I've looked, looked & looked, and can't find any email addressing Davis's point about the hedging program. I'm not sure what to do, but maybe Gary G. has a copy... I'll keep trying...

Subject: Steam Hedges

I understand that there was an email sometime around October/November 2007 from Stu/Johnstone asking us to discontinue putting on new steam hedges.

Do either of you have a copy of that email that you can forward to me?
