File No. 9R-2011-0628

1		REBUTTAL TESTIMONY
2		OF
3		GUY C. GILBERT, PE, RG
4 5		UNION ELECTRIC COMPANY d/b/a Ameren Missouri
6		FILE NO. ER-2011-0028
7	Q.	Please state your name and business address.
8	A.	Guy C. Gilbert, P.O. Box 360, Jefferson City, Missouri, 65102.
9	Q.	Please state the purpose of your testimony?
10	<b>A</b>	The purpose of my rebuttal testimony is to offer the Staff's position in
11	response to t	the Company's filed direct testimony by Mr. Gary S. Weiss in this case,
12	regarding part	ial removal costs of \$4,905,000 for the Venice Power Plant accounts.
13	Q.	By whom are you employed and in what capacity?
14	A.	I am employed by the Missouri Public Service Commission (PSC or
15	Commission)	as a Utility Regulatory Engineer II in the Engineering and Management
16	Services Depa	artment.
17	Q.	Please describe your work and educational background.
18	A.	A copy of my work and educational experience was provided in Appendix 1
19	of Staff Repor	rt Cost of Service.
20	Q.	How is your testimony organized?
21	A.	I will present Staff's response to the Company's proposal to amortize cost of
22	removal for the	ne Venice Plant.

#### VENICE COST OF REMOVAL AMMORTIZATION ISSUE

Q.	Please	describe	Ameren's	proposal	regarding	the	amortization	of	production
plant accounts	•								

- A. As described on page 26 of Mr. Weiss' direct testimony, Ameren seeks an amortization to accrue \$981,000 per year for five years for the cost of removal expenses incurred at the Venice Power Plant. The Company has stated that the full investment in the plant and final retirement costs were not recovered through the depreciation expense. However, Mr. Weiss also acknowledges in his direct testimony that "[t]he pro forma accumulated provision for depreciation and amortization, as shown on Schedule GSW-E2, applicable to total plant-in-service, is \$5,937,666,000." This amount is more commonly referred to as the depreciation reserve. Ameren's \$6 billion reserve is more than sufficient to cover the approximately \$5 million costs incurred by Ameren for Venice retirements.
- Q. What is Staff's position regarding the amortization of unrecovered investment and retirement costs proposed by Ameren?
- A. The Company is essentially seeking to re-recover expenses that have been advanced by ratepayers through depreciation rates. Ameren's depreciation rates include an allowance for net salvage, and the collection of that allowance for net salvage is reflected in Ameren's \$6 billion depreciation reserve. Staff recommends Ameren simply book any incurred cost of removal against Ameren's already-collected depreciation reserve.
- Q. Do the separate accounts Ameren has created for Venice, as distinct from its other coal-fired generation, have adequate reserves to cover the incurred costs at Venice?
- A. No. However, Ameren's segregation of its coal-fired steam-production fleet into discreet plant-specific subaccounts was Ameren's own choice. Staff does see not any

1	reason Ameren could not perform a reserve transfer from one of the over-accrued steam-					
2	production accounts into the Venice accounts.					
3	Q. Did historic Commission-ordered depreciation rates segregate the accruing					
4	depreciation expense into discreet plant-specific subaccounts?					
5	A. No. Staff has reviewed the Commission-ordered depreciation rates for					
6	Ameren going back to 1937 and confirmed that at no time has the Commission-ordered					
7	depreciation rates for any steam production plants separate from the steam production fleet					
8	prior to Ameren's most recent rate case, File No. ER-2010-0036.					
9	Q. What is Staff's recommendation regarding the amortization of net salvage for					
10	0 the Venice Power Plant?					
11	A. The net salvage expense for the Venice Power Plant should not be amortized.					
12	Staff recommends these amounts should be drawn from the existing depreciation retirement					
13	reserve (which is over-accrued for the production accounts) and not recovered through an					
14	additional amortization expense to be paid by Missouri rate payers.					
15	Q. Does this conclude your prepared rebuttal testimony?					
16	A. Yes, it does.					

## **BEFORE THE PUBLIC SERVICE COMMISSION**

# **OF THE STATE OF MISSOURI**

In the Matter of Union Electric Company d/b/a ) AmerenUE's Tariff to Increase Its Annual ) File No. ER-2011-0028 Revenues for Electric Service )
