Important Information About the Coverage Map

Map may include areas served by unaffiliated carriers, and may depict their licensed area rather than an approximation of the coverage there. Actual coverage area may differ substantially from map graphics, and coverage may be affected by such things as terrain, weather, foliage, buildings and other construction, signal strength, customer equipment and other factors. Cingular does not guarantee coverage. Charges will be based on the location of the site receiving and transmitting the call, not the location of the subscriber.

Fidelity Press Release

FIDELITY COMMUNICATIONS CO.

Mid-Missouri Bank is Fidelity's First Lebanon Phone Customer

Mid-Missouri Bank was looking for local telephone service that featured good customer service at a reduced price. Fidelity Communications filled the bill.

After careful consideration, the bank switched to Fidelity from Embarq on August 8. "We feel we made the right decision," said Vice President Guylene Franklin. "We are extremely happy. We've had no problems at all."

She estimated Mid-Missouri is saving 37 to 40 percent on its phone service by using Fidelity. "We also researched other companies. When we checked Fidelity out, we got good comments and found good customer service," Franklin said. "That's very, very important to banks."

Mid-Missouri signed a two-year contract for local phone service, including E-911. That could expand to include long distance, ATMs and dedicated phone lines in the future. "We are open to expanding the service, but wanted to get our feet wet first," she said.

The bank has 15 facilities, located in Bolivar, Deepwater, El Dorado Springs, Joplin, Lebanon, Mount Vernon, Republic, Springfield, Stockton, Webb City, and Willard. "If the services do well here, we may present them to the other banks," she noted.

Fidelity, based in Sullivan, competes with Embarq for local phone customers in Rolla and will do the same in Lebanon in the coming months. Fidelity is the only local provider in Sullivan, Owensville, New Haven and Gerald and has been offering phone service since 1940.

On the day of the switchover, Fidelity technicians started working two hours before the bank open to minimize any business interruptions. More than 20 lines were ported, or switched, from Embarq to Fidelity before 9 a.m.

"The cutover went incredibly well," said Mark Diehl, Fidelity installation and repair supervisor. "We were pleased with how efficiently the switch was completed."

Franklin agreed. "Everything was on target," she said. A small glitch was quickly corrected and there was "really no downtime. We couldn't even tell we switched."

The lines that were switched included the Mid-Missouri Investment Center and the Mid-Missouri Insurance Agency located in the bank building. Franklin said the agency President, Gib Adkins, was impressed with Fidelity and made the switch as well.

Doing business with a local company was another consideration. Fidelity is currently rebuilding the Lebanon cable TV system it purchased in March and plans to offer phone service to more business customers, as well as residential customers, in the months ahead.

"I speak very highly of their people," she said. "Response time has been good and customer service has been excellent. If you have a problem, you don't want to wait for days or be put on hold. Fidelity has been very responsive to our needs."

For more information about Fidelity services available in Lebanon, call the local office at 588-7841.
