**Re: Tariff Schedule to Adjust FAC Rate of
KCP&L Greater Missouri Operations Company**

Dear Mr. Reed:

Pursuant to 4 C.S.R. 240-20.090(4) of the regulations of the Missouri Public Service Commission ("Commission"), KCP&L Greater Missouri Operations Company ("KCP&L-GMO" or the "Company") hereby submits proposed rate schedules to adjust charges related to the Company's approved Fuel Adjustment Clause ("FAC"). The proposed rate schedules bear an issue date of June 29, 2012, and an effective date of September 1, 2012.

Please provide a copy of all correspondence, notices, orders, and other communications that relate to this filing to the following as well as undersigned counsel:

Linda J. Nunn
Lead Regulatory Analyst, Regulatory Affairs
Kansas City Power & Light Company

FAC net includable costs for the six month period ending May 31, 2012, have decreased by approximately \$1.8 million as compared to the base costs included in rates. In accordance with the FAC for KCP&L-GMO approved by the Commission, the proposed rate schedules are designed to return to customers 95 percent of those net cost decreases. The proposed decrease

will result in a decrease to a typical residential customer's bill of approximately \$2.00 per month for MPS and a decrease of approximately \$1.54 per month for L&P.

As explained in the Direct Testimony and supporting schedules of Linda Nunn, which are submitted concurrently herewith, the overall FAC continues to be positive because net fuel and purchased power costs over time continue to be higher than the base costs established in 2011. Also provided herewith are schedules containing the information required by 4 C.S.R. 240-3.161(7), including all workpapers that support the proposed rate schedules.

Copies of the proposed FAC-related rate schedules and all supporting materials described in this letter will be served electronically, this date, on the Commission's General Counsel, the Office of Public Counsel, and each party to Case No. ER-2010-0356.

Respectfully submitted,

/s/ Roger W. Steiner
