Plans and specifications submitted by Fox and Cole
for wastewater works to serve

Ashmont, St. Louis County, Missouri
have been reviewed and approved by the Missouri Department of
Natural Resources, as evidenced by Construction Permit Number
22-2499 which is attached to this letter. This permit
authorizes construction of the facilities described on the
permit, and is issued in accordance with regulations of the
Clean Water Commission. Approval of the Department of
Natural Resources must be obtained prior to making any changes
in the plans and specifications for the work described in the
permit. This permit will terminate by its own terms one year
from the date of issuance unless justification is presented
for extension.

RECOMMENDATIONS:

See attached Department of Natural Resources
Form E2.10.

COMMENT: None.

CONSTRUCTION PERMIT

The Missouri Clean Water Law, Chapter 204, R.S.Mo., requires that the permit for the construction of any sewer line be issued by the Missouri Department of Natural Resources, Division of Conservation, at the following address: Oakville Development Company, Inc.,

2537 El Paso Court, St. Louis, Missouri 63129

for the construction of a sewer line consisting of 4043 linear feet of 2-inch P.V.C. complete with all of the necessary appurtenances to make this a complete and usable sewer to serve 24 single family residential lots in Ashmont Subdivision located on Becker Road south of Telegraph Road, St. Louis County, Missouri. This sewer line will discharge into an existing South County Sewer Company sewer in the Sugar Creek Watershed with treatment to be provided at South County Sewer Company's Sugar Creek Treatment Plant.

Permit Conditions: SEE ATTACHMENT

Construction of such proposed facility shall be in accordance with the provisions of the Missouri Clean Water Law as located in Chapter 204 R.S.Mo. and shall conform to all rules and regulations promulgated thereunder, or this permit may be revoked by the Missouri Department of Natural Resources.

As the Department of Natural Resources does not review architectural features of design or the efficiency of mechanical equipment, the issuance of this permit does not include approval of these features.

A representative of the Department of Natural Resources shall be required by this permit periodically during construction. Issuance of an operating permit shall be contingent upon the work substantially adhering to the approved plans and specifications.

PROPOSED SEWERAGE
CONSTRUCTION PERMIT 22-2199
1-10-79

1. Service connections for lots 12-47 and 62-73 (a total of 48 lots) shall not be made until a construction permit has been issued by the Missouri Department of Natural Resources for the proposed lift station to be located at the rear of Lot 24 on Grassy Valley Drive in southeast Subdivision.
2. There shall be a minimum of thirty inches (30") of cover over all sewer lines.
3. The sewers covered under this permit shall not be placed in operation until a receiving treatment facility with adequate treatment capacity is provided by the South County Sewer company.
