    | the use of customer premise equipment (CPE). Unruh – Schedule 16 is a map             |
| 16 |    | depicting where a selected set of VoIP providers is offering service. As is also      |
| 17 |    | explained in Ms. Stoia's testimony, SBC Missouri estimates that the vast majority     |
| 18 |    | of households in SBC Missouri's service territory have access to a high-speed         |
| 19 |    | Internet access service (i.e., a broadband service provided by cable modem or         |
| 20 |    | DSL technology). Once a customer has broadband service, they then have the            |
| 21 |    | ability to use VoIP services.                                                         |
|    |    |                                                                                       |

22

.

# Q. DO YOU HAVE INFORMATION ON THE NUMBER OF CUSTOMERS IN MISSOURI USING VOIP SERVICES? A. Unfortunately, I do not. And, as I mentioned previously, this highlights the

- 4 problem with trying to quantify "competition" in today's marketplace. While
  5 historically, we have had some general ideas about the number of lines that
  6 CLECs serve, in today's environment it is difficult to really quantify what is going
  7 on in the marketplace. This is particularly true as wireless and VoIP continue to
  8 provide competition with traditional landline service.
- 9

### 10 Q. HAVE ANALYSTS ATTEMPTED TO ESTIMATE VOIP ADOPTION?

- A. Yes. Analysts estimates vary, but they seem to generally agree that VoIP is poised
  to accelerate throughout 2005 and 2006. The Yankee Group, for example,
  estimates that there will be 1.2M VoIP subscribers by year-end 2004 and 13M in
  2007.<sup>17</sup>
- 15

### 16 Q. WHAT ROLE DO CABLE TV COMPANIES PLAY IN THE

### 17 COMPETITIVE MARKET?

A. Cable TV companies have become a major competitive force. Cable companies
 are increasingly entering the telecommunications business as a way to use their
 existing networks to grow their revenues. Cable companies have their own

21 facilities and over the past several years they have been expanding these networks

<sup>&</sup>lt;sup>17</sup> Yankee Group VoIP residential subscriber forecast – June 2004.

1 to offer high-speed Internet access through cable modems (i.e., the functional 2 equivalent of telephone companies' digital subscriber line (DSL) technology). 3 Cable companies, including Time Warner, can and do offer VoIP services over 4 their own facilities. Once cable modem service, or broadband service, is 5 available, then customers are also able to utilize the services provided by other VoIP providers.<sup>18</sup> I would also note that customers are able to use VoIP services 6 7 over DSL lines as well. In many cases, the cable company providing the 8 broadband service can also provide VoIP service. Alternatively, customers can 9 purchase the cable company's broadband service while utilizing a different 10 provider (e.g., Vonage, AT&T) for their VoIP-based service. 11 12 YOU MENTIONED THAT CABLE COMPANIES HAVE THEIR OWN Q. FACILITIES. PLEASE ELABORATE. 13 14 A. While CLECs tend to use pieces of an ILEC's (e.g., SBC Missouri's) network 15 (e.g., loops, switching), cable companies have already deployed their own networks which include their own connections (i.e., loops) directly into homes. 16 17 Generally, they do not use the network facilities of the ILECs against whom they 18 compete.

19

#### 20 Q.

### WHAT ABOUT CABLE PROVIDER ACTIVITY IN MISSOURI?

<sup>&</sup>lt;sup>18</sup> VoIP service has been available for several years through dial-up connections to the Internet, however, the service quality improves significantly when customers have a broadband connection to the Internet (e.g., cable modem or DSL-based service).

| 1  | A. | Several major cable companies operate in Missouri. Charter Communications has      |
|----|----|------------------------------------------------------------------------------------|
| 2  |    | been providing telephone service for some time. During SBC Missouri's last         |
| 3  |    | competitive classification case (TO-2001-467), Charter had recently purchased the  |
| 4  |    | assets of AT&T Broadband. AT&T Broadband, and then Charter as the new              |
| 5  |    | owner, had actively sold telephone service in the St. Charles county area which is |
| 6  |    | in the northwestern portion of the St. Louis metropolitan area. Since that time,   |
| 7  |    | Charter has expanded its service territory to serve the broader St. Louis          |
| 8  |    | metropolitan area. Based on press accounts, it appears Charter is also trialing    |
| 9  |    | VoIP service in St. Louis and has reached agreements with Sprint and Level 3 for   |
| 10 |    | transport and termination services. <sup>19</sup>                                  |
| 11 |    |                                                                                    |
| 12 |    | Time Warner, which operates in the Kansas City area, now offers what it calls its  |
| 13 |    | "Digital Phone" service. Time Warner also provides high-speed Internet service     |
| 14 |    | which, as explained above, allows other providers to offer VoIP service over Time  |
| 15 |    | Warner's facilities.                                                               |
| 16 |    |                                                                                    |
| 17 |    | Comcast also serves in the Kansas City area and offers high-speed Internet         |
| 18 |    | service. According to press accounts, Comcast plans to offer VoIP service to 40    |
| 19 |    | million homes by 2006 and plans to make the service available to 95% of the        |
| 20 |    | homes on its network by the end of $2005$ . <sup>20</sup>                          |
| 21 |    |                                                                                    |

<sup>&</sup>lt;sup>19</sup> http://www.atlantic-acm.com/datalines/d090204.htm

| 1  |    | MediaCom is the cable TV provider in the Springfield area. MediaCom provides         |  |  |  |  |  |
|----|----|--------------------------------------------------------------------------------------|--|--|--|--|--|
| 2  |    | high-speed Internet access in the Springfield area, thus allowing other providers to |  |  |  |  |  |
| 3  |    | offer VoIP service in the Springfield area. Additionally, according to press         |  |  |  |  |  |
| 4  |    | accounts, MediaCom has teamed up with Sprint and intends to begin providing its      |  |  |  |  |  |
| 5  |    | own VoIP service sometime during 2005. <sup>21</sup>                                 |  |  |  |  |  |
| 6  |    |                                                                                      |  |  |  |  |  |
| 7  | Q. | YOU HAVE DISCUSSED HOW CABLE REPRESENTS SIGNIFICANT                                  |  |  |  |  |  |
| 8. |    | COMPETITION, THE FACT THAT CABLE HAS ITS OWN FACILITY-                               |  |  |  |  |  |
| 9  |    | BASED NETWORKS INCLUDING CONNECTIONS INTO THE HOME,                                  |  |  |  |  |  |
| 10 |    | AND THAT THE AVAILABILITY OF CABLE MODEM SERVICE FOR                                 |  |  |  |  |  |
| 11 |    | HIGH-SPEED INTERNET ACCESS FACILITATES THE USE OF VOIP.                              |  |  |  |  |  |
| 12 |    | DO YOU HAVE INFORMATION ON WHERE CABLE FACILITIES                                    |  |  |  |  |  |
| 13 |    | EXIST THAT ARE CAPABLE OF PROVIDING CABLE MODEM                                      |  |  |  |  |  |
| 14 |    | SERVICE?                                                                             |  |  |  |  |  |
| 15 | A. | Yes. Unruh – Schedule 17 is a map showing the SBC Missouri exchanges where           |  |  |  |  |  |
| 16 |    | major cable TV companies have cable-modem service available. As you can see,         |  |  |  |  |  |
| 17 |    | there is a significant overlap showing that cable modem service is available in the  |  |  |  |  |  |
| 18 |    | majority of SBC Missouri's exchanges.                                                |  |  |  |  |  |
| 19 |    |                                                                                      |  |  |  |  |  |
| 20 | Q. | YOU HAVE DISCUSSED THE DIFFICULTY OF QUANTIFYING ALL                                 |  |  |  |  |  |
| 21 |    | THE COMPETITIVE IMPACTS, PARTICULARLY AS MORE PEOPLE                                 |  |  |  |  |  |

<sup>&</sup>lt;sup>20</sup> <u>http://www.broadbandreports.com/shownews/44652</u> and http://www.internetnews.com/xSP/article.php/3360081

| 1  |    | ARE USING THEIR WIRELESS PHONES TO REPLACE LANDLINE                                              |
|----|----|--------------------------------------------------------------------------------------------------|
| 2  |    | CALLING. DO YOU HAVE ANY ADDITIONAL ĐATA THAT MIGHT                                              |
| 3  |    | SUPPORT ACCESS LINE LOSS TO ALTERNATIVE TECHNOLOGIES?                                            |
| 4  | A. | Yes. Unruh – Schedule 18 graphs the cumulative line change for SBC Missouri                      |
| 5  |    | and CLECs for residential lines since July 2003. As you can see, the CLECs have                  |
| 6  |    | gained approximately 50,000 residential lines, however, SBC Missouri has lost                    |
| 7  |    | almost 100,000 residential lines over the same period. Over this time period, SBC                |
| 8  |    | Missouri has lost approximately 50,000 more residential lines than CLECs have                    |
| 9  |    | appeared to gain. While it is difficult to say exactly what has happened to these                |
| 10 |    | "lost" lines in the marketplace, it is likely that some of this difference is                    |
| 11 |    | attributable to substitution and replacement by wireless, VoIP and high-speed                    |
| 12 |    | Internet service (e.g., cable modems). <sup>22</sup> I will also note that this information does |
| 13 |    | not reflect growth that landline carriers never saw (e.g., new customer chooses                  |
| 14 |    | wireless service instead of landline service, a customer chooses wireless service                |
| 15 |    | instead of adding a second line as their child matures, a customers chooses to                   |
| 16 |    | purchase cable modem service instead of a second telephone line for dial-up                      |
| 17 |    | Internet access).                                                                                |
| 18 |    |                                                                                                  |
| 10 | 0  | THE THIDD COITEDIA OF THE DEFINITION OF FEFECTIVE                                                |

| 1  |    | CHAPTER 392, RSMO. ARE BEING ADVANCED. WHAT ARE THE                                   |
|----|----|---------------------------------------------------------------------------------------|
| 2  |    | PURPOSES AND POLICIES OF CHAPTER 392, RSMO.?                                          |
| 3  | A. | Section 392.185 of the statute outlines that the provision of telecommunications      |
| 4  |    | services should be maintained and advanced. In a competitive market such as the       |
| 5  |    | one that exists throughout SBC Missouri's territory, it is the market place that will |
| 6  |    | maintain and advance the services offered to customers. When all competitors          |
| 7  |    | who serve the same market are allowed to compete equally, customers will benefit      |
| 8  |    | from the competitors' ability to quickly adapt to a changing marketplace. An          |
| 9  |    | important purpose specified in the statute is to allow for full and fair competition  |
| 10 |    | to function as a substitute for regulation. This proceeding gives the Commission      |
| 11 |    | the ability to allow the legislative directives to be achieved.                       |
| 12 |    |                                                                                       |
| 13 | Q. | AS DESCRIBED IN THE FOURTH CRITERIA OF THE DEFINITION OF                              |
| 14 |    | EFFECTIVE COMPETITION, ARE THERE ECONOMIC OR                                          |
| 15 |    | <b>REGULATORY BARRIERS TO ENTRY IN MISSOURI?</b>                                      |
| 16 | А. | Given the multitude of providers providing functionally equivalent or                 |
| 17 |    | substitutable services that are highlighted in SBC Missouri's testimony, it is clear  |
| 18 |    | that there are no barriers to entry that are preventing competitors from offering     |
| 19 |    | alternatives in the marketplace. Dr. Aron provides additional evidence in her         |
| 20 |    | direct testimony regarding this criteria.                                             |
| 21 |    |                                                                                       |

ł

|

| 1  | Q. | THE LAST CRITERIA OF THE DEFINITION OF EFFECTIVE                                   |
|----|----|------------------------------------------------------------------------------------|
| 2  |    | COMPETITION IS A GENERAL PROVISION REGARDING WHETHER                               |
| 3  |    | THERE ARE ADDITIONAL FACTORS THAT ARE NECESSARY TO                                 |
| 4  |    | IMPLEMENT THE PURPOSES AND POLICIES OF CHAPTER 392,                                |
| 5  |    | RSMO. ARE THERE ADDITIONAL FACTORS THAT THE                                        |
| 6  |    | COMMISSION SHOULD EXAMINE?                                                         |
| 7  | A. | Dr. Aron recommends that the Commission should consider whether the currently      |
| 8  |    | regulated prices are below what would likely prevail in a competitive market       |
| 9  |    | because that could mask the degree to which the market is open to competition. I   |
| 10 |    | believe that to be the case in the residential basic local service market where    |
| 11 |    | prices were kept artificially low to promote universal service. Dr. Aron also      |
| 12 |    | recommends that the Commission examine trends in competitive activity. The         |
| 13 |    | evidence clearly indicates that competitive activity continues to grow.            |
| 14 |    |                                                                                    |
| 15 |    | I would like to point out an additional issue that I believe the Commission needs  |
| 16 |    | to take into account. As I have explained, the marketplace is evolving and the old |
| 17 |    | way of thinking about competition is too limiting. Today's marketplace has         |
| 18 |    | expanded to include new technologies, services and providers offering a multitude  |
| 19 |    | of ways for consumers to communicate. I encourage the Commission to                |
| 20 |    | recognize the significant evidence that SBC Missouri has presented about           |
| 21 |    | competitive activity from CLECs, which, by itself demonstrates effective           |
| 22 |    | competition, and to look beyond CLEC activity and embrace the competitive          |

. ....

1 realities of the broader marketplace so consumers will reap the maximum benefits 2 from a more fully competitive market. 3 Q. 4 DOES THE COMMISSION RETAIN THE AUTHORITY TO REVIEW 5 WHETHER EFFECTIVE COMPETITION CONTINUES TO EXIST 6 **AFTER IT GRANTS A COMPETITIVE CLASSIFICATION?** 7 Yes. Pursuant to 392.245.5, the Commission has the authority to investigate the A. 8 status of competition and if, after a hearing, the Commission finds that effective 9 competition no longer exists, the statute states that price cap regulation shall be 10 reinstated. To the extent the Commission has any concerns over granting competitive classification, this provision gives some assurance that the market 11 will operate in a competitive fashion. If not, the Commission can re-implement 12 13 price cap regulation. 14 15 Q. DOES A COMPETITIVE CLASSIFICATION IMPACT THE **COMMISSION'S AUTHORITY OVER WHOLESALE OFFERINGS (I.E.,** 16 **RESALE AND UNBUNDLING)?** 17 No. Granting the competitive classifications that SBC Missouri seeks will only 18 A. 19 impact the flexibility SBC Missouri has to set prices for its retail services. The 20 Commission will retain the authority under the federal Act to arbitrate disputes 21 between SBC Missouri and its wholesale customers including the authority to

| 1  |     | determine both the resale discount percentage and UNE pricing for offerings         |
|----|-----|-------------------------------------------------------------------------------------|
| 2  |     | provided to SBC Missouri's wholesale customers (i.e., CLECs).                       |
| 3  |     | ·                                                                                   |
| 4  | Q.  | IN SUMMARY, DOES SBC MISSOURI MEET THE DEFINITION OF                                |
| 5  |     | EFFECTIVE COMPETITION?                                                              |
| 6  | A.  | Yes. SBC Missouri clearly faces effective competition and its services should be    |
| 7  |     | granted a competitive classification.                                               |
| 8  |     |                                                                                     |
| 9  | SUM | IMARY                                                                               |
| 10 | Q.  | PLEASE SUMMARIZE YOUR TESTIMONY.                                                    |
| 11 | A.  | My testimony has explained that SBC Missouri faces effective competition from a     |
| 12 |     | variety of competitors throughout its exchanges. This competitive activity          |
| 13 |     | includes traditional landline competition from traditional CLECs and it includes    |
| 14 |     | competition from wireless, cable and VoIP providers as once disparate services,     |
| 15 |     | technologies, and providers blur together to form a multitude of ways for people    |
| 16 |     | to communicate. SBC Missouri's competitors face less regulation than SBC            |
| 17 |     | Missouri. In some cases, SBC Missouri's competitors are not even under the          |
| 18 |     | Commission's authority. What SBC Missouri seeks with this case is for the           |
| 19 |     | Commission to recognize this broad competitive landscape and to embrace the         |
| 20 |     | benefits of a more fully competitive marketplace and the benefits that can bring to |
| 21 |     | Missouri consumers. By granting competitive classifications on the services SBC     |
| 22 |     | Missouri seeks, the Commission will take a step toward regulatory parity and        |

- 1 toward an environment that will more optimally expand innovation, investment
- 2 and jobs.

i

### 4 Q. DOES THIS CONCLUDE YOUR DIRECT TESTIMONY?

5 A. Yes, it does.

SUMMARY OF EDUCATION, WORK EXPERIENCE AND QUALIFICATIONS 1 2 3 4 **Q**. PLEASE SUMMARIZE YOUR PROFESSIONAL AND EDUCATIONAL 5 **BACKGROUND?** 6 Α. I received a Bachelor of Science in Computer Science from Kansas State 7 University in 1986. I received a Master of Business Administration from 8 Washington University in St. Louis in 1995. I have been employed by SBC 9 Missouri since 1986 and have held several positions in the company mostly 10 working in the regulatory area. I have worked on regulatory issues at both the federal and state level. 11 12 13 Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THIS COMMISSION? Yes, I have previously testified in the following Missouri cases: 14 Α. 15 Missouri Case No. TO-98-212, In the Matter of the Investigation into the **'**5 16 Exhaustion of Central Office Codes in the 314 Numbering Plan Area Missouri Case No. TO-97-217, In the Matter of an Investigation Concerning 17 ٠ 18 the Continuation or Modification of the Primary Toll Carrier Plan (PTC) 19 When IntraLATA Presubscription is Implemented in Missouri 20 Missouri Case No. TO-99-14, In the Matter of the Implementation of Number 0 21 Conservation Methods in the St. Louis, Missouri Area 22 Missouri Case No. TO-99-254, et al., In the Matter of an Investigation •

Purchasing local service from one of these companies does not require a customer to purchase terminal equipment or long distance service from the same company. Discounted local service rates (Kansas Lifeline Service) are available to qualified low-income housaholds from any of these companies offering residential service.
