**FINDING OF COMPLIANCE**

Dear Permittee,

Staff from the Missouri Department of Natural Resources (Department) conducted an inspection on September 27, 2018, of the Wrenwood-Robinwood Wastewater Treatment Facility located at 163 Wrenwood Circle, Lake Ozark in Camden County. The facility operates under the authority of Missouri State Operating Permit MOGD00092.

Compliance with Missouri Clean Water Law was evaluated. The facility was found to be in compliance based on the observations made during the inspection.

The enclosed report describes the findings and may provide important recommendations to ensure continued compliance. Your cooperation in implementing those recommendations will be appreciated.

Fact sheets are available on the Department's website to assist entities with understanding and following environmental requirements.

If you have any questions or would like to schedule a time to meet with Department staff to discuss compliance requirements, please contact Ms. Laura Grootens at 417-891-4300, via email at [laura.grootens@dnr.mo.gov](mailto:laura.grootens@dnr.mo.gov), or in writing at Southwest Regional Office, 2040 W. Woodland, Springfield, Missouri 65807-5912.

Sincerely,

SOUTHWEST REGIONAL OFFICE

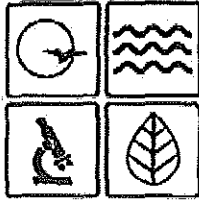

Kevin Hess, Chief  
Water Pollution Section

**RETURN TO COMPLIANCE**

Dear Permittee:

Staff from the Missouri Department of Natural Resources (Department) conducted an inspection on October 25, 2018 of the BDS Boyd Subdivision Waste Water Treatment Facility located on Boyd Drive, Camdenton, MO, in Camden County. The entity operates under the authority of Missouri State Operating Permit MOGD00151.

On November 18, 2018 a sufficient response was received to the required actions in the November 21, 2018 inspection report. No further response is required to address the report.

Additionally as part of the inspection, the inspector collected wastewater effluent samples and shipped the samples to the Department's Environmental Services Program for sample analysis. The sample analysis results were not available for inclusion in the inspection report dated November 21, 2018.

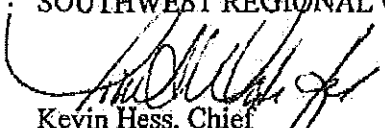

Please find enclosed a Report of Laboratory Analysis for samples collected during the inspection. The results reflect compliance with the effluent limitation set forth in your Missouri State Operating Permit (MSOP) MOGD00151.

The response shows that you recognize our mutual goal in providing a quality life for Missouri's citizens through environmental compliance. The Department appreciates your voluntary efforts to comply with the laws of Missouri and your continued efforts to work with us to improve protection of Missouri citizens and our natural resources.

If you should have any questions regarding the report or would like to schedule a time to meet in person, please contact Ms. Laura Grootens by calling 417-891-4300, via email at [Laura.Grootens@dnr.mo.gov](mailto:Laura.Grootens@dnr.mo.gov), or via mail at Southwest Regional Office, 2040 W. **FINDING OF COMPLIANCE**

Dear Permittee:

Staff from the Missouri Department of Natural Resources (Department) conducted an inspection on July 19, 2018 of the Bay Point Village Condominiums Wastewater Treatment Facility located at 2500 Bay Point Drive, Osage Beach, MO, in Camden County. The facility operates under the authority of Missouri State Operating Permit MO0104361.

Compliance with Missouri Clean Water Law was evaluated. The facility was found to be in compliance based on the observations made during the inspection.

The enclosed report and/or checklist describes the findings and may provide important recommendations to ensure continued compliance. Your cooperation in implementing those recommendations will be appreciated.

Fact sheets are available on the Department's website to assist entities with understanding and following environmental requirements.

If you have any questions or would like to schedule a time to meet with Department staff to discuss compliance requirements, please contact Ms. Laura Grootens at 417-891-4300, via email at [Laura.Grootens@dnr.mo.gov](mailto:Laura.Grootens@dnr.mo.gov), or in writing at Southwest Regional Office, 2040 W. ### RETURN TO COMPLIANCE

Dear Mr. Grathen:

Staff from the Department of Natural Resources conducted an inspection on March 1, 2017 of the Sylvan Bay Subdivision Wastewater Treatment Facility located near 690 Sylvan Bay Drive, Linn Creek, in Camden County. The entity operates under the authority of Missouri State Operating Permit MOGD00234.

On May 4, 2017, a sufficient response was received to the required actions in the April 6, 2017 report. No further response is required to address the report.

The response shows that you recognize our mutual goal in providing a quality life for Missouri's citizens through environmental compliance. The department appreciates your voluntary efforts to comply with the laws of Missouri and your continued efforts to work with us to improve protection of Missouri citizens and our natural resources.

If you should have any questions regarding the report or would like to schedule a time to meet in person, please contact Laura Grootens by calling 417-891-4300, or via email at [Laura.Grootens@dnr.mo.gov](mailto:Laura.Grootens@dnr.mo.gov), or via mail at Southwest Regional Office, 2040 W. Re: St. Moritz Estates Condominiums Wastewater Treatment Facility (MO0094285),  
Camden County

Dear Permittee:

On July 24, 2015, the Department of Natural Resources (department) sent you an Inspection Report in regard to violations found during a routine compliance inspection of your facility on June 11, 2015. On August 24, 2015, you submitted a letter in response to the alleged violations, stating that numerous loads have been hauled from the plant and two loads of activated sludge from another location were brought in for the Total Suspended Solids exceedance. The sludge return has also been replumbed so it can be backwashed on a weekly basis to help with the Biological Oxygen Demand exceedance.

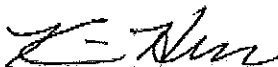

Based on your response, the department wishes to acknowledge your return to compliance for violations cited in the abovementioned Inspection Report.

*Please note that this letter does not relieve you from liability for violations noted during the department's original inspection, nor does it relieve you from liability as a result of any future noncompliance.*

Please be reminded that you are required to maintain compliance with your Missouri State Operating Permit and all applicable statutes and regulations. If you have any questions or if we can be of assistance to you in your efforts to achieve compliance, please contact Ms. Laura M. Gerson, of my staff, by calling 573-348-4028 or via mail at Southwest Regional Office, 2040 West Woodland, Springfield, Missouri 65807-5912. As always, the department seeks to achieve the highest level of environmental protection, to the ultimate benefit of this state and its citizens. We appreciate your attention to our environmental concerns and your return to compliance.

Sincerely,

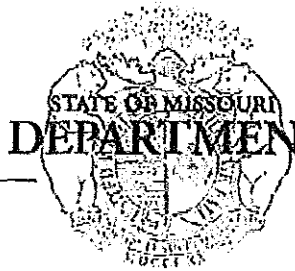

SOUTHWEST REGIONAL OFFICE

Kevin Hess, Chief  
Water Pollution Section

Re: Oak Shadows Wastewater Treatment Facility, Camden County

Dear Permittee:

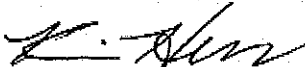

The department recently performed a routine compliance inspection of your facility on May 27, 2015. During the initial inspection, your wastewater facility was found to be in noncompliance. This letter acknowledges your return to compliance for violations cited in the Letter of Warning dated June 25, 2015. On August 12, 2015 department staff observed or received sufficient documentation that you had adequately addressed the issues which resulted in the department's initial Letter of Warning.

*Note that this letter does not relieve you from liability for violations noted during the department's original inspection, nor does it relieve you from liability as a result of any future noncompliance.*

If you have any questions or if we can be of assistance to you in your efforts to achieve compliance with environmental regulations, please contact Troy Pottelger, of my staff, by calling 573-348-4103 or via mail at Southwest Regional Office, 2040 West Woodland, Springfield, Missouri 65807-5912. As always, the department seeks to achieve the highest level of environmental protection, to the ultimate benefit of this state and its citizens. **INSPECTION SAMPLE RESULTS  
FINDING OF COMPLIANCE**

Dear Mr. Grathen:

An inspection of the Pezzetti Wastewater Treatment Facility was conducted by Missouri Department of Natural Resources (Department) staff pursuant to the Missouri Clean Water Law on June 28, 2018. As part of the inspection, the inspector collected wastewater effluent samples and delivered the samples to the Department's Environmental Services Program for sample analysis. The sample analysis results were not available for inclusion in the inspection report dated July 19, 2018.

Please find enclosed a Report of Laboratory Analysis for samples collected during the inspection. The results reflect compliance with the effluent limitation set forth in your Missouri State Operating Permit (MSOP) #MO0137022.

If you have any questions or would like to schedule a time to meet with Department staff to discuss compliance requirements, please feel free to contact Ms. Laura Grootens by calling 417-891-4300, or via email at [Laura.Grootens@dnr.mo.gov](mailto:Laura.Grootens@dnr.mo.gov), or via mail at Southwest Regional Office, 2040 W.
