The Record on Appeal will consist of a:

\_\_\_\_\_ Legal File Only or  X  Transcript and Legal File. (This will include records filed pursuant to Rules 81.13 and 81.16)

**FACTUAL BACKGROUND:** (Events Giving Rise to Cause of Action)

The Missouri Public Service Commission issued the Report and Order that is the subject of this appeal, in Case No. ER-2012-0175, on January 9, 2013. In that Report and Order, the Commission approved a rate increase for Appellant KCP&L Greater Missouri Operations Company ("GMO") of \$28 million annually for its MPS service area and \$21 million annually for its L&P service area. However, the Commission arrived at the same conclusions with regard to the valuation of and transmission costs related to the Crossroads Energy Center ("Crossroads") as it did in GMO's last rate case, No. ER-2010-0356. Those conclusions currently are on appeal to the Missouri Court of Appeals, Case No. WD75038.

Appellant contends that the Report and Order is not based upon appropriate findings of fact and conclusions of law, not based on competent and substantial evidence, and is unreasonable and unlawful in its valuation of Crossroads and disallowance of Crossroads transmission costs.

Appellant applied for rehearing on the Crossroads issue, among other issues, on January 18, 2013. The Commission denied all applications for rehearing on January 30, 2013. This appeal followed.

**ISSUE(S):**

(Anticipated to be Presented by the Appeal; Appellant is Not Bound by this Designation)

1. Whether the Commission's valuation of Crossroads and disallowance of Crossroads transmission costs was lawful and reasonable.
