

Exhibit No. 110

Ameren Missouri's
Response to MPSC Data Request - MPSC
EO-2021-0021

In the Matter of Ameren Missouri's 2020 Utility Resource Filing pursuant to 20 CSR 4240 –
Chapter 22

No.: MPSC 0001

Refer to pages 12-14 of Chapter 10 - Strategy Selection of Ameren's triennial compliance filing.
1. Provide specific citations for each federal rule or law that requires Ameren Missouri to generate energy in excess of the Ameren Missouri load. 2. Provide specific citations for each Missouri rule or law that requires Ameren Missouri to generate energy in excess of the Ameren Missouri load. 3. Provide specific citations for each MISO tariff requirement that requires Ameren Missouri to generate energy in excess of the Ameren Missouri load. Date Request submitted by J Luebbert (j.luebbert@psc.mo.gov).

RESPONSE

Prepared By: Matt Michels
Title: Director – Corporate Analysis
Date: 3/1/21

Subject to the Company's objection,

1. I am not aware of any such federal, state, or MISO tariff requirements currently in effect. There are considerations apart from prescriptive requirements for generation above energy needed to serve its native load demand, including consideration of potential future energy policies and/or mandates.
2. See part 1.
3. See part 1.
