ORDER DIRECTING NOTICE AND SETTING DATE FOR SUBMISSION OF INTERVENTION REQUESTS

Issue Date: May 1, 2007

Effective Date: May 1, 2007

On April 30, 2007, Missouri Gas Utility, Inc., filed an application with the Missouri Public Service Commission, pursuant to Section 393.170, RSMo 2000, requesting that the Commission grant it authority to “construct, install, own, operate, control, manage and maintain a system for the provision of natural gas service to the public pursuant to its approved rates, rules and regulations, in certain sections of Township 59 North, Range 26 West, and Township 59 North, Range 27 West in Daviess County, Missouri.” MGU states that a manufacturing company has requested MGU to provide natural gas service to it.

In compliance with Commission Rule 4 CSR 240-3.205, MGU has provided a full legal description of the location for the proposed service area, a plat map, an estimate of the cost of construction and estimated annual margin to be received from the proposed customers in the development, and the names and addresses of the residents and property owners of the proposed service area. MGU also asserts that there are no municipal, public

utilities or other government entities operating or rendering service within its proposed service area, and that it will not require any franchises or permits other than the usual and customary state highway, railroad and county road permits, which will be acquired prior to construction.

The Commission finds that notice of this application should be given to the general public and interested parties and a date for intervention of proper parties should be set. The Commission's Data Center shall mail a copy of this notice to the County Commission of Daviess County, and to the Department of Natural Resources of the State of Missouri. In addition, the Commission's public information officer shall make notice of this order available to the media serving Daviess County and to the members of the General Assembly representing Daviess County.

The requirement of a hearing has been fulfilled when all those having a desire to be heard are offered an opportunity to be heard. If no proper party or governmental entity is granted intervention and neither the Commission's Staff nor the Office of the Public Counsel requests a hearing, the Commission may determine that a hearing is not necessary.¹

IT IS ORDERED THAT:

1. The Missouri Public Service Commission's Data Center is ordered to serve notice as described in the body of this order.
2. The Missouri Public Service Commission's information officer is ordered to serve notice as described in the body of this order.
