Re: Application to Request Intervenership to Participate in Case No. WA-2006-0480 and
Case No. SA-2006-0482

Dear Judge Dale,

Please accept this application for intervener status so I may participate in the proceedings for Case No. WA-2006-0482 and Case No. SA-2006-0482. This comes as a result of the proceedings for Case No. WC-2006-0082, et al being canceled per the Commission and the ongoing interest I have in my property value and the environment of which I live.

As stated in paragraph 2 of the 'Application', "Service provided by the Association is the subject matter of several complaints pending before the Commission. This application is being filed as a response to those complaints." My formal complaint has details in it that may or may not be addressed in this application process. I want to make sure my issues are heard and addressed where applicable by the Commission. I have always stated I would like for the 'Applicant' to be regulated at the least. The more I understand the certification process the more I want an already certificated and reputable company to run the water and sewer utility on Big Island.

I oppose the application due to the fact that the applicant has history violating the laws of Missouri, interfering with real estate transactions and coercing homeowners. For additional information see my Formal Complaint WC-2006-0138 which was consolidated under Case No. WC-2006-0082. Past history predicts future behavior. All of my issues with the applicant will not go away unless a reputable and certificated company with no relations to the applicant takes over the water and sewer utility.

Please allow me to intervene in these cases.

Respectfully Submitted,

Cindy Fortney
