#### **CONSTELLATION'S MOTION TO COMPEL DISCOVERY FROM SPIRE**

In this corrected motion,<sup>1</sup> Constellation NewEnergy-Gas Division, LLC ("CNEG") respectfully request the Commission to issue an order to compel Spire Missouri, Inc. and its operating unit Spire Missouri West ("Spire") to produce all documents and data responsive to the requests outlined herein or for any such documents and data that once existed, but has not been produced or allegedly cannot now be produced, explain the circumstances of such data loss that resulted in Spire's inability to produce such documents.

<sup>&</sup>lt;sup>1</sup> On February 8, 2022, CNEG filed a motion to compel discovery from Spire. This motion corrects typographical errors and an omission from the motion but does not substantively change the motion.

#### I. SUMMARY

Constellation seeks to compel production of responsive documents along four categories: (1) chats using the Intercontinental Exchange, Inc. trading platform ("ICE Chats") during February 2021 that are responsive to Constellation's requests; (2) Microsoft Teams chats during February 2021 that are responsive to Constellation's requests; (3) emails or other communications (*e.g.* chats and text messages) with Southern Star personnel during February 2021; and (4) internal Spire emails during February 2021 related to the Spire's Operational Flow Order ("OFO"), Southern Star, operating conditions, Spire's natural gas trading and marketing affiliate (Spire Marketing), and Spire's sales of natural gas from storage before and during Winter Storm Uri (*i.e.* selling gas so other companies could use it on other pipeline systems because Spire determined that it had no need for its storage gas to serve Spire's system operations or its sales or transportation customers). Please see attached data requests which are the subject of this Motion, marked as Exhibit 1, incorporated and referenced herein.

Spire has failed to produce documents which are responsive to Constellation's data requests and are reasonably believed to exist. For example, Spire has produced a few selected ICE Chats and emails but withheld others. This is inappropriate; Spire must produce the responsive documents, not curate its production to include only what it deems favorable to Spire's arguments while withholding other responsive documents showing its statements and actions before and during Winter Storm Uri.

Spire has also asserted boilerplate objections such that there is no way for Constellation to determine what responsive documents Spire may or may not be withholding and on what basis. Please see attached Spire's objections to CNEG's data requests, marked as Exhibit 2, incorporated and referenced herein. Spire has also failed to identify what efforts it has made to search for, review, and produce responsive documents.

Finally, Spire has at various times offered vague or conflicting explanations for whether or not such documents exist or were retained pursuant to its litigation hold. For example, Spire has contended in the process of the "meet and confer" that ICE chats are not retained as a general matter and therefore no ICE chats exist to be produced. At the same time, Spire has produced at least one ICE chat transcript in response to a data request from Symmetry. Earlier this week, Spire indicated that it can search for all of its traders' ICE chats during the relevant time period and provide screen shots of those communications with third party natural gas traders and schedulers before and during the OFO period. However, Spire acknowledged that it simply has not done so during the past two months. Spire should have to search for and produce these communications because these communications are business records that provide direct evidence of what Spire was saying and doing in February 2021 to (1) buy natural gas, (2) leave natural gas in storage, (3) seek opportunities to engage in transactions with its affiliate (Spire Marketing) rather than independent third parties, and (4) negotiate a profitable sale of natural gas to a third party from Spire's storage position rather than bringing that gas to Spire's system to address alleged operational needs.

For Microsoft Teams chats (a form of direct communication among Spire employees and officers), Spire has indicated that it does not retain those files. However, Spire has not confirmed any effort to search for the relevant devices, systems, and servers for what those communications and determine if they were preserved or stored in local memory. Constellation is also particularly concerned by indications that certain categories of responsive, relevant and discoverable documents such as ICE chats and Microsoft Teams may no longer exist, pursuant to Spire's document retention policy. This proceeding involves Spire's attempt to collect approximately \$35 million<sup>2</sup> in alleged OFO penalties from Missouri customers served by Constellation that Spire

<sup>&</sup>lt;sup>2</sup> Spire's initial Demand Letter on February 24, 2021 requested immediate payment of \$39,451,576.78. Spire subsequently revised that amount on March 17, 2021 to demand \$35,526,510.86.

assessed during Winter Storm Uri, from February 12, 2021 to February 19, 2021 (as well as other sums from other parties). On February 24, 2021, Spire sent a demand letter to Constellation demanding immediate payments of these amounts that was signed by its chief lawyer, General Counsel Matt Aplington. On that same day, the Commission issued an order directing Commission Staff to "investigate Missouri's electrical and natural gas utilities' preparation for and response to Missouri's February 2021 extreme cold, and to report its findings to the Commission." This included Spire as one of those utilities. Thus, within days of the events of Winter Storm Uri, legal proceedings were underway and any document retention policy that would result in the routine destruction of documents should have been suspended. Spire has refused to clarify in writing what it did to preserve data, when it took action, or to describe efforts to obtain data such as Teams chats that is not otherwise preserved for an extended period.

Constellation is entitled to full and complete production of documents responsive to its requests and a final and comprehensive answer to what documents Spire has withheld pursuant to its objections.

#### II. ARGUMENTS & ANALYSIS

# A. The Commission should overrule Spire's boilerplate objections and compel Spire to produce all responsive documents.

Discovery may be obtained at the Commission by the same means and under the same conditions as in civil actions in the circuit court. 4 CSR 240-2.090(1). Missouri Rule 58.01(a) provides for the production, copying and inspection of documents that are in the possession, custody, and control of the party upon whom the request is made. Rule 58.01(e) provides:

(e) Enforcement. The party submitting the request may move for an order under Rule 61.01(d) with respect to any objection or other failure to respond to the request or any part thereof or any failure to permit inspection as requested.

Mo. Sup. Ct. R. 58.01(e).

Boilerplate objections or responses that do not identify whether documents have been withheld pursuant to the objections are improper. See *SI03, Inc. v. Musclegen Research, Inc.*, No. 1:16-CV-274 RLW, 2020 WL 6544261, at \*3 (E.D. Mo. Nov. 6, 2020) (overruling boilerplate objections and ordering production of responsive documents); *RightCHOICE Managed Care, Inc. v. Hosp. Partners, Inc.*, No. 5:18-CV-06037-DGK, 2019 WL 418117, at \*4 (W.D. Mo. Feb. 1, 2019) ("Boilerplate, generalized objections are inadequate and tantamount to not making any objection at all.") (citations omitted).

Constellation is entitled to know what responsive documents Spire is withholding on the basis of its objections and on what basis. The Commission should overrule Spire's objections and compel production of the four categories of documents discussed in this motion: ICE Chats, Teams chats, communications with Southern Star personnel during February 2021, and internal Spire emails during February 2021 related to the OFO, Southern Star, operating conditions, Spire Marketing, and sales of natural gas from storage.

#### 1. ICE and Microsoft Teams Chats

Spire acknowledges that its personnel use the chat software provided by Intercontinental Exchange ("ICE Chat") and Microsoft Teams.<sup>3</sup> Both ICE Chat<sup>4</sup> and Microsoft Teams<sup>5</sup> have the capability to retain documents.

<sup>&</sup>lt;sup>3</sup> Deposition of George Godat, 155:21-156:1 ("Q. Do -- does Spire use the ICE platform to purchase and sell gas, natural gas? A. Spire does have an account with ICE, correct. Q. Okay. And during February 2021 did Spire purchase gas using the ICE platform? A. Yeah, it was a combination of ICE and then physical transactions, you know, phone-to-phone transactions.").

Data from Teams chats is stored in a hidden folder in the mailbox of each user included in the chat, and a similar hidden folder in a group mailbox is used for Teams channel messages. These hidden

Constellation issued its Fifth Set of Data Requests which included the following requests:

5.10 Produce all communications between Justin Powers, Michael Schormann, or George Godat – on the one hand – and any employee or officer of Southern Star – on the other hand – between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies.

5.11 Produce all communications sent from or received by Justin Powers between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies.

5.12 Produce all communications sent from or received by George Godat between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies.

On December 27, 2021, Spire asserted the following blanket, boilerplate objection to each

of the requests in Constellation's Fifth Set of Data Requests:

Spire Missouri Inc. objects to DR 5.1-5.13 as these requests are overly broad, unduly burdensome, vague, and not reasonably tailored or proportional to the needs of the case considering the totality of the circumstances, and seeks information is not relevant to the subject proceeding, nor reasonably calculated to lead to the discovery of admissible evidence, in that it requests information concerning matters having no impact on the four issues identified in the Commission's *Order Denying Motion to Dismiss* (May 26, 2021):

Whether Spire violated its tariff regarding -

1. the justification for issuance of operational flow orders,

2. the notice provided to shippers about those operational flow orders,

3. the duration of the operational flow orders, and

folders are not designed to be directly accessible to users or administrators, but instead, store data that compliance administrators can search with eDiscovery tools.").

4. calculation of the penalties it seeks to impose.

On January 7, 2022, Spire issued the following responses with regard to Constellation's requests No. 10-12:

5.10-5.12 - Please see the attached email between Justin Powers and Shonn Purcell of Symmetry. Spire Missouri has not located any written communications regarding the Spire OFO, upstream OFOs, with upstream pipelines, or among Spire personnel regarding OFOs.

Spire has produced at least one such ICE Chat with regard to Symmetry but none with regard to Constellation.<sup>6</sup> Clearly, Spire personnel use ICE Chat, used ICE Chat during the February 2021, communicated via ICE Chat with regarding issues central to this proceeding, and in fact have sought to support its assertions in this proceeding, and giving the ICE Chat it produced the argumentative title, "Symmetry ICE Conversation Showing Sym[metry] Failure to Provide Gas." Spire appears to be selectively producing a limited number of responsive documents, while for whatever reason withholding responsive, relevant and discoverable documents, including any such evidence as to other parties. Spire is obligated to produce all responsive, non-privileged documents.

#### 2. <u>Communications regarding Southern Star during Feb. 2021</u>

In response to Constellation's data request 5.10 for "all communications between Justin Powers, Michael Schormann, or George Godat – on the one hand – and any employee or officer of Southern Star – on the other hand – between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies" Spire has cited only one document, producing "the attached email between Justin Powers and Shonn Purcell of

<sup>&</sup>lt;sup>6</sup> Ex. 5, Spire ICE Chat with Symmetry.

Symmetry." Symmetry, of course, is not Constellation. As to Constellation then, Spire cites nothing at all in response to this request.

It defies belief that Justin Powers, Michael Schormann, or George Godat, all key Spire employees as to the events at issue in this proceeding, had no communications related to an OFO on either Spire's system or on Southern Star's system during what Spire characterizes as a significant operational event. Spire's own justification for the OFO issuance included "the OFO that Southern Star issued" and Spire claims it was "concerned with the one-third flowing supply requirements for SSC storage and finding enough flowing supply"<sup>7</sup> It stands to reason that there would be some email or chat communication with Spire's key personnel regarding what Spire itself relies upon to justify \$35m in OFO penalties.

#### 3. <u>Internal Emails during Feb. 2021 regarding the OFO, Southern Star, Operating</u> Conditions, Spire Marketing, and Natural Gas Sales from Storage.

Similarly, Constellation has sought internal emails during Feb. 2021 related to the OFO, Southern Star, operating conditions, Spire Marketing and sales of natural gas from storage.

For example, Constellation's corporate representative testified that that Spire held "nine BCF"<sup>8</sup> of natural gas in storage going into the month of February 2021. During the height of the OFO period, Spire sold 500,000 dekatherms out of storage, capitalizing on the historic price increases that occurred at that time.<sup>9</sup> That was gas which was thereby no longer available to service Spire's Missouri customers at a time when Spire was supposedly concerned with the integrity of its system. This faux concern is Spire's justification for the imposition and maintenance of an OFO

<sup>&</sup>lt;sup>7</sup> Exhibit 3, Spire's Response 1.1.

<sup>&</sup>lt;sup>8</sup> Exhibit 4, Deposition of George Godat at 68:9-10.

<sup>&</sup>lt;sup>9</sup> Id. at 275:14-278:14 (describing the revenue, sales price, profit, and timing of the transaction).

and \$35 million in resulting penalties (at a multiple of those historic price increases that Spire

reaped with its contemporaneous sales from storage).<sup>10</sup>

For the month of February 2021, Constellation requested specific information regarding

communications regarding the disposition of Spire's natural gas storage during the period in

question.

5.13 Produce all communications sent from or received by Justin Powers, Theresa Payne, or George Godat between February 1 and February 20, 2021 related to the purchase, sale, transfer, loan, or other disposition of any of Spire's natural gas storage, including but not limited to withdrawing natural gas from storage for use on Spire's Missouri West system.

RESPONSE: 5.13 - Please see the attached emails between Spire and Atmos regarding the Atmos storage gas transaction, and the transaction documents.

This request directly ties to Spire's allegations about the need for an OFO and the

surrounding conditions and circumstances.

1. For the time period of February 10, 2021 to February 19, 2021, describe in detail Spire's evaluation, actions, and decisions regarding the need for an OFO on the Spire MO West System, including all conditions and circumstances giving rise to the need for the OFO.

RESPONSE: The timing of the weather event being a late season cold, the OFO that Southern Star issued, and the need to uphold the integrity of our MO West system all played a part in making our decision to issue a LDC OFO. Spire began seeing prices beginning to rise prior to February 12th and available supply dwindling. Our storage position at that time was adequate to meet the needs of the rate-based customers' demand. Even though Spire was confident about our storage position, we were still concerned with the onethird flowing supply requirements for SSC storage and finding enough flowing supply. In addition to this supply discrepancy, Spire was dependent on our marketers' performance during this period to meet our overall supply needs. We felt that the best way to protect and maintain the integrity of our distribution system was to enter into an OFO effective Friday, February 12, 2021 until February 20,

<sup>&</sup>lt;sup>10</sup> See id.

2021. Even with this OFO in place, Spire nearly lost pressure to areas of our distribution system in Southwest Missouri.

2. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related to Spire's evaluation, actions, and decisions regarding the need for an OFO on the Spire MO West System, including all conditions and circumstances giving rise to the need for the OFO.

RESPONSE: See objection previously filed. See also response to #1.

3. Describe in detail any risk of any failure of the integrity of the Spire MO West System from February 10, 2021 to February 19, 2021.

RESPONSE: See response to DR 1.<sup>11</sup>

Spire should produce these communications – both internal and with Southern Star – that relate to the Spire's Operational Flow Order, Southern Star, operating conditions, Spire's natural gas trading and marketing affiliate, the use of storage gas, and sale of sales of natural gas from storage before and during Winter Storm Uri. These materials are in Spire's possession and are central to evaluating what Spire said internally and to Southern Star about the decision to issue the OFO, why it was maintained, what operational concerns it experienced – if any – during the OFO period, and how Spire may have tied its actions to Southern Star without regard to its stable system.

#### III. CONCLUSION

WHEREFORE, Constellation respectfully requests that Spire be compelled produce all documents responsive to the requests outlined herein and/or for any such documents that once existed but cannot now be produced, explain the circumstances of any loss of data that has resulted in Spire's inability to produce such documents.

Case No. GC-2021-0315

### CONSTELLATION'S FIFTH SET OF DATA REQUESTS TO SPIRE MISSOURI, INC. AND ITS OPERATING UNIT SPIRE MISSOURI WEST

Constellation NewEnergy-Gas Division, LLC ("Constellation") serves its Fifth Set of Data Requests to Spire Missouri, Inc. and its operating unit Spire Missouri West. Pursuant to 4 C.S.R. 4240-2.090(2)(C), responses to these Data Requests are due within 20 days of receipt or earlier if so ordered.

#### **Instructions and Definitions**

When answering these Data Requests, you are requested to furnish all information available to you, including information in the possession of your attorneys, investigators, employees, agents, officers, directors, representatives, or any other person or persons acting on your behalf.

These Data Requests apply to all documents in your possession, custody, or control, whether in hard copy or electronic form. Possession, custody, or control does not require that you have actual physical possession; instead, if you have physical control or a superior right to compel production from another (including having a legal right to obtain, copy, or have access to documents; and documents which you have placed in the temporary possession, custody, or control of any third party), the document must be produced.

For any responsive document withheld on the basis of privilege or otherwise, identify the document withheld by name, date, and subject matter and state the specific basis for the privilege, protection, or other exemption you assert. Such information should be provided in a sufficient manner to allow it to be described to the Commission for ruling on the privilege or other reason asserted for withholding.

These Data Requests shall be deemed continuing in nature so as to require prompt, further, and supplemental responses and production whenever you discover additional information or documents determined to be responsive to these Data Requests.

The terms "Spire," "you," and "yours" mean and refer to Spire Missouri, Inc. and its operating unit Spire Missouri West, and, when applicable, their employees, agents, officers,

directors, representatives, and any other person or persons acting in concert with them or under their control, whether directly or indirectly.

The term "OFO" means any operational flow order of any type and in any form.

The term "POC" means any curtailment or period of curtailment of any type and in any form.

The term "Spire MO West System" means the Spire Missouri West gas distribution system or any portion thereof.

The term "Southern Star" means Southern Star Central Gas Pipeline.

The "Southern Star System" means Southern Star's pipeline system segments and assets (including storage caverns) used and useful in serving the Spire MO West System or any portion thereof.

The "Tariff" means the Spire Missouri West tariff.

The "Winter Storm Event" means the severe winter storm and weather conditions affecting Missouri and much of the rest of the United States for a period of multiple days during February 2021.

The term "document" is used in the broadest sense and includes, but is not limited to, originals, non-identical copies, and drafts of the following items: agreements, communications, including intracompany communications, correspondence, e-mails, online chats, instant messages, text messages, messaging app communications, telegrams, telephone bills and records, electronic facsimiles, electronically stored information, cables, memoranda, records, books, summaries or records of personal conversations or interviews, diaries, forecasts, statistical statements, accountants' work papers, graphs, charts, maps, diagrams, blueprints, tables, indices, pictures, recordings, tapes, microfilms, charges, accounts, analytical records, minutes or records of meetings or conferences; reports and/or summaries of interviews, report and/or summaries of investigations, opinions or reports of consultants, appraisals, reports and/or summaries of investigations, brochures, pamphlets, circulars, trade letters, press releases, contracts, stenographic, handwritten or any other notes, projections, working papers, checks, front and back, check stubs or receipts, invoice vouchers, tape data sheets or data processing cards or discs or any other written, recorded, transcribed, punched, taped, filmed or graphic matter however produced or reproduced: data processing input and output and any other document or writing of whatever description, including, without limitation, any information contained in any computer, although not yet printed out.

The term "correspondence" means any document that reflects or constitutes the transmittal of information in any form, including through letters, faxes, e-mails, text messages, online chats, messaging apps, and recorded conversations or audio or video conferences or broadcasts.

The term "identity" means the following when used herein:

a. When used in reference to an individual, it means his or her full name, residential address, present or last known business address, telephone

number, position, business affiliation and job description, at the time in question, with respect to the discovery request involved, and if applicable, his or her "business" name or d/b/a.

- b. When used in reference to a corporation, it means its full name, county, state or province of incorporation, address and telephone number of its principal place(s) of business, and the type of business in which it is engaged, and the natural person(s) within that corporation who have knowledge of the matters inquired about.
- c. When used in reference to a company, association, partnership, governmental agency (whether federal, state or local), or any other entity which is not a natural person or corporation, it means its full name, form of organization, county, state or province of organization, address and telephone number of its principal place(s) of business, type(s) of business in which it is engaged, and the natural person or persons within that organization who has knowledge of the matters about which the Data Requests inquire.
- d. When used in reference to an act, event, occurrence, or communication, it means the detailed substance thereof, the identity of the person or persons who were parties to the act, event, occurrence, or communication, any other persons who participated in, or who were present at the act, event, occurrence or communication, the date and place thereof, and whether the act, event, occurrence, or communication was oral or in writing, and if such act, event, occurrence, or communication has been reduced to writing, or otherwise recorded, to identify such document or recording.
- e. When used in reference to a document, it means as exactly as possible the date upon which the document was prepared or executed, and a detailed description of the document including, if applicable, when, where and how it was made, the identity of the person who prepared and/or executed it, the number of pages, the title, any identification number, the present location and the custody of the original thereof and, if unknown, the present custodian of any copy thereof, the manner and date of disposition of any document that was, but is no longer, in your possession or subject to your control and a short summary of the contents thereof.

The term "identify" means to provide the identity of the person, entity, or other matter at issue, including the information set forth in the definition of "identity," above.

The words "evidencing," "related to," "relating to," "relates to," "referring to," "concerning," and "regarding" are used in their broadest sense and, by way of illustration, mean in any way concerning, constituting, referring to, analyzing, discussing, describing, considering, involving, modifying, evidencing, representing, commenting upon, qualifying, pertinent to or touching upon. A document or correspondence "evidencing," "related to," "relating to," "referring to," "concerning," or "regarding" a given subject means any document or correspondence that

constitutes, contains, embodies, comprises, reflects, identifies, states, refers to, deals with, comments on, responds to, describes, involves or is in any way pertinent to that subject, including documents concerning the presentation of other documents.

The term "person" shall mean and include any individual, natural person, or if not a natural person, any corporation or entity.

The words "and" and "or" shall be construed either conjunctively or disjunctively as required by the context to bring within the scope of these Data Requests any response or document that might be deemed outside its scope by another construction.

The word "including" shall be construed to mean "including but not limited to."

The words "any" and "all" shall be construed to mean "any and all."

The words "each" and "every" shall be construed to mean "each and every."

5.1 Please see the attached document, which was marked as Exhibit 2, Tab 18-L to the deposition of Spire's corporate representative on December 13, 2021. Please identify every Constellation customer to whom Spire sent this text message.

5.2 Please see the attached document, which was marked as Exhibit 2, Tab 18-L to the deposition of Spire's corporate representative on December 13, 2021. Please identify every Constellation customer to whom Spire sent any text message, email, or other document or communication during February 2021 stating that any customer will experience or may experience a curtailment of natural gas service.

5.3 Please see the attached document, which was marked as Exhibit 8 to the deposition of Spire's corporate representative on December 13, 2021. Please identify every Constellation customer to whom Spire sent the text message, automated call, or email referenced on this exhibit.

5.4 Please see the attached document, which was marked as Exhibit 8 to the deposition of Spire's corporate representative on December 13, 2021. Please produce any documents reflecting any response and any emails or notes regarding any responses to the text message, automated call, or email referenced on this exhibit.

5.5 Identify every natural gas storage withdrawal during the month of February 2021.

5.6 Produce all documents regarding every natural gas storage withdrawal during the month of February 2021, including all documents referencing the transportation and destination of any natural gas withdrawn from Spire's natural gas storage. Identify every volume for every day of February 2021.

5.7 Produce all documents, communications, and internal correspondence regarding any actual, proposed, or considered purchase, sale, transfer, loan, or other disposition or change in status of any natural gas storage. This request includes but is not limited to physical transfers and "paper transfer[s] from [Spire's] inventory to [another party's] inventory" (as Spire's corporate representative described on page 80 of the transcript of the December 13, 2021 deposition). Additionally, this request includes but is not limited to transactions between Spire and Spire Marketing, between Spire and Atmos, between Spire and any natural gas marketer, or between Spire and any other third party.

5.8 Identify all nominations by Spire for every day of February 2021 on the (1) Southern Star;(2) Tallgrass; (3) Panhandle Eastern; and (4) Rockies Express pipelines for delivery to the Spire Missouri West system.

5.9 For the month of February 2021, produce all documents regarding Spire selling, making available, or purchasing natural gas transportation capacity release volumes, including identification of all revenue Spire received for selling capacity release to Spire Marketing or other parties.

5.10 Produce all communications between Justin Powers, Michael Schormann, or George Godat – on the one hand – and any employee or officer of Southern Star – on the other hand – between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies.

5.11 Produce all communications sent from or received by Justin Powers between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies.

5.12 Produce all communications sent from or received by George Godat between February 1 and February 20, 2021: (a) related to the issuance, maintenance, or termination of any operation flow order on Spire's system or Southern Star's system; and (b) related to any natural gas marketing companies.

5.13 Produce all communications sent from or received by Justin Powers, Theresa Payne, or George Godat between February 1 and February 20, 2021 related to the purchase, sale, transfer, loan, or other disposition of any of Spire's natural gas storage, including but not limited to withdrawing natural gas from storage for use on Spire's Missouri West system.

## Re: MoPSC Case No. GC-2021-0315 Constellation Fifth Set of Data Requests (5.1-5.13)

Dear Josh:

We are in receipt of Constellation NewEnergy-Gas Division, LLC's (Constellation) *Fifth* Set of Data Requests to Spire Missouri, Inc. and Its Operating Unit Spire Missouri West, received December 17, 2021, related to the above-referenced case. This letter should be considered an objection on behalf of Spire Missouri, Inc. (Spire Missouri) to the identified data requests in accordance with Missouri Public Service Commission Rule 20 CSR 4240-2.090(2), for the reasons described in the following paragraphs -

#### **GENERAL**

- Spire Missouri objects generally to the extent the referenced *Fifth Set of Data Requests* seek information protected by the attorney-client privilege and work product doctrine.

#### **INSTRUCTIONS AND DEFINITIONS**

- Spire Missouri objects to the third paragraph of the "Instructions and Definitions" on the grounds that producing a privilege log in each instance where a "responsive document is withheld for privilege *or otherwise*" [emphasis added] is overbroadly and unreasonably burdensome particularly in instances where a responsive document has no relevance to any fact or issue in this proceeding.

- Spire Missouri objects to the paragraph regarding the identification of an individual, to the extent it seeks information pertaining to said person's residential address or other personal information not relevant to any issue of fact or law that is the subject of this proceeding. Spire Missouri further objects to this paragraph as unduly burdensome and inconsistent with discovery practices in Commission proceedings.

#### FIFTH SET OF DATA REQUESTS

Spire Missouri Inc. objects to DR 5.1-5.13 as these requests are overly broad, unduly burdensome, vague, and not reasonably tailored or proportional to the needs of the case considering the totality of the circumstances, and seeks information is not relevant to the subject proceeding, nor reasonably calculated to lead to the discovery of admissible evidence, in that it requests information concerning matters having no impact on the four issues identified in the Commission's *Order Denying Motion to Dismiss* (May 26, 2021):

Whether Spire violated its tariff regarding -

- 1. the justification for issuance of operational flow orders,
- 2. the notice provided to shippers about those operational flow orders,
- 3. the duration of the operational flow orders, and
- 4. calculation of the penalties it seeks to impose.

Due to the press of various obligations and the absence of personnel over the holidays, Spire Missouri believes that it will not be able to provide responses until January 17, 2021.

#### Matt,

You said during our call on Monday that you would provide a written update by the end of this week on the timing of production of documents in connection with the CNEG's Fifth Set of DRs. You also agreed to provide clarify on Spire's destruction of records or preservation of relevant data (e.g. internal and ICE chats, internal emails, communications with Southern Star, communications with Spire Marketing) that relate to Spire's actions during February 2021.

Please don't delay in providing these updates.

Thank you for your response, Dean. Let's make it 2 pm on Monday then. I'll send a call-in number invite for the conference call.

I've added Judge Woodruff on this e-mail in the event we are unable to resolve the dispute on Monday — we can conference with the Judge on Tuesday, which hopefully won't be necessary.

Have a good New Years.

Would you or other Spire counsel be willing to try to resolve the dispute via email this week in lieu of a conference call? If not, we'd ask for a call first thing Monday (8 am) with the idea of taking any unresolved issues to the RLJ later in the day on Monday or Tuesday. Please let me know.

I hope everyone had a wonderful Christmas.

Let's go ahead and set up a call this week between Spire Missouri and CNEG regarding CNEG's DR 5.1 to 5.13 to Spire. Obviously, CNEG disagrees with Spire's blanket objections and believes all of its Fifth Set of Data Requests are relevant to this proceeding. Please let me know when you are available to talk this week. Richard and I are open Wed-Fri, and tomorrow except for 1:30-2:30. CNEG wants resolution to this discovery dispute as quickly as possible given the procedural schedule, so should talks between the parties not resolve the dispute, CNEG will work to setup a call with the RLJ early next week. Let me know dates/times that work for your side.

Case No. GC-2021-0315

## SPIRE MISSOURI INC'S RESPONSE TO <u>FIRST SET OF DATA REQUESTS</u> FROM CONSTELLATION NEWENERGY GAS DIVISION

Spire Missouri, Inc. ("Spire" or "Company") provides the following responses to

Constellation NewEnergy Gas Division's ("Constellation") First Set of Data Requests ("DR").

1. For the time period of February 10, 2021 to February 19, 2021, describe in detail Spire's evaluation, actions, and decisions regarding the need for an OFO on the Spire MO West System, including all conditions and circumstances giving rise to the need for the OFO.

#### **RESPONSE:**

The timing of the weather event being a late season cold, the OFO that Southern Star issued, and the need to uphold the integrity of our MO West system all played a part in making our decision to issue a LDC OFO. Spire began seeing prices beginning to rise prior to February 12<sup>th</sup> and available supply dwindling. Our storage position at that time was adequate to meet the needs of the rate-based customers' demand. Even though Spire was confident about our storage position, we were still concerned with the one-third flowing supply requirements for SSC storage and finding enough flowing supply. In addition to this supply discrepancy, Spire was dependent on our marketers' performance during this period to meet our overall supply needs. We felt that the best way to protect and maintain the integrity of our distribution system was to enter into an OFO effective Friday, February 12, 2021 until February 20, 2021. Even with this OFO in place, Spire nearly lost pressure to areas of our distribution system in Southwest Missouri.

2. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related to Spire's evaluation, actions, and decisions regarding the need for an OFO on the Spire MO West System, including all conditions and circumstances giving rise to the need for the OFO.

# **RESPONSE:**

# See objection previously filed. See also response to #1.

3. Describe in detail any risk of any failure of the integrity of the Spire MO West System from February 10, 2021 to February 19, 2021.

# **RESPONSE:**

# See response to DR 1.

4. Produce all email, correspondence and other documents related to the integrity of the Spire MO West System from February 10, 2021 to February 19, 2021.

# **RESPONSE:**

# Please see documents provided in DR AO-2021-0264 DR 0311 which are marked confidential and are protected under 20 CSR 4240-2.135(2)(A) 3 and 4.

5. For each OFO issued by Spire affecting the Spire MO West System, describe in detail any attempts by Spire to remedy the conditions or circumstances giving rise to the need for the OFO, including through requests for voluntary actions.

# **RESPONSE:**

# See response to DR 4.

6. For each OFO issued by Spire related to the Spire MO West System from February 10, 2021 to February 19, 2021, produce all email, correspondence, and other documents related to any attempts by Spire to remedy the conditions or circumstances giving rise to the need for the OFO, including through requests for voluntary actions.

# **RESPONSE:**

# See response to DR 4.

7. State whether the Spire MO West System was completely physically balanced on a cumulative basis by the end and for the month of February 2021.

# **REPSONSE:**

# During the time period of the polar vortex, Spire was concerned about maintaining the integrity of our system. At the end of February 2021, the Spire MO West System was physically balanced on a cumulative basis by the end of the month as normal.

8. State whether gas receipts and deliveries for any Spire transportation customers served by Constellation were physically balanced on a cumulative basis by the end and for the month of February 2021.

## **RESPONSE:**

# Constellation's transport customers were balanced with a cash out process at the end of the month and billed accordingly.

9. Describe in detail your method of calculation for each penalty or charge assessed against Spire transportation customers served by Constellation.

#### **RESPONSE:**

Spire compared confirmed nominations to our gate to the actual usage of Constellation customers on those days and applied the 5% threshold factor to come up with the imbalance (See Spire West's Tariff Sheet 16). Spire consulted Platt's Gas Daily for the SSC daily index price and multiplied that price by the daily volume of the imbalance.

10. Describe in detail your factual basis for each penalty or charge assessed against Spire transportation customers served by Constellation.

#### **RESPONSE:**

# Constellation's customers burned more gas than what Constellation was able to deliver to our gates for those days.

11. Produce all email, correspondence, and other documents related to any penalties and charges assessed related to any OFO or POC affecting the Spire MO West System from February 10, 2021 to February 19, 2021.

#### **RESPONSE:**

#### Please refer to the attached correspondence.

12. Produce all email, correspondence, and other documents related to billing or invoicing related to any OFO or POC affecting the Spire MO West System from February 10, 2021 to February 19, 2021.

#### **RESPONSE:**

#### Please refer to the attached correspondence.

13. For each penalty or charge assessed against Spire transportation customers served by Constellation, describe in detail all costs incurred by Spire in connection with providing the services giving rise to the penalty or charge.

#### **RESPONSE:**

We followed our tariff curtailment plan and applied the OFO to all marketers equally. The penalties were assessed based on the tariff formula, which was applied equally to all defaulting marketers. Attached please find a summary of Spire's

# incremental gas purchases during the OFO period (actual cover costs) which is confidential and protected under Commission Rule 20 CSR 4240-2.135(2)(A) 3 and 4.

14. Produce all supporting documentation for the gas purchases Spire refers to its Motion to Intervene and Comments of Spire Missouri Inc. in the proceeding before the Federal Energy Regulatory Commission, Docket No. RP21-618-000, in which it states "Spire Missouri acquired significant quantities of flowing gas to ensure it could meet the requirements of its customers and incurred a considerable expense to do so during the period of peak demand."

# **RESPONSE:**

Attached please find a summary of Spire's incremental gas purchases during the OFO period (actual cover costs) which is confidential and protected under Commission Rule 20 CSR 4240-2.135(2)(A) 3 and 4.

15. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related to Spire's acquisition of gas or attempts to acquire gas on the Spire MO West System from February 10, 2021 to February 19, 2021.

# **RESPONSE:**

During this time period, correspondence between Spire and other parties relating to gas acquisition mostly occurred via telephone call and ICE. Spire does not have detailed records of those conversations.

16. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related to requests for voluntary actions from any upstream pipeline (including Southern Star) to Spire regarding the Spire MO West System.

# **RESPONSE:**

# Please refer to OFO postings by upstream pipelines.

17. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related to any OFO (including OFOs for gas transport, gas deliveries, gas imbalances, storage withdraws, and operational balance agreements), functional equivalent of OFOs, critical notices, notices of any other requirement, or force majeure notices from any upstream pipeline (including Southern Star) to Spire regarding the Spire MO West System.

# **RESPONSE:**

Please see the attached documents that the Company provided in DR AO-2021-0264 DR 0306.

18. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related to any penalties and charges assessed by any upstream pipeline (including Southern Star) to Spire regarding the Spire MO West System.

# **RESPONSE:**

# All OFO penalties otherwise due to Southern Star were waived by FERC. For additional information, see Docket No. RP21-618-000.

19. For the time period of February 1, 2021 to the present, produce all email or other correspondence between Spire and any transportation customer served by Constellation for which Spire seeks recovery of OFO penalties.

# **RESPONSE:**

Spire's informal procedure is to provide notice to any customer or community that could be impacted by a curtailment. This includes the media, residential customers, commercial and industrial customers, state and local government officials. Also see Spire's presentation from the Commission's February cold weather event workshop on March 23, 2021. Please also see the attached documents that the Company provided in response to DR 183 in AO-2021-0264. There is no known correspondence with Constellation customers at this time, but the investigation is ongoing.

20. For each OFO issued by Spire to Spire transportation customers served by Constellation, describe in detail each effort to provide notice of the OFO, including the manner of notice attempted, the date and time of attempt, the person attempting to provide notice, and the intended recipient (with contact information) of the notice.

# **RESPONSE:**

Spire notified Constellation and all other marketers of its OFO. See attached correspondence. There is no known correspondence with Constellation customers, but the investigation is ongoing. The Company engaged in general public communications about the impact of the polar vortex and the need to conserve natural gas during this time.

21. For the time period of February 1, 2021 to the present, produce all email, correspondence and other documents related communications or attempts to communicate with Spire transportation customers served by Constellation regarding an OFO.

# **RESPONSE:**

#### See response to DR 19.

22. If you contend that any Spire transportation customers served by Constellation failed to make all reasonable attempts to comply with any OFO or Spire directives, produce all correspondence and other documents related to your contention.

## **RESPONSE:**

#### See response to DR 10.

23. Produce a detailed, daily list of all nomination changes and physical curtailments made by Spire for and on gas transport, receipt, and delivery volumes for any Spire transportation customers served by Constellation from February 10, 2021 to February 19, 2021.

## **RESPONSE:**

## Spire Missouri did not physically curtail any transportation customers.

24. Produce a detailed list of all unauthorized deliveries under any OFO or during a POC affecting the Spire MO West System from February 10, 2021 to February 19, 2021, including for each such unauthorized delivery the customer, meter, and daily unauthorized volume.

## **RESPONSE:**

# Please refer to the attached confidential spreadsheet showing all OFO penalties by marketer. This information is confidential and protected under 20 CSR 4240-2.135(2)(A) 3 and 4.

25. Produce a detailed list of all penalties and charges assessed related to any OFO or POC affecting the Spire MO West System from February 10, 2021 to February 19, 2021, including for each such penalty or charge the customer, any customer agent, any customer marketer, the OFO or POC underlying the penalty or charge, the amount of the penalty or charge, and the basis for the calculation of the penalty or charge.

# **RESPONSE:**

#### See response to DR 24.

26. For the time period of February 1, 2021 to the present, produce all email or other correspondence between Spire and Spire Marketing relating to each OFO issued by Spire related to the Spire MO West System from February 10, 2021 to February 19, 2021.

#### **RESPONSE:**

Spire Missouri communicated with Spire Marketing in the same manner it did with all marketers. Please refer to the attached confidential correspondence with Spire Marketing regarding its OFO penalties, which have been paid. This information is confidential and protected by 20 CSR 4240-2.135(2)(A) 1.

27. For the time period of February 1, 2021 to the present, produce all email or other correspondence between Spire and Spire Marketing relating to the Winter Storm Event.

# **RESPONSE:**

#### See response to DR 26.

28. For the time period of February 1, 2021 to the present, produce all email or other correspondence between Spire and Spire Marketing relating to OFOs on Spire MO West System from February 10, 2021 to February 19, 2021.

## **RESPONSE:**

#### See response to DR 26.

29. For the time period of February 1, 2021 to the present, produce all email, correspondence, or other documents regarding sales of gas between Spire and Spire Marketing from February 10, 2021 to February 19, 2021.

#### **RESPONSE:**

#### Spire Missouri did not have any sales to Spire Marketing during this period.

30. For the time period of February 1, 2021 to the present, produce all email and correspondence between Spire and Spire Marketing regarding (i) any transportation customer served by Constellation (ii) the Constellation pool of gas supply on Spire (ii) the issuance of or potential issuance of an operational flow order by Spire, (iv) the impact on Spire Marketing of any OFO notice issued or penalty assessed by Spire.

#### **RESPONSE:**

- i) There was no correspondence with Spire Marketing about transportation customers served by Constellation.
- ii) None
- iii) See response to DR 26

| 6 A. Good morning.  | 6 Q. And currently who do you report to?  |
| 7 Q. Could you pronounce your last name   | 7 Who is above you in the chain of command?   |
| 8 again for me because I think I've been getting it   | 8 A. I report directly to Scott Carter, the   |
| 9 wrong all this time.  | 9 president of Spire Missouri.  |
| 10 A. Yeah, George Godat.   | 10 Q. And who are your direct reports?  |
| 11 Q. Godat?  | 11 A. On the gas supply side, Justin Powers   |
| 12 A. Yes.  | 12 runs gas supply for all the utilities. Alex Grewach  |
| 13 Q. Okay. Thank you. Nice to meet you.  | 13 runs gas control. I have three directors on the  |

| 17   | A. No, I'm fine talking about each one.  | 17   | the topics, as opposed to privileged meetings with   |
| 18   | Q. So since you're testifying as the   | 18   | counsel.   |
| 19   | representative, I'm going to try to use the word   | 19   | MR. BAUER: Okay. Well, I think his   |
| 20   | Spire rather than you –  | 20   | meeting with you to get ready for the topics, to get   |
| 21   | A. Okay.   | 21   | ready for this deposition would be privileged too.   |
| 22   | Q. – because you're testifying on behalf   | 22   | I'm not trying to  |
| 23   | of Spire. When we take your deposition personally,   | 23   | MR. GORE: Right.   |
| 24   | we may ask you what did you do, what do you know,  | 24   | MR. BAUER: I'm not trying to bust your   |

| 6   | A. The majority of my time was just spent   | 6        | produce at this time.   |
| 7   | getting myself familiar with these documents.   | 7        | Do you see that?  |
| 8   | Q. Do you know how those documents came to  | 8        | A. Yes, sir.  |
| 9   | be a set that were given to you?  | 9        | Q. Do you do you know or let me ask   |
| 10  | A. It was it was information that   | 10       | you this: What does it mean when it says there that   |
| 11  | counsel pulled that thought they thought was  | 11       | Spire has no additional responsive documents to   |
| 12  | representative of the questions that had been asked   | 12       | produce at this time? Can you explain that to me?   |
| 13  | in the deposition.  | 13       | MR. GORE: At this point I'm just going  |
| 14  | Q. Did you review any documents other than  | 14       | to point out that I submitted written objections to   |
| 15  | the ones that are in these binders in preparation   | 15       | topic one, and after the objections what I stated   |
| 16  | for this deposition?  | 16       | the witness would be prepared to testify about is   |
| 17  | A. Yeah, none that I can think of.  | 17       | that we would produce the corporate representative  |
| 18  | MR. GORE: For the record, Steve, I'd  | 18       | who would be capable of testifying regarding the  |

| 21  | him I can or just   | 21       | question you just asked goes beyond that in terms of  |
| 22  | MR. BAUER: Sure. Let's just get it  | 22       | asking what was Matt Aplington's thought process  |
| 23  | out.  | 23       | when he wrote a sentence in a letter.   |
| 24  | MR. GORE: Bob McKee.  | 24       | MR. BAUER: Okay. But I'm asking what  |
| 25  | A. Oh, Bob McKee. Yeah, I'm sorry. He's   | 25       | Spire does Spire have any understanding of what   |
|     | Page 22   |          | Page 24   |
| 1   | our records retention coordinator or manager.   | 1        | that means and what does that mean to us in this  |
| 2   | Q. (By Mr. Bauer) At Spire?   | 2        | litigation. So I take your objection. There's some  |
| 3   | A. At Spire.  | 3        | discussion on our side of the aisle here about  |
| 4   | Q. Bob McKee?   | 4        | whether those objections were late, and that's  |
| 5   | A. Bob McKee, correct.  | 5        | something we can talk about later. We don't need to   |
| 6   | Q. Okay. Thank you. Okay. Take a look,  | 6        | burn time on this now.  |
| 7   | if you would, at Exhibit 1. It's on page four,  | 7        | MR. GORE: I'm pretty sure under   |
| 8   | examination topic number one. Just for keeping  | 8        | Missouri law they were not late.  |
| 9   | yourself organized there, as a general rule I'm just  | 9        | MR. BAUER: I didn't it wouldn't   |
| 10  | going to plow through these topics one after the  | 10       | surprise me that we might disagree on that. But so  |
| 11  | next. I may skip around a little bit, but not too   | 11       | l take I take your objection, but can he just   |
| 12  | much. So you probably want to just keep Exhibit 1   | 12       | answer the question or are you going to instruct him  |
| 13  | in front of you.  | 13       | not to answer?  |
| 14  | So topic one is (quote as read):  | 14       | MR. GORE: No, you can answer if you're  |

| 19   | thinking about the same words.  | 19   | within Spire to know whether there were documents   |
| 20   | A. Yeah. Could you explain what you're  | 20   | that were requested by Symmetry that Spire is   |
| 21   | talking about in context of?  | 21   | withholding?  |
| 22   | Q. Yeah, sure. I mean, my question is   | 22   | A. I have not specifically asked that   |
| 23   | I'll take a step back. Symmetry requested a bunch   | 23   | question.   |
| 24   | of documents from Spire in this case. My question   | 24   | Q. What did you do specifically to prepare  |

| 7            | Q. (By Mr. Bauer) It's number three.                     | 7  | involved with monitoring the gas market forecasts?   |
| 8            | A. Yes. I see it here now. Yeah, I think                 | 8  | A. Justin Powers that runs gas supply,               |
| 9 itv        | was it was the fear of what actually happened            | 9  | he he monitors the forecasts and keeps track of      |

| 11           | Q. Let me ask you, when you were preparing               | 11 | the one that actually puts the forecast out for what |
| 12 <b>fo</b> | r this deposition, did you — did you understand          | 12 | our system demand is going to be.                    |
| 13 <b>th</b> | at these topics that you were going to testify           | 13 | Q. And the gas control reports to                    |
| 14 <b>ca</b> | ame directly out of that letter from Mr. Aplington       | 14 | Mr. Powers?  |
| 15 <b>or</b> | did you just, you know, determine that now?              | 15 | A. It reports to me.                                 |
| 16           | MR. GORE: I'm going to I'm going to                      | 16 | Q. It reports to you?                                |
| 17 ob        | pject, beyond the scope of the notice and                | 17 | A. It does.  |
| 18           | A. I'm familiar with this document. I                    | 18 | Q. So who's in charge of gas control                 |
|              | dn't go through and try to specifically see if           | 19 | again? I'm sorry if you told me and I have           |
|              | formation and different pieces of correspondence         | 20 | forgotten the name.                                  |
|              | ed exactly to what the questions were in this            | 21 | A. No, I don't. Alex Grewach is the name.            |
|              | ocument.   | 22 | Q. And who are the people that were                  |
| 23           | Q. (By Mr. Bauer) Okay. Okay. So going                   | 23 | monitoring the gas market forecasts for Spire in     |
|              | ack to topic 2A (quote as read):                         | 24 | February 2021? Is it those two gentlemen?            |
| 25           | As a result gas markets were forecast                    | 25 | A. That would be our whole gas supply team           |

| 1  | and gas control. So Alex and his staff.              | 1  | MR. GORE: And George, I just instruct                |
| 2  | Q. How do how do those groups                        | 2  | you look at the letter and read it                   |
| 3  | communicate with each other within Spire?            | 3  | THE WITNESS: Yeah.                                   |
| 4  | MR. GORE: I'm going to object, vague.                | 4  | MR. GORE: in context of the letter                   |
| 5  | You can answer.                                      | 5  | before you answer. Thank you.                        |
| 6  | A. Gas control actually sends the forecast           | 6  | A. Yeah. It's giving notice to the                   |
| 7  | over showing what our excuse me based on the         | 7  | marketers that we're in an OFO situation.            |
| 8  | temperature forecast what our system demand is going | 8  | Q. (By Mr. Bauer) And what is the purpose            |
| 9  | to be, but in general they spend a lot of time on    | 9  | of an OFO?   |
| 10 | phone conversations and situations like this.        | 10 | A. It is to protect the integrity of our             |
| 11 | Q. (By Mr. Bauer) Were their documents               | 11 | system and it is to make sure that we stay in        |
| 12 | collected for this case?                             | 12 | compliance with our upstream pipelines.              |
| 13 | MR. GORE: I'm going to object, vague.                | 13 | Q. Any other purposes?                               |
| 14 | A. Yeah, I think that's a given.                     | 14 | A. Yeah, it's basically since the utility            |
| 15 | Q. (By Mr. Bauer) Meaning that – I'll                | 15 | has no control over the supply that's that's         |
| 16 | respond. It was a vague question. I'll make it a     | 16 | brought in to serve the marketers, it's to make sure |
| 17 | little tighter.                                      | 17 | that the marketers are doing their part to bring     |
| 18 | Were documents related to the winter                 | 18 | that supply in.                                      |

| 21 | A. They were.  | 21 | trouble hearing the witness. He keeps dropping his   |
| 22 | MR. GORE: I'm going to object. I'll                  | 22 | voice a little. Can you guys make an effort,         |
| 23 | object, vague. You can answer.                       | 23 | please, to either get him closer or have him speak   |
| 24 | A. Okay. Yeah, they were.                            | 24 | up?  |
| 25 | Q. (By Mr. Bauer) And were all the                   | 25 | THE WITNESS: I'll try to speak up. I                 |

| 2  | us in this case?                                     | 2  | MS. BAIRD: Thank you.                               |
| 3  | A. Like I mentioned before, it's my                  | 3  | Q. (By Mr. Bauer) Okay. So are there                |
| 4  | understanding that if someone was asked to produce   | 4  | procedures in place for Spire on when to declare an |
| 5  | documents, they produced the documents.              | 5  | OFO and when not to?                                |
| 6  | Q. Now, do these folks in gas control, do            | 6  | A. Procedure-wise, I mean, there's a lot            |
| 7  | they have any means for communicating with each      | 7  | of things that the utilities have to do to stay in  |
| 8  | other other than by telephone?                       | 8  | compliance with their tariff, and not everything is |
| 9  | A. They do. The forecasts that they send             | 9  | written down in a formal procedure. So the tariff   |
| 10 | out to gas supply, the forecast was actually one of  | 10 | itself is the guidepost for gas supply making the   |
| 11 | the documents that's included in this binder.        | 11 | decision to go into an OFO.                         |
| 12 | Q. And do they communicate by – by e-mail            | 12 | Q. So Spire does not have any other                 |
| 13 | or by some other way?                                | 13 | internal procedures related to whether or not to go |
| 14 | A. Typically by e-mail.                              | 14 | into an OFO; is that true?                          |
| 15 | Q. In February 2021, were those folks                | 15 | A. Yeah, we don't have a formal procedure           |
| 16 | working remotely or were they on-site here at Spire? | 16 | for that, correct.                                  |
| 17 | A. The controllers themselves were                   | 17 | Q. Okay. So who was involved in the                 |
| 18 | on-site.   | 18 | decision whether to declare an OFO?                 |
| 19 | Q. All right. Let's go to topic 2B,                  | 19 | MR. GORE: I'm going to object. Are                  |
| 20 | please. Here it says (quote as read):                | 20 | you vague. And I would just ask you to specify      |
| 21 | Spire reacted by initiating an OFO to                | 21 | whether you're talking about the present matter.    |
| 22 | all marketers for the projected start                | 22 | MR. BAUER: Absolutely right.                        |
| 23 | of the storm and short market.                       | 23 | Q. (By Mr. Bauer) Who was involved at               |
| 24 | It says initiating an OFO. What does                 | 24 | at Spire in February of 2021 in deciding when and   |
| 25 | that entail?   | 25 | whether to have an OFO?                             |

| 10 | when to initiate an OFO?                             | 10   | media campaign.                                      |  |
| 11 | MR. GORE: I'm going to object to the                 | 11   | We provided the pressure profile on the              |  |
| 12 | term debate as vague. Go ahead and answer.           | 12   | Southern Star system in Southwest Missouri where you |  |
| 13 | A. Yeah, it was actually the timing                  | 13   | could see we were we were dramatically losing        |  |
| 14 | fell in to where it didn't even require a lot of     | 14   | pressure over a short amount of time. So that        |  |

| 2  | A. It just reinforced to us that it was              | 2  | you know, the utility Spire as a whole, you know,    |  |
| 3  | absolutely necessary to do.                          | 3  | especially our gas supply team prides their self on  |  |
| 4  | Q. Are there any documents at Spire                  | 4  | as far as preparedness. We run a lot of regression   |  |

| 6  | unnecessary?   | 6  | grasp on what our firm requirements are going to be. |  |
| 7  | A. I'm not aware of any of those                     | 7  | You know, we clearly understand the                  |  |

| 15 | integrity was not at risk during any time during     | 15   | probably the main focus for the company is just      |  |

| 17 | MR. GORE: I'm going to object, vague                 | 17   | Q. So you mentioned regression analyses.             |  |

| 19 | A. Yeah, I mean, to the contrary, there              | 19   | A. That's where we would look at                     |  |
| 20 | was there was actually a lot of concern during       | 20   | historical usage information as compared to and      |  |

| A. We did.  | 2  | A. Yeah, I mean, I'm one of, what, 3500              |
| Q. And what did you do? What did Spire              | 3  | employees. So it would be hard for me to for me      |
| do?   | 4  | to be able to do a good job of saying that           |
| A. I mean, there was a lot of actions that          | 5  | everything that Spire did preparing for the storm.   |
| were taken. I know field operations was looking at  | 6  | Q. (By Mr. Bauer) Okay. So                           |
| their staffing to see if they needed to add extra   | 7  | A. If that I'm just saying there's a                 |
| technicians, you know, for increased calls. On the  | 8  | lot of activity and there's a lot of employees, so I |
| gas supply side I know Justin and his team were     | 9  | mentioned some of the highlights of the things that  |
| were trying to figure out where the more vulnerable | 10 | I knew were going on, but I can't imagine that there |
| suppliers were going to be and actually made some   | 11 | probably wasn't a lot of other things taking place   |
| contract changes to to be able to source some       | 12 | that I don't necessarily know about them.            |
| supply that had a less likelihood of being          | 13 | Q. So now let me limit the question by               |
| interrupted. I think just a lot of communication    | 14 | time and say from the time that gas markets were     |
| with the upstream pipelines on, you know, what they | 15 | forecast to become very short in February until the  |
| were seeing from a supply perspective and our       | 16 | time of issuing the OFO, what did Spire do to        |
| producers. So it was a pretty hectic time.          | 17 | prepare for the disruption in the gas markets?       |

| 3  | (WHEREIN, a recess was taken.)  | 3  | Q. And how did the OFO affect that?   |
| 4  | VIDEOGRAPHER: On the record, 9:23 a.m.  | 4  | A. I realize that marketers didn't meet   |
| 5  | Q. (By Mr. Bauer) Mr. Godat, let me go  | 5  | the firm obligation that they had, but I think the  |
| 6  | back and just ask a couple more questions about   | 6  | situation could have been even worse if we weren't  |
| 7  | these regression analyses that that Spire does.   | 7  | in an OFO. We could have seen we could have seen  |
| 8  | Can you tell me exactly who runs those?   | 8  | the marketer volumes all the marketers go to  |
| 9  | A. You mean who physically is actually  | 9  | zero, not just Symmetry.  |

| 11   | Q. Yeah.  | 11   | Let me see exactly what he said. What do you mean   |
| 12   | A. Yeah, like I mentioned, Sean Sean  | 12   | by it could have even been worse if we weren't in an  |
| 13   | Simpson, he is currently in gas supply, but he  | 13   | OFO, anything other than that all of the marketers  |
| 14   | worked in he worked in our system planning team   | 14   | might have gone to zero?  |
| 15   | and then was a gas controller and now he's in gas   | 15   | A. Yeah, I mean, if you look, there was   |
| 16   | supply. So he worked, put a lot of those  | 16   | there was supply that the marketers brought in  |
| 17   | regressions together. It's something that Spire's   | 17   | during that period that ultimately contributed to us  |
| 18   | done for years and just gets updated on an annual   | 18   | not having to curtail our firm customers. I think   |

| 2  | Q. (By Mr. Bauer) Okay. Let's go back to   | 2  | Q. (By Mr. Bauer) So if you don't know   |
| 3  | Exhibit 1, and now I'm going to jump ahead a little  | 3  | you don't know. I'm going to ask a follow-up   |
| 4  | bit and look at topic number three, which is at the  | 4  | question, and I don't want to sound like I'm   |
| 5  | bottom of page five.   | 5  | confronting you, right, but was there any analysis   |
| 6  | MR. GORE: And the documents in the   | 6  | done that would say if marketers could supply, say,  |
| 7  | binder will be tab nine.   | 7  | half of that ten percent, then that would not be   |
| 8  | THE WITNESS: Tab nine?   | 8  | a then that would have any effect on Spire's   |
| 9  | MR. GORE: Yes, documents you reviewed  | 9  | system integrity?  |
| 10   | in preparation for this topic.   | 10   | MR. GORE: I'm going to I'm going to  |
| 11   | THE WITNESS: Oh, over here. Somehow I  | 11   | object, foundation, compound, improper hypothetical.   |

| 13   | Q. (By Mr. Bauer) Okay. So topic three   | 13   | Q. (By Mr. Bauer) Kind of a little   |
| 14   | says (quote as read):  | 14   | unclear too, but if you —  |
| 15   | Any analysis Spire engaged in  | 15   | A. Yeah, I mean, with Southern Star being  |
| 16   | concerning the issuance of the   | 16   | in an OFO our our receipts and deliveries at our   |
| 17   | operational flow order Spire issued on   | 17   | gates had to match. So if we were we were using  |
| 18   | February 10, 2021, including why it was  | 18   | all of our firm requirements and marketers   |
| 19   | necessary, when it should be issued,   | 19   | customers were burning their supply and not bringing   |
| 20   | and any internal discussions or  | 20   | the supply in to match it, then those OFO penalties  |
| 21   | communications with third parties about  | 21   | come back on us.   |
| 22   | this topic.  | 22   | So like I say, I know I can say I  |
| 23   | I think in our discussions we've   | 23   | know generally about how much of the supply is   |
| 24   | we've gone pretty far into this topic already, but I   | 24   | provided by a third party. I don't have the  |
| 25   | see you turning to a binder. I'm interested in   | 25   | regression numbers, you know, based on the   |

| 10 | Spire conclude that it did not have enough gas in    | 10 | Q. This is the topic we're talking about             |
| 11 | storage to meet demand?                              | 11 | now. So tell me what did you do to prepare to be     |
| 12 | MR. GORE: I'm going to object,                       | 12 | Spire's corporate representative for topic number    |
| 13 | foundation and vague. You can answer.                | 13 | six?   |
| 14 | A. Like I mentioned, there wasn't a time             | 14 | MR. GORE: If I could just state for                  |
| 15 | when our overall inventory limited our daily storage | 15 | the record, the documents reflecting the documents   |
| 16 | capability.  | 16 | that he reviewed in preparation for Symmetry topic   |
| 17 | MS. BAIRD: I'm sorry, could the                      | 17 | six, which is Constellation topic 12 is at tab 12 of |
| 18 | witness repeat that, please? I couldn't hear you.    | 18 | the binder. At least that's how we correlated it.    |
| 19 | A. I said there was no time during the               | 19 | Q. (By Mr. Bauer) Okay. So then my                   |
| 20 | storm that our overall inventory had any limitation  | 20 | question is what did you do to prepare to be Spire's |
| 21 | on the amount that we could pull out on a daily      | 21 | testifying witness on topic six?                     |
| 22 | basis.   | 22 | A. Yeah, so so my understanding after                |
| 23 | MS. BAIRD: Thank you.                                | 23 | reviewing the documents was that                     |
| 24 | THE WITNESS: You're welcome.                         | 24 | Q. Sorry.  |
| 25 | Q. (By Mr. Bauer) During the winter storm            | 25 | A. That's fine. We definitely didn't have            |
|    |  |    |  |
|    | Page 70  |    | Page 72  |
| 1  | period, did Spire ever release natural gas to other  | 1  | an overall inventory limitation, so our gas supplies |
| 2  | companies?   | 2  | goal was to stay in balance on Southern Star. And    |
| 3  | A. We had some capacity that was released            | 3  | I'm sure everybody can have an appreciation for      |
| 4  | into the market.                                     | 4  | for the uncertainty around the amount of supply that |
| 5  | Q. And when was that?                                | 5  | was going to be available on any given day.          |
| 6  | A. I don't know the exact nature of the              | 6  | So there there were a couple big                     |
| 7  | transactions.  | 7  | issues. One was whether whether the marketers        |
| 8  | Q. You say you don't know when it                    | 8  | were going to deliver and then the other issue is    |
| 9  | happened? That was my question.                      | 9  | is whether the supply that we were buying was going  |
| 10 | A. I don't know exactly when it happened.            | 10 | to show up. So there were there were a lot of        |
| 11 | That's correct.                                      | 11 | moving parts. So what I understand from Justin was   |
| 12 | MR. GORE: I'm going to object. Are we                | 12 | that he did his best to optimize just the overall    |
| 13 | still on topic three? Because I think this is        | 13 | portfolio the best he could during that vortex time. |
| 14 | beyond the scope of that topic.                      | 14 | Q. Okay. What did you do to prepare to               |
| 15 | MR. BAUER: It probably drifts into a                 | 15 | testify as Spire's representative on topic six?      |
| 16 | different topic, but since we're talking about it I  | 16 | A. Really the big issue was whether or not           |

we had enough inventory to make it through the
vortex.
MR. GORE: And George, I would just -if you could, listen to the question because I think
he's asking you a different question.

- A. Okay. Yeah, so I mean, I looked at the
- 23 documents here where we explain the process that we
- $2\,4\,$   $\,$  went through deciding how much storage was going to
- 25 be used.

| 7  | attorneys; is that accurate?  | 7  | That's a totally different topic?  |
| 8  | A. That's correct.  | 8  | A. That's correct.   |
| 9  | Q. And did you do anything else?  | 9  | Q. So for releasing capacity, on that  |
| 10   | A. Yeah, there really wasn't any other  | 10   | topic, who made the decisions to release capacity to   |
| 11   | information to that I needed to understand that   | 11   | third parties during the February storm?   |
| 12   | topic.  | 12   | MR. GORE: I'm going to object, beyond  |

| 15   | about the release of the capacity by Spire to the   | 15   | Q. (By Mr. Bauer) Do you know?   |

| 17   | you didn't know you didn't know the details of  | 17   | Q. All right. So now let's look at   |
| 18   | when it happened and I think you said you don't know  | 18   | let's look at topic six and talk about drawing from  |
| 19   | to whom the capacity was released. Is that true?  | 19   | storage or selling gas to third parties. Did did   |
| 20   | A. Yeah, I don't recall those off the top   | 20   | Spire draw from storage and sell gas to any third  |
| 21   | of my head.   | 21   | parties during February 2021?  |
| 22   | Q. Okay. Do you know why it was released?   | 22   | MR. GORE: I object, compound, vague.   |
| 23   | A. It's a common practice. Utilities  | 23   | A. We we had a storage transaction   |
| 24   | typically hold the majority of the firm in the  | 24   | where we sold some inventory to another party.   |

| 3  | ability to recall that capacity if we need it.  | 3  | Q. And who was involved in that decision?  |
| 4  | Q. But for this particular event you don't  | 4  | A. Justin Powers and I.  |

| 11 | not going to be a very well asked question. Was the  | 11 | from our inventory to Atm     |
| 12 | reason for that the transaction happened on that     | 12 | was no there's nothing        |
| 13 | date, was that when Atmos asked for the gas or was   | 13 | other than going from ou      |
| 14 | that when Spire said it had it available or some     | 14 | account.                      |
| 15 | other reason?  | 15 | Q. (By Mr. Bauer)             |

| 20 | A. Yeah, that's not something we talked              | 20 | A. Yeah, we felt like         |
| 21 | about ahead of this opportunity. So I don't have     | 21 | the inventory that we had     |

| 1  | our operation at all. So it was a win/win for us.    | 1  | Q. (By Mr. Bauer) Yeah, so is there a             |
| 2  | Got you know, Atmos is a sister utility, got them    | 2  | factual basis for that statement?                 |
| 3  | out of bad shape, and we didn't feel like it was     | 3  | A. Yeah, as I reviewed the information and        |
| 4  | going to impact our operation at all.                | 4  | I look at the daily imbalance calculation for     |
| 5  | Q. All right. Let's go on to another                 | 5  | Symmetry, it appears as though their usage stayed |
| 6  | topic in Exhibit 1. I think we are up to – we're     | 6  | consistent and did not did not decrease whenever  |
| 7  | up to 2D, but I think may skip that. Let's look at   | 7  | Symmetry's noms went to zero.                     |
| 8  | 2E if you would, please.                             | 8  | Q. Okay. And you called it a daily                |
| 9  | A. This ties back to the letter?                     | 9  | imbalance what's the phrase?                      |
| 10 | Q. Ties back to the letter, and actually             | 10 | A. Your daily imbalance calculation. It's         |
| 11 | if you look at it, it ties back to the topic we just | 11 | the support for the OFO calculation.              |
| 12 | skipped, which is we skipped 2D, which referred      | 12 | Q. And so tell me about the daily                 |
| 13 | to item six in Mr. Aplington's letter. And then      | 13 | imbalance calculation. Is that something that gas |
| 14 | item seven says (quote as read):                     | 14 | control does?                                     |
| 15 | Symmetry apparently didn't communicate               | 15 | A. Gas supply.                                    |
| 16 | these facts to its customers behind                  | 16 | Q. Gas supply. And who is in charge of            |
| 17 | Spire's city gates.                                  | 17 | doing that?                                       |
| 18 | So you have to look at number six to                 | 18 | A. Justin Powers and his team.                    |
| 19 | know what these facts are on item seven. Does that   | 19 | Q. And tell me how that calculation is            |
| 20 | make sense to you?                                   | 20 | arrived at.                                       |
| 21 | A. Yes.  | 21 | MR. GORE: And are we are we                       |
| 22 | Q. Great.  | 22 | talking I'm going to object, vague. I'm not sure  |
| 23 | A. What's the question?                              | 23 | whether you're talking generally or during this   |
| 24 | Q. There's not one out yet.                          | 24 | particular OFO period.                            |
| 25 | A. Oh.   | 25 | Q. (By Mr. Bauer) I guess I would be              |
|    | Page 82  |    | Page 84   |

| 2  | same page. So the question is what is Spire's basis | 2  | during this OFO period that you normally do it.      |
| 3  | for saying that Symmetry apparently didn't          | 3  | A. Yeah, there there's a sheet you                   |
| 4  | communicate facts to its customers behind Spire's   | 4  | know where the OFO calculation sheet is?             |
| 5  | city gate?  | 5  | MR. GORE: We can't testify, but                      |
| 6  | A. Yeah, I mean, Mr. Aplington was the one          | 6  | the  |
| 7  | that wrote the document, but given the fact that    | 7  | MR. BAUER: You can show him. I mean,                 |
| 8  | Spire that Symmetry's customers continued to burn   | 8  | you prepared the documents for him. Show him the     |
| 9  | gas as though we weren't in an OFO and Symmetry's   | 9  | documents. It's no secret here.                      |
| 10 | volumes were zero, I think it was just pretty       | 10 | MR. GORE: All right. The documents                   |
| 11 | obvious that there was some disconnect between      | 11 | relating to damages calculations are tab one         |
| 12 | Symmetry and its customers.                         | 12 | THE WITNESS: Okay.                                   |
| 13 | Q. And is there anything other than that            | 13 | MR. GORE: which is this binder,                      |
| 14 | observation that supports Spire's position in that? | 14 | which is binder                                      |
| 15 | A. Yeah, like I say, I can't speak for              | 15 | THE WITNESS: Oh, I'm sorry. Sorry, I                 |
| 16 | Mr. Aplington.                                      | 16 | got too much info running in my head here. I'm a     |
| 17 | Q. Now, in the topic 2F, which is also              | 17 | little slow.   |
| 18 | sort of related, it says (quote as read):           | 18 | A. Yeah, so if you go to your it's a                 |
| 19 | Symmetry customers largely did not                  | 19 | very simple calculation. It's the nominated          |
| 20 | conserve natural gas during this                    | 20 | quantity that Symmetry had on a daily basis. It's    |
| 21 | period.   | 21 | the usage in total of all the customers that         |
| 22 | Is that a true statement?                           | 22 | Symmetry serves, and the imbalance there's a five    |
| 23 | MR. GORE: I'm going to object to that               | 23 | percent tolerance that's given, so that five percent |
| 24 | as improper corporate rep testimony. I believe the  | 24 | is backed out and then the difference of those two   |
| 25 | topic relates to the factual basis.                 | 25 | is the imbalance calculation.                        |

| 1  | Q. (By Mr. Bauer) And so is this based on            | 1  | Q. Okay.   |
| 2  | a report that Spire receives every day?              | 2  | A. I don't I don't have the exact time             |
| 3  | A. The the usage the nomination and                  | 3  | of what those nomination cycles are.               |
| 4  | usage is something that Spire has every day.         | 4  | Q. And what are the cycles for for                 |
| 5  | Q. That's something that Spire day.                  | 5  | Spire being able to tell what the marketers'       |
| 6  | every day I should have said, right?                 | 6  | customers used? Is that four times a day as well?  |
| 7  | A. You know, I don't actually I'm not                | 7  | A. We get that information on a daily              |
| 8  | responsible for those reports. I would have to see   | 8  | basis from what I understand.                      |
| 9  | if that's something that's generated every day.      | 9  | Q. And do you get it at the end of the             |
| 10 | Q. And when it's generated, is it                    | 10 | day, beginning of the day?                         |
| 11 | circulated to any group of people?                   | 11 | A. I couldn't tell you the timing of when          |
| 12 | A. I don't have an answer to that                    | 12 | that comes in.                                     |
| 13 | question. I don't physically generate that report    | 13 | Q. And that involves an accumulation of            |
| 14 | so I couldn't answer.                                | 14 | meter readings of just all specific meter readings |
| 15 | Q. If somebody doesn't really know how               | 15 | for marketers' customers?                          |
| 16 | your system works, how what's the mechanism for      | 16 | A. From reviewing the data, that's my              |
| 17 | Spire knowing what the usage is of various customers | 17 | understanding, that there's a meter read for each  |
| 18 | on a given day?                                      | 18 | customer for each marketer.                        |
| 19 | A. There's from what I understand,                   | 19 | Q. And is there a system by which Spire            |
| 20 | there's meter read data that's collected by a        | 20 | gives that information back to the marketers on a  |
| 21 | third-party system, and we get a download of that    | 21 | daily basis?                                       |
| 22 | data.  | 22 | A. Well, the marketers from what I                 |
| 23 | Q. So  | 23 | understand, the marketers have access to the same  |
| 24 | A. And then they and then that's                     | 24 | information that Spire does.                       |
| 25 | compared gas supply knows what the nominations       | 25 | Q. And how do you know that?                       |
| 23 | compared gas supply knows what the nonlinations      | 20 |  |
|    | Page 86  |    | Page 88  |
| 1  | are, so they can compare the usage to the            | 1  | A. When I yeah, when I first come in to            |
| 2  | nomination.  | 2  | gas supply, just understanding what the system was |
| 3  | Q. So the nomination is something that               | 3  | for nominations, understood that it went through   |
| 4  | that a marketer like Symmetry gives to Spire on a    | 4  | went through the third party I think it's          |
| 5  | daily basis; is that right?                          | 5  | Honeywell that collects that information, and then |
| 6  | A. Symmetry actually nominates on the                | 6  | provides that information to the to the            |
| 7  | Southern Star system, and then we get Spire gets     | 7  | marketers.   |
| 8  | a report from Southern Star that shows what those    | 8  | Q. So on on a daily basis there is                 |
| 9  | nominations are by each marketer.                    | 9  | information within the Spire system that allows it |
| 10 | (Court reporter interruption.)                       | 10 | to identify which customers are conserving natural |
| 11 | Q. (By Mr. Bauer) And is that by what                | 11 | gas and which ones aren't?                         |
| 12 | period of time?                                      | 12 | A. Yeah, I couldn't I couldn't answer              |
| 13 | A. That would be                                     | 13 | whether we whether Spire has the information       |
| 14 | MR. GORE: I'm going to object, vague.                | 14 | to to make that determination or not on an         |
| 15 | Q. (By Mr. Bauer) Are they daily                     | 15 | individual customer basis.                         |
| 16 | nominations, weekly, monthly?                        | 16 | Q. But you believe that Spire has the              |
| 17 | A. That would be a daily nomination.                 | 17 | information to do it on a marketer-by-marketer     |
| 18 | Q. Okay. And how long after – let me ask             | 18 | basis; is that accurate?                           |
| 19 | you, does a nomination come in poorly phrased.       | 19 | MR. GORE: I'm going to object,                     |
| 20 | When are the daily nominations made by               | 20 | foundation, vague. You can answer.                 |
| 21 | the marketers?                                       | 21 | A. Yeah, I yeah. My understanding is               |
| 22 | A. There are actually four if I recall,              | 22 | that at high level there they they would know      |
| 23 | four nomination cycles for every day. So the         | 23 | whether usage is going down or staying consistent  |
| 24 | marketer has opportunity to change them at any point | 24 | for each marketer.                                 |
| 25 | in those four cycles every day.                      | 25 | Q. (By Mr. Bauer) But you're not you               |

| 2  | more detail than that amount on a daily basis?  | 2  | MR. GORE: I'm going to object, vague  |
| 3  | A. Yeah, I would have to find that out.   | 3  | as to the term customers. You can answer.   |
| 4  | Q. So looking at this sentence that we've   | 4  | A. Yeah, I have not requested or seen an  |
| 5  | been talking about from topic 2F (quote as read):   | 5  | analysis at this point as to whether or not our   |
| 6  | As a result, Symmetry's customers   | 6  | customers conserved.  |
| 7  | largely did not conserve natural gas  | 7  | (Court reporter interruption.)  |
| 8  | during this period.   | 8  | Q. (By Mr. Bauer) Did any do you have   |
| 9  | Just so the record's clear, I'm going   | 9  | any information about any customers on the system   |
| 10   | to ask you some narrower questions, right? What   | 10   | conserving during that time?  |
| 11   | does Spire mean by conserve in that statement?  | 11   | A. The only one that we spoke about was   |
| 12   | MR. GORE: I'm going to object,  | 12   | Ford Motor Company. They Ford was concerned   |
| 13   | improper corporate rep testimony. He's testifying   | 13   | about being able to meet the expectations of the OFO  |
| 14   | as to the factual basis. You can answer.  | 14   | and I think they were concerned about the overall   |
| 15   | A. Yeah, like I mentioned, I'm not the one  | 15   | system from what I heard, and they actually   |
| 16   | that put that did the document, but in general  | 16   | shuttered their plant and left that volume on the   |
| 17   | conserve means use less than you otherwise would.   | 17   | system for others to use.   |
| 18   | Q. (By Mr. Bauer) And was there an  | 18   | Q. Are you aware of any other customers   |
| 19   | expectation during the winter storm by Spire that   | 19   | shuttering their plants to leave more capacities on   |
| 20   | customers were supposed to conserve some particular   | 20   | the system?   |
| 21   | percentage of their normal usage?   | 21   | A. I am not, but those those aren't   |
| 22   | A. In the context of this sentence, it was  | 22   | conversations that I would have had.  |
| 23   | the fact that Symmetry's customers still had a very   | 23   | MR. BAUER: So we have covered a lot   |
| 24   | high usage and the nomination was zero. I think the   | 24   | of by jumping ahead we've covered a lot of these  |
| 25   | expectation would be is if Symmetry's nomination  | 25   | other topics. Let's take another short break and I  |

| 1  | A. I'm going to show you the nominations   | 1  | now that you've seen some of these documents, the  |
| 2  | that we provided.  | 2  | broader question that I was – we were trying to  |
| 3  | Q. Okay.   | 3  | discuss earlier, and that is does Spire know on a  |
| 4  | A. Shows Symmetry's nominations.   | 4  | daily basis who is – which – which marketers   |
| 5  | Q. Okay.   | 5  | have – marketers' customers have used more gas than  |
| 6  | A. If you turn to tab 1J, that shows the   | 6  | their daily nominations?   |
| 7  | Southern Star flat files.  | 7  | A. We do. That's what went into this   |
| 8  | (Court reporter interruption.)   | 8  | calculation.   |
| 9  | A. For every nomination, marketer  | 9  | Q. And is there any mechanism by which   |
| 10   | nomination to our city gate. So that's information   | 10   | that information is then given to the marketers so   |
| 11   | we provided.   | 11   | they know what is happening on the Spire system?   |
| 12   | Q. (By Mr. Bauer) Okay. And this tell  | 12   | A. Yeah, the marketers have access to  |
| 13   | me exactly what this printout is. This is something  | 13   | the the meter read information out of that   |
| 14   | out of Spire's computer systems?   | 14   | Honeywell system that I mentioned.   |
| 15   | A. This is a download out of Southern  | 15   | Q. So so   |
| 16   | Star's system that shows every nomination that   | 16   | A. Just like Spire.  |
| 17   | Symmetry made on behalf of its customers behind  | 17   | Q. I'm sorry. Didn't mean to interrupt   |
| 18   | Spire.   | 18   | you.   |
| 19   | Q. Okay. So this this would reflect  | 19   | A. Yeah. Just like Spire.  |
| 20   | those four a day that you talked about earlier,  | 20   | Q. So the marketers have access to the   |
| 21   | right?   | 21   | exact same information about the nominations and the   |
| 22   | A. That's correct.   | 22   | burns that Spire does. Is that true?   |
| 23   | Q. All right. So this is something   | 23   | A. That's correct.   |
| 24   | this is a document that – do you all refer to this   | 24   | MR. BAUER: One thing we can do that  |

| 1  | document. We we never had to physically turn        | 1  | the scope of the topic.                              |
| 2  | anyone off, so I think that's a pretty simple       | 2  | A. Yeah, I mean, I can point to you here             |
| 3  | statement that there was enough supply to meet all  | 3  | on tab 1D, page three. I mean, yeah, easy I          |
| 4  | the customers' load irrespective of the fact that   | 4  | mean, there's days there where we were having to buy |
| 5  | the marketers weren't bringing in their volumes.    | 5  | 55,000 dekatherms a day to cover for the shortfall.  |
| 6  | Q. Are you able to quantify that in any             | 6  | Like I say, it's you're asking me to make to         |
| 7  | way other than by by that statement?                | 7  | do a mathematical computation on a hindsight review  |
| 8  | MR. GORE: I'm going to object. That's               | 8  | of information that was not available to the gas     |
| 9  | beyond the scope of the topic.                      | 9  | supply team at the time.                             |
| 10 | A. I mean, to me that question is vague             | 10 | Q. (By Mr. Bauer) So on a day in which               |
| 11 | enough that I wouldn't even know remotely how to go | 11 | Symmetry didn't deliver as much gas as it had        |
| 12 | about answering it.                                 | 12 | nominated, did Spire have to buy that entire         |
| 13 | Q. (By Mr. Bauer) So I'll tell you is I'm           | 13 | shortfall or are there any other sources for Spire   |
| 14 | trying to understand what delivering enough gas to  | 14 | to, as it says here, cover for Symmetry's failure?   |
| 15 | cover for Symmetry's failure means. Let me ask you  | 15 | MR. GORE: I'm going to object,                       |
| 16 | admittedly a hypothetical question. And that is     | 16 | improper hypothetical, foundation, beyond the scope  |
| 17 | let's say there was a day in which Symmetry was     | 17 | of the notice. You can answer.                       |
| 18 | unable to deliver any gas to the system. How much   | 18 | A. We were we were buying to cover the               |
| 19 | gas does did Spire have to buy in order to cover    | 19 | shortfall.   |
| 20 | for Symmetry's failure?                             | 20 | Q. (By Mr. Bauer) And do you have to                 |
| 21 | MR. GORE: I'm going to object to                    | 21 | buy  |
| 22 | foundation, improper hypothetical. Mr. Godat is not | 22 | A. According to Mr. Powers, he was buying            |
| 23 | being produced as an expert witness, and are we     | 23 | to cover the shortfall.                              |
| 24 | still on topic 2L?                                  | 24 | Q. Did he have to buy the entire shortfall           |
| 25 | MR. BAUER: We're still on that                      | 25 | or were there other sources?                         |
|    |   |    |  |

| 1  | sentence.   | 1  | MR. GORE: I'm going to object,                       |
| 2  | MR. GORE: Okay. And I'll also object                | 2  | foundation, vague.                                   |
| 3  | asked and answered.                                 | 3  | A. His position was that he had to buy to            |
| 4  | A. Could you repeat the question?                   | 4  | cover the entire shortfall during his conversation.  |

| 2  | Q. (By Mr. Bauer) All right. Placed   | 2  | A. I don't recall any conversations I  |
| 3  | Exhibit 3 before you. Take a moment if you could  | 3  | can't recall any conversations, nor have I seen any  |
| 4  | and look at it and tell us if you recognize what  | 4  | produced where this was an issue for Spire Missouri.   |
| 5  | this document is.   | 5  | Like I say, I know we had a lot of conversations   |
| 6  | MR. GORE: I'm going to object to the  | 6  | about Spire Alabama, and we ultimately held them   |
| 7  | use of this document because as far as I can tell   | 7  | basically didn't accept the force majeure and got  |
| 8  | this is not a Spire Missouri document and therefore   | 8  | our costs covered.   |
| 9  | is beyond the scope of this corporate representative  | 9  | Q. Okay. So this topic relates to  |
| 10   | deposition and notice.  | 10   | communications between these two entities, Spire   |
| 11   | A. Looks like a force majeure notice from   | 11   | Missouri and Spire Marketing. It occurs to me I  |
| 12   | Spire Marketing.  | 12   | think there's some people that work for both   |
| 13   | Q. (By Mr. Bauer) Let me know when I can  | 13   | companies, so I'm not sure how that how they   |
| 14   | start asking questions. I don't want to interrupt   | 14   | communicate with each other if they work for both  |
| 15   | your reading.   | 15   | companies.   |
| 16   | A. Okay.  | 16   | A. Can you   |
| 17   | Q. So what – what does this document look   | 17   | Q. So my question is   |
| 18   | like to you?  | 18   | A. I disagree with that statement.   |
| 19   | A. A force majeure  | 19   | Q. I was going to ask that.  |
| 20   | MR. GORE: I'm going to object. This   | 20   | MR. GORE: I'm going to object to   |
| 21   | is not a document that it appears that Spire  | 21   | foundation and the assumption that there's people  |
| 22   | Missouri, Inc. was the subject, which is the subject  | 22   | who work for both companies.   |
| 23   | of this corporate representative deposition, was  | 23   | A. Yeah, we have affiliate transaction   |
| 24   | either a drafter or recipient of. Unless you can  | 24   | rules that make those relationships even more  |
| 25   | establish that foundation I'm going to object that  | 25   | separate than a normal producer or marketer  |

| 1  | 12:30. We probably don't want to go much past        | 1  | Most storage services allow you just to             |
| 2  | 12:30.   | 2  | pull from zero up to your MDQ on any given day.     |
| 3  | MR. BAUER: I'm sorry, I thought it was               | 3  | Southern Star actually has a tariff provision where |
| 4  | 12:17, which is why I asked. Forget that. Okay.      | 4  | only only two-thirds of your total gas being        |
| 5  | Let's  | 5  | delivered to your gate can be sourced from storage. |
| 6  | MR. GORE: Anywhere between 12 and                    | 6  | The other one-third has to be flowing supply. So as |
| 7  | 12:30 for lunch work for us. Does that work for      | 7  | we look at as gas supply looks at their risk        |
| 8  | you, George?   | 8  | going into a period, you know, not only not only    |
| 9  | THE WITNESS: Yes, sir.                               | 9  | are you worrying about that the flowing supply is   |
| 10 | MR. GORE: All right.                                 | 10 | not going to show up, you also have to worry that   |
| 11 | Q. (By Mr. Bauer) Okay. Let's go back to             | 11 | for every molecule that doesn't show up on the      |
| 12 | Exhibit 1 and topic number six. Okay. (Quote as      | 12 | flowing side you're losing two-thirds of your       |
| 13 | read):   | 13 | capability on the storage side.                     |
| 14 | The availability and use of storage gas              | 14 | So I think, you know, that's something              |
| 15 | by Spire in February 2021 including any              | 15 | that I didn't mention before. That even ties back   |
| 16 | decisions to draw from storage or to                 | 16 | to the overall storage inventory where our our      |
| 17 | sell gas to third parties.                           | 17 | concern during that period wasn't the overall       |
| 18 | I just want to make sure that in our                 | 18 | inventory. It was it was the flowing molecules      |
| 19 | last discussions that I asked you the broad question | 19 | that we're going to have available to match up with |
| 20 | is, you know, did Spire sell any gas to third        | 20 | that one-third, two-third requirement to a city     |
| 21 | parties in February 2021?                            | 21 | gate.   |
| 22 | A. We talked through the Atmos transaction           | 22 | Q. Okay. So when during the winter storm            |
| 23 | where we sold gas to storage gas to Atmos.           | 23 | period did that become a factor in Spire's          |
| 24 | Q. Anything else? Any other sales?                   | 24 | decisions?  |
| 25 | A. I don't recall any other sale                     | 25 | A. I mean, it's just it's something                 |

| 1  | transactions. I'm trying to remember if on the       | 1  | that the gas supply team is well aware of and knows  |
|----|--|----|--|
| 2  | GSC yeah, I have to remember. There may have         | 2  | of through the planning process. It's something      |
| 3  | been I'm trying to recall. There may have been a     | 3  | they would have known through the whole winter.      |
| 4  | day or two on the weekend where we had a day where   | 4  | Q. And did that factor into decisions by             |
| 5  | we would have a little extra gas. I'd have to look   | 5  | Spire to purchase gas during that period of time?    |
| 6  | back, whether it was a party that to try to          | 6  | MR. GORE: I'm going to object, beyond                |
| 7  | minimize the daily purchase where we may have sold a | 7  | the scope of the notice unless you can point out to  |
| 8  | little bit back.                                     | 8  | me, but I don't think we're definitely not on the    |
| 9  | Q. And how is that analysis?                         | 9  | topic we were on. So objection.                      |
| 10 | A. It was minimal. Huh?                              | 10 | MR. BAUER: Yeah, I guess we're kind of               |
| 11 | Q. How was that analysis made at Spire?              | 11 | back to 2L, which is Spire purchasing and delivering |
| 12 | A. That's something Justin Powers and his            | 12 | enough natural gas to cover.                         |
| 13 | team would have been doing.                          | 13 | MR. GORE: Objection, beyond the scope                |
| 14 | Q. Okay. And anything else or is that it?            | 14 | of the notice.                                       |
| 15 | A. I think the other thing you know, I               | 15 | MR. BAUER: Can you read the question                 |
| 16 | was thinking about it after we got out of here,      | 16 | back? I've now forgotten it.                         |

| 10 | MR. GORE: I bet it's probably                        | 10 | A. Yes, sir.   |
| 11 | referenced in the transcript if they wanted to look. | 11 | Q. Tell us what it is, please.                       |
| 12 | A. Yeah.   | 12 | A. We were yeah, we made quite a few                 |
| 13 | Q. (By Mr. Bauer) You know what,                     | 13 | references to it here. I think Mr. Ap or             |
| 14 | Mr. Godat, we don't have to burn time. I can look    | 14 | Mr. Weitzel representing his document. On the 15th   |
| 15 | that up myself too.                                  | 15 | Southern Star was starting to experience pressure    |
| 16 | A. Okay.   | 16 | loss down in the southwest part of our system in the |
| 17 | MR. BAUER: Let's mark this as                        | 17 | Joplin area, and we were getting very concerned that |
| 18 | Exhibit 5, please.                                   | 18 | we weren't going to have adequate supply to meet our |

| 22 | Q. (By Mr. Bauer) Okay. We placed                    | 22 | just getting everyone prepared, thinking about the   |
| 23 | Exhibit 5 in front of the witness. Sir, do you       | 23 | actions they may take.                               |
| 24 | recognize this?                                      | 24 | Q. And who within Spire discussed whether            |
| 25 | A. I do.   | 25 | this was a good idea to send this e-mail out?        |

| Q. Okay. Yeah, so tell me like who are               | 15 | A. It was the notice that Justin and his             |
| the people on the incident support team and what are | 16 | team sent out terminating the OFO.                   |

| 1  | is there an incident support team?                   | 1  | on. And this was going into a weekend, and you       |
| 2  | A. It's to handle any type of emergency              | 2  | know, gas trades for multiple days over the weekend. |
| 3  | incident that's out of the ordinary that's going to  | 3  | So you know, I know he was he was                    |
| 4  | require communication amongst the teams.             | 4  | trying to get it lifted as soon as possible. And     |
| 5  | Q. And the extreme cold weather                      | 5  | then kind of the last piece of that was Southern     |
| 6  | preparedness of February was a time that you wanted  | 6  | Star lifted their OFO also on the 20th. So we        |
| 7  | to communicate to the incident support team,         | 7  | thought the prudent thing to do was to lift it in    |
| 8  | correct?   | 8  | conjunction with Southern Star.                      |
| 9  | A. Right. It's because we had that                   | 9  | Q. Did did Spire considering lifting                 |
| 10 | particular issue going on in Southwest Missouri.     | 10 | the OFO before Southern Star lifted theirs?          |
| 11 | Q. Did any of the folks on this on this              | 11 | A. I can't speak for Justin, but I don't             |
| 12 | e-mail respond back to you? Are there further        | 12 | recall having any conversations because even as late |
| 13 | communications related to this in the Spire system?  | 13 | as the 18th, you know, roughly 25 percent of the     |
| 14 | A. I don't recall specifically to me other           | 14 | supply was still force majeure'd and the marketers   |
| 15 | than Mike Schormann is the one that heads up that    | 15 | were still shorting the system by a huge amount at   |
| 16 | incident response team, and he was the one that      | 16 | that point. So like I say, if Justin had             |
| 17 | actually set up the from that point forward we       | 17 | conversations, I'm not aware of those, but I don't   |
| 18 | handled it by call. He basically set up a line       | 18 | recall any conversations prior to the day that we    |
| 19 | that there were there were people that stayed        | 19 | actually lifted it.                                  |
| 20 | kind of in communication throughout the day and      | 20 | MR. BAUER: Let's mark this one.                      |

| 1  | sir?   | 1        | A. I was.  |
| 2  | A. This looks like one of the customer   | 2        | Q. Yeah. Who is Greg Hayes?                          |
| 3  | communications that took place.  | 3        | A. I mentioned that before. He's a                   |
| 4  | Q. Is this something you've seen before?   | 4        | scheduler in Justin Powers' team.                    |
| 5  | A. I have seen this. I'm trying to   | 5        | Q. And Theresa Payne, she's on                       |
| 6  | yeah.  | 6        | communications?                                      |
| 7  | Q. Can you tell us in any more detail what   | 7        | A. No, she's on the gas supply side.                 |
| 8  | it is?   | 8        | Q. Okay. My main question here is why is             |
| 9  | A. It is one of the documents that I   | 9        | this communication among those three people, if you  |
| 10 | reviewed.  | 10       | know?  |
| 11 | MR. GORE: This document is at tab 18   | 11       | A. This is from what I understand, this              |
| 12 | of the binder that Mr. Godat reviewed in preparation   | 12       | is actually the notification that went out to the    |
| 13 | for his testimony today.   | 13       | marketers. They're just bcc'd. So it not only went   |
| 14 | A. Yeah, I'm trying to remember from when  | 14       | out to them, it went out to the marketer group as    |
| 15 | I had looked through it before, the context of what  | 15       | well.  |
| 16 | I was understanding was sent out because this goes   | 16       | Q. Okay.   |
| 17 | out from a different group, but it was yeah, as l  | 17       | A. Greg is responsible for scheduling for            |
| 18 | recall, this was when we were having our issues in   | 18       | MO west on the upstream side, and Theresa handled    |
| 19 | Southwest Missouri and I know there was a lot of   | 19       | was handling the end user nominations at the time.   |
| 20 | customer communication that was going on around that   | 20       | Q. Were Ms. Payne and Mr. Hayes involved             |
| 21 | trying to make sure the public was aware of the  | 21       | in the decision to issue an OFO?                     |
| 22 | situation that we were in. So yeah, that's what I  | 22       | A. They were not.                                    |
| 23 | remember, that this was in conjunction with that   | 23       | Q. Were they consulted?                              |
| 24 | communication.   | 24       | A. They were not.                                    |
| 25 | Q. (By Mr. Bauer) And who was involved in  | 25       | (WHEREIN, Exhibit 10, 2-17-21 e-mail                 |

| 3  | l just want to make sure I didn't see you flip it  | 3        | Q. (By Mr. Bauer) Okay. So Exhibit 10 is             |
| 4  | over. You're aware that it's a two-sided document?   | 4        | an e-mail dated February 17th, 2021 that includes    |
| 5  | A. Oh, okay. Yeah, I was going to say, I   | 5        | several people, including you; is that right?        |
| 6  | assume that this was Patty Reardon. I had  | 6        | A. That's correct.                                   |
| 7  | referenced Patty Reardon as the one that actually  | 7        | Q. Can you tell us who the other people              |
| 8  | has the customer communications for Southwest MO.  | 8        | are who are received this e-mail? The name at        |
| 9  | Q. (By Mr. Bauer) Anyone else to Spire's   | 9        | the top is an associate that works for us. I guess   |
| 10 | knowledge involved in preparing this document?   | 10       | that's because it was printed out, Nate Saper.       |
| 11 | A. Yeah, I would have to yeah, I'd have  | 11       | A. So Greg, Justin, and Ashley are all in            |
| 12 | to ask Patty who all was involved in putting that  | 12       | the gas supply team. Castor is in-house counsel      |

| 6  | Q. And were there communications or                  | 6  | MR. GORE: Yes, that's what I thought               |
| 7  | meetings regarding that decision within Spire?       | 7  | we just stipulated to.                             |
| 8  | A. You know what, I'm not privy to those             | 8  | MR. HOWELL: Okay. Thank you.                       |
| 9  | conversations if they took place.                    | 9  | Q. (By Mr. Bauer) Okay. And let's go               |
| 10 | Q. If you look at the second page, can you           | 10 | back to Exhibit 6, please. This is that e-mail to  |
| 11 | tell me who these folks are who are the cc's? Wait,  | 11 | the to the incident response team. Just a couple   |
| 12 | I'm sorry. Strike that. Those cc's are all my        | 12 | questions. The list of people to whom this was     |
| 13 | people.  | 13 | sent, are any of them related to Spire Marketing?  |
| 14 | A. Yeah, they're all Symmetry.                       | 14 | A. They are not.                                   |
| 15 | MR. BAUER: Yeah, okay. Okay. So                      | 15 | Q. Are any of them employed by Spire               |
| 16 | subject to going back over my notes and having a     | 16 | Marketing?   |
| 17 | discussion with you about authenticity of documents, | 17 | A. They are not.                                   |
| 18 | you know, I'm just about done, all right? So if you  | 18 | Q. Was this communication sent to Spire            |
| 19 | want to break while I meet with my team and talk     | 19 | Marketing in February of 2021 forwarded by anyone? |
| 20 | with you about authenticity and get something on the | 20 | A. Not that I am aware of.                         |
| 21 | record, then I'd be ready to pass the witness.       | 21 | Q. Were there any communications related           |
| 22 | MR. GORE: Okay. Why don't we do that                 | 22 | to the OFO that were then forwarded to Spire       |
| 23 | before lunch then?                                   | 23 | Marketing personnel?                               |

| 7  | that's the umbrella of what I'm looking at.   | 7  | Q. And you said it gets sent out?  |
| 8  | A. Okay.  | 8  | (Court reporter interruption.)   |
| 9  | Q. And what I am trying to figure out is  | 9  | MR. GORE: I just instructed the  |
| 10   | you told me about videoconferencing and chat stuff,   | 10   | witness that when you can't recall, please don't   |

| 15   | confirmations or nominations. Is all of that data,  | 15   | A. The scheduler for Spire Missouri sends  |
| 16   | is it stored on a server somewhere? Is it stored on   | 16   | it I'd have to look at the distribution list.  |
| 17   | a shared file site? Where does that normally get  | 17   | It's for the Spire Missouri employees.   |
| 18   | saved to?   | 18   | Q. And who is the scheduler?   |
| 19   | A. You know what, I have not personally   | 19   | A. Greg Hayes is the scheduler for Spire   |
| 20   | looked at that structure since since taking my  | 20   | Missouri West.   |
| 21   | current role. There is a gas supply folder that I'm   | 20   | Q. Do – does Spire use the ICE platform  |

| 1  | authority to make decisions to buy or sell and from  | 1  | Marketing?   |
| 2  | whom and at what price?  | 2  | A. Vice president and general manager.   |
| 3  | A. Yeah, as I mentioned before, he's in  | 3  | Q. And could you describe what your role   |
| 4  | charge of the group and he does not have a set limit   | 4  | was as vice president, general manager of Spire  |
| 5  | on the transactions that he can perform.   | 5  | Marketing?   |
| 6  | Q. All right. I want to take a little bit  | 6  | A. Yes. I was basically responsible for  |
| 7  | of a step back also to address or follow up on   | 7  | all the P&L for the group.   |
| 8  | something that you were asked about by Mr. Bauer at  | 8  | Q. And did you work with Pat Strange?  |
| 9  | the beginning of your deposition. You indicated  | 9  | A. I did not. Actually, the company made   |
| 10   | that you took over this new role in October of 2020;   | 10   | the decision to move that entity to Houston, and   |
| 11   | is that correct?   | 11   | they they replaced my position, basically  |
| 12   | A. I took over gas supply in October of  | 12   | eliminated my role and brought on Pat Strange to run   |
| 13   | 2018, gas supply and gas control, and they added the   | 13   | that group when it moved to Houston.   |
| 14   | responsibility of field operations for our St. Louis   | 14   | Q. Is Pat essentially serving the same   |
| 15   | utility in October of 2020.  | 15   | role is it your understanding that Pat is serving  |
| 16   | Q. And prior to October of 2018 what was   | 16   | in the same role that you used to serve in prior to  |
| 17   | your role?   | 17   | your transition from Spire Marketing to Spire, Inc.?   |
| 18   | A. I held various roles for Spire  | 18   | MR. GORE: I'm going to object,   |
| 19   | Marketing for that was the that was the  | 19   | foundation, vague. You can answer.   |

| 1  | February 2021 winter storm?  | 1  | A. That is Spire Marketing, correct.  |
| 2  | MR. GORE: At this point  | 2  | Q. So during the February 2021 winter   |
| 3  | A. I don't have that number off the top of   | 3  | storm it's undisputed, is it not, that Spire  |
| 4  | my head.   | 4  | Marketing had a shortfall under the OFO; is that  |
| 5  | MR. GORE: At this point I do just want   | 5  | correct?  |
| 6  | to instruct the witness, you're being asked some   | 6  | A. For day 12, that is correct.   |
| 7  | detailed questions about numbers during a specific   | 7  | Q. It also had shortfalls for other –   |
| 8  | time period, and I would just instruct you to the  | 8  | really just one other day, correct?   |
| 9  | extent you need to reference something to refresh  | 9  | A. Looks like they had a small one on   |
| 10   | your recollection, do so, and don't speculate.   | 10   | day 18 as well.   |
| 11   | A. Okay. What was your question again?   | 11   | Q. Okay. And listed in the third column   |
| 12   | Q. (By Mr. Howell) Yes, sir. I was   | 12   | from the right is a a bold item that says volume.   |
| 13   | asking you do you know the total natural gas –   | 13   | Do you see that? On page one of this tab.   |
| 14   | total volume of natural gas purchased during the   | 14   | A. I do see that.   |
| 15   | February 2021 winter storm?  | 15   | Q. All right. And so following that   |
| 16   | A. I do not have that number on the top of   | 16   | column down, at the at the bottom of each day   |
| 17   | my head. The details of all of our transactions  | 17   | there is a total volume listed which was the volume   |
| 18   | were provided in during that period were provided  | 18   | shortfall for that day; is that correct?  |
| 19   | in tab C of Exhibit 1 or Exhibit 2.  | 19   | A. The total volume shortfall for the day,  |
| 20   | MR. GORE: And that would be Exhibit 2,   | 20   | I'm not showing there's not a summation in the  |
| 21   | tab 1C. Can you confirm?   | 21   | volume column. The only one that's got a volume   |
| 22   | Q. (By Mr. Howell) Yes, sir.   | 22   | summary is the shortfall column.  |
| 23   | A. That's correct.   | 23   | Q. Fine. Perfectly fine. We'll use that   |
| 24   | MR. GORE: I just want it clear on the  | 24   | number instead. So for day 12, gas day 12 during  |
| 25   | record.  | 25   | the winter storm, it identifies a total shortfall of  |
|  |  |  |   |

| 1  | MR. HOWELL: Is that to me, Mr. Gore?                 | 1  | then. Let's start on page three, which is listed as  |
| 2  | MR. GORE: Yes. I'm looking at page                   | 2  | Friday, February 12th, 2021. Are you with me?        |
| 3  | three and four. You and the witness may be           | 3  | A. You're on the GSC schedule?                       |
| 4  | following each other, but I'm not.                   | 4  | Q. Yes, sir.   |
| 5  | MR. HOWELL: All right. I show that                   | 5  | A. Okay.   |
| 6  | this document that I was provided with, so it's      | 6  | Q. GSC schedule, and then left hand –                |
| 7  | Exhibit 2, tab one, document C or I guess 1C. It's   | 7  | left-hand sides of the page, it says Friday,         |
| 8  | a ten-page document that I have in front of me. The  | 8  | February 12, 2021. Do you see that?                  |
| 9  | first two pages of that document are a summary or    | 9  | A. Ido.  |
| 10 | document created by Spire with regard to shortfalls  | 10 | Q. All right. I'd like for you to go                 |
| 11 | from marketers.                                      | 11 | about two-thirds of the way down the page. There is  |
| 12 | And then what I show in front of me as               | 12 | an item number 1008835, and it says in all caps      |
| 13 | pages three through ten are alleged purchases by     | 13 | Spire Marketing. Do you see that?                    |
| 14 | Spire Missouri from different suppliers, and I'm     | 14 | A. I do.   |
| 15 | trying to get confirmation of that fact from the     | 15 | Q. And then if you go to the line below              |
| 16 | witness.   | 16 | the bottom, 1008881, there's Spire Marketing listed  |
| 17 | MR. GORE: Thank you.                                 | 17 | again. Do you see that?                              |
| 18 | THE WITNESS: That is correct.                        | 18 | A. I do.   |
| 19 | Q. (By Mr. Howell) And so for each of the            | 19 | Q. Okay. And so for gas day 12, does this            |
| 20 | documents on pages three through ten, we see who the | 20 | document reflect that there were purchases made by   |
| 21 | counterparty was, the unit price that was used for   | 21 | Spire Missouri from Spire Marketing?                 |
| 22 | the purchase transaction, and any transportation     | 22 | A. Yeah, it does. Like I say                         |
| 23 | cost, the volume which is listed under the           | 23 | Q. Okay.   |

MR. GORE: -- in answering your

question identifies it in a document, I just want

some guidance from him as to where he was looking.

A. Yeah, I do not see where we -- where we

tagged any Spire Marketing purchases to calculate

Q. (By Mr. Howell) Yes, sir. Okay. So I

will have to break it down a little bit further

|  | Page 189  |  | Page 191  |
|--|---|--|---|
| 1  | follow-ups based on what you just said. First,  | 1  | Q. All right. Would you go back to tab  |
| 2  | isn't it true that Spire Missouri's finances are  | 2  | Exhibit 2, tab 1C, which was the GSC schedule we  |
| 3  | reported through Spire, Inc.?   | 3  | were just looking at?   |
| 4  | MR. GORE: I'm going to object, vague.   | 4  | A. Okay.  |
| 5  | A. Yeah, I mean, I couldn't tell the exact  | 5  | Q. And if you would turn to gas day 12.   |
| 6  | details of how they're reported, but we're part of  | 6  | A. Okay.  |
| 7  | Spire, Inc.   | 7  | Q. And here looking at transaction  |
| 8  | Q. (By Mr. Howell) Isn't it also true   | 8  | 1008835, is it correct that this references a   |
| 9  | that Spire Marketing is part of Spire, Inc.?  | 9  | purchase from Spire Marketing at a price of \$45.19?  |
| 10   | MR. GORE: I'm going to object, beyond   | 10   | A. That's correct.  |
| 11   | the scope of the notice, beyond this witness's  | 11   | Q. And it's also true that except for one   |
| 12   | qualified area of testimony since you were seeking  | 12   | purchase from Tenaska for a purchase price of \$124,  |
| 13   | information about Spire Marketing, Inc., improper   | 13   | actually that has a volume of zero. Do you see  |
| 14   | MR. HOWELL: You can answer.   | 14   | that?   |
| 15   | MR. GORE: improper corporate  | 15   | A. I do.  |
| 16   | representative testimony. You can you can   | 16   | Q. So a volume of zero would indicate that  |
| 17   | answer.   | 17   | a purchase actually did not occur or that volumes   |
| 18   | A. They're a part of Spire, Inc.  | 18   | were not delivered to us, correct?  |
| 19   | Q. (By Mr. Howell) What diligence did   | 19   | A. I would say that's correct.  |
| 20   | Spire Missouri do to know that Spire Missouri could   | 20   | Q. All right. So we can ignore that \$124   |
| 21   | not buy the same natural gas – the same volume of   | 21   | transaction because there were no volumes associated  |
| 22   | natural gas for a lower price from a third party  | 22   | with it. Is it true that all of the transactions  |
| 23   | that is not Spire Marketing?  | 23   | for gas day 12 were – were between a purchase price   |
| 24   | MR. GORE: I'm going to I'm going to   | 24   | of seven dollars and 70.5 cents and \$46.78?  |
| 25   | object, foundation, and again object to counsel's   | 25   | A. That appears to be correct.  |

| 10 | A. Yeah, we we abide by all of the FERC              | 10 | Panhandle that they made available to Spire Missouri |  |
| 11 | rules standing rules of conduct. So we would not     | 11 | West. So they sold them that supply and they         |  |
| 12 | have done any capacity outside of the posting        | 12 | replaced it with gas over on over on the Spire       |  |

| 10             | A. You know, I would have to confirm with  | 10             | if you can in your capacity as Spire Missouri's                                       |  |
| 11             | Justin. My my recollection is that we just give  | 11             | corporate representative.   |  |
| 12             | it to them at the cost that Spire Missouri incurred  | 12             | A. Yeah, I yeah, like I cannot speak  |  |
| 13             | to replace it.   | 13             | for for why they made the decisions that we did.                                      |  |
| 14             | Q. And wasn't the price at which Spire   | 14             | l know at Spire Missouri when it was when it was                                      |  |
| 15             | East bought it?  | 15             | at a time when everybody was pretty much taking any                                   |  |
| 16             | A. That's my recollection.   | 16             | molecules that they could find given the limited                                      |  |
| 17             | Q. And how was the price set for the Spire   | 17             | supply that was out there, we were happy to take the                                  |  |
| 18             | Marketing transactions?  | 18             | Spire Marketing volumes especially when the prices                                    |  |
| 19             | A. That would have just been in  | 19             | were so attractive.   |  |
| 20             | negotiation with Justin Powers' team with the Spire  | 20             | Q. (By Mr. Howell) Did you participate in   |  |
| 21             | Marketing employees.   | 21             | any discussions with anyone from Spire Marketing                                      |  |
| 22             | Q. And are those – do you know whether   | 22             | during the February 2021 winter storm regarding                                       |  |
| 23             | the volumes that are reflected on this document  | 23             | making purchases from them at or below market price?                                  |  |
| 24             | we've been looking at, Exhibit 2, tab 1C, reflect  | 24             | A. I did not.   |  |
| 25             | base load volumes that were contracted prior to the  | 25             | Q. Did you participate in any meetings,   |  |

| 4              | Q. Do you know whether Spire Marketing   | 4              | A. I did not.   |  |
| 5              | bought any gas from Spire East, Spire Missouri East  | 5              | MR. HOWELL: All right. We have been   |  |
| 6              | system in order to supply the Spire Missouri West  | 6              | going for about an hour and 20 minutes or so. I'd                                     |  |
| 7              | system?  | 7              | suggest that we take a maybe a ten-minute break,                                      |  |
| 8              | A. I'm not aware of that happening.  | 8              | and then I'll come back and ask you some questions                                    |  |
| 9              | Q. You mentioned that you thought that the   | 9              | about some of the people that you identified earlier                                  |  |
| 10             | transactions with Spire Marketing reflected  | 10             | and their roles, and then the OFO that was issued.                                    |  |

| 1  | admitted and acknowledged.  | 1  | A. I kept him on the OFO perspective,   |
| 2  | Q. (By Mr. Howell) I believe Mr. Gore   | 2  | since that's who I report to, I kept him informed of  |
| 3  | said at the beginning of the deposition that  | 3  | what was going on and that we were we were in a   |
| 4  | Mr. Bauer took that you had used this   |  | position where we thought we had to issue an OFO.   |
| 5  | Constellation's deposition notice Exhibit 12 to help  |  | I I was the one that ultimately made  |
| 6  | kind of prepare yourself for the deposition; is that  |  | the decision working with Justin Powers. So it  |
| 7  | correct?  | 7  | wasn't that I went to Scott for permission. It  |
| 8  | A. Yeah. We actually ordered the  | 8  | was it was more of an information to keep him   |
| 9  | documents in the binder tied to the Constellation   | 9  | up-to-date.   |
| 10   | document.   | 10   | Scott Carter through throughout the   |
| 11   | Q. Great. All right. I want to ask you  | 11   | process, he did a lot of radio interviews, just more  |
| 12   | one – I want to ask you a question about some of  | 12   | from the media side kind of keeping customers and   |
| 13   | the people you have mentioned, just make sure that I  | 13   | stuff up-to-date on things that were going on.  |
| 14   | understand who had what role and that kind of thing.  | 14   | So I mean, I had enough going on that I   |
| 15   | A. Okay.  | 15   | wouldn't be able to speak for you know, for all   |
| 16   | Q. Then I want to talk with you about the   | 16   | the activities that Scott undertook during that   |
| 17   | OFO that was issued. Scott Carter is the president  | 17   | time, but you know, as far as the OFO I just kept   |
| 18   | of Spire Missouri; is that correct?   | 18   | him informed. I was the one that made the decision  |
| 19   | A. That's correct.  | 19   | along with Justin.  |
| 20   | Q. Okay. What role – you know, from   | 20   | Q. Yes, sir. And I certainly understand   |
| 21   | your – from your perspective as a corporate   | 21   | that. You are just one – one human being, and I'm   |
| 22   | representative and as a VP of natural gas supply  | 22   | not asking you to kind of know what everyone else   |
| 23   | for for the Spire Missouri entity as well as  | 23   | has done or may have done. We may have an   |
| 24   | Spire, Inc., what role did Mr. Carter have with   | 24   | opportunity to speak with Mr. Carter later on. I  |
| 25   | regard to the February 2021 winter storm?   | 25   | just am trying to have an understanding of what   |

| 10 | Q. You also mentioned someone named Alex            | 10 | A. You know, I do not recall. I believe             |
| 11 | Grewach. Can you spell that last name and then also | 11 | it's through our risk team, but I'm not positive.   |
| 12 | tell me what his role was?                          | 12 | Q. And who runs the risk team?                      |
| 13 | A. Yeah, it's actually Alex Grewach,                | 13 | A. You know, actually it might be through           |
| 14 | G-R-E-W-A-C-H. He's our manager of gas control. So  | 14 | our security group now that I'm thinking about it.  |
| 15 | he was the one that there's a pressure chart        | 15 | I think it's through our corporate security team.   |
| 16 | that's included in here. He was the one provided    | 16 | Q. And who leads that?                              |
| 17 | the pressure information for for the the            | 17 | A. Al Moore runs that group.                        |
| 18 | pressure drop that we were experiencing down in     | 18 | Q. I'm sorry. I missed that name. Can               |
| 19 | Southwest Missouri.                                 | 19 | you say it one more time?                           |
| 20 | Q. And you also mentioned schedulers                | 20 | A. Al Moore.  |
| 21 | during the February 2021 winter storm. I believe    | 21 | Q. Are you a member of the incident                 |
| 22 | you identified someone named Ashley Dixon. Is she a | 22 | support team?                                       |
| 23 | scheduler, and are there other schedulers that      | 23 | A. Iam.   |
| 24 | you're aware of who were involved in natural gas    | 24 | Q. Is Justin Powers a member of the                 |
| 25 | scheduling for the winter storm?                    | 25 | incident support team?                              |

| 9              | Q. Yeah. Well –                                   | 9  | Q. Understood, Mr. Godat. So just to be              |
| 10             | A. Yeah, it was basically the night that          | 10 | clear, when you talk about the system losing         |
| 11 we          | thought we were losing losing our system down     | 11 | pressure, you're referring to the risk of the        |
| 12 in S        | outhwest Missouri. So we had all the parties on   | 12 | Southern Star system losing pressure or the Southern |
| 13 that        | were going to be ready to respond in the event    | 13 | Star system actually losing pressure; is that        |
| 14 that        | we did have a lot of outages.                     | 14 | correct?   |
| 15             | Q. All right. I really want to focus on           | 15 | A. Yeah, the pressure issue that I'm                 |
| 16 <b>this</b> | incident support team issue, but I do – I will    | 16 | speaking about on the night of the 16th was Southern |

| 10 | Q. And you're aware, are you not, that              | 10 | A. Yeah, the pressure profile that we             |
| 11 | Southern Star waived all penalties associated with  | 11 | provided was on Southern Star where you could see |
| 12 | the February 2021 winter storm?                     | 12 | their pressures were dropping 30 or 40 pounds an  |

GORE: I'm going to object, 9 system; is that correct? 10 10 A. That's correct. Yeah, you can see foundation and compound. You can answer. 11 11 A. Yeah, I mean, that goes back to my where we were accustomed to having 500-plus pounds 12 prior response. If the information that we provided 12 and the supply/demand on that part of the system was 13 13 was the only time we had -- we were in jeopardy of out of balance, so we were seeing -- seeing a very 14 not being able to serve was in Southwest Missouri. 14 sharp drop in pressure. 15 That's when we provided the pressure profile for --15 You know, had that -- had that 16 for that area. 16 continued on through the night, you know, we were 17 Other than that, given that Spire 17 concerned that we were going to -- we were going to 18 Missouri went out and found the supply to replace 18 not have enough pressure into our system to maintain 19 what the marketers weren't bringing in, we were not 19 deliveries to the customers in that area. 20 in a position to where our system was jeopardized 20 Q. And so this -- this chart which is 21 during a winter storm period. 21 shown here in Exhibit 2, tab 17D as in dog, this is 22 22 Q. | 2  | A. Yeah, that's not information that I 2 was any loss of pressure on any Spire Missouri |    |  |  |  |
| 3  | would have, but that would be in gas control. 3 segment that affected the that system's |    |  |  |  |
| 4  | Q. All right. And it's also true that   | 4  | integrity, and you said you didn't know. And so      |  |  |
| 5  | Spire did not curtail any Constellation customer in                                     | 5  | A. Well, I said that                                 |  |  |
| 6  | February of 2021?   | 6  | Q. Or you couldn't answer it. Go ahead.              |  |  |
| 7  | A. We started down the curtailment process  | 7  | I'm sorry.   |  |  |
| 8  | in Southwest Missouri as far as just giving   | 8  | A. I said that I couldn't speak to every             |  |  |

| 14 | Exhibit 12, please, which is our deposition notice.                                     | 14 | Q. It's true, is it not, that the Spire              |  |  |
| 15 | And I'd like for you to turn to topic 17.   | 15 | Missouri West gas distribution system never          |  |  |
| 16 | MR. GORE: Are you looking at you're   | 16 | experienced any sort of any system failure,          |  |  |
| 17 | looking at tab 12. Exhibit 12 is did you get a  | 17 | correct?   |  |  |
| 18 | copy of the notice?   | 18 | A. There was never a failure that wasn't             |  |  |
| 19 | THE WITNESS: I didn't. I don't have   | 19 | able to be worked around to where we could still     |  |  |
| 20 | it in my book.  | 20 | provide firm service. To say that we'd never had a   |  |  |
| 21 | MR. GORE: Yeah, I don't think we got a  | 21 | regulator fail that didn't have to be have to be     |  |  |
| 22 | hard copy of the notice. Was there one in the book?                                     | 22 | backstopped by additional gas through another        |  |  |
| 23 | THE WITNESS: I didn't see any. I saw  | 23 | regulator station, I don't have the specific details |  |  |
| 24 | Clearwater. Just because their number sequence is                                       | 24 | of that, but we never ended up to the point where we |  |  |

| 13 | let me know when you're ready.                      | 1 |
| 14 | A. Which number?                                    | 1 |

| 16 | A. Okay.  | 1 |
| 17 | Q. Okay. And so this topic addresses some           | 1 |
| 18 | of the issues that I've just been trying to ask you | 1 |
| 19 | about with respect to the Spire Missouri West       | 1 |
| 20 | system's integrity and operating parameters –       | 2 |
| 21 | A. Okay.  | 2 |
| 22 | Q. – for the February 2021 period. Do               | 2 |
| 23 | you see that?                                       | 2 |
| 24 | A. I do. I see that.                                | 2 |
| 25 | Q. All right. Just a moment ago I asked             | 2 |
|    |   |   |

| 3  | testify about this topic?                          |
| 4  | A. Yeah, I mean, we talked we talked               |
| 5  | through the issue really focused just around what  |
| 6  | happened down in Southwest Missouri.               |
| 7  | Q. Again, when you're talking about what           |
| 8  | happened down in Southwest Missouri, you that      |
| 9  | again is a reference to the something that         |
| 10 | happened on the Southern Star system, not on the   |
| 11 | Spire Missouri West system, correct?               |
| 12 | A. That is correct. That's where, you              |
| 13 | know, it was my understanding that given the fact  |
| 14 | that we were never at a point where we had to      |
| 15 | curtail firm, that that that covered at the        |
| 16 | detailed level that I needed to understand.        |
| 17 | I wasn't I guess I wasn't under the                |
| 18 | impression that I needed to understand the exact   |
| 19 | workings of every piece of the distribution system |
| 20 | and whether or not there was a single issue across |
| 21 | the thousands of miles and regulator stations that |
| 22 | were on the system during that couple-week period. |
| 23 | Q. During the month of February 2021 the           |
| 24 | Spire Missouri West system was able to stay in     |
| 25 | operation, correct?                                |

| 1  | A. Yes, I think I've confirmed that                  | 1  | into the system.                                     |

| 22 | A. Yeah, I think I think it's in the                 | 22 | storm Spire was able to maintain service for all of  |
| 23 | semantics of your question you're asking because you | 23 | the customers that it serves, doesn't that mean that |
| 24 | keep referring to failures across our system. And    | 24 | Spire was successful in navigating these issues?     |
| 25 | I'm I'm saying with thousands of miles of main       | 25 | Wouldn't a failure be if service had been lost?      |

| 2  | on the information I reviewed, I can't say that we   | 2  | object, foundation, compound, vague, improper        |
| 3  | did not have a single failure across our             | 3  | hypothetical since Mr. Godat is not testifying as an |
| 4  | distribution system.                                 | 4  | expert witness. You can answer a question well,      |
| 5  | But I can say that at no point the                   | 5  | you can answer the questions if you can. I just      |
| 6  | pressures on our system get low enough to where we   | 6  | request you specify which question you're answering. |
| 7  | couldn't provide certain firm service or couldn't    | 7  | A. And I apologize, Richard. Could you               |

| 9  | our city gate.                                       | 9  | Q. (By Mr. Howell) Yes, sir. My question             |
| 10 | MR. GORE: And I'm just going to at                   | 10 | was this: If if Spire was able to navigate all       |
| 11 | this point just reassert my objection, asked and     | 11 | of the, you know, extremely low temperatures that    |
| 12 | answered, because I think we've been through that    | 12 | occurred during the winter storm and Spire was able  |
| 13 | series of questions and answers probably ten times   | 13 | to make all of the gas purchases that were needed to |
| 14 | at this point.                                       | 14 | maintain system pressure in every segment and to     |
| 15 | Q. (By Mr. Howell) Other than the                    | 15 | provide – to ensure that the Spire Missouri West     |
| 16 | Southern Star issue in Southwest Missouri, is there  | 16 | system didn't lose pressure and that all of the      |
| 17 | any other incident or event on Southern Star that    | 17 | Spire customers were able to receive the gas, isn't  |
| 18 | created a a concern with regard to the Spire         | 18 | that a success?                                      |
| 19 | Missouri West system?                                | 19 | MR. GORE: I'm going to object,                       |
| 20 | A. Yeah, I mean, during during that                  | 20 | foundation, compound, misstates prior testimony,     |
| 21 | two-week period or ten days, whatever it was, I      | 21 | improper hypothetical.                               |
| 22 | mean, I know the gas supply team, you know, was      | 22 | A. Yeah, I mean, depends on how you define           |
| 23 | on on calls with Southern Star, trying to            | 23 | success. We were glad we didn't lose any customers,  |
| 24 | understand where where supply was making it into     | 24 | but ultimately incurred costs that sent us down this |
| 25 | the system and was you know, wasn't making it        | 25 | path where we're trying to recover.                  |

| 10   | THE WITNESS: I'm sorry, Gabe.   | 10   | we're going to react to that and, you know, a lot of   |
| 11   | MR. GORE: I was trying to think of how  | 11   | it was centered around like I mentioned, around  |
| 12   | to phrase this. Financial success for whom is   | 12   | the operations side on how if we had some mass   |
| 13   | unclear to me.  | 13   | outages out there, how we were going to handle   |
| 14   | Q. (By Mr. Howell) You can answer,  | 14   | bringing the gas service back on.  |
| 15   | Mr. Godat.  | 15   | And that's when my my Missouri East  |
| 16   | A. Financial success, I would say it  | 16   | field operations team, you know, was involved  |
| 17   | was you know, it was not not a positive   | 17   | soliciting soliciting volunteers to go over and  |
| 18   | outcome for for our firm customers given the cost   | 18   | help with that process. So that that process   |
| 19   | increase they're seeing.  | 19   | was was limited to those activities that were  |
| 20   | When I see when I say our team's  | 20   | happening down in Southwest Missouri. It wasn't the  |

| 3  | other customers whose marketers failed them as well.  | 3  | whether this text message was ever sent?   |
| 4  | So to say I'm not proud of my team  | 4  | A. It's my understanding that this text  |
| 5  | would be an understatement. To say it was to say  | 5  | message went out to the customers down in Southwest  |

#### Page 243 Page 241 1 people just in general think that there's a ton of 1 sent, the February 12th, 2021 Platts document that 2 analysis out there, but it's -- you know, it's just 2 you were just talking about did not exist, correct? 3 the fact that there was -- there was a lot of 3 A. Yeah, that document did not exist. I 4 concern over production. You know, NGPL went to a 4 was just saying that that was -- that shows the drop 5 5 an OFO on the 10th. Enable Gas Transmission went to that we were seeing prior to the 12th. That would 6 an OFO on the 10th. I'm pretty sure Panhandle 6 have been around the 8th and the 9th and the 10th 7 7 Eastern issued theirs on the 10th. that we had in our possession. 8 8 So yeah, I mean, there wasn't even a I just happened to notice it in the Gas 9 lot of discussion for us because we knew -- we knew 9 Daily document when I was reviewing it that showed 10 the huge risk that there was on the loss of supply 10 just a physical demonstration of the huge cuts that 11 on the Southern Star system, and we had to do 11 were taken on the production side. 12 everything we could to maintain integrity. 12 Q. All right. What I want to do is try to 13 And then like I say, that was confirmed 13 determine -- or try to understand whether you, 14 when Southern Star came out with theirs because we 14 Mr. Godat, or whether Spire Missouri engaged in any 15 were the point operator, so all the penalties for 15 sort of objective quantitative analysis on -- on or 16 the marketers' shortfalls fall back on Spire 16 before February 10th, 2021 at 9:20 a.m. when this 17 Missouri. | 11   | A. I don't know if I personally reviewed   | 11   | A. Yeah, I mean, like I mentioned, we had   |
| 12   | that weather forecast prior to looking what was  | 12   | concern that production wasn't going to be  |
| 13   | turned over. You know, definitely had conversations  | 13   | available. We had concern that, you know, the   |

| 15   | kind of from a historical perspective of demand on   | 15   | was going to have us close to peak demand, and the  |
| 16   | the system.  | 16   | upstream pipelines were in OFOs. So there's not a   |
| 17   | Q. And by that what do you mean, that when   | 17   | lot more to it than that.   |
| 18   | it gets colder people use more gas?  | 18   | Q. (By Mr. Howell) Okay. Respectfully,  |
| 19   | A. Yeah, just the high the high level  | 19   | that's not an answer to the question that I asked.  |
| 20   | of demand that we were going to see on our system,   | 20   | The question I asked concerned whether you looked at  |
| 21   | you know, which which is troubling anytime. It's   | 21   | any Spire spreadsheet, analysis, data, anything that  |

| 9      | at the time and the fear of them getting worse, and                             | 9  | And then and then those were all   |
| 10     | then combined with the fact that NGPL, Enable,                                  | 10 | like I say, those were all they were all   |
| 11     | Panhandle, Southern Star all issued OFOs. It was                                | 11 | confirmed with all of the OFOs that were being   |
| 12     | yeah, it anybody in the market knew the situation                               | 12 | issued by all the pipelines.   |

| 14     | Q. (By Mr. Howell) Are you aware of any   | 14 | storage levels. You said – you said something to   |
| 15     | production drops that actually occurred as of                                   | 15 | the effect that you thought Spire had a conservative   |
| 16     | February 9th?   | 16 | storage level, but you thought other people did not.   |
| 17     | A. Justin Powers would have to answer   | 17 | Was there any data or report or documents, e-mails,  |

| 21     | MR. GORE: So let me can I just get  | 21 | information that I was getting from Justin.  |
| 22     | a clarification of your question? When you're                                   | 22 | Q. And what information did Justin provide   |
| 23     | saying as of, are you saying as he sits here today                              | 23 | to you regarding the status of storage levels up to  |
| 24     | does he know of production drops that occurred as of                            | 24 | and including February 9th and 10th when you made  |
| 25     | that date or are you saying you're not being                                    | 25 | this OFO decision?   |

| 12     | MR. GORE: So can we can we get a  | 12 | Missouri system?   |
| 13     | question that just specifies whether you want him to                            | 13 | MR. GORE: I'm going to object,   |

| 16     | record.   | 16 | Carter's role in this whole thing. You can you   |
| 17     | Q. (By Mr. Howell) Sure. Mr. Godat,   | 17 | can answer the question if you understand it.  |
| 18     | based on information that you had as of February –                              | 18 | A. Yeah, like I said, Justin and I were  |
| 19     | the morning of February 10th, 2021, had you seen or                             | 19 | the ones that had the conversation, and then I I   |
| 20     | heard from Justin or anyone else information                                    | 20 | informed my boss, Mr. Carter, before we actually   |
| 21     | confirming that production drops had already begun?                             | 21 | issued the OFO.  |
| 22     | A. Yeah, I'm confident I'm confident at   | 22 | Q. (By Mr. Howell) Was there anyone else   |
| 23     | the time that he was giving me real world examples                              | 23 | that you consulted with prior to making the  |

| 18 | OFO was in compliance with the tariff provisions?    | 18 | the OFO?   |
| 19 | A. I do not recall having that                       | 19 | A. Any conversation I would have had with            |
| 20 | conversation with Mr. Weitzel.                       | 20 | regulatory would have been with Mr. Weitzel.         |

Q. (By Mr. Howell) Mr. Godat, have you been able to read the sentence that's brought up on the screen before issuing an OFO? A. Was the question -- you're asking if I read this particular sentence just now? Q. Yes, sir. Whenever -- whether you read it just now or whether you've read it, you know, studied it intensely --A. Yeah. Q. -- before now, I'm going to ask you

some questions about it. I just want to make sure you've read it before I ask you about it. A. Okay. I've read it. Q. Great. This sentence that I'm focusing on says the following (quote as read): Before issuing an OFO, Spire West will attempt to identify specific customers causing the conditions that give rise to the need for the OFO, and attempt to

remedy those problems through requests

| 1  | ahead.  | 1  | Q. Did you have any reason to believe that   |
| 2  | MR. GORE: Okay.   | 2  | there would be a problem with any specific marketer  |
| 3  | Q. (By Mr. Howell) As of February 9th and   | 3  | or all of the marketers in general that would  |
| 4  | the morning of February 10th, what reason did you   | 4  | that you believe would justify issuing an OFO for  |
| 5  | have to believe that the marketing companies were   | 5  | the system?  |
| 6  | not going to deliver the nominated volumes?   | 6  | A. At the time we issued it, like I  |
| 7  | MR. GORE: I'm going to object to the  | 7  | mentioned, it was we just needed all of the  |
| 8  | extent the question either misstates prior testimony  | 8  | marketers to be in balance given the situation that  |
| 9  | or assumes testimony that has not occurred. You can   | 9  | we were in.  |
| 10   | answer.   | 10   | Q. So did you issue the OFO as a   |
| 11   | A. When when supply gets limited  | 11   | preventative measure to keep the marketers in  |
| 12   | I've been in the market for a long time and Justin's  | 12   | balance?   |
| 13   | been in the market for a long time. It's the  | 13   | A. I think I've said time and time again   |
| 14   | company that has that doesn't have restrictions   | 14   | it wasn't about just about being in balance. It  |
| 15   | typically ends up being the swing for everybody.  | 15   | was we needed we needed to make sure that we   |
| 16   | So the fact that Enable was in an OFO,  | 16   | were able to serve the customers that we're  |
| 17   | NGPL was in an OFO, Southern Star was in an OFO,  | 17   | responsible for serving. So we needed to make sure   |
| 18   | Panhandle was in an OFO. If if Spire Missouri   | 18   | supply was going to come to the system for for   |
| 19   | was not in an OFO why would there be any incentive  | 19   | the customers that we weren't bringing weren't   |
| 20   | for for marketers to continue to bring gas to us  | 20   | typically bringing gas in for.   |
| 21   | when they could take it to those other markets? So  | 21   | Q. And so did you issue the OFO to make  |
| 22   | it's like I say, it's a combination of Southern   | 22   | sure that the marketers delivered the gas that they  |
| 23   | Star being in an OFO.   | 23   | were responsible for delivering?   |
| 24   | But I guess the other thing I haven't   | 24   | MR. GORE: I'm going to object, asked   |
| 25   | talked about yet was just Justin had voiced   | 25   | and answered. You can answer it again.   |

| 5  | that there wasn't even reason to have a conversation | 5  | considered terminating the OFO?                      |
| 6  | about that until closer to the time we lifted it.    | 6  | A. Me personally, I don't recall having a            |
| 7  | Q. Did you have any conversation or                  | 7  | conversation about it until I guess the 19th when we |
| 8  | conduct any analysis about lifting the OFO on gas    | 8  | had terminated it effective the 20th. We found out   |
| 9  | day 13?  | 9  | Southern Star was lifting theirs as well.            |
| 10 | A. We did not have any formal analysis               | 10 | Q. And was Southern Star's decision to               |
| 11 | on and conversation around lifting it at that        | 11 | lift their OFO the impetus for Spire Missouri to     |

| 13 | Q. Okay. Did you conduct any analysis or             | 13 | its OFO?   |
| 14 | have any conversations about lifting the OFO on gas  | 14 | A. It was a factor that went into our                |
| 15 | day 14?  | 15 | decision.  |
| 16 | A. I'm not aware of any analysis. I mean,            | 16 | Q. What other factors went into your                 |
| 17 | if Justin and his team had it and didn't raise it to | 17 | decision?  |
| 18 | my level I can't speak for them, but like I say,     | 18 | A. Looking at the kind of the projected              |
| 19 | the situation was bad enough all the way through the | 19 | forecast and, you know, based on conversation that   |
| 20 | 18th that it didn't even warrant a conversation.     | 20 | Justin was having with the suppliers on on the       |
| 21 | Q. Are you aware of any analysis or did              | 21 | return of the production that was frozen off.        |
| 22 | you have any conversations about lifting the OFO on  | 22 | MR. GORE: If I could just ask for                    |
| 23 | gas day 15?  | 23 | clarification. When you say projected forecast,      |
| 24 | MR. GORE: I'm going to object, asked                 | 24 | could you just say what you mean by that?            |
| 25 | and answered.  | 25 | A. The temperature forecast warming up in            |
|    | Page 270   |    | Page 272   |
| 1  | A. Yeah, I mean, I'll give my same answer.           | 1  | combination with like I say, conversations that      |
| 2  | I never had a conversation with Justin, but not to   | 2  | he was having about the production situation getting |
| 3  | say that he didn't have that conversation with his   | 3  | better. I think you know, he wanted to he            |
| 4  | team.  | 4  | wanted to caveat it with the fact that if that       |
| 5  | Q. (By Mr. Howell) Justin has does not               | 5  | didn't happen he wanted to put people the            |
| 6  | have the authority to issue or to terminate an OFO,  | 6  | marketers on notice that he would turn around and    |
| 7  | correct?   | 7  | issue that again over the weekend. So he put that    |
| 8  | A. He would have he would have brought               | 8  | notice in his in his e-mail when he lifted the       |
| 9  | that to my attention before he changed               | 9  | OFO.   |
| 10 | Q. Does Justin Powers have the authority             | 10 | Q. (By Mr. Howell) All right. I have                 |
| 11 | to issue or terminate an OFO for the Spire Missouri  | 11 | two – two more kind of short things I want to go     |
| 12 | West system?   | 12 | over with you. First I want to ask you about         |
| 13 | MR. GORE: I'm going to object to the                 | 13 | storage. You indicated earlier with mister – in      |
| 14 | extent it calls for a legal conclusion. And          | 14 | response to Mr. Bauer's questioning that there was   |
| 15 | Mr. Howell, I will just remind you, I know we're     | 15 | approximately 8.9 BCF of gas that Spire had in       |
| 16 | doing this remotely, but George doesn't speak super  | 16 | storage, correct?                                    |
| 17 | fast and I think you're cutting him off a few times  | 17 | A. That's correct, going into the month of           |
| 18 | here, which I just would ask you to be careful of.   | 18 | February.  |
| 19 | A. There's not a particular restriction              | 19 | Q. And that storage gas was subject to two           |
| 20 | that I'm aware of in the company that would prevent  | 20 | restrictions. It was subject to an MDQ, which is     |
| 21 | Justin from making that decision. Having said that,  | 21 | the maximum daily quantity of gas that you could     |
| 22 | he and I consulted each other and I was the one      | 22 | draw out of storage each day, and second, it was     |
| 23 | ultimately made that decision in this case.          | 23 | subject to a restriction that no more than           |
| 24 | Q. (By Mr. Howell) And you were also                 | 24 | two-thirds of your gas on the Southern Star system   |

| 1  | A. That's correct.                                   | 1  | that you couldn't tell me, but sitting here today    |
| 2  | Q. Did Spire ever during February 2021               | 2  | are you aware of any day on which Spire either       |
| 3  | reach or attempt to reach the MDQ?                   | 3  | A. Let me I mean, to answer that we                  |
| 4  | MR. GORE: I'm going to object, vague,                | 4  | MR. GORE: I don't know if there's a                  |
| 5  | foundation. You can answer.                          | 5  | question pending.                                    |
| 6  | A. What time period did you ask about?               | 6  | THE WITNESS: All right.                              |
| 7  | Q. (By Mr. Howell) Yeah. So I'm trying               | 7  | Q. (By Mr. Howell) Yeah, yeah, yeah.                 |
| 8  | to figure out, you have all this gas in storage.     | 8  | Okay. I think I have one or two other questions      |
| 9  | You say that it's really conservative that you have  | 9  | about storage. With respect to the 500,000           |
| 10 | all this gas that's just sitting there to protect    | 10 | dekatherms that were sold to Atmos, you mentioned    |
| 11 | your system. What I'm trying to find out is if you   | 11 | that in response to questioning from Mr. Bauer,      |
| 12 | have the gas sitting there and obviously you sold    | 12 | correct?   |
| 13 | some of it to Atmos, but did you try to draw out the | 13 | A. That's correct.                                   |
| 14 | gas, did you try to remove the gas, the physical     | 14 | Q. And you sold 500,000 dekatherms at a              |
| 15 | molecules from storage so that it could come onto    | 15 | price of \$200 per dekatherm, correct?               |
| 16 | your system and protect your system integrity? So    | 16 | A. That's correct.                                   |
| 17 | with that kind of background, what I'm trying to     | 17 | Q. That's \$100 million?                             |
| 18 | find out is did Spire at any time during             | 18 | A. That's correct.                                   |
| 19 | February 2021 attempt to use its full MDQ for any    | 19 | Q. Did Spire credit its rate base from the           |
| 20 | day from storage?                                    | 20 | profit made from the Atmos sale?                     |
| 21 | MR. GORE: I'm going to object, move to               | 21 | MR. GORE: I'm going to object                        |
| 22 | strike the commentary that preceded the question and | 22 | object, lack of foundation. You can answer.          |
| 23 | object to the question as compound.                  | 23 | A. We we handled it through our                      |
| 24 | A. Justin was the one actually determining           | 24 | off-system sales mechanism that's in the tariff.     |
| 25 | the actual daily volumes. You know, what I gathered  | 25 | Q. (By Mr. Howell) Could you explain that            |
|    | Page 274   |    | Page 276   |
| 1  | from him in conversations was that from a planning   | 1  | answer?  |
| 2  | perspective, storage storage is the one buffer       | 2  | A. Yeah, there's there's a sharing                   |
| 3  | that keeps us from being short on Southern Star. So  | 3  | mechanism for that activity. Yeah, I don't I         |
| 4  | from a planning perspective he he felt like he       | 4  | don't recall the exact sharing under that agreement. |

dollars go to the ratepayers and then Spire gets a

11 February 15th if I recall. 12 Q. And so that was three days after the --13 the OFO was issued and, what, another four days 14 before you could even consider terminating the OFO, 15 correct? 16 A. That's correct. 17 Q. And so at that point in time during the 18 winter storm Spire determined that rather than using 19 that 500,000 dekatherms of gas for its own system 20 and its own customers, that it was a better decision 21 to sell that gas to a third party so that third

| 20 | MR. GORE: I'm going to object,                      | 20 | A. Yeah, I think it's the same question              |

| 16 | Atmos.   | 16 | A. Yeah, I don't I don't recall                     |
| 17 | Q. Did you offer that storage gas to any             | 17 | reviewing any transactions in here. I just vaguely  |
| 18 | of the gas marketers when you understood they were   | 18 | remember Justin saying that that there were a       |
| 19 | unable to meet supply?                               | 19 | couple days where in order to I'm pretty sure it    |
| 20 | A. I couldn't tell you if Justin had                 | 20 | was over the long weekend where he was having to    |
| 21 | conversations with marketers about that. I don't     | 21 | transact for four days where when the demand was    |
| 22 | I'm not sure yeah, I'm not sure if marketers even    | 22 | down he was just trying to recoup some of the costs |
| 23 | hold storage contracts.                              | 23 | of the supply that he had bought he had bought on   |
| 24 | Q. Did you   | 24 | a day when he may not need it.                      |
| 25 | A. The conversation yeah, like I say,                | 25 | And I think at that time there was I                |
|    | Page 298   |    | Page 300  |
| 1  | it was it was the utility that had came to us        | 1  | don't know if it was one of the counterparties that |
| 2  | because their marketer had mismanaged their storage  | 2  | he was working with that had helped him out on the  |
| 3  | and they were in dire straits and inquired about the | 3  | supply side where he sold them gas a couple         |
| 4  | transaction for with us, so it wasn't it             | 4  | different ways.                                     |
| 5  | wasn't something that we were out soliciting at the  | 5  | Q. (By Ms. Bell) So who would those                 |
| 6  | time.  | 6  | who would he have been selling to?                  |
| 7  | Q. So you were aware that Atmos was low on           | 7  | A. I would have to get the detail as I              |
| 8  | supply, correct?                                     | 8  | recall, though I'm pretty sure it was Tenaska.      |
| 9  | A. They had reached out to Justin                    | 9  | Q. And do you have any idea what the                |
| 10 | concerned that they were their storage inventory     | 10 | volume of those sales would be?                     |
| 11 | was depleted and they were going to be susceptible   | 11 | A. I do not recall off the top of my head.          |
| 12 | to OFO penalties.                                    | 12 | Q. You had indicated that – sorry.                  |
| 13 | Q. And were you also aware that the gas              | 13 | MR. GORE: Ms. Bell, we really are                   |
| 14 | marketers were potentially short on supply?          | 14 | going to need to take a break. We've been going     |
| 15 | A. At that time we did not know we did               | 15 | about an hour and it's, you know, 5:30. As you get  |
| 16 | not know the inventory levels of anybody else that   | 16 | later in the evening I think an hour is the         |
| 17 | held storage on the Southern Star system on an       | 17 | reasonable amount of time to go without a break.    |
| 18 | individual basis.                                    | 18 | MS. BELL: Sure. I think I have two                  |
| 19 | Q. Okay. And the two-thirds, one-third               | 19 | more questions on storage. Could I finish those and |
| 20 | rule, does that apply to storage on Southern Star    | 20 | then  |

| 1  | (Court reporter interruption.)                       | 1  | A. Okay.  |
| 2  | Q. (By Ms. Bell) Are you there?                      | 2  | Q. It talks about initial notification.             |
| 3  | A. Iam.  | 3  | Do you know what form that took? Was it e-mail or   |
| 4  | Q. Okay. And you see this appears to be a            | 4  | phone?  |
| 5  | staff data request. Is your understanding that this  | 5  | A. I would have to go back and review the           |
| 6  | encompasses communications to both end users and the | 6  | letters that we provided. I know there were several |
| 7  | gas marketers?                                       | 7  | letters that we had that I had reviewed around      |
| 8  | MR. GORE: And I would just instruct                  | 8  | around the issue in Southwest Missouri.             |
| 9  | you to take a moment and familiarize yourself with   | 9  | Q. Okay. And if you take a look back at             |
| 10 | the document.  | 10 | A8 – correct?                                       |
| 11 | A. This appears to me to be in response to           | 11 | A. A8? Yeah, that was a document I said I           |
| 12 | communications specifically with public customers    | 12 | wasn't familiar with.                               |
| 13 | and not necessarily the marketers.                   | 13 | Q. Right. It appears to be in my mind               |
| 14 | Q. (By Ms. Bell) Okay. If we flip to the             | 14 | it looks like a Word document with draft language.  |
| 15 | second page, this                                    | 15 | If you would have actually sent this e-mail, would  |
| 16 | MR. HOWELL: Hey, Stephanie, would you                | 16 | it not have been responsive to DR 0183?             |
| 17 | mind just to speak up a little bit?                  | 17 | MR. GORE: Can we can we for the                     |
| 18 | Q. (By Ms. Bell) Sure. If we flip to the             | 18 | record I believe what you're referring to as A8     |
| 19 | second page, this appears to be a summary of what    | 19 | is  |
| 20 | communications did take place with the               | 20 | MS. BELL: Sorry, 8.                                 |

| 17 | limitation as to the region of the customers?       | 17 | MR. GORE: Can you answer the question?               |
| 18 | A. You're asking me if the question has?            | 18 | A. Oh, I I thought she was waiting to                |
| 19 | Q. Yes.   | 19 | ask me another question. What was the question?      |
| 20 | A. I don't see where there's a designation          | 20 | Q. (By Ms. Bell) Well, let's look at                 |
| 21 | for the region.                                     | 21 | Exhibit 18I, how about that. And this is Exhibit 2,  |
| 22 | Q. Okay. If we go back to page two, it              | 22 | tab 18, tab I. And you see the header. The green     |
| 23 | talks about initial notification.                   | 23 | sheet in front of that says conserve residential     |
| 24 | A. Page where are we going back to?                 | 24 | e-mail, and the following page looks like an e-mail  |
| 25 | Q. The back page of this same document.             | 25 | that was sent to residential customers.              |

| 6  | Q. Okay. Let's go in the other volume  | 6  | Q. Correct.  |
| 7  | to – let's –   | 7  | A on the GSC schedule? Yes.  |
| 8  | A. In the first book?  | 8  | Q. How did you describe that 14.925?   |
| 9  | Q. Yeah. Let's look at – let's see. 1C.  | 9  | A. That was that was a sale that Spire   |
| 10   | A. Okay.   | 10   | Missouri the Spire Missouri utility on the east  |
| 11   | Q. Okay. And I'm looking at the first  | 11   | side of the state sold gas to Spire Missouri utility   |
| 12   | page at the bottom under February 15th. That's the   | 12   | on the west side of the state.   |
| 13   | date that you made the Atmos transaction, correct?   | 13   | Q. And you suggested that number was   |
| 14   | A. That yeah, that's the date that was   | 14   | potentially the cost that you had initially paid for   |
| 15   | on the confirmation.   | 15   | that?  |
| 16   | Q. Okay. Did that transaction, was it  | 16   | A. Not that we initially paid. It was  |
| 17   | agreed to at a different time than the 15th?   | 17   | it was the cost that it took for us to replace that  |
| 18   | A. It would have been it would have  | 18   | on the east side of the state.   |
| 19   | been right around that time. I just recall that the  | 19   | Q. Okay. Is the \$200 with Atmos, is that  |
| 20   | confirmation itself and the storage transfer   | 20   | a cost-based rate?   |
| 21   | happened on the 15th, and just given the urgency of  | 21   | A. It is not.  |
| 22   | the transaction it would have been right around that   | 22   | Q. Can you tell me what went into that   |
| 23   | time.  | 23   | rate?  |
| 24   | Q. Sure. My understanding was that gas   | 24   | A. It was just a negotiated price at the   |
| 25   | was being traded on day 12 for day 13 to 16, but   | 25   | time based on we had factors like the \$300 that   |

| 2  | Q. So if I'm looking at cover cost, you  | 2  | to see what our overall supply level was versus   |
| 3  | assigned the highest price gas in that column?   | 3  | normal.   |
| 4  | A. Yeah, we picked the highest price gas   | 4  | Q. Was all of the gas you had contracted  |
| 5  | on each day and assigned that to the transaction.  | 5  | for delivery in February as of the first of the   |
| 6  | Q. Okay. And why did you do that?  | 6  | month delivered as expected?  |
| 7  | A. It was generally in the Southern Star   | 7  | A. Yeah, we had very little issues around   |
| 8  | index price, which was the majority of the gas we  | 8  | our first of the month supply flowing.  |
| 9  | bought was around the Southern Star index. You   | 9  | Q. What about throughout the month?   |
| 10   | know, from what we understand from the marketers the   | 10   | A. Yeah, I mean, I think our our  |

| 22   | Q. Was that Spire's plan for February of   | 22   | cost spreadsheet  |
| 23   | 2021 as of the first of February?  | 23   | A. Okay.  |
| 24   | A. We typically always had some some   | 24   | Q. – was the fact that you had so much  |
| 25   | spot purchases, that's correct.  | 25   | storage on hand factored into your cover cost?  |

## 1 this schedule. 1 A. Are you saying do I agree that it's a 2 2 once in every five to seven year event? Is that the Q. Do you know - do you know if there 3 3 were conversations about additional purchases from question? 4 Spire Missouri East during the OFO? 4 Q. (By Ms. Bell) Yes. 5 5 A. I'm not aware of any other transactions A. Not to the magnitude that we 6 other than ones, excuse me, that are -- that show up 6 experienced in Winter Storm Uri. 7 on this GSC schedule. 7 Q. And why do you say that? 8 8 Q. Are you aware if Spire Missouri East A. It was a perfect storm of cold -- cold 9 had available supply to complete additional 9 weather, late into February, some of the coldest 10 10 transactions with Spire Missouri West during the late temperatures we've ever seen, combined with the OFO? 11 11 widespread cold that -- the other big thing in that 12 12 A. Yeah, I mean, that's -- that's a -- too -- he probably mentioned in this document was 13 13 vague a question given the complexity of the two that the issues that the electric -- electric --14 portfolios that I wouldn't have an answer for that 14 electric utilities were having with their renewable 15 right now. 15 generation. Q. How did transaction 1008929 come about? 16 16 The windmills were all down. So at 17 A. Justin -- Justin oversees the east and 17 times there was three or four percent of the -- of the wind generation available was all that was 18 the west. In recognition of all of the supply 18 19 challenges that West was having he had some split 19 flowing. So it was the perfect storm of late 20 connected supply that -- that West -- that helped 20 season, cold temperatures, production freeze-offs, 21 West's supply situation, and from conversations 21 and then the power generation was off as well. 22 22 through him he opted to -- to sell that supply to --So they were competing out in the 23 23 from MO East to West because he was able to replace market, competing for molecules against the 24 24 that with another purchase on the east side of our utilities. So I don't see this -- what we 25 25 experienced in -- in Winter Storm Uri as a once in system.

| gas is not delivered?                               | 1        | anything else. I'm asking if there's anything else   |
| MR. GORE: I'm going to object, asked                | 2        | before I make my decision about whether I have any   |
| and answered, also calls for a legal conclusion.    | 3        | more questions.  |
| You can answer.                                     | 4        | MR. BAUER: Oh, okay. All right.  |
| A. To me, when I read this, it's not                | 5        | Yeah. Well, there is one thing then. While I   |
| addressing the issue of if the marketer's not       | 6        | appreciate you've been sitting in the chair for ten  |
| delivering. It's basically saying to the extent the | 7        | hours, there are a number of topics in which   |
| marketer is delivering, we have the requirement to  | 8        | Mr. Godat said I need to talk to somebody else, I  |
| deliver that gas to the end user. To me it's not    | 9        | don't know the answer.   |
| addressing an issue of when the marketer is not     | 10       | And so I just for example,   |
| providing supply.                                   | 11       | topics 2A, 2B, 2F, 2K, 3, 6, 7, 8, and all those   |
| MS. BELL: Okay. No further questions.               | 12       | times he said that he'd have to talk to Mr. Powers   |
| FURTHER EXAMINATION                                 | 13       | to get the answer, and we just had another one with  |
| QUESTIONS BY MR. BAUER:                             | 14       | respect to topic one regarding the documents. So   |
| Q. Hello again.                                     | 15       | I'm not agreeing to close the deposition. I'm  |
| A. Hey there.                                       | 16       | MR. GORE: Okay.  |
| Q. From whom did Spire collect documents            | 17       | MR. BAUER: I don't want to have a  |
| when Spire was responding to the Symmetry data      | 18       | fight with you, but I'm just not agreeing at this  |
| requests? I missed that question.                   | 19       | point.   |
| A. That that was a process that inside              | 20       | MR. GORE: No, that's fine. As to   |
| and outside counsel worked the the ones that        | 21       | those since we're on that deal, as to that topic,  |
| the documents that I reviewed, and the individuals  | 22       | I well, as to topic one, we stated what our  |
| that I spoke to about the collection of those       | 23       | objections were in writing and explained what we   |
| documents were the ones that I referred, which was  | 24       | would produce a witness to cover.  |
| Patty Reardon, Bob McKee, Scott Weitzel. Was there  | 25       | l will just say that to me in general  |
| Page 338  |          | Page 340   |
| any others? Justin Powers.                          | 1        | topic one was wholly improper in that those are  |
| Q. Did Spire collect documents from anyone          | 2        | things that are typically worked out between counsel   |
| else other than those persons?                      | 3        | in terms of narrowing what the documents are to be   |
| A. Those are the individuals that I had             | 4        | discovered and what additional collection needs to   |
| the conversations with about the individual         | 5        | take place and then it's sorted out in a motion to   |
| documents that I collected. I couldn't say that     | 6        | compel. So I think it's improper to try to inject  |
| that is the full extent of anybody that was asked a | 7        | that into a 30(b)(6) deposition. So that's on topic  |
| question about the collection of the documents.     | 8        | one.   |
| Q. And whom would I have to ask to get the          | 9        | On topic two, I do believe that the  |
| answer to my question?                              | 10       | witness testified on each topic as to the factual  |
| A. I would say our inside, outside                  | 11       | basis for the statements that were made. I think   |
| counsel.  | 12       | the ones where he was saying you would have to ask   |
| MR. BAUER: Okay. And I'll save my                   | 13       | other people I think is when you were getting far  |
| comment till everyone's done. Okay. Thank you.      | 14       | afield and getting into the inferences that were   |
| THE WITNESS: Uh-huh.                                | 15       | being drawn by the author of the letter that you   |
| MR. GORE: Are we you guys are done?                 | 16       | were questioning the witness about.  |
| No more nothing else from complainants?             | 17       | But I would stand by the fact that in  |
| MS. BELL: I don't know about                        | 18<br>19 | terms of the factual basis for each of the   |
| Mr. Howell. Nothing else for me.                    | 20       | assertions that you questioned about, he gave  |
| MR. GORE: He should be done. It's                   | 20       | testimony on that that represented the corporation's   |
| seven o'clock.<br>MR. BAUER: No, not closing the    | 21       | knowledge of the factual basis for those statements<br>as the corporate rep understood them. |

2:37:03 PM Justin Powers how are you guys feeling after timely cuts

- 2:37:08 PM Justin Powers for the weekend
- 9:14:16 AM Justin Powers hey shon
- 9:14:16 AM Shon Purcell Away
- 7:16:08 AM Justin Powers would you like 50k of market zone for balmo?
- 7:16:31 AM Shon Purcell capcacity
- 7:16:35 AM Justin Powers yes
- 7:16:40 AM Shon Purcell i dont' have the gas to fill it
- 7:16:55 AM Shon Purcell i woudl rather have 5k adn jsut overrun teh hell out of it
- 7:16:59 AM Justin Powers so should we assume symmetry wont be bringing us much of anyting balmo?
- 7:17:07 AM Justin Powers ok
- 7:17:12 AM Shon Purcell not until next week
- 7:17:14 AM Justin Powers we will do the 5k
- 7:17:18 AM Shon Purcell we are jsut FMJ like crazy
- 7:17:43 AM Shon Purcell and everything we try to replace to stand it doesn't hold
- 7:18:49 AM Shon Purcell once gas comes back on line we will deliver like crazy. the FMJ are killing us
- 7:42:27 AM Justin Powers we are doing the release for balmo
- 7:42:31 AM Justin Powers i talked to greg
- 7:42:36 AM Justin Powers we really need the gas my man
- 7:42:44 AM Shon Purcell udnerstand we will try for sure
- 7:42:48 AM Justin Powers ty
- 7:44:57 AM Justin Powers so atmos recalled the AMA yesterday?
- 7:45:07 AM Shon Purcell yea
- 3:22:41 PM Justin Powers hey shon
- 3:22:51 PM Justin Powers were you guys able to get anything nominated for us today?
- 3:23:03 PM Justin Powers i was showing nothing still for ID2 GD 17
- 3:23:43 PM Shon Purcell we are trying to get stuff in. we mvoed some stuff but don't know if that got cut again
- 3:23:48 PM Shon Purcell i'lll check

3:23:58 PM Justin Powers im just worried somehow im not seeing it

3:24:08 PM Justin Powers as point operator

3:24:13 PM Shon Purcell understand

3:28:02 PM Justin Powers where are you guys sourcing from and being cut?

3:28:09 PM Justin Powers their system is wide open

3:28:23 PM Justin Powers i could even try and move some things around to help

3:28:57 PM Shon Purcell ok let me know what you can sell to us at the pmi. we are reaching out but not finding an sameday gas

3:29:23 PM Shon Purcell and we are still getting cuts out of rh adn KH last i heard

3:40:10 PM Shon Purcell let me knwo what you can sell

7:33:31 AM Justin Powers sorry shon i didnt have anyting to sell for yesterday

7:33:43 AM Justin Powers i was curious how things were looking for you guys for today

7:34:03 AM Justin Powers it didnt look like symmetry was able to get anything to us for GD 17

7:34:06 AM Shon Purcell we are buying everyting we can. we did a bunch that just got cut for today

7:34:13 AM Shon Purcell eya it alll go cut

7:34:24 AM Shon Purcell we are trying to get as much as possible bought and flowing

7:35:11 AM Shon Purcell we bust our ass buying gas and then ti doesn't flow.

7:35:23 AM Shon Purcell i feel like a dog chasing my tail

7:35:34 AM Shon Purcell while i have diaria

7:35:44 AM Justin Powers my other trader said its like trying to put socks on an octopus

7:36:03 AM Shon Purcell thats true

10:51:14 AM Justin Powers hey shon

10:51:36 AM Justin Powers i am showing symmetry was short just under 50k on us for GD 16

10:51:58 AM Shon Purcell codl be worse

10:52:04 AM Shon Purcell could be worse

10:52:27 AM Justin Powers we show 13600 confirmed and around 63k of usage

7:19:18 AM Justin Powers good morning shon

7:19:44 AM Justin Powers i was curious if you could update me on where symmetry was at for deliveries for GD 19 and the weekend

SYMMETRY DR 58

7:21:39 AM Shon Purcell we have brouth our noms up for gd19 to pre weekend numbes

7:21:53 AM Shon Purcell we are working through the cuts as we speak

7:21:58 AM Justin Powers thanks
