RE: Requested Rate Change Missouri-American Water Company
Case #WR-2011-0337

Dear Mr. Gunn:

Concerning the rate increase request by Missouri-American Water Company, we have the following questions:

1. With regard to the "wholesale rate" for customers of Jefferson County water districts, please explain how the Public Service Commission granted a higher rate increase than Missouri-American Water Company requested in its filing at the last rate increase negotiated in 2010.
2. Of the requested 21.8% increase in the "wholesale rate" requested for Jefferson County water districts, what is the division of the percentage increase requested between operations/maintenance expenses versus the increase of costs associated with the rate base?

Thank you for considering our questions.

Sincerely,

Public Water Supply District No. 1 of Jefferson County, Missouri

Daniel E. Simpson, P.E.
Executive Director
