FEDERAL ENERGY
REGULATORY COMMISSION

Kimberly D. Bose, Secretary,

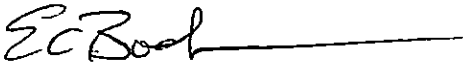

Dear Ms. Bose,

RE: Court Docket number: CP17-40-007

The recent suit filed by the EDF pertaining to the 65 mile STL Pipeline threatens to impact 650,000 homes and businesses in the greater St. Louis area heading directly into winter. I am appealing to you to NOT shut this pipeline down on December 13. An extension should be issued until Spring 2022 at the earliest so that alternate actions may be taken to serve this area with reliable natural gas.

While I do not understand why a pipeline which has been operating since 2018 with appropriate approvals is now in question; I understand very well that turning off gas supply to this region as winter begins is irresponsible and reckless. Please take a responsible approach and delay this action.

Sincerely,

Eric Boelzner
