FOR: All Communities and Rural Areas Receiving
Natural Gas Service

**RULES AND REGULATIONS
GAS**

- B. The volumes of gas delivered to Company for transporting shall be computed on a pressure base equivalent to that of the delivering pipeline and then converted to the same pressure and temperature base as at the delivery meter. All interruptible volumes shall be metered on both a temperature and non-temperature corrected basis. As more fully described in the Purchased Gas Adjustment clause of the Company gas rate tariffs, non-temperature corrected volumes shall be used for billing purposes, and temperature corrected volumes shall be used to calculate the lost and unaccounted for factor for each revenue class. These lost and unaccounted for factors should be maintained for informational purposes, and used to develop reasonable lost and unaccounted for percentages in the next Company rate case.

5.03 Meter Testing

- A. Company's meters shall be tested for accuracy in accordance with the Commission's Rule included in 4 CSR 240-10.030, subject to the terms of the variance approved in Case No. GE-2006-0330, effective April 9, 2006. *
- B. Request Tests: Upon a request by a customer, the Company shall test the meter servicing that customer, except that such tests need not be made more frequently than once in eighteen months. A written report of the test shall be mailed to the customer within 10 days of the completed test and a record of each test shall be kept on file at the Company's office. The Company shall give the customer or a representative of the customer the opportunity to be present while the test is conducted. If the test finds the meter is accurate within the limits accepted by the Company in its meter inspection and testing program, the Company may charge the customer the fee listed in Section 9 or the cost of conducting the test, whichever is less. The customer shall be advised of any potential charge before the meter is removed for testing. The Company's inspection and meter testing program provides a two (2) percent tolerance for determining whether a meter is considered accurate under this section.

5.04 Billing Adjustments

- A. For all billing errors, Company will determine from all related and available information the probable period during which such condition existed and shall make billing adjustments for the period estimated to be involved as follows (except for as provided in B, C, and D) of this Rule for:
