My Commission expires:

September 14, 2020

### SURREBUTTAL TESTIMONY MATTHEW D. SCHOFIELD

•

. *,* 

1		
2	Q.	PLEASE STATE YOUR NAME, TITLE AND BUSINESS ADDRESS.
3	Α.	My name is Matthew D. Schofield, and I am the Fire Chief for the Jefferson City Fire
4		Department. My business address is 305 E. Miller Street, Jefferson City, Missouri.
5	Q.	ARE YOU THE SAME MATTHEW D. SCHOFIELD WHO FILED DIRECT
6		TESTIMONY ON BEHALF OF THE CITY OF JEFFERSON IN THIS PROCEEDING?
7	A.	Yes, I am.
8	Q.	WHAT IS THE PURPOSE OF YOUR SURREBUTTAL TESTIMONY?
9	А.	I will be responding to portions of the rebuttal testimony of Bruce W. Aiton, the Director
10		of Engineering for Missouri American Water Company.
11	Q.	AT PAGES 8- 9 OF HIS TESTIMONY MR. AITON TESTIFIES THAT "[W]HEN THE
12		COMPANY PRIORITIZES ITS MAIN REPLACEMENT PROJECTS, IT CONSIDERS,
13		AMONG OTHER FACTORS, THE UPSIZING OF THOSE MAINS THAT ARE
14		CONNECTED TO FIRE HYDRANTS, WHICH CURRENTLY MAKES UP ABOUT
15		1.2% OF ALL MAINS IN THE JEFFERSON CITY WATER SYSTEM." ARE YOU IN
16		AGREEMENT WITH MR. AITON'S FIGURE ON THE PERCENTAGE OF
17		UNDERSIZED MAINS CONNECTED TO FIRE HYDRANTS IN JEFFERSON CITY?
18	A.	I have no information of my own to either confirm or disaffirm Mr. Aiton's percentage
19		figure and I will accept it as accurate. Yet, with only 1.2% of undersized mains
20		connected to fire hydrants remaining in the city, I strongly suggest that their
21		replacement/upsizing become a Company priority. The Company should commit the

Matthew D. Schofield Surrebuttal Testimony Case No. WR-2017-0285 Page 2 of 2

1.12

needed resources to replace/upsize this relatively small portion of their system in the near
term. One would presume these same small diameter lines would also be some of the
older mains in the system, nearing the end of their service life.

ALSO ON PAGE 9 OF HIS TESTIMONY, WITH RESPECT TO YOUR 4 Q. DESCRIPTION OF WATER PRESSURE CONCERNS AT THE JEFFERSON CITY 5 AIRPORT, MR. AITON TESTIFIES THAT A PRESSURE REDUCING VALVE 6 ("PRV") LOCATED NEAR THE WHOLESALE WATER SUPPLY POINT FOR THE 7 AREA MAY BE CONTRIBUTING TO THE PRESSURE ISSUE AND THE 8 COMPANY HAS SCHEDULED ITS REPLACEMENT SOMETIME THIS SPRING. 9 WILL A REPLACEMENT OF THE PRV CORRECT THE PRESSURE PROBLEM AT 10 THE AIRPORT? 11

A. The replacement of the PRV is certainly a good start to resolving the problem, and my department looks forward to working with the Company to make any needed upgrades to commercial and residential fire flows in the area. Specifically, my department will work with the Company in establishing estimations of needed fire flow (NFF) taking into account both the pressure and volume of water required to address fire suppression needs of existing infrastructure in the area.

18 Q. DOES THIS CONCLUDE YOUR SURREBUTTAL TESTIMONY?

19 A. Yes.
