

## MEMORANDUM

**TO** : Public File  
Docket Nos. CP17-40-000, CP17-40-001

**FROM** : Christine Crumpton, FERC staff

**DATE** : July 21, 2021

**SUBJECT** : FERC Staff's June 28, 2021- July 1, 2021 Inspection Report

Federal Energy Regulatory Commission (FERC or Commission) staff's June 28, 2021- July 1, 2021 Inspection Report for Spire STL Pipeline, LLC's (Spire) Spire STL Pipeline Project was filed on the docket on July 20, 2021. In the Conclusions and Recommendations section of the inspection report, it states:

“Staff directed that Spire: 1) continue to work with landowners to address their restoration concerns; 2) within 30 days, prepare and file a detailed list of all outstanding restoration issues to ensure that restoration is successful, including those newly identified areas observed and documented during the inspection, and include in the filing a proposed schedule for completing the identified restoration work. Spire's filing must also explain any proposed delays in completing the restoration work, whether those delays are based field conditions (e.g., unsuitable soil conditions), and provide documentary evidence of those conditions.”

With this memo, FERC staff clarifies that the 30-day timeframe for Spire to submit a filing as outlined in item number 2 above begins on the date that the inspection report was filed on the Commission's docket for the Spire STL Pipeline Project, July 20, 2021.
