Rate J
RATE FOR MANUFACTURERS AND LARGE QUANTITY USERS OF WATER (Continued)

PRO-RATA ADJUSTMENT OF MONTHLY MINIMUM CHARGE – If the customer is forced to close operations of its works for a period of 10 days or more on account of accidents, fires, damage to works, strikes of its own employees, act of God, Governmental regulations or other physical cause not reasonably within its control, and customer gives Water Company written notice not later than forty days after such occurrence the customer will be entitled to pro rata reduction in the monthly minimum charge which is based on 60% of the maximum usage during the previous months of June, July, August, or September for the period during which the customer is unable to use full water service for such cause.

DURATION OF CLASSIFICATION

A Rate J customer whose usage is less than 450,000 gallons per month more than two times during a twelve (12) month period will no longer meet the eligibility requirements of this classification.

Customers who no longer meet the eligibility requirements of this classification, or elect to leave this classification, will be reclassified to Tariff Rate A 1, and must remain in the Rate A 1 classification for a minimum of twelve (12) months and meet the monthly minimum usage requirements again before being classified under the Tariff Rate J. Customers electing to return to Tariff Rate J, are required to remain in this classification for a period of a minimum of twelve (12) months.

PAYMENT TERMS – Bills are net, and are due and payable within twenty-one (21) days after date of bill.

RULES AND REGULATIONS – The General Rules and Regulations set forth in this tariff shall govern the supply of service under this rate.

Minimum Customer Charge Rate for Low-Income Customers

Tariff Qualifications

The program administrator will determine a customer's eligibility using the following criteria: the customer's household earnings meet the low-income guidelines for the Missouri Low-Income Home Energy Assistance Program (LIHEAP). Residential customers, who demonstrate a financial need and qualify for LIHEAP, should contact a local Community Action Agency referenced below or any subsequent program administrator whose contact information may be found on Missouri American Water's web site. Upon qualification for LIHEAP, residential customers with a 5/8" meter will receive a discount of 80% of the fixed 5/8" meter minimum customer charge. The current fixed monthly 5/8" meter minimum customer charge is \$10.00, the discount applied to the customer's monthly bill would be \$8.00.

Revenue Stabilization Mechanism (RSM)

Applicable to All residential ("domestic"), commercial, other public authority and sale for resale metered water customers.

Section A - Definitions

The terms below are defined to mean:

Actual Revenue (AR) shall mean the actual dollar amount of revenues billed to customers for the identified Service Classifications, excluding revenues arising from adjustments under this tariff and any other tariff, which were billed for the applicable Fiscal Year.

Actual Production Costs (APC) shall mean the actual dollar amount of power, chemicals, purchased water and waste disposal incurred by the Company in the Fiscal Year.

Effective Period shall mean the period for which the adjustments in Section B are to be billed to customers, and shall be the nine-month period April through December after the Filing Month.

Effective Period Usage (G) shall mean the number of 100 gallon units delivered to customers by the Company, including the number of 100 gallon units for the applicable Effective Period.

Filing Month shall mean the month in which an adjustment is determined by the Company and submitted to the Commission, on or before January 31.

Fiscal Year shall mean the Fiscal Year of the Company that ended as of the most recent December 31.

Previous Amortization Period shall mean the nine-month reconciliation amortization period that ended as of the most recent Fiscal Year.

Rate Case Revenue (RCR) shall mean the dollar amount of revenues reflected in the revenue requirements approved by the Commission for the applicable Service Classifications in the Company's most recent general rate case. In a month or year in which new rates come into effect, the RCR shall be prorated based upon the number of days in the month or year under the old rates and the number of days in the month or year under the new rates. If the dollar amount of revenues is expected to change as a result of the Commission's approval of one or more water system acquisitions by the Company, then the RCR will be adjusted to reflect the additional revenue as determined in the acquisition case. In a month or year in which the Commission approves a water acquisition by the Company, the RCR shall be prorated based upon the number of days in the month or year that do not reflect the revenues billed to customers in the acquired system(s) and the number of days in the month or year that do reflect the revenues billed to customers in the acquired system(s).

Revenue Stabilization Mechanism (RSM)

Section A - Definitions – continued

Rate Case Production Costs (RPC) shall mean the dollar amount of power, chemicals, purchased water and waste disposal expenses reflected in revenue requirements approved by the Commission in the Company's most recent general rate case. In a month or year in which new rates come into effect, the RPC shall be prorated based upon the number of days in the month or year under the old rates and the number of days in the month or year under the new rates. If the dollar amount of production costs is expected to change as a result of the Commission's approval of one or more water system acquisitions by the Company, then the RPC will be adjusted to reflect the additional production costs as determined in the acquisition case. In a month or year in which the Commission approves a water acquisition by the Company, the RPC shall be prorated based upon the number of days in the month or year that do not reflect the production costs in the acquired system(s) and the number of days in the month or year that do reflect the production costs in the acquired system(s).

Upcoming Amortization Period shall mean the nine-month reconciliation amortization period commencing on April 1 following the Fiscal Year.

Section B - Determination of Adjustment

$$\frac{((RCR-RPC) - (AR-APC)) + RA}{G}$$

Where:

- RCR represents the Rate Case Revenue for the Fiscal Year.
- RPC represents the Rate Case Production Costs for the Fiscal Year.
- AR represents the Actual Revenue for the Fiscal Year.
- APC represents the Actual Production Costs for the Fiscal Year.
- G represents the Factor G for the Effective Period.
- RA represents the dollar amount due the Company (+RA) or the customers (-RA) arising from adjustments under this tariff that were under-billed or over-billed in the prior Fiscal Year.

The adjustment components above shall be summed together for billing purposes. If either component of the adjustments computes to \$0.0001 per 100 gallons or more, any fraction of \$0.0001 in the computed per 100 Gallons adjustment amount shall be dropped if less than \$0.00005 or, if \$0.00005 or more, shall be rounded up to the next full \$0.0001.

Section C - Reports and Reconciliations

The Company shall file with the Commission on or before January 31 of each year, the RSM calculation and support for any annual adjustments to be effective under this tariff. The Commission Staff will have 60 days to review. The reconciliation amount will be surcharged from April 1 through December 31 of each calendar year. Any credit will be issued as soon as administratively possible.

Rate Components: In addition to the other charges provided for in the company's tariffs, a separate charge for the RSM will apply for service rendered on and after the effective date.

Surcharge Rate (1) \$.0000 per hundred gallons

(1) Exclusive of every tax or payment imposed upon the Company by any political subdivision for the State of Missouri, for the right to do business in such political subdivision.
