Notes:

- 1) The fixed charge is for a 5/8" meter, which is the typical size for a residential customer. Larger meter sizes will have higher fixed charges. Please see tariff for details.
- 2) The volumetric rate is the price per 1,000 gallons of water consumed.
- 3) To calculate the cost of water service, the cost will be the fixed charge plus the usage level times the volumetric charge.
- 4) A typical customer uses between 3,000 and 7,000 gallons per month or between 9,000 and 21,000 per quarter.
- 5) Under the *Residential Inclining Block Pilot Program*, Mexico volumetric rates per 1,000 gallons of usage are \$5.8887 for the first 3,000 gallons, \$6.7720 for the next 7,000 gallons, and \$8.4650 for usage over 10,000 gallons
- 6) Rates do not include any taxes or other fees collected by MAWC on behalf of other entities.
