Guy Thomas
(your name) Complainant,
vs.
Evergreen Lakes Water Supply
(utility company's name) Respondent.

Missouri Public Service Commission

Case No. _____

COMPLAINT

1. Complainant resides at 3499 Central Ave Catawissa
MO. 63015.
2. Respondent, Evergreen Lakes Water Supply, P.O. Box 138 Cedar Hill MO
(Company's name and address) 63016

Evergreen Lakes Water Supply, is a public utility providing service to complainant's residence.

3. As the basis of this complaint, complainant states the following facts: _____

See attachment

In mid August 2005 I talked to Eunice Jones at Evergreen Lakes Water Supply to order two water taps. I was told the price was \$75.00/tap and she would call back when ready to install tap. I waited about a month and heard nothing from the water company, so I called and talked to Eunice Jones again, she told me the plumber was sick, the weather was to bad, they had to rent the equipment, I heard a few excuses, she said the plumber would call me to schedule a time to meet. I finally met with a man named Terry Jenkins, the plumber, we went over where he would put the water tap, he told me he would call me and tell me what day he would install the tap. While I was waiting to get the installation of the water tap, I was informed by a neighbor that the water rates went up. I called and asked Eunice Jones about the rate increase and was informed that now the price was \$800.00/tap. I called the Missouri Public Service Commission and made a complaint (# C200603873) I was told there was nothing I could do about it. (I was not told that I could write a formal complaint.) I then called Eunice Jones and asked if she could wait till my construction loan was complete. I did not think this would be a problem since I had already waited over two months. I did not find out about the formal complaint until my brother Erik Thomas told me he had written a complaint and won his case (# 2006-0423). I did nothing because I had not received a bill. I received my first bill in Oct 2007. I feel if I had known about this formal complain I could have taken care of this in 2005. I also feel like Eunice and the plumber, Terry Jenkins new about the rate increase and took their time so they could make more money. At first I wanted two lots tap and fell like I should still fight and get the seconded lot for the quoted amount of \$75.00, but I am only concerned about the tap at my residences.

After my tap was completed I had my yard graded and found that my lot already had a water meter pit dug and in place. Evergreen Lakes Water Supply never told me that the tap was there. It would have taken less than an hour to install a meter and be complete. All of this could have been avoided if the Water Company was not trying to scam its customers out of money.

I have also asked the Water Company to fix two open pipes in my yard, Eunice and Terry the plumber both have seen the pipes and still do nothing to fix the pipes. I have kids and dogs that play in my yard and would like help in making Evergreen Lakes Water Supply do there job and fix the hazards in my yard.

4. The complainant has taken the following steps to present this complaint to the respondent: See attachment

WHEREFORE, complainant now requests the following relief: I want to be billed the original amount quoted of \$75.00. The water company should be held accountable for their attempt to scam me out of money by waiting till the rate increase to install my meter, when requested months before. I also want the hazards in my yard repaired.
