ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under sections 386.250, 386.310, and 393.140, RSMo 2016, the commission adopts a rule as follows:

4 CSR 240-40.033 Safety Standards – Liquefied Natural Gas Facilities is adopted.

A notice of proposed rulemaking containing the proposed rule was published in the *Missouri Register* on February 1, 2019 (44 MoReg 500-501). No changes have been made in the text of the proposed rule so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the Code of State Regulations.

SUMMARY OF COMMENTS: The public comment period ended March 4, 2019, and the commission held a public hearing on the proposed rule on March 5, 2019. The commission received timely written comments from the staff of the commission. Dean Cooper, representing Summit Natural Gas of Missouri, Darrin Chism, on behalf of Summit Natural Gas of Missouri, and Robert S. Berlin, representing the commission's staff, appeared at the hearing and offered comments.

COMMENT #1: Staff's written comment explains that the new rule to establish safety standards for liquefied natural gas facilities used in the transportation of gas by pipeline is necessary because such a facility has recently been opened in Missouri.

RESPONSE: The Commission will make no change in response to this comment.

COMMENT #2: Darrin Chism, speaking on behalf of Summit Natural Gas of Missouri, the owner of the new liquefied natural gas facility that will be affected by this rule, explained that Summit fully supports the adoption of the rule.

RESPONSE: The Commission will make no change in response to this comment.
