ORDER GRANTING APPLICATIONS TO INTERVENE

Issue Date: October 16, 2008

Effective Date: October 16, 2008

On September 5, 2008, Kansas City Power & Light Company submitted to the Commission proposed tariff sheets intended to implement a general rate increase for electrical service provided in its Missouri service area. The tariff sheets bear a requested effective date of August 5, 2009. On September 12, 2008, the Commission issued an order giving notice of the tariff filing and making signatories to the Stipulation and Agreement in Case No. EO-2005-0329¹ parties to this case without the necessity of requesting intervention. The order also set certain procedural dates, including an intervention deadline.

Timely applications to intervene were filed by Missouri Gas Energy, a division of Southern Union Company (MGE); Union Electric Company, d/b/a AmerenUE (AmerenUE); Trigen-Kansas City Energy Corporation (Trigen-KC); the United States Department of Energy, National Nuclear Security Administration, and Federal Executive Agencies; and the

Midwest Energy Users' Association (MEUA).² No objections to the applications have been received and the deadline for doing so has passed.

The Regulatory Law Judge granted the applications to intervene at the prehearing conference held on October 15, 2008. The Regulatory Law Judge indicated, however, that a formal order would follow. The Commission finds that each request for intervention is in compliance with Commission rule 4 CSR 240-2.075. The Commission further finds that each intervenor has an interest in this proceeding that is different from that of the general public. The Commission shall grant the applications to intervene of MGE, AmerenUE, Trigen-KC, the Federal Executive Agencies, and MEUA. The intervenors are directed to comply with the procedural orders of this case.

THE COMMISSION ORDERS THAT:

1. The application to intervene filed by Missouri Gas Energy, a division of Southern Union Company, is granted.
2. The application to intervene filed by Union Electric Company, d/b/a AmerenUE, is granted.
3. The application to intervene filed by Trigen-Kansas City Energy Corporation is granted.
4. The application to intervene filed by the United States Department of Energy, National Nuclear Security Administration, and Federal Executive Agencies is granted.

² The Midwest Energy Users' Association is an unincorporated association consisting of large industrial users of electricity. Members of MEUA include Praxair, Inc. (already a party to this case as a signatory of the EO-2005-0329 Stipulation and Agreement), Alliant Techsystems, Inc., and Wal-Mart Stores, Inc.

5. The application to intervene filed by the Midwest Energy Users' Association is granted.

6. This order shall become effective upon issuance.
