**Missouri Public
Service Commission**

Dear Ms. Miller:

In response to your inquiry regarding the amount of your gas bill, we have reviewed the bill and completed a premise inspection to verify its accuracy. On September 11, 2006, our service technician completed a premise inspection. The service technician checked the accuracy of our meter and made a visual check of your gas appliances.

The service technician verified that the meter was registering accurately and the meter reading was 7383. However, he noted the following:

There is a heat pump on the premises, but no longer in use

Please find enclosed a copy of our Energy Conservation Checklist.

I hope this information will be of assistance to you and if you have any further questions or concerns, please contact our representative at 314-342-0744.

Thank you,

CUSTOMER RELATIONS

December 12, 2006

Ms. Naomi Miller
2507 Arden St.
St. Louis, MO 63121

Dear Ms. Miller:

Upon us doing an estimate to replace Furnace and Air Conditioner we discovered that the outside unit is not a Heat Pump, which was replaced with an Air Conditioner Condenser Unit. Also, on inside where the Furnace and A-Coil are located the A-Coil Drain Pan is completely rusted out from being very old, and also your Furnace was replaced due to A-Coil leaking into Furnace.

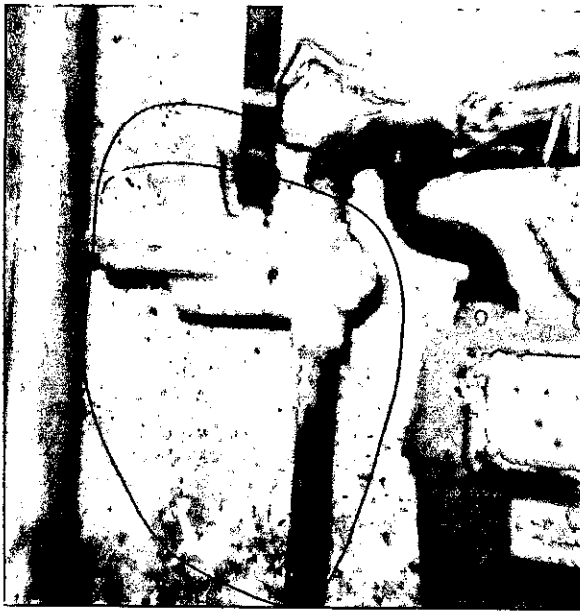

Thank you for choosing our company to do this job for you.

Sincerely,

A handwritten signature in cursive script that reads "Dennis Krause".

Dennis Krause
