On February 4, 2005, the FCC issued its “TRO Remand Order”, concerning the provision of unbundled network elements. As set forth in the TRO Remand Order, specifically in Rule 51.319(a)(6), as of March 11, 2005, CLECs “may not obtain,” and SBC and other ILECs are not required to provide access to Dark Fiber Loops on an unbundled basis to requesting telecommunications carriers. The TRO Remand Order also finds, specifically in Rules 51.319(a)(4), (a)(5) and 51.319(e), that, as of March 11, 2005, CLECs “may not obtain,” and SBC and other ILECs are not required to provide access to DS1/DS3 Loops or Transport or Dark Fiber Transport on an unbundled basis to requesting telecommunications carriers under certain circumstances. Therefore, as of March 11, 2005, in accordance with the TRO Remand Order, CLECs may not place, and SBC will no longer provision New, Migration or Move Local Service Requests (LSRs) for affected elements.

There are different impairment findings in the TRO Remand Order for each category of elements addressed by this Accessible Letter. To address the differences and to ensure clarity, SBC has included separate attachments for DS1 and DS3 Unbundled High Capacity Loops, DS1 and DS3 Unbundled Dedicated Transport (UDT), Unbundled Dark Fiber Loops and Dark Fiber Unbundled Dedicated Transport. Please refer to the appropriate attachment to determine how orders for each category of elements will be treated in light of the TRO Remand Order.

¹ References to “SBC” in this Accessible Letter encompass, as applicable, the Issuing SBC ILECs identified at the beginning of this letter.

The effect of the TRO Remand Order on New, Migration or Move LSRs for these affected elements is operative notwithstanding interconnection agreements or applicable tariffs.

Should you have any questions regarding this implementation notice, please contact your Account Manager.
