**SUPPLEMENTAL NOTIFICATION**

COMES NOW Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri" or "Company") and, pursuant to the terms of its tariffs approved to implement the energy efficiency portfolio approved in this case, submits the following *Supplemental Notification*:

1. Ameren Missouri's Change Process tariff, found at Sheet No. 221.4 of its Energy Efficiency MEEIA 2019-21 tariffs, states that the Company will file a notice in this case prior to making a change in its measure and/or incentive amount offering. Accordingly, on February 13, 2020, Ameren Missouri submitted a *Notification* ("February 13<sup>th</sup> *Notification*") indicating that it was modifying four of its energy efficiency programs, including:<sup>1</sup>

- **Residential Heating and Cooling Program:** Ameren Missouri is making the following revisions to this program:
  - ....
  - **Additional Distributor Channel:** The Company is developing a channel that will provide a distributor rebate for 19 SEER and above ductless measure, 18 SEER and above CAC measures, and 18 SEER and above ASHP measures. Ductless systems will be offered to help customers avoid more inefficient measures (e.g., fans, space heaters, etc.). Distributors will market, promote, stock, and train the contractors on these measures. For ductless systems, the program will provide training for distributors and contractors that ASHP and ductless systems cannot be for replacing existing gas systems. Customers will receive an instant rebate on their invoice from the contractor. The channel will be deployed in two phases: March 2 through April 30 is the training and enrollment period for distributors; and May 1 forward, the measures will be moved from the contractor channel to the distributor channel. [Emphasis added.]
