Missouri Public
Service Commission

Dear Applicant:

Your application for wastewater works to serve the Big Island West Subdivision community has been approved by the Department of Natural Resources as evidenced by Construction Permit Number 26-3390 which is enclosed.

This permit will expire one year from the date of issuance unless justification for extension is presented thirty (30) days prior to expiration. The applicant must show that there have been no substantial changes in the project.

Finally, be aware that any land disturbance activities of five acres or more require a Missouri State Operating Permit to discharge storm water (10 CSR 20-6.200). The permit requires best management storm water practices. To obtain this permit, submit Forms E and G and a permit fee of \$150 to the Permits Unit Chief, Department of Natural Resources, Water Pollution Control Program, P.O. Box 176, Jefferson City, Missouri 65102.

Note that condition number two of the permit requires written certification that the sewer has been properly constructed. The enclosed form entitled "Application for Letter of Authorization" can be used to satisfy this condition.

If you have any questions, please contact Keith Forck at the Jefferson City Regional Office at (573) 751-2729.

Sincerely,

JEFFERSON CITY REGIONAL OFFICE

Robert H. Hentges
Regional Director
