Lathrop
Telephone Company

New Name, New Era

In 1984, Grand River Mutual Telephone Corporation bought Lathrop Telephone Company. We began offering local and long distance service to the community and in 1999 GRM Broadband was introduced. The past board members and managers had the foresight to embrace the changes in communication technology and plan for future growth. By broadening the base and investing in new technologies, Lathrop Telephone Company created a diversified business.

With the changing needs of the customers in mind, LTC applied for and was awarded loans and grants to upgrade the entire service area to a complete fiber-to-the-home network. With all the growth, Lathrop Telephone Company has built a multifaceted network of communication technologies to better serve the residents and businesses of Lathrop. The state-of-the-art network allows the farmers and other business owners to connect with suppliers and buyers worldwide. Local students are able to participate in online education.

With this expansion, Lathrop Telephone Company has simply outgrown the name and our role as a traditional local telephone company. We are more than a telephone company; we are an intricate network comprised of advanced technologies with the goal of providing exceptional service to every customer.

On August 21, 2013, Lathrop Telephone Company will begin doing business as LTC Networks. The official name of the company will remain Lathrop Telephone Company, but you will see the new LTC Networks logo on your bill, on signs, and on promotional material. The GRM employees will continue to provide advanced technology with exceptional customer service under the LTC Networks name.
