Page 5

(1) JOSEPH SCHULTE,
(2) of lawful age, having been first duly
(3) sworn to testify the truth, the whole truth,
(4) and nothing but the truth in the case
(5) aforesaid, deposes and says in reply to oral
(6) interrogatories propounded as follows, to-wit:
(7) DIRECT EXAMINATION
(8) QUESTIONS BY MR. ELBERT:
(9) Q: Would you state your name for the
(10) record, please?
(11) A: Joseph Schulte.
(12) Q: And have you had your deposition taken
(13) before?
(14) A: Yes.
(15) Q: Do you know how many times?
(16) A: Quite a few.
(17) Q: As you know, I'm just going to be
(18) asking some questions, if you don't understand
(19) a question, please let me know and I'll try to
(20) rephrase the question, okay?
(21) A: Okay.
(22) Q: If you answer a question, I am going
(23) to assume that you understood it, is that okay?
(24) A: Uh-huh.
(25) Q: Okay. And if you need to take a break

Page 6

(1) or something, just let us know and we'll
(2) certainly accommodate that, that won't be a
(3) problem. Are you taking any medication today
(4) that would affect your ability to either
(5) understand or respond to any questions that I
(6) might ask?
(7) A: Not that I know of.
(8) Q: What is your current position?
(9) A: I am the business representative for
(10) local 11-6.
(11) Q: How long have you had that position?
(12) A: Roughly 15 years, 14, 15.
(13) Q: Are you employed by local 5-6?
(14) A: Yes, I am.
(15) Q: It's actually 11-6, right, now?
(16) A: No, it's 11-6.
(17) Q: 11-6. Were you employed by Laclede
(18) Gas Company?
(19) A: Yes, I am.
(20) Q: And how long were you employed by
(21) Laclede Gas?
(22) A: Roughly 20, about 21, 22 years,
(23) somewhere in there.
(24) Q: Did you have any formal education
(25) after high school?

Page 7

(1) A: Yes, I have probably about six or
(2) eight credit hours, college.
(3) Q: Where did you get those?
(4) A: St. Louis Community College.
(5) Q: What were the courses that you took
(6) there?
(7) A: English comp.
(8) Q: Have you taken any courses on
(9) industrial safety?
(10) A: No.
(11) Q: Have you written anything about
(12) industrial safety?
(13) A: No.
(14) Q: Any articles on natural gas
(15) distribution?
(16) A: No.
(17) Q: Any articles on natural gas safety?
(18) A: No.
(19) Q: Have you taken any courses regarding
(20) the minimal, minimum federal safety standards
(21) for the transportation of natural and other gas
(22) by pipeline?
(23) A: No.
(24) Q: Have you taken any courses regarding
(25) natural gas incident investigations?

Page 8

(1) A: No.
(2) Q: Have you taken any courses on state
(3) regulations regarding customer owned piping?
(4) A: No.
(5) Q: Have you received any types of awards
(6) for industrial safety?
(7) A: No.
(8) Q: Have you received any awards of any
(9) kind?
(10) A: No.
(11) Q: Have you done any studies on natural
(12) gas safety?
(13) A: No.
(14) Q: Has the union done any studies on
(15) natural gas safety, to your knowledge?
(16) A: Not to my knowledge.
(17) Q: What was your first job after you
(18) completed your education?
(19) A: Which education are you talking about?
(20) Q: High school.
(21) A: My first job?
(22) Q: Yes.
(23) A: Oh, I worked at L.B. Price Mercantile
(24) Company, I was a shipping clerk.
(25) Q: Okay. How long were you in that

Page 29

Page 31

(1) device?
(2) A: Yes, they have a pocket leak detector
(3) they carry.
(4) Q: Have you ever seen one of those leak
(5) detectors?
(6) A: Yes, roughly, it's something that fits
(7) in your shirt pocket.
(8) Q: Have you ever used one?
(9) A: No, I have not.
(10) Q: Do you know why meter readers were
(11) issued those?
(12) A: It's been three to three and a half
(13) years ago, if I am correct, that they issued,
(14) the department had issued them leak detectors
(15) that they should carry into residential homes
(16) with them when they go, and I guess outside
(17) meters, I don't know if it picks anything
(18) outside up or not.
(19) Q: Do you know whether they wear those
(20) leak detectors for commercial facilities as
(21) well?
(22) A: I assume they do, I don't know.
(23) Q: Do you know why the company issued
(24) those leak detectors to meter readers?
(25) A: I guess to detect leaks in the

(1) readers.
(2) Q: Do you know of any meter reader who
(3) actually has told you that the leak detector
(4) equipment is detecting a lot of leaks?
(5) A: I can't say offhand that I remember
(6) the name, I get so many calls from some people
(7) in the processes of the day, I don't write
(8) everything down.
(9) Q: When was the last such call that you
(10) received?
(11) A: Well, probably a couple weeks ago.
(12) Q: And where were you when you got that
(13) call?
(14) A: Probably at my office.
(15) Q: But you can't remember who it was that
(16) called you?
(17) A: I can't say that I remember offhand.
(18) Q: Is there anything that would help you
(19) remember that person's name?
(20) A: No, not offhand.
(21) Q: Who was the person that told you that
(22) Mike Yancy told him or her that they should
(23) stop calling in leaks?
(24) A: I want to say, God, I think it was
(25) Kevin Stuart, but I can't say for sure.

Page 30

Page 32

(1) building.
(2) Q: Well, I'm asking whether you know, not
(3) what you're guessing.
(4) A: No, they never did tell us why they
(5) issued them, they just told us they were
(6) issuing them.
(7) Q: Do you know how frequently those leak
(8) detectors have indicated that there's leaking
(9) gas in a building?
(10) A: The only thing I can tell you is what
(11) the meter readers tell me, they detected gas
(12) quite a bit, in fact, I've had meter readers
(13) tell me that they've called so many leaks down
(14) that their boss has told them after the third
(15) leak you turned in, don't call us no more, turn
(16) it off.
(17) Q: Who told you that?
(18) A: Oh, God, I can't remember their names
(19) offhand.
(20) Q: Do you remember any of them?
(21) A: The only name that I can remember that
(22) they gave me was Mike Yancy told them to shut
(23) it off if they're turning too many leaks in.
(24) Q: Mike Yancy was a supervisor?
(25) A: He was a supervisor for the meter

(1) Q: Kevin Stuart is a meter reader?
(2) A: Yes. Like I said, I talk to a lot of
(3) meter readers, a lot of employees about a whole
(4) bunch of different things during the processes
(5) of the day, I don't remember every individual
(6) person that told me this and this or that.
(7) Q: Did any meter reader tell you the
(8) percentage of leaks that were discovered by the
(9) leak detection device as compared to all meters
(10) that were read by the meter reader, what
(11) percentage of meter readings yielded a positive
(12) test result?
(13) A: I can't say that I know that.
(14) Q: Well, do you have any idea whether
(15) it's one percent, two percent, three percent?
(16) A: No, I --
(17) Q: You don't know?
(18) A: You have that in your records, I don't
(19) have access to your records.
(20) Q: Do you know whether dangerous
(21) conditions, which we'll call safety hazards for
(22) the purpose of this deposition, okay?
(23) A: Yes.
(24) Q: Have been discovered during TFTO's?
(25) A: Do I know?

Page 33

Page 35

(1) Q: Do you have personal knowledge whether
(2) safety hazards have been discovered during
(3) TFTO's?

(4) A: Yes.

(5) Q: You have discovered -- did you
(6) actually discover safety hazards while you did
(7) TFTO's?

(8) A: I've probably discovered hundreds of
(9) them.

(10) Q: How many TFTO's do you think you've
(11) done?

(12) A: When I was a serviceman?

(13) Q: Yes.

(14) A: I mean, this is just speculation, I
(15) probably done over 1,000.

(16) Q: So you've done over 1,000 TFTO's and
(17) you think you've discovered hundreds of safety
(18) violations during those TFTO's?

(19) A: Yes.

(20) Q: So, would you say that, are you
(21) suggesting that about 25 to 33 percent of the
(22) time that you did a TFTO, you found a safety
(23) hazard?

(24) A: I would probably say anywhere from 15
(25) to 25, yes.

(1) system which is the customer pipe and
(2) appliances, correct?

(3) A: Okay. Correct.

(4) Q: And then we have the Laclede system,
(5) which is Laclede's facilities, which are the
(6) pipe that leads up to the meter from outside,
(7) correct?

(8) A: Correct.

(9) Q: All right. Now, with respect to these
(10) hazards that you found during TFTO inspections,
(11) how many of those related to the Laclede Gas
(12) facilities?

(13) A: God, I found numerous ones there, too,
(14) but there was no hazard ticket wrote on that,
(15) you just repaired what was there or you wrote a
(16) ticket up to have it repaired by somebody else
(17) to come out and repair it, for instance, if you
(18) had a regulator on Laclede's system, and it was
(19) not vented properly, that was something that
(20) was a hazard, if it was, let's say a contractor
(21) went out there and put siding on the house and
(22) just unscrewed the thing lose and left it
(23) hanging in the house, that had to be done
(24) before you left that house because that was a
(25) hazard, if the regulator malfunctioned and

Page 34

Page 36

(1) Q: 15 to 25 percent?

(2) A: Correct.

(3) Q: Okay. So that would mean that if you
(4) did over 1,000, you probably discovered
(5) somewhere between 150 and 250 or more safety
(6) hazards?

(7) A: Probably.

(8) Q: Of those safety hazards, how many of
(9) them were on Laclede owned equipment or pipe?

(10) A: Well, the safety hazards -- are we
(11) talking about filling safety reports out, or
(12) are we talking about safety on, we're talking
(13) two different things here.

(14) Q: Okay.

(15) A: A hazard, when you fill, as a
(16) serviceman when I found something on a Laclede
(17) system, you wrote a hazard ticket out, you
(18) turned it in, you disconnected the appliance.

(19) Q: Well, on Laclede's system or on the
(20) customer system?

(21) A: On the customer system.

(22) Q: I think you said Laclede system.

(23) A: I could have misspoke.

(24) Q: That's what I'm trying to establish
(25) here, let's talk about, we have a customer's

(1) opened then that gas is going to pour in the
(2) house that, had to be done right away and there
(3) was other things that was potential hazards on
(4) them, like broken valves where you could not
(5) shut the gas off properly or it had to be
(6) replaced because it was so stiff and that.

(7) Q: Were those hazards that you're
(8) describing, those were all to the Laclede
(9) facilities that you're talking about?

(10) A: Yes.

(11) Q: Okay. And what I asked you, I
(12) believe, is what percentage of the safety
(13) hazards that you discovered during TFTO's were
(14) with respect to Laclede's facilities?

(15) A: 'Boy, you're asking me a question
(16) that's hard, maybe three percent, two percent,
(17) over all the whole general time I was in there.

(18) Q: Okay. I'm just trying to understand
(19) this. So you're saying that if you did 1,000
(20) TFTO's, about two percent of them yielded --
(21) well, actually let me make sure I understand.
(22) Is this two percent of all TFTO's or two
(23) percent of the ones you did where you found a
(24) hazard?

(25) A: We're in to two different things here,
