

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of the Application of Ameren                     )  
Transmission Company of Illinois for a                     )  
Certificate of Convenience and Necessity                     ) File No. EA-2021-\_\_\_\_  
Relating to a Transmission Interconnection In                     )  
Knox County, Missouri.                     )

**NOTICE OF CASE FILING**

COMES NOW Ameren Transmission Company of Illinois (“ATXI”) and under 20 CSR 4240-4.017(1), hereby files notice that it intends to file an application for a Certificate of Convenience and Necessity to construct transmission interconnection facilities in Knox County Missouri, as follows:

1. Section 393.170.1, RSMo. requires electrical corporations subject to the Commission’s jurisdiction to obtain a certificate of public convenience and necessity (“CCN”) prior to construction of transmission facilities unless those facilities are located within the corporation’s certificated service territory. ATXI has no certificated service territory.

2. A 300 MW wind generating facility seeks to interconnect with ATXI’s Maywood-Zachary 345 kV transmission line. ATXI will construct a new 345 kV switching station in Knox County, Missouri, to provide a Point of Interconnection for the generating facility.

3. The issues likely to be before the Commission respecting the CCN application include whether the requested CCN is necessary or convenient for the public service, including an examination of the “Tartan” factors.

4. ATXI has had no communications with the Office of the Commission (as defined in 20 CSR 4240-4.015(10)) respecting this matter during the preceding 90 days.

Respectfully submitted,

/s/ Matthew R. Tomc
