Basis for Intervening:

Founded in 1965, the Natural Gas Supply Association (NGSA) represents integrated and independent energy companies that produce, transport and market domestic natural gas and is the only national trade association that solely focuses on producer-marketer issues related to the downstream natural gas industry. NGSA's members trade, transact and invest in the U.S. natural gas market in a range of different manners. NGSA members transport and/or supply billions of cubic feet of natural gas per day on interstate gas pipelines. As a result, NGSA has a direct and substantial interest in the outcome of this proceeding, and its interests cannot be represented adequately by any other party. Accordingly, NGSA requests that the Commission grant its timely intervention in this proceeding.
