701a

Standard 30-40 foot wood pole, as required, per pole	\$4.19
--	--------

W170

Standard 2-conductor wire, per span	\$.98
-------------------------------------	--------

- (1) Limited to lamps served under contracts effective prior to Sept. 30, 1963.
- (2) Standard side mounted, mercury vapor hood with open bottom glassware.
- (3) Horizontal burning, enclosed, mercury vapor luminaire.
- (4) Post-top mounted, enclosed, mercury vapor luminaire, including standard post; limited to installations taken under 10 year contracts only.
- (5) Pole-mounted, directional, mercury vapor luminaire; limited to installation on existing wood pole accessible to Company basket truck and provided that capacitors, sectionalizers, regulators, cable terminations or 34.5 kV switches are not mounted on such pole.

Tax Adjustments. Any license, franchise, gross receipts, occupation or similar charge or tax levied by any taxing authority on the amounts billed hereunder will be so designated and added as a separate item to bills rendered to customers under the jurisdiction of the taxing authority.

Payments. Bills are due and payable within ten days from date of bill. Bills for residential customers become delinquent after twenty-one days from date of bill. Bills for nonresidential customers become delinquent after ten days from date of bill.

Term of Contract. One year, terminable thereafter on three days' notice, where only standard facilities are installed, or where any nonstandard facilities installed are paid for in advance; ten years, terminable thereafter on three days' notice, where post-top luminaires are installed, or where a charge of 1.5% per month is made for any nonstandard facilities installed.

APPLYING TO

MISSOURI SERVICE AREA

SERVICE CLASSIFICATION NO. 6(M)*
PRIVATE STREET AND OUTDOOR AREA LIGHTING

1. Rate Application. Available for lighting private streets, alleys, walkways and other private thoroughfares, or for outdoor lighting of public or private areas for security or similar purposes when, except as provided in Section 6 hereof, such lighting facilities are operated as an extension of Company's distribution system.
2. Character of Service Supplied. Company shall furnish, install, maintain and deliver electric service to automatically-controlled lighting fixtures conforming to Company's standards. Customer shall select the type and size of lamps and fixtures from the standard equipment offered by Company and shall specify the location of said fixtures. Normally, the service provided hereunder shall be supplied by overhead lines through fixtures supported by standard upswEEP brackets attached to wood poles; however, certain non-standard facilities may be installed hereunder in accordance with the terms and conditions stated in the following Paragraph 3.
3. Special Facilities. Whenever Customer requests Company to install non-standard facilities hereunder (such as concrete or other ornamental posts, underground conduit and/or cable, longer upswEEP brackets, shields, switches, etc.) and there is no engineering, construction, safety, legal or practical reason which would, in Company's judgment, make such non-standard installation inadvisable, Company will make such installation provided Customer pays to Company, in advance and without right of refund, the installed cost of such non-standard facilities. In lieu of such lump sum payment, and subject to approval by Company, Customer may elect to contract for service hereunder for a term of ten years and to pay to Company a monthly charge equal to 1.5% of the installed cost of such non-standard facilities.
4. Change or Relocation.
 - a. Where Customer requests an increase in lamp size, Company will make whatever changes are necessary to provide the larger lamp without additional charge, provided Customer signs a new one-year or ten-year contract, as appropriate. Billing on the rate for the larger lamp will begin as of the next regular billing date after installation of said lamp. Where Customer requests a change to a smaller lamp size, Company will make whatever changes are necessary to provide the smaller lamp, provided Customer pays to Company all costs incurred by Company in connection therewith. Billing on the rate for the smaller lamp will begin as of the next regular billing date after installation of said lamp.

SERVICE CLASSIFICATION NO. 6(M)*

PRIVATE STREET AND OUTDOOR AREA LIGHTING - (CONTINUED)

4. (Continued)

- b. Upon receipt of written request and authorization from Customer, Company will, insofar as it may be practical and permissible, make any other change in or relocation of its facilities used in rendering service hereunder provided Customer pays to Company at the time such change or relocation is made all costs incurred by Company in connection therewith.

5. General Provisions.

- a. Customer shall furnish to Company, without cost to Company and on forms suitable to it, or Customer shall reimburse Company for all costs incurred in obtaining all rights, permits and easements necessary to permit the installation and maintenance of Company's facilities on, over, under and across both public and private property where and as needed by Company in providing service hereunder.
- b. Company shall adjust the automatic control on each installation to provide lighting service from dusk to dawn each night. Upon receipt of notice from Customer of failure of light to operate as provided, Company shall be allowed a reasonable period of time in which to make repairs during regular working hours.
- c. The facilities installed by Company shall remain the property of Company and may be removed by Company if service is discontinued.
5. Customer Owned Outdoor Area Lighting Facilities. Where Customer furnishes, installs, owns and maintains all outdoor area lighting facilities on Customer's private property, service will be supplied as follows:

- a. Company will furnish unmetered electric energy (only) at the following monthly charges per lamp:

3,300 Lumens, 100 Watts	\$ 1.77
6,300 Lumens, 175 Watts	2.62
11,000 Lumens, 250 Watts	3.58
20,000 Lumens, 400 Watts	5.28
40,000 Lumens, 700 Watts	9.33
54,000 Lumens, 1000 Watts	12.05

- b. The equipment shall be of a type acceptable to Company and shall be installed and maintained in a condition satisfactory to and approved by the appropriate electrical inspection authority.

6. b. (Continued)

Customer shall provide wire of sufficient length to reach a point specified by Company on Company's secondary distribution system and Company will make the required connection. Such wire shall be and remain the property of Company and may be removed by Company at any time after termination of service hereunder. Customer shall furnish to Company, without cost to Company and on forms suitable to it, or Customer shall reimburse Company for all costs incurred in obtaining all rights, permits and easements necessary to permit the installation and maintenance of Company's facilities on, over, under and across both public and private property where and as needed by Company in providing service hereunder. Customer shall notify Company immediately if any changes are made in Customer's installation. Company may refuse to make the initial connection or may discontinue service to any installation if there is any engineering, construction, safety, legal or practical reason for doing so.

7. General Rules and Regulations. In addition to the above specific rules and regulations, all of Company's General Rules and Regulations shall apply to service supplied under this Service Classification.
