Wat-Sub

Mr. Jim Norman, Vice President  
Turkey Mountain Estates, Inc.  
Shell Knob, MO 65747

Dear Mr. Norman:

A routine inspection was made of the condition and operation of the public water supply serving Turkey Mountain Estates No. 1 Subdivision, Shell Knob, Missouri, by representatives of the Division of Environmental Quality and of the Barry County Health Unit on December 27, 1977.

At the time of this inspection it appeared that the supply was being operated and maintained in a satisfactory manner.

A review of the record indicates that the supply is meeting minimum chemical and bacteriological standards for safe drinking water.

If this office can be of assistance, please advise.

Sincerely,

*James S. Davis*
