

EC-2023-0395

Brett Felber

Vs

Ameren Missouri

A telephone conference would be great, in fact I recommend it earlier in the week, but was denied. I'll be available later this afternoon, and after 11:30 am tomorrow. The sooner, the better.

That being said, everything else the counsel said is completely inaccurate and false. There's nothing said that warrants an Ex-Parte. Counsel is upset that complainant filed a lawsuit against parties and he is seeking another frivolous and false accusation.

I will NOT discuss lawsuit matters with counsel or commission staff, as they don't pertain to this matter.

He's part of a lawsuit that I tried to rectify and he can gladly request discovery for that in JPC-23-02415-22.

Not only is counsel making assertions and false claims against complainant, he is also trying force complainant to produce documents that aren't obligated parties to the suit.

Counsel respond to the lawsuit. Sounds like counsel wants to further his slander, defamation and libel, to parties outside the suit.
