FIELD TEST AGREEMENT

Hot Water Filter

Missouri Public Service Commission

A claim is being made by \_\_\_\_\_ (“Homeowner”) with an address of \_\_\_\_\_ that there is excess minerals and sediment in the water supply to its home. As part of an investigation, Missouri American Water Company (“MAWC”) has proposed to supply Homeowner with a filter mechanism designed to capture any excess minerals and sediment.

Therefore, for and in consideration of the provision and installation of the filter for the Homeowner, it agrees to the following provisions:

1. That such field test is not an admission of fault on behalf of MAWC, and all its parent corporations, subsidiaries, affiliates, officers, directors, employees, agents and partners.
2. Homeowner acknowledges that it is its responsibility to perform the requisite maintenance with regard to the filter.
3. The provision of the filter and the test shall be kept confidential by the Homeowner.

Upon completion of the test, the filter may be left in place at the request of the Homeowner.

IN WITNESS WHEREOF, I have hereunto set my hand this \_\_\_\_\_ day of March, 2014.
