ORDER DIRECTING FILING

Issue Date: May 16, 2011

Effective Date: May 16, 2011

On April 28, 2011, the Commission's Staff responded to a Commission order to provide a reason for keeping this file open. Within Staff's response, Staff stated:

Based on the Company's representation and Trigen's statement in its November 16, 2009 Status Report that it has received all payments from Truman which is confirmed by the payments received from Truman, the last of which was July 2009, Staff believes Trigen has fully complied with the Commission's May 25, 2006 *Report and Order*. However, Staff believes Trigen has not yet filed the final report required by Commission's August 25, 2008 Order. In that Order the Commission stated "once these transactions are finalized, Trigen shall submit a final report to the Commission." Staff believes it is appropriate for Trigen to submit a final report to the Commission in which it identifies 1) that all construction of the extension of Trigen's facilities to serve Truman is completed, 2) the total construction costs of the extension of Trigen's facilities to serve Truman have been charged to the customer 3) all construction costs for which Truman is responsible have been fully reimbursed to Trigen. This information should be consistent with the attachments to the filings Trigen made July 31, 2008 and September 15, 2008 where the total construction costs are identified along with the total Truman reimbursements. The Commission should keep this case open until Trigen submits its final report.

Trigen-Kansas City Energy Corporation's next status report is due no later than July 1, 2011. Trigen shall file the final report referenced in Staff response with that status report or explain why it cannot make such a filing at that time.

THE COMMISSION ORDERS THAT:

1. Trigen-Kansas City Energy Corporation July 1, 2011 status report shall include the information directed in the body of this order.
2. This order shall become effective immediately upon issuance.
