File No. EX-2019-0050

STAFF'S MEMORANDUM

COMES NOW the Staff of the Missouri Public Service Commission ("Staff"), by and through the undersigned counsel, and respectfully files the attached *Memorandum* pursuant to General Procedure 1, stating Staff's finding that the actual cost of implementing the rules within this docket to public and private entities has not exceeded the estimates by more than 10 percent or, where appropriate, has not exceeded five hundred dollars.

WHEREFORE, Staff files this *Memorandum* for the Commission's information and consideration.

Respectfully submitted,

/s/ Travis J. Pringle

MEMORANDUM

TO: Missouri Public Service Commission Official Case File No. EX-2019-0050

FROM: Claire M. Eubanks, P.E. on Behalf of Commission Staff

SUBJECT: Staff's Review of Commission Rules Regarding Payment of Solar Rebates by Missouri Investor-Owned Electric Utilities, Case No. EX-2019-0050, as required by Section 536.200, RSMo and the Commission's General Procedure GP-1

DATE: August 30, 2021

On February 27, 2019, the Missouri Public Service Commission (Commission) issued a Notice of Finding of Necessity and Directing that Proposed Rule Amendment Be Filed for Publication. The proposed amendment updates the existing rule's solar rebate requirements in light of statutory changes resulting from passage of SB 564 (Section 393.1670) during the 2018 general session.

The Amended Rule 4 CSR 240-20.100 was filed on February 27, 2019 and a notice of proposed rulemaking was published in the Missouri Register on April 1, 2019 (44 MoReg 1024-1025). The public comment period ended on May 1, 2019 and a public hearing was held on May 7, 2019. The rule became effective October 30, 2019.¹

The Commission Staff has investigated the cost of implementing the rule through this case, and reports that it has not discovered any information that would show that the cost estimates for this rule as published in the *Missouri Register* were inaccurate.

Additionally, on May 26, 2021, Staff filed a Motion to Invite Comments Regarding Costs of Compliance, and reports that it has not received any information from any party potentially or actually affected by the implementation of the subject rules.

The Commission's General Procedure GP-1 ("GP-1") requires that, within 30 days before the end of the first full fiscal year after the implementation of a rule, amendment or rescission, Staff is to investigate whether the cost to all affected entities, including the Commission, has exceeded by ten percent or more the estimated cost in the fiscal note, or, where appropriate, has exceeded five hundred dollars.

GP-1 also requires Staff to prepare a memorandum showing the results of its investigation within thirty (30) days after the end of the first full fiscal year of the implementation of the subject rule, amendment or rescission. If the Staff investigation shows that the costs have not exceeded ten percent for all entities or, where appropriate, the estimated five hundred dollars, Staff's Memorandum shall be entered into EFIS under the rulemaking's docket number.

¹ Effective August 28, 2019, all of the Commission's regulations were transferred from the Department of Economic Development's (DED) Title 4 to the Department of Commerce and Insurance's (DCI) (formerly Department of Insurance, Financial Institutions and Professional Registration) Title 20. The amended rules can now be found at 20 CSR 4240-20.100.

Staff's response regarding the accuracy of the published cost estimates is within the time frame specified by Section 536.200, RSMo 2019. This statute requires publication in the *Missouri Register* of a report of costs exceeding ten percent for all entities or cost over five hundred dollars, where appropriate, within 90 days after the close of the "first full fiscal year" after the implementation of the subject rule, amendment or rescission. The rule that was the subject of this case became effective on October 30, 2019. The first full fiscal year after implementation of the rule thus ended on June 30, 2021. Accordingly, September 28, 2021, would represent the 90-day expiration period for the publication of a report regarding excess cost information in the *Missouri Register*. Since the Staff's investigation indicates that the published cost estimates related to the changes in the rule have not been exceeded, no *Missouri Register* publication is required under Section 536.200, RSMo 2019.
