3	
4	TRANSCRIPT OF PROCEEDINGS
5	Hearing
6	
7	December 14, 2006
8	Jefferson City, Missouri Volume 5
9	
10	THE STAFF OF THE MISSOURI)
11	PUBLIC SERVICE COMMISSION,)
12	Petitioner,)
13	vs.) Case No. GC-2006-0491
14	MISSOURI PIPELINE COMPANY, LLC,) and MISSOURI GAS COMPANY, LLC)
15	Respondent.)
16	
17	
18	MORRIS L. WOODRUFF, Presiding DEPUTY CHIEF REGULATORY LAW JUDGE
19	JEFF DAVIS, Chairman,
20	STEVE GAW, ROBERT CLAYTON, III
21	CONNIE MURRAY, LINWARD "LIN" APPLING,
22	Commissioners
23	REPORTED BY: Monnie S. VanZant, CCR, CSR, RPR Midwest Litigation Services
24	3432 W. Truman Boulevard, Suite 207 Jefferson City, MO 65109
25	(573) 636-7551

1	APPEARANCES
2	For Staff of the Missouri Public Service Commission:
3	Ms. Lera Shemwell and Mr. Steve Reed
4	Staff of the Public Service Commission 200 Madison Street
5	P.O. Box 360 Jefferson City, MO 65102
6	(573) 751-7431
7	For Office of Public Counsel and the Public:
8	
9	Mr. Marc Poston Office of Public Counsel 200 Madison Street
10	P.O. Box 2230
11	Jefferson City, MO 65102 (573) 751-5558
12	For Missouri Pipeline Company and Missouri Gas Company:
13	
14	Mr. Paul DeFord and Ms. Aimee D.G. Davenport
15	Lathrop & Gage 2345 Grand Boulevard
16	Kansas City, MO 64108 (816) 292-2000
17	
18	For Municipal Gas Commission:
19	Mr. David Woodsmall Finnegan, Conrad & Peterson
20	428 E. Capitol Avenue, Suite 300 Jefferson City, 64111
21	(573) 893-8079
22	For AmerenUE:
23	Ms. Colly Durley
24	Smith Lewis, LLP 111 South Ninth Street, Suite 200
25	P.O. Box 918 Columbia, MO 65205 (573) 443-3141

- 1 PROCEEDINGS
- 2 JUDGE WOODRUFF: All right. Let's come to
- 3 order, please. Good morning, everyone, and welcome back
- 4 to Day 2 of the hearing in GC-2006-0491. When we left off
- 5 yesterday, Mr. Schallenberg was on the stand, and he is
- 6 back there again today. And we're ready to begin with
- 7 cross-examination from the pipeline companies.
- 8 Before we get started, is there anything else anyone
- 9 wants to bring up his morning? Ms. Scheme?
- 10 MS. SHEMWELL: I'd just mention, Judge that
- 11 Mr. Imhoff will likely not be available today. We will
- 12 notify you tomorrow.
- JUDGE WOODRUFF: All right. Thank you.
- MS. SHEMWELL: Thank you.
- JUDGE WOODRUFF: All right. Anything else?
- 16 Then let's go ahead and get started with cross-examination
- 17 from the pipeline company.
- 18 MR. DEFORD: Good morning, Mr. Schallenberg.
- MR. SCHALLENBERG: Good morning.
- JUDGE WOODRUFF: If you'd come up to the podium.
- 21 MR. DEFORD: I don't think there is a need. No
- 22 questions. Thank you.
- JUDGE WOODRUFF: All right. Very good. All
- 24 right. And I have no questions from the Bench at this
- 25 time, although the Commissioners may have when they're

- 1 done with agenda. So we may need to re-call you. I
- 2 believe there was some cross-examination yesterday, so
- 3 I'll give you an opportunity to redirect.
- 4 MS. SHEMWELL: I don't have any redirect. Thank
- 5 you.
- JUDGE WOODRUFF: All right. Well, then,
- 7 Mr. Schallenberg, you can step down, and we -- you may be
- 8 re-called later if the Commissioners have questions.
- 9 MR. SCHALLENBERG: Fine. Thank you.
- 10 JUDGE WOODRUFF: And I believe that's all the
- 11 Staff witnesses at this point. Ameren has a witness,
- 12 Mr. Massman. Is he ready to go now or do you want to
- 13 wait --
- MS. DURLEY: Let me confer with him just a
- 15 moment.
- JUDGE WOODRUFF: Okay.
- MS. DURLEY: Yes, your Honor. He's prepared to
- 18 go forward.
- 19 JUDGE WOODRUFF: Okay. Very good.
- JUDGE WOODRUFF: Please raise your right hand.
- JAMES MASSMAN,
- 22 being first duly sworn to testify the truth, the whole
- 23 truth, and nothing but the truth, testified as follows:
- 24 DIRECT EXAMINATION
- 25 BY MS. DURLEY:

```
1 JUDGE WOODRUFF: You may be seated. You may
```

- 2 inquire.
- 3 MS. DURLEY: Thank you.
- 4 Q (By Ms. Durley) Would you please state your
- 5 name?
- 6 A My name is James Massman.
- 7 Q And, Mr. Massman, are you here on behalf of
- 8 Ameren, who is an intervenor in this action?
- 9 A Yes, I am.
- 10 Q And have you submitted written testimony
- 11 previously?
- 12 A Yes, I have.
- 13 Q And do you have any corrections or revisions to
- 14 that testimony at this time?
- 15 A Not that I know of.
- MS. DURLEY: Your Honor, we would like to move
- 17 for the admission of Exhibit No. 700, which is his written
- 18 testimony.
- 19 JUDGE WOODRUFF: All right. Exhibit No. 700 has
- 20 been offered into evidence. Are there objection --
- 21 objections to its receipt? Hearing none, it will be
- 22 received into evidence.
- 23 (Exhibit No. 700 was admitted into evidence.)
- JUDGE WOODRUFF: And for cross-examination -- I
- 25 don't need a copy of it. Cross-examination, we would

- 1 start with Public Counsel, and they're not present in the
- 2 room right now. Municipal Gas Commission is also not
- 3 present right now. So we'll go to Staff.
- 4 CROSS-EXAMINATION
- 5 BY MS. SHEMWELL:
- 6 Q Good morning, Mr. Massman.
- 7 A Good morning.
- 8 Q I'm Lera Shemwell. I represent the Staff in
- 9 this case, and I have a few questions for you this morning
- 10 if that's okay.
- 11 A Yes.
- 12 Q Would you tell us your position at Ameren?
- 13 A I'm the Manager of Gas Supply.
- 14 Q What does at that mean?
- 15 A I'm responsible for the -- the oversight of the
- 16 intra-gas purchases, negotiation of transportation,
- 17 operations of gas supply. And this is for three different
- 18 groups. I have the AmerenUE, local distribution company,
- 19 the generation, the gas power generation group and then
- 20 end user transportation group.
- 21 Q What does that mean, end user transportation
- 22 group?
- 23 A These are large customers that provide their own
- 24 transportation and gas supply. They trans -- also
- 25 transport across our pipelines to their facilities.

- 1 Q Does that include Missouri Pipeline Company and
- 2 Missouri Gas Company as part of that?
- 3 A They do have -- there are end user transport --
- 4 transporters that are behind Missouri Gas and Missouri
- 5 Pipe.
- 6 Q Are you familiar with Ameren's Missouri tariffs?
- 7 A Yes.
- 8 Q When did you find out that Omega served Fort
- 9 Leonard Wood?
- 10 A I guess as part of the -- the investigation for
- 11 this -- this case.
- MS. SHEMWELL: I can't discuss HC with
- 13 Mr. Massman; is that right, Judge?
- JUDGE WOODRUFF: Right.
- 15 Q (By Ms. Shemwell) Were you aware that Omega
- 16 served any other customers along the pipeline?
- 17 A I'm not very familiar with Omega.
- 18 Q Okay. You don't have access to information
- 19 about other transporters on the system, then; is that
- 20 correct?
- 21 A Customers that are transporters on us, they are
- 22 required to nominate through our system to let us know how
- 23 much gas is going to be transmitted through them. So we
- 24 do have that information.
- 25 Q Okay. My question was -- let me ask it a

- 1 different way. Transporters that are not customers of
- 2 Ameren, are you aware of them?
- 3 A We don't have that information.
- 4 Q Do you know about any -- the other marketers,
- 5 customers? Let me ask, do you know about who ONEOK's
- 6 customers might be?
- 7 A Whenever an end user has hired someone like
- 8 ONEOK to -- to manage their gas supply, that company,
- 9 ONEOK, for example, would provide the nominations onto our
- 10 system. So we could see who the supplier was and
- 11 providing those volumes for this particular customer of
- 12 ours. So we -- we would see that information.
- 13 Q How were they a customer of both Ameren's and
- 14 ONEOK?
- 15 A It -- they're a customer of Ameren through the
- 16 transportation through our small -- our short distribution
- 17 system. They're customer of, say, ONEOK for the long haul
- 18 on the interstate pipeline and for the supply.
- 19 Q Do you take gas on the system through Panhandle
- 20 Eastern only?
- 21 A I'm sorry?
- 22 Q Let me be clear. Into the system?
- 23 A Okay. Into the Missouri Gas, Missouri Pipe
- 24 system?
- 25 Q Yes.

- 1 A Yes. We bring in gas from Panhandle Eastern.
- 2 We nominate into Missouri Pipe. And the gas that goes
- 3 into Missouri Gas is then nominated from Missouri Pipe on
- 4 to Missouri Gas.
- 5 Q Is Ameren allowed to deliver gas that it doesn't
- 6 nominate on Missouri Pipeline?
- 7 A No. We are required to nominate the volumes
- 8 that we intend to use in the day. There will be
- 9 imbalances that occur due to, you know, inaccuracies and
- 10 weather forecasting and low forecasting.
- 11 Q There's a 10 percent in balance in MPC's tariff;
- 12 is that correct?
- 13 A That's correct.
- 14 Q And has Ameren stayed within that 10 percent
- 15 permitted variance for imbalance?
- 16 A I believe probably 99 percent of the time, we
- 17 have. There may have been once or twice where we may have
- 18 exceeded that.
- 19 Q On any day that your customers are taking gas,
- 20 Ameren's required to put gas into the system; is that
- 21 correct?
- 22 A Yes.
- 23 Q Ameren's not permitted to buy only 50 percent of
- 24 what it needs for the day, correct?
- 25 A No. If -- if they did, we would have

- 1 significant in balance penalties because of that.
- 2 Q Is Ameren allowed to deliver gas only on the
- 3 first of the month, say the first three days of the month
- 4 into the system?
- 5 A And not the rest of the month?
- 6 Q Yes.
- 7 A No.
- 8 Q Are you allowed to deliver for just 15 days of
- 9 the month?
- 10 A I -- no. We are -- we are required to balance
- 11 daily -- have our -- have our nominations match -- our
- 12 daily demand and nominations match, basically, scheduling
- 13 what we anticipate to use each day.
- 14 Q If there's a new delivery point on the MPC or
- 15 MGC system, would Ameren expect to find out about that
- 16 through MPC's tariffs?
- 17 A I have not seen any changes to MPC's tariffs in
- 18 the last few years.
- 19 Q The question was, Mr. Massman, if there is a new
- 20 delivery point, would you expect to find out about that
- 21 through the tariffs?
- 22 A We typically find out through other pipeline
- 23 tariffs or other pipeline bulletin boards if that's the
- 24 case.
- 25 Q Ameren does file transportation fees with the

1 pipeline company, correct? Transportation agreement is

- 2 required by MPC's tariff?
- 3 A Please repeat that question again.
- 4 Q Ameren is required to provide transportation
- 5 agreements to the pipeline companies?
- 6 A Transportation agreements between us and our end
- 7 user transporters or --
- 8 Q No. Between you and the companies. Have you
- 9 filed transportation agreements with them as required by
- 10 their tariffs?
- 11 A Yes. We -- yes. We have transportation
- 12 agreements between AmerenUE and Missouri Pipeline and
- 13 Missouri Gas.
- 14 Q Have you negotiated with Mr. Ries concerning
- 15 your relationship with the pipeline companies?
- 16 A We have some contracts, discount agreements that
- 17 have recently expired, and we are negotiating with Mr.
- 18 Ries on extending those.
- 19 Q Can you say in public how much the discounts
- 20 have been?
- 21 A No. That would be highly confidential. I'm
- 22 sorry.
- 23 Q Perhaps if we run into something else, we'll go
- 24 in-camera at the end.
- 25 All right. Do you agree with me that often

- 1 unaccounted for gas is gas that Ameren puts into the
- 2 system by the pipeline that it will either lose or use?
- 3 Do you have a better definition of lost and unaccounted
- 4 for than that?
- 5 A That's a fair description of lost and
- 6 unaccounted for.
- 7 Q Can you say your percentage of lost and
- 8 unaccounted for? Is that public?
- 9 A For AmerenUE?
- 10 Q Yes.
- 11 A Yes. That's about 2 percent.
- 12 Q That you pay -- that you give to the pipelines?
- 13 A I'm sorry. I'm thinking of AmerenUE
- 14 distribution system.
- 15 Q Okay. What is your percentage that you put in
- 16 for the pipelines?
- 17 A I believe it's about .43 percent.
- 18 Q Has it been a different percentage since 2002?
- 19 A Yes. Recently, it was about .5 percent.
- 20 Q Do you have an opinion as to whether or not
- 21 that's a fairly typical amount?
- 22 A We -- we don't have any data to -- to make that
- 23 assumption. We don't know if it's been audited.
- Q Do you know if there's compression on the
- 25 pipelines, MPC and MGC?

- 1 A There's no compression on Missouri Pipe or
- 2 Missouri Gas.
- 3 Q Do you agree with me that compression is a
- 4 common use of the lost and unaccounted for gas?
- 5 A Typically, it's the largest use of the lost gas.
- 6 Q We discussed Ameren's percentage. Did you get
- 7 an explanation -- did Ameren's lost and unaccounted for
- 8 percentage increase in October 2004?
- 9 A It did increase in the past. I can't remember
- 10 the date that it did. It increased from .43 to .5. And
- 11 then just recently, it was reduced back to .43.
- 12 Q Were you given an explanation for the increase?
- 13 A I don't recall what the explanation was.
- 14 Q What happens on a pipeline if the pipeline is
- 15 receiving lost and unaccounted for gas and it's not using
- 16 or losing that gas?
- 17 A Then it would have extra gas available to it.
- 18 Q And that would continue to accumulate, correct?
- 19 A Yes.
- 20 Q Is it your -- do you know that -- if that
- 21 belongs to the pipelines? Does that become the pipeline's
- 22 gas?
- 23 A The pipeline will have collected that gas to
- 24 recover any that's lost or unaccounted for, so it becomes
- 25 theirs.

- 1 Q Are you aware of whether or not MPC and MGC is
- 2 permitted to sell gas?
- 3 A They are -- they are a transporter. They're not
- 4 allowed to be in the merchant function of selling natural
- 5 gas.
- 6 Q So is your answer, no, they can't?
- 7 A No.
- 8 MR. DEFORD: Your Honor, I'm going to object.
- 9 This is very much like direct testimony. We went through
- 10 this yesterday, I think with Mr. Woodsmall. There
- 11 certainly doesn't seem to be any hostile examination here.
- 12 I don't understand.
- I mean, this is -- this is information that
- 14 could have come in on -- on direct or certainly could have
- 15 come in on surrebuttal.
- 16 MS. SHEMWELL: I'm being as hostile as I can,
- 17 Judge.
- 18 MR. DEFORD: To -- to a very friendly witness.
- 19 I -- I understand that.
- MS. SHEMWELL: Actually, you know, there is no
- 21 actual objection, friendly cross. And the -- what would
- 22 happen in the court was someone would say, Okay, it's
- 23 duplicative. This isn't duplicative.
- 24 Staff has the burden to prove its case. Part of
- 25 our case and a big part of our case is that affiliates

- 1 were treated differently than non-affiliates.
- 2 Mr. Massman is a non-affiliate, and I am getting from him
- 3 the differences in the treatment. And I think it's very
- 4 important information for this Commission to have.
- 5 MR. DEFORD: Your Honor, in Court, there is no
- 6 prepared testimony. This -- this is a unique proceeding.
- 7 We do this all the time. If -- if we're not going to --
- 8 to follow the -- the rules of filing prepared direct
- 9 testimony, rebuttal testimony, surrebuttal testimony, then
- 10 there's -- there's, frankly, no point.
- 11 We might as well just conduct this as if it were
- 12 in Circuit Court, which, frankly, would in most
- 13 circumstances be fine with me. But we've got the rules.
- 14 We've lived by the rules.
- JUDGE WOODRUFF: You're correct. There is a
- 16 rule that requires Staff to make its case in direct
- 17 testimony. And Staff is also correct that there is no
- 18 rule that forbids friendly cross. And that's obviously
- 19 what the situation is we're in here.
- 20 I'm going to go ahead and allow -- allow this
- 21 line of questioning.
- MS. SHEMWELL: Thank you, Judge.
- 23 Q (By Ms. Shemwell) Mr. Massman, we were talking
- 24 about lost and unaccounted for gas, and I believe that we
- 25 had raised the question where if it's not lost or used, it

- 1 just continues to build up on the system, correct?
- 2 A That's correct.
- 3 Q Were you ever asked to reduce the percentage of
- 4 lost and unaccounted for gas that you were putting into
- 5 the system?
- 6 A Originally, it was .43. Then it was increased.
- 7 We were asked to increase the amount. And recently it was
- 8 reduced back to .43. So, yes, we were.
- 9 Q Have you ever been asked not to put in any lost
- 10 and unaccounted for gas for any day?
- 11 A Not that I'm aware of.
- 12 Q Operational problems are created by excess gas
- on the system; is that correct?
- 14 A That can cause problems.
- 15 Q Did you ever become aware of either excess
- 16 pressure on the system or inadequate pressure on the
- 17 system?
- 18 A Our Wentzville area is a fast-growing area and
- 19 it's critical. We watch the pressures there very closely.
- 20 We have not had a situation yet where it has actually
- 21 hampered our operation, though.
- 22 Q Have you been asked to reduce usage of gas -- do
- 23 you have interruptible customers? Let me ask that first.
- 24 A Yes.
- 25 Q And have you been asked to interrupt those

- 1 customers?
- 2 A I don't recall if there was an instance where
- 3 we've had to interrupt them as of yet.
- 4 Q Is -- who does the marketing for the system, for
- 5 Ameren looking for customers in this territory?
- 6 A As far as bundled customers, full --
- 7 Q Yes.
- 8 A -- responsibility customers? Our own AmerenUE.
- 9 Q Marketers?
- 10 A Well, we have a -- customer service
- 11 representatives.
- 12 Q Who market to industrial customers,
- 13 municipalities?
- 14 A Well, customers that are within our certificated
- 15 service area.
- 16 Q If you get a new customer -- let's just say you
- 17 get a new customer and it's an industrial customer. Do
- 18 you have to inform the pipelines where you will take that
- 19 customer's gas?
- 20 A If we have a new customer, it now becomes an
- 21 addition to our load for the system. Oftentimes, it's
- 22 already behind an existing gate station. We'll normally
- 23 just pick up the additional load in our forecast, and
- 24 we'll make our nominations to the pipelines. It will be
- 25 included in that if they are a full responsibility

- 1 customer of ours.
- 2 Q What if they are not behind another system?
- A Are you -- are you saying they're --
- 4 Q Let me clarify. I'm asking if you get, let's
- 5 say, an industrial customer, for example, that's not
- 6 behind a city gate and you needed to set up a new delivery
- 7 point, how would you deal with that?
- 8 A If it's -- if it's close enough to the pipeline
- 9 where it would be directly connected to the pipeline where
- 10 there wouldn't be already existing facilities there, we
- 11 would -- AmerenUE would build those facilities.
- 12 It would be probably a new gate station, new
- 13 piping. We would connect the -- the new customer with
- 14 that. So that would become the new distribution -- new
- 15 portion of our distribution system.
- 16 Q Does Ameren have an area certificate to build
- 17 pipelines to customers like that?
- 18 A Yes.
- 19 Q If you add a new meter station on the pipeline,
- 20 do you have to inform the pipeline?
- 21 A Yes. We work with the pipeline to -- to have
- 22 that installed.
- 23 Q Who would you work with at the pipeline?
- 24 A It would be -- it would be -- if it was Missouri
- 25 Pipe or Missouri Gas, it would be Mr. Ries.

```
1 Q All right. I have a couple of questions on your
```

- 2 rebuttal testimony. On page 2, like 12, you mentioned
- 3 Ameren end user transportation group, correct?
- 4 A Page 2, line 12?
- 5 Q Yes. Of your rebuttal.
- 6 A Okay. That says, "By whom are you employed and
- 7 in what capacity?"
- 8 Q I'm looking at -- I have, "What are your duties
- 9 and responsibilities."
- 10 A Oh, I'm sorry. Page -- page 3 for me. Yes.
- 11 Q Yes. If you count your cover sheet --
- MS. DURLEY: That's it.
- 13 A Okay. Thank you.
- 14 Q (By Ms. Shemwell) This group just provides
- 15 transportation; is that right?
- 16 A This group provides more administrative
- 17 information on volumes of gas, provides information to our
- 18 control group as far as nominations and schedules that are
- 19 large shippers that are transporters we will use. And
- 20 then they also provide billing.
- 21 Q Do any of -- which of your customers pay the
- 22 maximum rate on the pipeline system? Do you have any?
- 23 A On -- on the AmerenUE system?
- Q No. On MPC and MGC, do you pay the maximum
- 25 rate?

- 1 A Does AmerenUE pay the maximum rate?
- 2 Q Yes. Yes.
- 3 A Right now, we are at maximum tariff rates for
- 4 several of the contracts. I believe there's one that has
- 5 a small discount on the commodity.
- 6 Q And you passed that rate through to your
- 7 customers?
- 8 A Correct.
- 9 Q What's a reservation rate or a reservation
- 10 charge?
- 11 A It's basically a fixed charge that -- that you
- 12 pay each month for the -- the right to have a certain
- 13 amount of capacity for transportation.
- 14 Q Are you permitted to use a transportation -- do
- 15 you hold transportation -- does Ameren hold transportation
- 16 on the system?
- 17 A On Missouri Pipe and Missouri Gas, yes.
- 18 Q And are you permitted to use that transportation
- 19 that you hold from one customer to deliver to a different
- 20 customer?
- 21 A AmerenUE owns it's transportation, cover all of
- 22 its -- all of its transportation, or all of its customers
- 23 in -- in total.
- 24 Q Okay.
- 25 A Sort of aggregate all the customers behind these

- 1 -- these four contracts.
- 3 each individual customer to meet their needs?
- 4 A Yes.
- 5 Q I'm asking you, would you use one customer's
- 6 capacity and overlap with another customer?
- 7 A Do you mean counting capacity twice?
- 8 Q Okay. Yes.
- 9 A No.
- 10 Q If a marketer -- let's just speak in a --
- 11 hypothetically. If a marketer -- you, as a marketer, had
- 12 access to the information about every other marketer on
- 13 the pipeline, would you have an advantage? The customers,
- 14 the prices? The quantities?
- 15 A Yes.
- Q Would that be helpful to you in terms of your
- 17 marketing?
- 18 A If -- if I was a marketer, that would be -- that
- 19 would be helpful information to understand the market and
- 20 what -- what prices I could -- could charge.
- 21 Q I have one last question for you. We talked
- 22 about Ameren building -- or constructing a line to a
- 23 particular industrial customer. Does Ameren pay for that,
- 24 or does the customer pay for that, the construction of
- 25 that line?

```
1 A If -- if the customer becomes an Ameren
```

- 2 customer, Ameren will pay for that. There may be some
- 3 other negotiations with that customer between Ameren and
- 4 the customer. There may be some additional charges that
- 5 they have because of other requirements. But Ameren would
- 6 pay that to the pipeline.
- 7 Q Would pay for the construction of the pipeline
- 8 itself?
- 9 A Yes, yes.
- 10 Q Under your area certificate?
- 11 A Correct.
- 12 Q Correct.
- MS. SHEMWELL: That's all I have. Thank you,
- 14 Judge.
- JUDGE WOODRUFF: Thank you, Ms. Shemwell.
- 16 Cross-examination for the pipeline companies?
- MR. DEFORD: No questions, your Honor.
- 18 JUDGE WOODRUFF: All right. We'll come up then
- 19 for questions from the Bench. Commissioner Murray?
- 20 COMMISSIONER MURRAY: Thank you.
- 21 CROSS-EXAMINATION
- 22 BY COMMISSIONER MURRAY:
- 23 Q I -- I wish I'd been listening a little more
- 24 closely right then with that last question.
- 25 Regarding that -- the construction of the

- 1 additional pipeline issue, what -- what was your answer,
- 2 that if Ameren constructed -- had made such construction,
- 3 Ameren would have paid for it? Is that what you said?
- 4 A Yeah. Typically, the shipper will pay. I'm
- 5 sorry. Typically, the shipper will pay for the
- 6 construction of the meter station and the lateral serving
- 7 that new load.
- 8 Q The shipper will?
- 9 A Yes.
- 10 Q But in terms of any additional pipeline
- 11 construction --
- 12 A From -- from -- from the pipeline, once -- once
- 13 they make the connection into the pipeline, it is our
- 14 responsibility from that point.
- 15 If there's any additional requirements on the
- 16 main pipeline, for example, Missouri Pipe and Missouri
- 17 Gas, they may require us to pay some additional for that
- 18 if they need to put in additional regulation of some sort
- 19 for that. They may have some additional requirement that
- 20 we would have to pay. But we would be responsible for
- 21 making the connection to the pipeline and then the
- 22 pipeline back to the customer.
- JUDGE WOODRUFF: Mr. Massman, you need to stay
- 24 closer to the microphone.
- 25 A Okay.

```
1 Q (By Commissioner Murray) Okay. So that's -- I
```

- 2 think what you're telling me it's somewhat of a case by
- 3 case scenario of --
- 4 A Typically, the shipper will pay for the -- the
- 5 interconnection and the facilities from the pipeline to
- 6 their -- their customer, the shipper being, in this
- 7 example, AmerenUE.
- 8 COMMISSIONER MURRAY: All right. Thank you. I
- 9 think that's all I have.
- 10 JUDGE WOODRUFF: Commissioner Appling, do you
- 11 have any questions?
- 12 COMMISSIONER APPLING: No questions, Judge.
- 13 JUDGE WOODRUFF: All right. Then back for
- 14 recross. Municipal Gas Commission?
- MR. WOODSMALL: (Mr. Woodsmall shakes head.)
- JUDGE WOODRUFF: Public Counsel is not here.
- 17 Staff?
- MS. SHEMWELL: Just very briefly. Yes.
- 19 RECROSS EXAMINATION
- 20 BY MS. SHEMWELL:
- 21 Q Mr. Massman, you told Commissioner Murray that
- 22 the shipper pays. Are MPC and MGC shippers on MPC and MGC
- 23 lines?
- 24 A MPC and MGC are the transporters to the
- 25 pipeline.

- 1 Q They're not the shippers?
- 2 A We, AmerenUE, is the shipper because we have
- 3 contracted the capacity on them and we ship our gas off of
- 4 their transporters.
- 5 Q Is your answer that MPC and MGC are not
- 6 shippers?
- 7 A Correct. They are the transporters.
- 8 MS. SHEMWELL: Okay. That's all I have.
- 9 JUDGE WOODRUFF: Anything for the pipeline?
- 10 MR. DEFORD: Just one, your Honor.
- JUDGE WOODRUFF: Go ahead.
- 12 CROSS-EXAMINATION
- 13 BY MR. DEFORD:
- 14 Q Mr. Massman, if Ameren is expanding its facility
- 15 as an LDC to a new customer or new customers, would Ameren
- 16 reason pay for that extension?
- 17 A Yes.
- 18 MR. DEFORD: Thank you. That's all I have.
- 19 JUDGE WOODRUFF: Thank you. Any redirect?
- MS. DURLEY: Yes, your Honor.
- 21 REDIRECT EXAMINATION
- 22 BY MS. DURLEY:
- 23 Q Jim, back here. I just have a few questions to
- 24 clarify some testimony that you gave when Ms. Shemwell was
- 25 first asking you questions.

1 Does Ameren have a non-regulated marketing

- 2 affiliate?
- 3 A For selling natural gas, no.
- 4 Q All right. What about Ameren Energy Marketing?
- 5 What is that?
- 6 A Ameren Energy Marketing is for the -- the power
- 7 side of the company. We buy and sell electrical power.
- 8 Q All right. And does Ameren Energy Marketing
- 9 market non-regulated gas sales in Missouri?
- 10 A No.
- 11 Q Okay. And did Ameren terminate its gas retail
- 12 functions several years ago?
- 13 A Yes, it did.
- 14 Q All right. And did AME, that's Ameren Energy
- 15 Marketing, share employees with AmerenUE?
- 16 A No.
- MS. DURLEY: Okay. That's all I have, your
- 18 Honor.
- 19 JUDGE WOODRUFF: Thank you. Then, Mr. Massman,
- 20 you can step down.
- MR. MASSMAN: Thank you.
- JUDGE WOODRUFF: And I believe that's all
- 23 testimony for Ameren. We'd be ready now to go for
- 24 evidence -- take evidence from the pipelines.
- 25 However, we're going to take a short break

- 1 before we do that. We'll come back at 9:15.
- 2 MS. SHEMWELL: Judge, before we go off the
- 3 record, may I ask if the Commission will have questions
- 4 for Mr. Schallenberg?
- JUDGE WOODRUFF: That's the reason for the
- 6 break.
- 7 MS. SHEMWELL: Thank you, sir.
- 8 (Break in proceedings.)
- 9 JUDGE WOODRUFF: All right. Let's come to
- 10 order. We're back from our break. Ms. Shemwell, what is
- 11 the situation with Staff's case at this point?
- MS. SHEMWELL: Judge, Mr. Schallenberg is
- 13 prepared for Commission questions, if necessary. I would
- 14 point out that Mr. DeFord waived cross on Mr. Schallenberg
- 15 and didn't challenge his testimony.
- But he is ready for questions, and that would
- 17 seem the natural flow of things if the Commission has
- 18 questions.
- 19 Then we would like to present some evidence from
- 20 two of the witnesses whose depositions have been entered
- 21 into evidence. And we propose to have certain sections
- 22 that we have designated, and we will give to all of the
- 23 attorneys read into the record.
- JUDGE WOODRUFF: All right. Let's go ahead and
- 25 deal with Mr. Schallenberg first. I believe there are a

- 1 few questions.
- 2 Mr. John, you can step down. We'll bring you up
- 3 in a minute.
- 4 Mr. Schallenberg, if you could come back up to
- 5 the stand. And, Mr. Schallenberg, you were sworn
- 6 yesterday. I think I swore you in twice yesterday, so
- 7 you're -- you're doubly obligated.
- 8 MR. SCHALLENBERG: I understand.
- 9 JUDGE WOODRUFF: All right. Commissioner
- 10 Murray, you can go ahead and ask your questions.
- 11 CROSS-EXAMINATION
- 12 BY COMMISSIONER MURRAY:
- 13 Q Good morning, Mr. Schallenberg.
- 14 A Good morning.
- 15 Q Unfortunately, we've got so much on our plate
- 16 right now, it's difficult to be organized. But I will try
- 17 not to prolong this too badly.
- 18 I'm going to begin with the -- I'm -- I'm just
- 19 going to try to go through this systematically so that I
- 20 can be clear on exactly what Staff is alleging and exactly
- 21 where Staff is presenting evidence to support those
- 22 allegations.
- 23 So in looking at the issues listed, it's Staff's
- 24 position that MPC and MGC violated the terms of their
- 25 tariffs and the Commission affiliate transaction rules by

- 1 permitting Omega Pipeline Company to use confidential
- 2 customer information in a discriminatory manner for each
- 3 of Omega's contract with customers served by MPC and MGC;
- 4 is that correct?
- 5 A Yes.
- 6 Q All right. Now, can you tell me -- can you
- 7 point to the specific terms of their tariffs, the cited
- 8 Commission affiliate rules, but specifically which terms
- 9 of their tariffs were violated? And what evidence do you
- 10 have that shows that they were violated?
- 11 A The first part of your question regarding the
- 12 tariffs is if you go to -- I know it by section. But I
- 13 think I'm supposed to identify it by sheet number.
- 14 Q And what -- what would that be in?
- 15 A I don't believe the tariffs --
- 16 Q It's not filed?
- 17 A I don't believe the tariffs were filed as an
- 18 exhibit.
- 19 MS. SHEMWELL: Yes. They're in as 70 and 71.
- MR. SCHALLENBERG: Okay.
- MS. SHEMWELL: MGC is 70 and M -- they're on --
- 22 Staff, I guess, perhaps has added them to the list. Let
- 23 me move for admission of 70 and 71 at this point. I'll
- 24 get you copies immediately. Commissioner, thank you.
- JUDGE WOODRUFF: These are the tariffs, are

- 1 they?
- 2 MS. SHEMWELL: They are. MGC --
- JUDGE WOODRUFF: Just wait. I'll let you get
- 4 your documents before I start asking questions.
- 5 MS. SHEMWELL: All right.
- 6 MR. SCHALLENBERG: Do you have an extra pen?
- 7 THE COURT REPORTER: Yeah. Make sure it works.
- 8 MS. SHEMWELL: Do you have those? Commissioner
- 9 Appling, I'll get yours right away.
- 10 COMMISSIONER APPLING: Sure.
- MS. SHEMWELL: Mr. Schallenberg, do you have
- 12 those in front of you?
- 13 MR. SCHALLENBERG: I have my own copies. I just
- 14 need to know which is 70 and which is 71.
- MS. SHEMWELL: MGC is 70. MPC is 71.
- MR. SCHALLENBERG: MGC is 70?
- MS. SHEMWELL: That's correct. Okay.
- 18 A Okay. On Exhibit 70, if we're looking --
- 20 Mr. Schallenberg. We -- it's been offered. We need to
- 21 deal with that for -- Staff has offered MGC's tariff as
- 22 Exhibit 70 and MPC's tariff as 71. Is there any
- 23 objections to their receipt into evidence? Hearing none,
- 24 they will be received into evidence.
- 25 (Exhibit Nos. 70 and 71 were admitted into

- 1 evidence.)
- MS. SHEMWELL: Thank you, Judge.
- JUDGE WOODRUFF: All right. Now,
- 4 Mr. Schallenberg, you can go ahead and answer the
- 5 question.
- 6 MR. SCHALLENBERG: I guess I need one -- does
- 7 that have the adoption notice on the front page?
- JUDGE WOODRUFF: 70 does. Yes.
- 9 MR. SCHALLENBERG: Okay. Then I'm using the
- 10 same --
- JUDGE WOODRUFF: They both do.
- MS. SHEMWELL: If I may approach, Judge?
- 13 A Yes. Okay.
- 14 Q (By Commissioner Murray) And, Mr. Schallenberg,
- 15 the significance of that adoption notice --
- 16 A That would be the last modification that was
- done to the tariffs that are currently effective.
- 18 Q And that was dated?
- 19 A It's -- shows January -- it's effective date is
- 20 January 1, 2003. Date of issue was May 31st, 2002. And I
- 21 think it has -- well, Exhibit 70 has a file stamp of
- 22 January 1st, 2003.
- Q Okay. Go ahead.
- 24 A It would be on Sheet 39 under Section 12,
- 25 operation of rate schedule in conjunction with market

- 1 affiliates. And the Staff would be alleging that, A, that
- 2 all terms and conditions contained shall be applied in a
- 3 uniform non-discriminatory manner without regard to
- 4 affiliation of any entity or transporter, that that was
- 5 not followed.
- 6 Q Okay. Now, let's -- let's be specific. Which
- 7 terms and conditions contained herein were not applied --
- 8 A Okay.
- 9 Q -- if you would?
- 10 A If you -- I think in my direct testimony -- I
- 11 think that's been marked as Exhibit 19. Yes. Beginning
- 12 on page 9.
- 13 Q This is under Count 1; is that correct?
- 14 A Yes. And you'll see a -- the beginning of
- 15 discussion in that answer on line 8 -- excuse me -- 7.
- 16 Line seven, the answer -- the answer there.
- 17 Q Yes.
- 18 A Those items that starts with the, Apply the
- 19 terms, maintain separate operational facilities and submit
- 20 the quarterly reports all come from this portion of the
- 21 tariffs on -- on Sheet 39 of Section 12 of the tariffs for
- 22 MGC.
- Q Okay. I see that. And then you go on to talk
- 24 about how the operations were inconsistent with the
- 25 requirements of the tariff sheet.

```
1 A Right. And I need to make -- there is a -- a
```

- 2 corresponding section in 71 for MPC.
- 3 Q All right. Is that the case for every
- 4 allegation, that there is a corresponding tariff section?
- 5 A In -- in 71, that would be true. The tariff
- 6 does in almost -- I'm trying to -- in almost all regards
- 7 are the same between 70 and 71.
- 8 Q Okay.
- 9 A But not all the customers -- but not all the
- 10 customers on the pipeline are affected by the tariffs in
- 11 70. Some customers are only affected by the tariffs in
- 12 71.
- 13 Q Okay. On page 23 of -- I'm sorry. Line 23 of
- 14 page 9 that you just referenced, you indicate that MPC and
- 15 MGC provided its affiliate, Omega, advantages over other
- 16 shippers.
- 17 Now, this is -- there was another -- another
- 18 place in which Staff had indicated that Omega was actually
- 19 -- should consider it as two entities or in two different
- 20 regards; is that correct?
- 21 A Yes.
- 22 Q And when you're talking about its affiliate,
- 23 Omega, being provided advantages over other shippers, what
- 24 are -- are you referring to Omega?
- 25 A That would be, generally speaking, to Omega as a

- 1 -- when it began to market gas.
- 2 Q So are any of the allegations regarding Omega,
- 3 the treatment of Omega concerning its capacity as
- 4 transportation provider at all as a marketer?
- 5 A As a transportation provider. I guess I -- I
- 6 would answer the question, the -- the Omega's operations
- 7 at the Fort as an LDC, Local Distribution Company, that
- 8 portion of Omega is not in dispute.
- 9 And it's serving of the Fort and the other
- 10 customers behind the Fort's city gate is not a subject of
- 11 dispute with Staff.
- 12 Q All right. There's no dispute there?
- 13 A Right.
- Q So all of the dispute is concerning Omega acting
- 15 as a marketer for other customers?
- 16 A That would be correct.
- 17 Q All right?
- 18 A During a period of -- I think it -- we used a
- 19 date of like around -- on or around July 1st of '03
- 20 through at least May 31st of '06.
- 21 Q Okay. And, specifically, the advantages that
- 22 were provided to Omega, the marketer, that were not
- 23 provided to other marketers are -- would you elaborate?
- 24 A Those are generally three items. It was
- 25 provided information regarding the pipeline's operations.

```
1 Q And what evidence do you have to show that?
```

- 2 A I -- there's a -- probably one -- one document
- 3 that shows the extent of it. I think attached to my
- 4 direct is -- well, I take it back. They marked those
- 5 differently.
- I think it's Exhibit 21 now. Now I have to find
- 7 it.
- 8 Q You know, I have schedules and appendices. I
- 9 don't know that I -- are you saying this was separate?
- 10 A It's -- it was one of the schedules to my direct
- 11 testimony. It would be Schedule 2 to my direct testimony.
- 12 Q Schedule 2?
- 13 A Yes.
- 14 Q Okay. I have it with the direct, then. Thank
- 15 you.
- MS. SHEMWELL: Okay.
- 17 Q (By Commissioner Murray) Well, I take that
- 18 back. My copy of your direct begins with Schedule 6. All
- 19 right. Thank you. I've got it.
- 20 A Now, if you look at that schedule, this is -- in
- 21 essence, contains information that would be available to
- 22 Omega.
- Q Where is this -- what is this a part of?
- 24 A What this is is this is one of the daily reports
- 25 of --

```
1 Q Made by whom?
```

- 2 A It's created by the pipeline.
- 3 Q Which -- by M -- MGC and MPC?
- 4 A Yes. It would be their combined operations.
- 5 Q Okay?
- A And it has the -- the name that it's always been
- 7 referred to whenever it is the in balance summary by
- 8 contract, just the title.
- 9 Q Okay.
- 10 A And I know it's highly confidential, so I'm just
- 11 trying to just talk about just general.
- 12 O General. Yes.
- 13 A But you can see in it that it contains
- 14 information regarding the shippers, all the shippers on
- 15 the pipeline. It identifies their agent or when they're
- 16 acting as their own agent. It identifies their contract
- 17 number to the extent this is one for its shipments. And
- 18 then it tells you what its current status is regarding the
- 19 gas that's brought into the system on the day and the in
- 20 balance. And then it shows cumulative information.
- 21 Now, there is one shipper that you have to go
- 22 down to the bottom of the report to get more information
- 23 regarding -- but other than that shipper, that first --
- 24 that first listing has the information on all the other
- 25 shippers that -- that the one shipper -- you have to get

1 -- some additional information is in the bottom part of

- 2 that.
- 3 And you can see from looking at Schedule 2 that
- 4 that's a fairly comprehensive amount of information
- 5 regarding all the shippers.
- 6 Q All right.
- 7 A And that would be an example of the extent of
- 8 information that would flow from the pipelines and had
- 9 been available to Omega.
- 10 Q And how do you know it was available to Omega?
- 11 A Because it was produced to Mr. Ries. And Mr.
- 12 Ries was an officer of Omega and was their marketer, the
- 13 employee that engaged in setting the -- contacting the --
- 14 we talked about the customers yesterday.
- 15 Mr. Ries would be the one that would have been
- 16 the primary contact with those individuals.
- 17 Q So in that there would be confidential
- 18 information such as that produced by the pipelines, would
- 19 there have been any way in which Mr. Ries could have acted
- 20 in the capacity that he did for the pipelines as well as
- 21 in the capacity that he did for Omega and not have
- 22 produced a -- an improper sharing of information?
- 23 A I think I was asked yesterday, and I think
- 24 there's always a probability of something. But it would
- 25 be virtually impossible. If you're going to provide the

- 1 information to one individual, it's pretty hard for that
- 2 individual not to have that information when they engage
- 3 in another -- in other function.
- 4 Q So then would it be Staff's position that in
- 5 order to prove that there was this particular violation of
- 6 the tariffs that all you have to show is that Mr. Ries
- 7 served in both capacities at the same time?
- 8 A I think you'd have to show two things. One is
- 9 that he served in the capacity, because you could serve in
- 10 a position and not get information.
- 11 I mean, if -- I think we'd have to show that if
- 12 he would be in receipt of the information or that the
- 13 information is in the control of Omega as well as -- that
- 14 the pipeline's information was in the control or available
- 15 to Omega.
- 16 Q And you -- your information -- your evidence
- 17 does show, you're telling me -- and I -- I just don't
- 18 recall exactly. But you're telling me that your evidence
- 19 does show that Mr. Ries was in receipt of the information?
- 20 A Oh, yes. Now --
- 21 Q How --
- 22 A I'm sorry.
- 23 Q How do you make the link, then, that he
- 24 necessarily shared the information with Omega?
- 25 A When he shares it with Omega, he -- he basically

- 1 is Omega.
- Q Well, I mean -- okay. So -- so your testimony
- 3 would be that there is no way to separate Mr. Ries's
- 4 capacity with Omega, the marketer, from what he personally
- 5 has knowledge of?
- A As the pipeline President? Yes. In fact, that
- 7 -- I think that's why the tariffs require that, as a
- 8 marketer, you can't be sharing personnel to prevent that
- 9 situation.
- 10 Q Okay. When did Staff first know that Omega was
- 11 acting as a marketer?
- 12 A The first time that I know I knew Staff knew
- 13 would have been sometime early in this year.
- 14 O In 2006?
- 15 A Right. Now, I have spent a lot of time --
- 16 because Mr. Ries didn't interact with myself or the
- 17 Services Division in the 2002 time period when he first
- 18 came into control.
- I have spent considerable time with Ms.
- 20 Morrissey while she was still here, Mr. Warren Wood and
- 21 Mr. Imhoff.
- 22 Q So prior to early 2006, what did you think Omega
- 23 -- what -- what was your -- or Staff's perception that
- 24 Omega was functioning as?
- 25 A An LDC serving Fort Leonard Wood.

- 1 Q Only?
- 2 A Yes. I -- I'm -- the only reason -- there was
- 3 an e-mail that came to -- I think it was Mr. Boyce when he
- 4 was general counsel, from a former Commissioner Kinsloe
- 5 regarding a concern about the City of Cuba.
- And in that e-mail, I think it refers to MGC as
- 7 being involved with the -- some gas transactions. And
- 8 from what I can tell, at that time -- or around that time,
- 9 offers were being made from MGC to market gas.
- 10 And it doesn't identify Omega. So I -- I don't
- 11 know a hundred percent when the Staff knew -- if anyone on
- 12 the Staff knew -- no one I've talked to knew that, that in
- 13 '03 that the transition had been moved from MGC offering
- 14 to market gas that Omega was now doing.
- 15 And I could tell when we started this
- 16 investigation, it was never represented to us without us
- 17 already finding out about it and then inquiring after we
- 18 already had prior knowledge that Omega was marketing
- 19 because the initial representation made to us in this
- 20 investigation was Omega was serving the Fort.
- 21 Q And -- and what led you to discover that Omega
- 22 was marketing?
- 23 A When we first discovered -- the first discovery
- 24 was that the City of Cuba's contract with the pipelines
- 25 involved a -- that the gas supplier was Omega.

```
1 And then, as we discussed yesterday, as the
```

- 2 auditors started looking at revenues in that revenue
- 3 summary sheet and started looking for -- trying to match
- 4 up invoices to the data, to the volumes, other customers
- 5 began to appear.
- 6 And then I -- the other -- the other item that
- 7 -- that led us to the discovery of Omega's customers,
- 8 marketing customers, was the building of the lateral.
- 9 All right. Now, in terms of -- of Omega's role in
- 10 this, could -- could Omega have been serving the City of
- 11 -- supplying the City of Cuba under its capacity as the
- 12 LDC under its CCN for that purpose?
- 13 A Was -- first of all, I don't think Omega has a
- 14 CCN in -- in Missouri. Its LDC function on the Fort
- 15 doesn't have --
- 16 Q Require a CCN?
- 17 A I think the -- because it's one of the other
- 18 items that came up was because we -- we didn't know about
- 19 Omega and the Fort, did it need a CCN from this
- 20 Commission, and what was the jurisdiction.
- 21 And I think the resolution of that question was
- 22 that as long as Omega was an LDC on federal property --
- 23 Q Okay.
- 24 A -- it had no need to be regulated by the Public
- 25 Service Commission as long as it stayed as an LDC on Fort

- 1 Leonard Wood.
- 2 Q Okay. So anything that was not -- that was
- 3 serving other than federal property would have taken Omega
- 4 out of that status where it would have needed a CCN if it
- 5 were going to serve as an LDC; is that correct?
- 6 A Well, it would open up the question. You could
- 7 market -- you can be a reseller of gas and not have a CCN.
- 8 Q But not an LDC?
- 9 A Right. If you're going to -- if you want to
- 10 have -- there's been discussion about this area
- 11 certificate. If you want to have an area certificate, you
- 12 want to be a provider to a certain area, within the state
- 13 of Missouri other than the federal property question, you
- 14 would need an area certificate in order to have that area
- 15 designated.
- 16 There were a lot of those in the history of this
- 17 pipeline while it was under ownership of Utilicorp where
- 18 utilicorp would open up in different areas, different
- 19 towns and come in and get area certificates in order to
- 20 serve like Rolla, Salem.
- 21 Q In what capacity, then, was Aquila then serving
- 22 those areas?
- 23 A They were served under the -- the Utility
- 24 Division. I -- I call it MO Pub. I think it's Missouri
- 25 Public Service Company.

- 1 Q But they were serving those areas as an LDC?
- 2 A Yes. And -- and that was the portion of Aquila
- 3 that served those entities. And then the pipeline was
- 4 owned by -- the entity that was the pipelines was MPC and
- 5 MGC. But they -- they did come in and get area
- 6 certificates to serve Rolla, Salem and Owensville. I -- I
- 7 specifically recall those cases.
- 8 Q Okay. So at the time, then, that Staff
- 9 discovered that Omega was marketing to the City of Cuba,
- 10 that led to the conclusion that Omega was acting as a
- 11 marketer. And is there any question that Omega was an
- 12 affiliate of the pipelines?
- 13 A In that period I mentioned earlier, the -- the
- 14 July of -- of '03, now, I think I -- I think I recall Mr.
- 15 Ries may have mentioned June, so I may be off by a month
- of '03 through at least the first of '06. I'm not aware
- 17 there's any dispute that Omega was affiliated with MPC and
- 18 MGC during that period.
- 19 Q And state that period again where there's no
- 20 dispute, in your mind at least.
- 21 A June -- June and July of '03 through May 31st of
- 22 '06. Yes. And -- and all the testimony and stuff, I've
- 23 not -- I've not seen, unless one comes up today, a dispute
- 24 that Omega was affiliated with MPC and MGC.
- 25 Q All right. And the date again that Staff

- 1 discovered that Omega was serving the City of Cuba?
- 2 A That would have occurred -- that would have --
- 3 the date, I'm sure of is earlier this year.
- 4 Q And at what point in time can you show that
- 5 Omega was -- I mean, can you show a specific period of
- 6 time in which Omega was serving the City of Cuba?
- 7 A You can -- the contract -- I've got to translate
- 8 it into schedules. I think if you go to Exhibit 22, which
- 9 is a -- I think Schedule 3, in my testimony, my direct
- 10 testimony -- I'm sorry.
- 11 Q Which, again, I don't know if I have -- I only
- 12 have Schedule 6 and B attached onto your direct. That's
- 13 all right. Why don't you just give me the information
- 14 that's on it? I don't have to see it right now.
- 15 A Well, that is the -- the contract between Omega
- 16 Pipeline Company and the City of Cuba.
- 17 Q All right.
- 18 A And it, it -- it lists -- it says it's a natural
- 19 gas sales and agency agreement. I notice that this is
- 20 highly confidential, but I do know you can get it from the
- 21 City of Cuba.
- 22 Q Okay. That is the -- that is the agreement that
- 23 shows the time frame?
- 24 A It -- it identifies the term -- one of the
- 25 portions of the contract is the term and it identifies

- 1 term.
- 2 Q All right.
- 3 A And so in terms of giving you that earlier date
- 4 of the beginning point, that would have been the -- that
- 5 would -- this would have been the document that would have
- 6 locked in to July 1st.
- 7 Now, the Staff is aware that prior to this date
- 8 some of the offers to market gas to the City of Cuba were
- 9 made on behalf of MGC. And so that's why you always get
- 10 the on or around.
- 11 Q Tell me that beginning date again, please.
- 12 A July 1st of 2003.
- 13 Q Okay.
- 14 A And like I said, it's -- it's Exhibit 22.
- 15 Sometime before this date, the offers to the City of Cuba
- 16 came under the name of Omega. There were offers to the
- 17 City of Cuba under the name of Missouri Gas.
- 18 So there is a period in '03 that the marketing
- 19 offers are coming from MGC. And I -- I don't have the
- 20 data to make the exact -- to tell you exactly when in
- 21 early '03. Sometime before -- in the first or second
- 22 quarter when Omega became substituted in those offers to
- 23 MGC.
- 24 COMMISSIONER CLAYTON: Commissioner Murray, can
- 25 I get clarification on the exhibit? I was trying to find

- 1 it, and I've got a stack of papers here. And I want to
- 2 make sure that I'm looking at Exhibit 22, Schedule 3 is --
- 3 what appendices would I be -- on what appendix am I
- 4 looking? Is it --
- 5 A Well, this would --
- 6 COMMISSIONER CLAYTON: And I apologize for
- 7 interrupting you.
- 8 A It's the --
- 9 COMMISSIONER MURRAY: Can I just say something
- 10 first because, Mr. Clayton, yours may have been like mine.
- 11 This is supposed to be Schedule 3 attached to
- 12 Mr. Schallenberg's direct testimony. But the schedules
- 13 that I have attached were only from Schedule 6 and beyond.
- 14 I don't know if perhaps you didn't have all of your -- the
- 15 schedules attached either.
- 16 COMMISSIONER CLAYTON: It doesn't matter. Go
- 17 head, Bob.
- 18 MS. SHEMWELL: I think there may be some
- 19 concern. Some of it was de-classified, so we refiled HC
- 20 and NP versions, but we will get for the Commission full
- 21 sets if that helps.
- 22 COMMISSIONER CLAYTON: We may have them. It's
- just we've got appendices. We've got schedules. We've
- 24 got exhibit numbers, and it's hard to track. So I just
- 25 wanted to make sure I have it. It's not an appendix, but

- 1 it's --
- 2 A Appendices are going to be related to my
- 3 surrebuttal, which is Exhibit 67. And I don't believe the
- 4 appendices were given separate schedule numbers.
- 5 COMMISSIONER CLAYTON: I don't think I have it,
- 6 but that's okay. Sorry for interrupting, Commissioner.
- 7 A So that's why you get the "on or about" is we
- 8 know that Omega is marketing gas to the City of Cuba for a
- 9 period beginning July 1st of '03. And we know that
- 10 earlier -- we know in '02 and '03, the marketing offers
- 11 and stuff were under the name of MGC.
- 12 We do not know a more exact date of when in '03
- 13 Omega began to replace the marketing offers being made by
- 14 MGC.
- 15 Q And the contract, which is the exhibit you've
- 16 just referenced, the attachment to your direct testimony,
- 17 Schedule 3, is what you're providing as evidence of that
- 18 fact?
- 19 A Yes. That -- that we know that Omega is using
- 20 this as -- when I say we know, the evidence that I used to
- 21 make that statement that Omega was marketing on the system
- 22 by that date --
- 23 Q Okay.
- 24 A -- is this disagreement that -- that you see is
- 25 in Exhibit 22 or Schedule 3 to my direct.

```
1 Q I'm going to move on. Staff also alleges that
```

- 2 MGC and MPC violated their tariffs by transporting natural
- 3 gas to -- to secret Omega customers without an executed
- 4 transportation agreement.
- 5 The evidence that the transportation service was
- 6 provided to Omega, were those customers without a written
- 7 agreement is based upon -- have you -- well, and I
- 8 apologize because this may have -- this may have come out
- 9 in prior questioning. It certainly may be clear in the
- 10 testimony, but you'll admit there's a lot here.
- 11 Has Staff requested copies of relevant
- 12 transportation agreements that should have been executed?
- 13 A We have requested transportation agreements
- 14 during a certain period of time. We were supplied the
- 15 current effective transportation agreements. And we were
- 16 able to receive some prior transportation agreements that
- 17 weren't currently in effect. So that could be the answer
- 18 to that portion of the question.
- We have acquired the transportation agreements
- 20 that are represented to be the ones used -- maybe the best
- 21 way -- if you remember the revenue summary sheets --
- 22 O Uh-huh.
- 23 A -- for the Cuba and the Fort transaction, we
- 24 have the -- we have the -- we have identified -- or the
- 25 company has provided us the transportation contracts

- 1 themselves that were used to assign the volumes to those
- 2 two contracts. So I know we have been provided those two
- 3 contracts, which would be the contracts that the volumes
- 4 have been assigned to on that revenue sheet that we
- 5 discussed yesterday.
- 6 Q Yes. That was Exhibit 53-HC. Okay. So that
- 7 included that revenue summary, I believe. Did that
- 8 include the two secret trans -- two secret customers shown
- 9 on page 4 of your -- well, I'm sorry. That's not your
- 10 testimony. I may be not doing this as efficiently as I
- 11 could because I'm not looking at the right document here
- 12 setting out Staff's counts, but in Count 2 alleging that
- 13 MPC -- MGC and MPC violated their tariffs by transporting
- 14 natural gas to certain customers without an executed
- 15 transportation agreement.
- 16 And I believe those customers are what have been
- 17 designated as Secret Customers A and B?
- 18 A That would be correct.
- 19 Q All right. And the executed transportation
- 20 agreement that they should have had is not one of the
- 21 transportation agreements that has been provided?
- 22 A That would be the Staff's assertion. Yes.
- 23 Q And the pipeline's assertion is that they have
- 24 provided you with a valid transportation agreement?
- 25 A I -- I think, I mean, obviously, they'll speak

- 1 for what their assertion is. As I understand it, the
- 2 pipeline is asserting that they had the right under that
- 3 agency agreement to transport to Secret Customer A and
- 4 Secret Customer B under the City of Cuba's transportation
- 5 contract.
- 6 And the Staff disputes that assertion and argues
- 7 that they should have been -- they -- they were a separate
- 8 and distinct customer that should have been served under
- 9 separate transportation agreements.
- 10 Q And why couldn't they have served them under the
- 11 Cuba contract?
- 12 A It would be the Staff's assertion that under the
- 13 City of Cuba's transportation contracts MPC and MGC had no
- 14 authority to transport to Secret Customer A and Secret
- 15 Customer B under the City of Cuba's transportation
- 16 contract.
- 17 The only authority under those contracts was to
- 18 serve -- was to transport gas on behalf of the City of
- 19 Cuba, not -- not that it would not include, nor -- nor did
- 20 we find any modifications of the contract -- the contracts
- 21 that the use of those facilities to serve Secret Customer
- 22 A or B on behalf of Omega.
- 23 Q And why is that important?
- 24 A What it -- what it -- it becomes important in a
- 25 couple matters. One is when you first do that and you

- 1 list it as -- as serving Secret Customer A and Secret
- 2 Customer B of City of Cuba transactions, you first don't
- 3 see the transaction. You don't see that Omega's operating
- 4 outside the Fort. So you -- you -- you make detection of
- 5 -- of the true activity that's taking place on the
- 6 pipeline difficult at best.
- 7 And two is by incrementally moving these
- 8 transportation agreements into the City of Cuba's
- 9 agreement, you change the rate that's charged for
- 10 transportation services.
- 11 If they held separate transportation agreements,
- 12 then the rate called for under the tariff would -- the
- 13 maximum rate is much different. And if you would have
- 14 served them at the rate they were actually charged to be
- 15 delivered to those customers, we would have a -- in both
- 16 cases, you would show significant discounts.
- 17 Q To Customers A and B?
- 18 A Yes. What tariff would have required. And then
- 19 you trigger -- if do that, if you use the -- the
- 20 agreements, you would trigger the reporting requirements
- 21 that are in the tariffs for that kind of a transaction,
- 22 which would then have a corresponding impact of triggering
- 23 3-2-B, which is the affiliate protection against -- or the
- 24 affiliate requirement.
- 25 I -- I heard it best described that the tariffs

- 1 really don't allow affiliate discounts because as soon as
- 2 you give a discount to an affiliate, you have to provide
- 3 -- so there's really -- under these tariffs, there's
- 4 really no such thing as a discount because of the maximum
- 5 you charge a non-affiliate, so, technically, there is no
- 6 discount.
- 7 Q Okay. And I know you have cited that specific
- 8 part of the tariff in your testimony. I recall seeing
- 9 that. On Count 3, MPC and MGC provided transportation
- 10 service to its affiliate, Omega, at a discounted rate.
- 11 How does that differ from what you just explained to me?
- 12 A I don't -- I don't believe it differs from what
- 13 I just explained.
- 14 Q And you have shown in the evidence that you have
- 15 presented, I believe, and you can confirm this or not,
- 16 that another marketer in the same position as Omega had
- 17 paid even higher rates to MPC and MGC; is that correct?
- 18 A Yes. In terms of -- you have some examples in
- 19 -- that we came up there in the investigation and when you
- 20 look at Omega as a marketer serving Secret Customer C.
- 21 And I -- I don't know that Secret Customer D is a secret,
- 22 so I -- I -- and I would say it's not because there's
- 23 public filings that identifies it.
- But what's -- what's called Secret Customer D.
- 25 We have an example of a non-affiliated marketer serving

- 1 those two customers that, in essence, are transitioned
- 2 from a non-affiliated marketer to Omega. And the -- those
- 3 non-affiliated marketers were charged the specified
- 4 maximum tariff rate.
- 5 It was the same marketer. They had separate
- 6 transportation agreements in those cases.
- 7 Q Okay. And the remedy that Staff is seeking for
- 8 that violation of charging less to its affiliate than to
- 9 other marketers?
- 10 A I think -- remedies, I tried to set out on page
- 11 8 of my direct testimony that the Staff was seeking.
- 12 Q Okay.
- 13 A And the one you were just -- there was four that
- 14 are listed and Remedy 1 would be --
- 15 Q All right. You don't have to go into them
- 16 there. They're set up really there in the testimony. I
- 17 just -- I just question -- and I suppose this is a legal
- 18 question that Counsel can address in briefing, whether we
- 19 can require refunds.
- 20 A Yeah. I mean, I know that's been discussed with
- 21 General Counsel's Office. But the only point, knowledge
- 22 or anything I have of it is it's been discussed whether
- 23 the Commission with -- whether General Counsel's office
- 24 can require services and operations support to go to
- 25 Circuit Court to seek those refunds or whether the

- 1 Commission would choose to just enter its order and leave
- 2 that action to the individual customers.
- 3 Q Okay. I will not pursue that further with you
- 4 because that really is a little issue. In Count IV,
- 5 failure to report the offer of the discounted
- 6 transportation. And you are just citing two specific
- 7 orders; is that correct?
- 8 A Do you have the page?
- 9 Q No.
- 10 A Okay.
- 11 Q I'm going from a list of issues here.
- 12 A Okay. I'm sorry. Okay. I'll find it.
- 13 Q I haven't organized myself.
- MS. SHEMWELL: 16. Direct 16 is part of that.
- 15 COMMISSIONER CLAYTON: Page 16?
- MS. SHEMWELL: Page 16 of Mr. Schallenberg's
- 17 direct.
- 18 COMMISSIONER MURRAY: Thank you, Ms. Shemwell.
- 19 MS. SHEMWELL: Certainly.
- 20 A Well, I have page 16, but I think I was still on
- 21 Count 1 on 16. It may have the same support for Count --
- 22 Q (By Commissioner Murray) We're -- okay. We're
- 23 still talking about Count 1, right? Sorry. All right.
- 24 So Count 1 --
- 25 A In fact, I don't -- I don't have that statement

- 1 of issues document.
- 2 MS. SHEMWELL: If I may approach?
- 3 Q (By Commissioner Murray) That's all right. We
- 4 probably should -- should look at your testimony versus
- 5 that anyway if I can do that.
- 6 All right. I'm going to move on because it's
- 7 been longer than I intended. But on Count 2 -- let's do
- 8 move to Count 2. We're talking about the lack of a
- 9 written transportation agreement; is that correct?
- 10 A Yes.
- 11 Q All right. And the pipeline indicates that they
- 12 have provided -- at least what we've heard so far, that
- 13 they have provided valid -- evidence of valid agreements.
- 14 And Staff's conclusion is that there are not based upon
- 15 what I believe you and I discussed just a few moments ago.
- 16 Okay. We've already discussed that.
- 17 Count 3 is that -- again relates to the discount
- 18 given to Omega and the evidence the Staff has presented
- 19 that Omega did not pay the highest rate?
- 20 A The evidence the Staff presented shows -- and
- 21 the tariff doesn't -- isn't triggered by the highest rate.
- 22 What triggers the tariff is the lowest rate --
- Q Yes. Yes.
- 24 A -- charged by the affiliate.
- 25 Q Yeah. But if -- they didn't pay the highest

- 1 rate for everyone?
- 2 A Yeah. We dispute -- we dispute that assertion
- 3 that -- obviously, we dispute this. We believe that the
- 4 -- in some of their transportation arrangements, they pay
- 5 near the lowest, if not the lowest. And I have to qualify
- 6 that as of that period I gave you, there have been changes
- 7 that I'm aware of after May 31st, '06. And the answer to
- 8 that question would be different after that day.
- 9 Q But before the dates that you're alleging in
- 10 your complaint --
- 11 A During the period -- we don't -- Staff does not
- 12 agree that Omega paid the highest rate on the pipeline
- 13 system during the period of July 1st of '03 through March
- 14 31st of '06.
- 15 Q And is there a specific --
- 16 A Excuse me. May 31st of '06.
- 17 Q Is there one document that shows that most
- 18 clearly?
- 19 A I -- I would refer to the bills, the actual
- 20 bills to Omega, which are appendices.
- 21 Q All right.
- 22 A I think the actual bills to Omega are in
- 23 Appendix D.
- Q Appendix D?
- 25 A D to -- and that's to Append -- Schedule 67.

- 1 But these aren't broken out.
- 2 MS. SHEMWELL: That's to your surrebuttal?
- 3 A Yes. And Appendix --
- 4 Q (By Commissioner Murray) I -- I have a separate
- 5 binder that has appendices E and F. Is that --
- 6 A That would be -- that would be the document.
- 7 Q All right. And Appendix D is 30 -- let's see.
- 8 It's longer than that. It's 63 pages long; is that
- 9 correct?
- 10 A Yes.
- 11 Q Now, these are bills?
- 12 A These are -- these are the bills, invoices that
- 13 relate to the rate that Omega was charged for the
- 14 transportation services that they were provided during
- 15 various periods of time.
- 16 For some reason, Appendix D begins in February
- of '04. And I know we received January of '04, so why --
- 18 I don't know why the January is messing, but it is missing
- 19 from a Appendix D.
- 20 But it -- it -- it still shows the bills. There
- 21 may be a missing period, but it shows the Appendix D and E
- 22 are all the invoices -- excuse me. And I have it printed
- 23 out in either one.
- 24 Appendix F also has some supplements to invoices
- 25 to Omega after March of '06. So those three appendices

```
1 will show you -- D, E and F will show you the invoices to
```

- 2 Omega for transportation service during that period.
- 3 Q All right. And how does referencing those
- 4 indicate to us that Omega did not pay the highest price
- 5 charged?
- 6 A Okay. If you look at, say, the first page on
- 7 Appendix D --
- 8 Q Yes.
- 9 A -- you'll see the -- the bills, for the first
- 10 two lines where it actually refers to a contract number.
- 11 A Yes.
- 12 Q Okay.
- 13 A Those -- those are the rates that were charged
- 14 for transportation service to Secret Customer D.
- 15 Q Secret customer D?
- 16 A D, which is --
- MS. SHEMWELL: Which isn't secret.
- 18 A Which is no longer a secret.
- 19 Q (By Commissioner Murray) Okay.
- 20 A And below that, you'll see a reference to
- 21 another customer, which is Secret Customer B. And you see
- $\,$ 22 $\,$ no contract number, but you do see the rates for what they
- 23 were charged for service.
- Q Okay.
- 25 A And you see -- so you can look at those rates

- 1 for the charge for Secret Customer B, and -- and those
- 2 would be the rates of what they were charged for service
- 3 to Secret Customer B. And then if you go to Appendix E --
- 4 MS. SHEMWELL: Just for the record, that's
- 5 marked 67-E.
- 6 Q (By Ms. Commissioner Murray) Appendix E?
- 7 A Right. You'll see the rates that were charged
- 8 to Omega for transportation service to the Cuba city gate.
- 9 Q What page are you on?
- 10 A Appendix E-1.
- 11 Q One?
- 12 A The reason -- the reason it's hard to identify
- 13 on the face sheets, until January -- the recreated face
- 14 sheets until January of '06, you cannot see the City of
- 15 Cuba on the bills.
- 16 Q Okay.
- 17 A They were just sent from Omega to Omega.
- 18 Beginning in January of '06, the bills will -- the shipper
- 19 will be identified as being the City of Cuba. So in this
- 20 earlier period, you don't see the City of Cuba on the
- 21 bill, but this is for deliveries to the City of Cuba.
- 22 Q All right. Okay.
- 23 A And then if you were to take the actual invoices
- 24 -- an actual invoice that goes to the City of Cuba from
- 25 Omega -- and I'm trying to find an example. I think --

- 1 Schedule 13. I think it's 35. It's Schedule 13 of my
- 2 direct testimony.
- 3 O Schedule 13?
- 4 A Right. To my direct testimony.
- 5 Q Okay. Go ahead.
- 6 A What -- what it does is it shows that -- and we
- 7 discussed this yesterday. It shows the -- the total
- 8 volumes that were delivered to the city gate.
- 9 Q Uh-huh.
- 10 A But it identifies that on the City of Cuba's
- 11 bill.
- MS. SHEMWELL: If I may approach, Judge?
- JUDGE WOODRUFF: You may.
- MS. SHEMWELL: Commissioner Murray, perhaps --
- 15 would this be helpful?
- 16 COMMISSIONER MURRAY: Was this given to -- to us
- 17 separately yesterday?
- MS. SHEMWELL: It was in his -- the original
- 19 file. It was not original testimony. It has not been
- 20 declassified. So it would have been with 36.
- 21 COMMISSIONER CLAYTON: I don't have any
- 22 attachments to his testimony.
- MS. SHEMWELL: We'll get those for you.
- 24 COMMISSIONER CLAYTON: No. I don't need it.
- MS. SHEMWELL: All right.

```
1 Q (By Commissioner Murray) All right. I'm
```

- 2 looking at a copy of your Schedule 13-1.
- 3 A Okay. If you look --
- 4 Q Of HC.
- 5 A Okay. If you look at that invoice --
- 6 Q Yes.
- 7 A -- you can see that there's a quantity that --
- 8 that's delivered to the city gate, which is the Cuba city
- 9 gate under Delivery Charges.
- 10 A And I -- do you have -- is yours June? Is yours
- 11 for June of '04?
- 12 Q Yes, it is.
- 13 A Okay. You'll see a number there.
- 14 Q Okay. I see -- I see.
- 15 A And then you see the reduction.
- 16 Q Yes.
- 17 A That's the reduction of volumes delivered to
- 18 Secret Customer A.
- 19 Q Yes. Okay.
- 20 A That's how you know -- and when you go back to
- 21 E, you can then see that with those volumes are combined
- 22 on this bill, Omega is being charged to serve Secret
- 23 Customer A. I'm not sure that's highly confidential on
- 24 Appendix E, but where you see the two commodity rates --
- 25 Q Are we looking -- yes. Okay. We're on page 1

- 1 of Appendix E again?
- 2 A Right.
- 3 O Uh-huh.
- 4 A Those two commodity rates -- well, I know the
- 5 sixteen ninety-nine is not highly confidential because
- 6 it's a tariff rate. And then you'll see the corresponding
- 7 one on MGC, which is the lower one. You'll see those two
- 8 rates are what Omega is charged to serve Secret Customer
- 9 A.
- 10 O Yes.
- 11 A And Secret Customer A is -- if you look at the
- 12 contract with Secret Customer A and Omega, which is
- 13 Schedule 10 to my direct testimony, it will identify that
- 14 Secret Customer A is an interruptible customer and not a
- 15 firm customer.
- And the tariffs have different rates for
- 17 interruptible customers. If you look at Exhibit 71, if
- 18 you offer or provide interruptible service --
- 19 Q Exhibit 71 is an interruptible tariff? Is that
- 20 what you're saying?
- 21 A Yeah. If you'll look at Schedule 10 to my
- 22 direct, it is the contract between Omega and Secret
- 23 Customer A. And under the special provisions of that, it
- 24 identifies the -- the type of service that's being
- 25 provided.

```
1 Q And identifies it as interruptible?
```

- 2 A Yes. And --
- 3 Q And the significance of that is?
- 4 A That the transportation contract that's being
- 5 used here is one that's referenced on Appendix E. If you
- 6 look at the con -- contract number, the -- it has MP or
- 7 MG. That's how you know which pipeline has a number.
- 8 Q Okay.
- 9 A Do you see TF.
- 10 O Yes.
- 11 A F is for transportation -- is for firm.
- 12 Q Okay. Okay.
- 13 A Some of the contract -- I know the University of
- 14 Missouri has a transportation contract that's
- 15 interruptible. And that would be an I.
- 16 Q Okay.
- 17 A So you're using a firm contract here, and you
- 18 have a -- Secret Customer A is interruptible. And we know
- 19 Secret Customer A was interrupted, so --
- 20 Q Does that mean Secret Customer A was being
- 21 billed more than they should have been?
- 22 A Actually, Secret Customer A is billed a lot
- 23 less. Because if you look at Exhibit 71, the tariffs --
- 24 Q Uh-huh.
- 25 A -- if you went to the interruptible service --

- 1 excuse me. You could do it -- actually, it's 70 because
- 2 it's on MGC where the biggest rate advantage is. The rate
- 3 for interruptible --
- 4 Q I'm sorry. What page?
- 5 A The rates for interruptible service are
- 6 identified on Sheets 15 and 16.
- 7 Q All right?
- 8 A And since Secret Customer A isn't Secret
- 9 Customer D, you know that they would be delivery to
- 10 Section B of the tariffs on sheet 16.
- 11 Q Uh-huh.
- 12 A So if you look there, you can see the range of
- 13 what an interruptible customer would be charged for
- 14 interruptible transportation service to that location and
- 15 the -- this isn't secret. The maximum rate is \$1.37.65.
- Q Where are -- okay. That's on the next page?
- 17 A It's on 16.
- 18 Q Sixteen. Okay.
- 19 A A rate discussion goes on 15, but the rates are
- 20 on 16.
- 21 Q All right. And I'm sorry. The maximum --
- 22 maximum rate --
- 23 A The maximum rate for -- well, there's two --
- 24 there's two rates on MGC. Because if you deliver to the
- 25 Fort, there's one rate. And if you deliver to other

- 1 location other than the Fort, there's another rate. And
- 2 since -- Secret customer A would be impacted by the rates
- 3 in B because we've identified that that's a city -- a Cuba
- 4 city gate. The Cuba city gate is not the Fort city gate.
- 5 So that would be the maximum rates for an interruptible
- 6 customer. So if you look at that compared to --.
- 7 Q Appendix E-1?
- 8 A E-1, you can see in lieu of -- where the
- 9 commodity, where it says COMM --
- 10 O Yes.
- 11 A -- you can see in there paying a \$1.37.65 -- is
- 12 that confidential or --
- 13 A The \$1.37.65 --
- 14 Q The tariff on Exhibit 31?
- 15 A I think that's the discount. But you have the
- 16 public tariff rate to compare it to that number.
- 17 Q Okay. I -- I also see on -- for that -- for
- 18 those customers, other than the Fort and the tariff,
- 19 should the maximum -- never mind. Scratch that.
- 20 All right. All right. I really didn't mean to
- 21 take this long, but it takes a while. And then your
- 22 evidence goes into other secret customers as well, which,
- 23 I mean, we don't have to --
- 24 A If you go later in Appendix D, like if you want
- 25 to go to like page 27 of D, as in dog --

```
1 Q Yes. I see there are two other secret customers
```

- 2 there.
- 3 A Yeah. Secret Customer B and Secret Customer C
- 4 are by this period now on this bill. Now, Secret Customer
- 5 B actually is billed during a certain period -- part of
- 6 the time under Appendix E. And if you go to -- like E-14,
- 7 which is the face sheet that shows the -- the billing
- 8 rates.
- 9 And then if you go to E-16, you can see that
- 10 during this period of time, Secret Customer B is being
- 11 charged -- charged under these invoices. And that was
- 12 continued and it ended up on the invoices in D in February
- 13 of '05.
- 14 Q And you identified Secret Customer B by --
- 15 A If you look at -- on page 16 of E -- in the
- 16 section -- of E, which is the second -- second page of
- 17 that invoice --
- 18 Q Correct.
- 19 A -- if you look at the top of the page, you will
- 20 see --
- 21 Q I see.
- 22 A You will see Secret Customer B's name.
- 23 Q I see.
- 24 A And then that gives you the daily readings
- 25 because Secret Customer B is not at the same delivery

1 point as Secret Customer A or the City of Cuba. So you'd

- 2 need -- you'd need different measurements.
- 3 Q All right. And in the -- for Count IV, that's
- 4 based on not reporting all of the discounts to the
- 5 shippers, and that is a requirement that -- where would
- 6 you find that requirement to make that reporting?
- 7 A As I said, it's in both tariffs. But if you go
- 8 to Exhibit 70, Sheet 39.
- 9 Q I can't find it. Okay. So 39.
- 10 A Okay. 12-C.
- 11 Q Every three months, a list of all bids or offers
- 12 transported for transportation service routes reports to
- 13 the pipeline where the bid is less than the maximum rate
- 14 contained in this tariff for transporter's area. And
- 15 you're saying those reports were not made?
- 16 A I think what -- what the allegation is that when
- 17 the report was made for the City of Cuba that the
- 18 affiliate -- if you'll look further down, it -- it has for
- 19 each such bid or offering. I think it's the -- it's the
- 20 third sentence from the end.
- 21 O I see it.
- 22 A For each such bid or offering, the transporter,
- 23 which, in this case, would be MGC, will completely explain
- 24 whether the entity being offered the discount is
- 25 affiliated in any way with transporter or -- or with any

- 1 of affiliates.
- 2 And I believe -- let me look at this. I think a
- 3 copy of the report received -- if you go to -- all right.
- 4 It's Schedule 7 to my direct testimony, Exhibit 29.
- 5 Q And what does it show? I don't have it in front
- 6 of me.
- 7 A It will be the report that we received for the
- 8 second quarter of '03, and it has a face sheet. It has a
- 9 -- the next page is about the information related to MPC.
- 10 And the third page is about the information for discounts
- on MGC.
- 12 Q Okay. And the second quarter of '03 would have
- 13 been within the relevant time frame?
- 14 A Right. Because we -- it just --
- 15 Q All right. How does it tell you about discounts
- 16 being offered?
- 17 A It lists four discounts of which the City of
- 18 Cuba is listed. And if you look at that page, you would
- 19 see no information that would identify that the City -- in
- 20 this case, the City of Cuba was offered a rate that's
- 21 affiliated in any way with the transporter or any of its
- 22 affiliates.
- 23 You will see nothing on -- on that page that
- 24 identifies that Omega is the marketing entity providing
- 25 natural gas to Cuba at this time.

```
1 Q And the fact that Omega was acting as the agent
```

- 2 for Cuba, does that change the requirement that this be
- 3 reported as an affiliate discount?
- 4 A Well, I think it -- it -- you could -- there's
- 5 two parts to that. One is under what you're asking me
- 6 about, 12-C. I -- I -- I don't read that 120C excuses you
- 7 from identifying that the agent received of the -- of the
- 8 -- of the shipper says, Whether the entity being offered
- 9 the rate, which in this case is the City of Cuba, is
- 10 affiliated in any way with transporter or any of its
- 11 affiliates is an -- in fact, if you look at the old
- 12 discount that came in under -- this is -- I think it was
- 13 Utilicorp.
- I don't think they became Aquila at the time.
- 15 They would identify -- in the case of an agent, they would
- 16 identify like the City of Cuba, in care of, and then it
- 17 would list the agent. And in this case, it was the
- 18 marketing entity. So you would be provided that
- 19 information to the extent that your -- that you had a --
- 20 that the shipper had an agent. It would identify in the
- 21 name that the marketing entity was their affiliate.
- 22 Q Okay. The transporter -- and I'm reading from
- 23 the tariff -- for each such bid or offering, transporter,
- 24 in this case, MGC, will completely explain who the entity
- 25 being offered the rate -- the entity being offered the

- 1 rate is. In this instance, is --
- 2 A City of Cuba.
- 3 Q Okay. So MGC will completely explain whether
- 4 the City of Cuba is affiliated in any way with
- 5 transporter, which is identified as, in this instance,
- 6 MGC, whether Cuba is affiliate, the City of Cuba is
- 7 affiliated in any way with MGC or with any of its
- 8 affiliates. And you are assuming there that they should
- 9 have identified Omega as one of MG -- MGC's affiliates?
- 10 A Correct. Because under the tariff and the
- 11 contract, if Omega is to be your agent, you have an
- 12 obligation to notify the transporter, MGC so they know who
- 13 to send the bill to and who to accept the nominations.
- 14 Q Who has that obligation?
- 15 A The -- the shipper if -- when you sign your
- 16 contract with pipelines, you designate who is to -- who is
- 17 the one that's going to provide the nominations, who is
- 18 going to receive the bill, who to contact in the case that
- 19 there's a person -- if you have problems.
- 20 Q Do you know if the shipper did that?
- 21 A In this case?
- 22 O Yes.
- 23 A Actually, the -- no. Well, yes, I do know. And
- 24 MPC and MGC received no written notification. In fact,
- 25 there's an appendices to my surrebuttal consistent with

- 1 what was done in prior times when Cuba had different
- 2 agents. MPC and MGC received no similar documentation
- 3 from Omega notifying it that Omega was authorized to be
- 4 the City of Cuba's agent.
- 5 And the answer to the data request that the
- 6 Staff put in, the company identified that the only
- 7 information that was available was the Omega contract with
- 8 the City of Cuba, which we identified as Schedule 3-1 to
- 9 my direct or Schedule 22.
- 10 So the only notification that exists that MPC
- 11 and MGC knew Omega was authorized to nominate on the City
- of Cuba's behalf, receive its bills, is the contract that
- 13 Omega signed with the City of Cuba. There is no formal
- 14 notification from the City of Cuba that Omega is
- 15 authorized to act on its behalf under its contract.
- 16 MS. SHEMWELL: I'm sorry to interrupt, but may I
- 17 make the record clear? Were you referring to Exhibit 22
- 18 when you said Schedule 22?
- 19 A Yes. It's -- on this sheet.
- MS. SHEMWELL: On the exhibit sheet, you were
- 21 referring to Exhibit 22, correct?
- 22 A It's Exhibit 22. It's Schedule 3. It's to my
- 23 direct testimony, which is the --
- MS. SHEMWELL: Thank you.
- 25 Q (By Commissioner Murray) All right. So that

- 1 notification was to come -- was the obligation of the
- 2 shipper, which was Omega, to provide that information to M
- 3 -- MGC?
- A Actually, it's not in -- in -- in this case for
- 5 the City of Cuba because the City of Cuba holds the
- 6 transportation contracts. It is the obligation of the
- 7 shipper to notify MGC who is authorized to act on their
- 8 behalf, so -- in the event that you -- you want to have an
- 9 agent.
- 10 Q Right. So the City should have notified MGC?
- 11 A They have an obligation to notify MGC because
- 12 MGC is not -- it's supposed to follow the contract to
- 13 protect -- it's supposed to know that -- that this person
- 14 is authorized to make nominations under that contract, you
- 15 know, so that when they hear from this person, they know
- 16 that's the authorized person.
- 17 Q At this period of time, was Mr. Ries serving in
- 18 capacity -- both capacities with MGC and Omega?
- 19 A In terms of nominations? He would be -- he
- 20 would be receiving nomination with us. He would be
- 21 receiving nominations from the shippers, and he would be
- 22 nominating or -- or not nominating for his own customers.
- 23 Q So would it have been possible for MGC to not
- 24 have known what the City had the obligation to tell them
- 25 and didn't tell them?

- 1 A Well, no. The contract -- in fact, it may help.
- 2 Appendix -- I think it's the last appendix. Exhibit 67 is
- 3 the City of Cuba's contracts.
- 4 Q All right.
- 5 A And it -- and it has in it who -- the contract
- 6 specifies the designated person for nominations to receive
- 7 the bills, who to contact, and it specifies a person. And
- 8 if you want to change that, then you send a letter in to
- 9 MPC and MGC telling them that we have now switched and
- 10 have someone else that is now authorized to do that for
- 11 us.
- 12 Q And that contract specified Omega?
- 13 A The contract does not specify Omega. There's no
- 14 notification to MPC and MGC that -- from the City of Cuba
- 15 that Omega is authorized to nominate on -- on those
- 16 contracts' behalf, receive the bills from MPC and MGC for
- 17 their transportation service or to be contacted.
- 18 The only notification that the Staff received in
- 19 this investigation is the Omega contract with the City of
- 20 Cuba.
- 21 Q Okay. Well, my question to you though, is that
- 22 in that the --
- 23 A I'm sorry.
- Q You indicated that the City had the obligation
- 25 to tell MGC and MPC that Omega was authorized to act on

- 1 their behalf; is that correct?
- 2 A Yes. That's --
- 3 Q That's what it specified, and the City did not
- 4 do that as far as you can tell?
- 5 A Yes. I mean, in fact, Appendix F -- I mean,
- 6 excuse me, W, to my surrebuttal is the -- is the
- 7 documentation on that.
- 8 Q But my question to you is, does that in any way
- 9 relieve MPC and MGC from any reporting that they were
- 10 required to do as to their affiliate, Omega?
- 11 Would that lack of notification from the City
- 12 have prevented or could it be possible that MGC and MPC
- 13 did not know that Omega was acting on behalf of the City
- 14 of Cuba?
- 15 A Yes. In fact, without that notification, MPC
- 16 and MGC are not to be interacting with Omega. They would
- 17 be interacting with whoever was the authorized agent or
- 18 contact person. So you're right. If -- if you never --
- 19 if MPC and MGC never received the notice, MPC and MGC
- 20 would not report an affiliation because they wouldn't be a
- 21 having -- they wouldn't be interacting with the affiliated
- 22 entity.
- 23 Q Okay. But they did, in fact, interact with the
- 24 affiliated entity; is that correct?
- 25 A Yes, they did.

```
1 Q Okay. And the last issue is the one on the
```

- 2 extension of the pipeline without reimbursement. Is it
- 3 possible that that pipeline could have been extended
- 4 without seeking reimbursement, without a violation of any
- 5 -- I'm not sure --- what are you -- what are you alleging
- 6 that was a violation of?
- 7 A That the -- the way the -- the tariff operates
- 8 is that to the extent that a shipper -- back to -- the
- 9 tariff specifies that it is the shipper's responsibility
- 10 to reimburse the pipeline in the extent that it's -- it's
- 11 requesting service that requires the pipeline to make any
- 12 modifications.
- 13 Q And the shipper was Secret Customer No. --
- 14 Letter --
- 15 A The -- the customer was Secret Customer B.
- 16 Q Okay.
- 17 A But -- and there's a -- there's a question about
- 18 whether the shipper would be the customer or would have
- 19 been the -- the marketer because on the pipeline, you see
- 20 transportation contracts sometimes in the case of the
- 21 customer and sometimes in the case of a marketer. But
- 22 whoever that shipper would be, it would have --
- 23 Q How does one determine who that should have
- 24 been?
- 25 A Well, since it could be either one, it -- you

- 1 know, it could be one or the other, the one -- one way you
- 2 do it is look at whose gas -- who has ownership of the gas
- 3 being transported.
- 4 That's another way to determine in this event
- 5 who the shipper should be. In -- in case of a Secret
- 6 Customer B, Secret Customer B moved from the City of Cuba
- 7 transportation contract to the Omega contract. So it --
- 8 it's been served -- Secret Customer B has received
- 9 transportation service under two -- two different,
- 10 distinct bills during its existence.
- 11 Q Okay. And the tariff provision you're
- 12 referencing is -- do you have that handy?
- 13 A I know in Section 6, which is about billing, it
- 14 talks about the billing charge, which is -- it's on Sheet
- 15 31. I guess, technically, it's in 32 as well.
- 16 It starts -- it's Item E, it says E, which is
- 17 the reimbursement. And then there's a -- I believe
- 18 there's another section of the tariff that talks about
- 19 reimbursement. No. I think -- I don't want to say -- you
- 20 can get -- if you come in and ask for an extension of your
- 21 line certificate -- and I have seen that when -- in the
- 22 history of pipeline, you can come in and ask to have the
- 23 line certificate extended so that you can build laterals
- 24 to connect. And they have been done to serve other
- 25 customers.

```
1 And in -- and in this process, if you came in
```

- 2 and say, I want Commission authority to change my line
- 3 certificate so I can -- I can extend the line out -- and
- 4 in those cases, you know, to the extent that the
- 5 Commission authorizes it, then these would not be
- 6 aggravated.
- 7 Q And MPC and MGC did not do that; is that
- 8 correct, an extension of the line certificate?
- 9 A Right. To -- to -- to create the new
- 10 intersection and the lateral to serve Secret Customer B.
- 11 Q And that would be the only exception to the
- 12 tariff language that says the shipper will reimburse the
- 13 transporter?
- 14 A Well, the other one is to come in and ask the
- 15 Commission that I don't agree -- I want a waiver from the
- 16 tariffs because of the unique circumstances.
- 17 And I want to -- well, I can see you could ask
- 18 for the waiver. But then you would still run into a
- 19 question of ownership. But if you don't get the
- 20 certificate extended or the lateral, then there may be a
- 21 question about when the utility can actually own it if it
- 22 puts this property outside its line certificate.
- 23 Q So who owns this extension that was placed?
- 24 A I know where the dollars are. I don't -- I
- 25 don't know -- I know the dollars are on MGC's books in

- 1 it's plat and service. As I said, I haven't explored the
- 2 issue since there is no -- the tariffs don't even specify
- 3 the delivery point. I -- I don't know.
- I haven't looked at the question of -- of
- 5 whether that ownership can be challenged or who actually
- 6 has it. But I do know where the dollars are at.
- 7 Q Okay. And there was no tariff waiver from the
- 8 Commission sought; is that correct?
- 9 A No. The last tariff revision for these tariffs
- 10 were on that adoption notice, that first page.
- 11 Q I'm sorry. Isn't that correct? Yes or no?
- 12 A Oh, I'm sorry. Yes.
- 13 Q Okay. Now, go ahead.
- 14 A The -- the last modification of the tariff is
- 15 that first page on Exhibit 70 or 71. And they haven't
- 16 been modified since that day.
- 17 Q But they didn't even seek -- seek to modify
- 18 them, correct?
- 19 A Right. There's been no other -- no other case
- 20 regarding modification of waivers of these tariffs.
- 21 COMMISSIONER MURRAY: All right. Judge, I'm
- 22 just about finished.
- JUDGE WOODRUFF: That's all right.
- 24 COMMISSIONER MURRAY: I think I'm finished.
- 25 Thank you. Thank you, Mr. Schallenberg.

- 1 JUDGE WOODRUFF: Thank you. Commissioner
- 2 Appling, did you have any questions?
- 3 COMMISSIONER APPLING: Judge, I think I have one
- 4 question.
- 5 CROSS-EXAMINATION
- 6 BY COMMISSIONER APPLING:
- 7 Q Early on, you pointed out to Commissioner Murray
- 8 a location where you had listed in your testimony the
- 9 restitution which company would have to either pay or
- 10 whatnot. Do you remember what you -- can you point me to
- 11 that again? I can read it later, but I just wanted to
- 12 know again what was the reference on there?
- 13 A I referenced, as I recall, on page 8 of my
- 14 direct testimony, which lists the remedies that Staff was
- 15 seeking in this complaint.
- 16 COMMISSIONER APPLING: Okay. Judge, that's all
- 17 I have.
- 18 JUDGE WOODRUFF: All right. Thank you. At this
- 19 time, we're due for a break. We'll take a break and come
- 20 back at 11:15.
- 21 (Break in proceedings.)
- JUDGE WOODRUFF: Okay. Let's come to order,
- 23 please. All right. We're back from our break.
- 24 Commissioner Murray, did you have any more questions you
- 25 wanted to ask?

```
1 COMMISSIONER MURRAY: I'm sorry, but I do have
```

- 2 one or two more, Mr. Schallenberg.
- 3 CROSS-EXAMINATION
- 4 BY COMMISSIONER MURRAY:
- 5 Q The allegation that the discount was being
- 6 provided to Omega, how has Staff -- or what evidence has
- 7 Staff used to prove that the discount was actually to
- 8 Omega and not to the City of Cuba?
- 9 A It would be the tracing of the -- the
- 10 funds that the invoices that I showed you, Appendix --
- 11 Q Well, you're saying simply because Omega was
- 12 invoiced. But if Omega was acting as the agent of the
- 13 City, wouldn't that -- would that necessarily indicate
- 14 that that discount was not provided to the principal
- 15 rather than to the agent?
- 16 A Yes. If you look at the contract between Omega
- 17 and the City of Cuba, the contract specifies the payment
- 18 that would be made by the City of Cuba to Omega. And it
- 19 has no provision in there for passing through of -- of
- 20 discounts or any benefits from serving other customers
- 21 under -- in fact, it's -- it's in -- it's attached to one
- 22 of those exhibits we referred to this morning.
- 23 So that would be the -- in answer to your
- 24 question, that would be the -- one of the pieces of
- 25 evidence that we would use. And then we also saw the

- 1 bills from Omega to the City of Cuba.
- 2 Q But the agent/principal relationship provides
- 3 that the agent do the billing, does it not?
- 4 A It -- it provides the -- the contract between
- 5 the City of Cuba and Omega allows them to, let's see,
- 6 schedule, nominate and administer transportation of the
- 7 natural gas and pay monthly invoices for transportation
- 8 services provided by MPC and MGC.
- 9 Q Isn't that just an administrative function
- 10 rather than indicating that the agent is actually -- if
- 11 there's a discount involved, how does that indicate that
- 12 the -- that it's the agent's discount and not the
- 13 principal's discount just because the agent is doing the
- 14 -- the administrative functions?
- 15 A Oh, the -- the discount in this case for this --
- 16 this -- this contract -- the rate came from a -- a letter
- 17 that does not have the required -- I'm going to say --
- 18 there are requirements that -- if you want to modify the
- 19 contract and one of those is discounts. There's a
- 20 requirement --
- 21 Q Which contract are you talking about?
- 22 A It would be the City of Cuba's contract that
- 23 Omega would be attempting to be the agent for. If you
- 24 want to modify those transportation agreements, and rates
- 25 is one of the common ones, it -- it -- the contract

- 1 specifies that modifications have to be done in writing.
- 2 And -- and -- and in almost all discount arrangements that
- 3 the Staff saw, there would be two signatures consistent
- 4 with that requirement.
- 5 This contract -- this discount that we're
- 6 talking about between Omega -- that Omega achieved only
- 7 has the signature of Omega. Actually, I think it only has
- 8 -- well, Mr. Ries signs it. And now that I think about
- 9 it, I think he -- he may have signed it on behalf of the
- 10 pipeline. It has no corresponding signature from the
- 11 Mayor or anyone on behalf of Cuba.
- 12 Q Okay. So is it your position, then, that in
- 13 obtaining the discount that Omega was not acting as agent
- 14 for the City but was acting on its own behalf?
- 15 A Yes.
- 16 Q Now, Omega is not a respondent in this
- 17 complaint; is that correct?
- 18 A Yes. They're -- by -- you mean party?
- 19 Q Yes.
- 20 A Yes. That's correct. They're not -- they're
- 21 not a party in this complaint.
- 22 Q And does Staff have the authority to bring a
- 23 complaint against Omega?
- 24 A Well, not to my knowledge. I mean, General
- 25 Counsel may tell me differently, but I -- I'm not aware.

- 1 I wouldn't -- I wouldn't have that impression.
- 2 Q Okay. And would there be any way for Staff to
- 3 bring a complaint against the City of Cuba?
- 4 A No. Now, I need to qualify my prior answer
- 5 about Omega. I am aware that there is a provision in the
- 6 statute that to the extent that you have a non-regulated
- 7 operation that isn't operated separate and distinct from
- 8 the utilities that the Commission could still have some
- 9 jurisdiction in that case.
- 10 That -- that may be relevant to your -- to that
- 11 -- that answer about whether Omega would be under the
- 12 jurisdiction of this Commission because it wasn't operated
- 13 separate and distinct, I think is the term from the
- 14 pipelines.
- 15 Q But Staff didn't approach bringing a complaint
- 16 in that manner?
- 17 A That's correct.
- 18 COMMISSIONER MURRAY: Now I think I'm finished,
- 19 Judge. Thank you.
- 20 JUDGE WOODRUFF: Thank you. Commissioner
- 21 Appling, did you have anything else?
- 22 COMMISSIONER APPLING: I don't think so, Judge.
- JUDGE WOODRUFF: All right. Before he was
- 24 called away to another meeting, Commissioner Clayton
- 25 indicated he would probably have questions, also. He's

- 1 not here right now, so we may need to recall you at a
- 2 later date to -- or at a later time to allow other
- 3 Commissioners to ask questions as well. But at this
- 4 point, then, we'll go to re-cross based on the questions
- 5 that have been asked at this point beginning with
- 6 Municipal Gas.
- 7 MR. WOODSMALL: AmerenUE.
- 8 MS. DURLEY: No, your Honor.
- 9 JUDGE WOODRUFF: Public Counsel is not present.
- 10 Does the pipeline have any recross?
- MR. DEFORD: No, thank you, your Honor.
- 12 JUDGE WOODRUFF: All right. And for redirect?
- MS. SHEMWELL: Thank you, Judge. Shall I --
- JUDGE WOODRUFF: Yes. Go up to the podium.
- 15 REDIRECT EXAMINATION
- 16 BY MS. SHEMWELL:
- 17 Q Mr. Schallenberg, Commissioner Murray was asking
- 18 you a line of questions about what Cuba was paying versus
- 19 what Omega was paying -- paying for transportation to the
- 20 City of Cuba. Do you know what Cuba was paying for gas?
- 21 A Yes.
- 22 Q How do you know that?
- 23 A Their invoices, which show an amount they were
- 24 being charged for delivery to the city gate for their
- 25 requirements, and it would also show charges for purchases

```
1
    of gas on their behalf.
2
        Q What does the contract tell you?
         A The contract, which -- Exhibit 22, Section II,
    addresses what the commodity cost that the City would pay
5
    to Omega for a commodity.
 6
        Q What is that?
7
              REPORTER'S NOTE: At this point, an in-camera

```
JUDGE WOODRUFF: Okay. We're out of the
     in-camera session. At this time, we're going to break for
 2
     lunch. We'll come back at 1:30.
 4
              MS. SHEMWELL: Thank you.
 5
               (Break in proceedings.)
 6
               JUDGE WOODRUFF: Welcome back from lunch. And
 7
     before we took our break, Mr. Schallenberg was on the
 8
     stand, and, Ms. Shemwell, you're doing redirect.
 9
              MS. SHEMWELL: Thank you, Judge.
10
               (By Ms. Shemwell) Mr. Schallenberg, we were
     discussing the discount given --
11
12
              MS. SHEMWELL: We'll need to go in-camera,
13
     Judge. We were, and we'll need to continue, I think.
14
               JUDGE WOODRUFF: Very well. We'll go back
15
     in-camera again. And the exit from the back of the room
16
     takes place.
              REPORTER'S NOTE: At this point, an in-camera
17
     session was held, which is contained in Vol. 6, pages 383
18
19
     through 387.

```
1 JUDGE WOODRUFF: Okay.
```

- 2 COMMISSIONER CLAYTON: We're back in open
- 3 session?
- 4 JUDGE WOODRUFF: We're back in open session.
- 5 CROSS-EXAMINATION
- 6 BY COMMISSIONER CLAYTON:
- 7 Q I don't have a neat orderly set of questions to
- 8 ask. I've basically got a bunch of notes that I'm trying
- 9 to fill in some gaps, so if you'd be patient with me.
- 10 First of all, I want to ask -- and I think you
- 11 touched on it with the discussion that you just had with
- 12 Ms. Shemwell about the nature of the type of business that
- 13 Omega is. The name of the company is Omega Pipeline,
- 14 correct?
- 15 A Omega Pipeline Company. And there's a --
- 16 there's two Omegas that we ran into. There is an Omega
- 17 Pipeline Services that shows up on some of the invoices
- 18 from Omega Pipeline Company to their customers.
- 19 Q Is that a corp -- are they both corporations? I
- 20 mean, was there a review done at the Secretary of State to
- 21 find two different corporations, or do you think that was
- 22 just a "doing business as" reference?
- 23 A They are separate entities, and both entities
- 24 were registered at the Secretary of State. I think Omega
- 25 Pipeline Company is still active. Omega Pipeline Services

- 1 is no longer active.
- 2 Q And the transactions which are subject to the
- 3 Complaint filed by Staff relate to which entity or both?
- 4 A It would relate to Omega Pipeline Company and
- 5 MPC and MGC.
- 6 Q But it's Omega Pipeline Company, not Omega
- 7 Pipeline Services Company, correct?
- 8 A Right. Omega Pipeline Services,
- 9 Q Do I need to worry about them is what I'm trying
- 10 to --
- 11 A I mean --
- 12 Q Are they part of this complaint?
- 13 A Not that I know of.
- 14 Q Okay. Good. I can X them out then. So we're
- 15 focusing on -- on the affiliate, the alleged affiliate of
- 16 the Respondents, and that would be Omega Pipeline Company?
- 17 A Correct.
- 18 Q Okay. And what type of company is Omega
- 19 Pipeline? When I say type, is it a -- is it a market or
- 20 seller or shipper? What -- what type of company do you
- 21 call it, characterize it as?
- 22 A Well, I would characterize it as an LDC in
- 23 regards to it owns the distribution system at Fort Leonard
- 24 Wood, and it operates and maintains that system. So in
- 25 that regard, I would refer to Omega Pipeline Company as an

- 1 LDC serving Fort Leonard Wood.
- 2 Q Okay.
- 3 A It also sells natural gas as a marketer to -- I
- 4 think it's been identified publicly as the City of Cuba
- 5 and the Fort. And it has -- we've referred to it as three
- 6 secret customers in addition to that, which have been
- 7 referred to as A, B and C.
- 8 Q Why are those companies secret?
- 9 A I think it was -- is to avoid having to go HC
- 10 all the time with their names. We just refer -- they've
- 11 been identified in the record.
- 12 Q Why are they secret? Why can't we open that up?
- 13 A Yeah. The Staff isn't the one that -- that's
- 14 making the issue.
- 15 Q I understand. Has anyone asked that that
- 16 information be revealed or has anyone objected?
- JUDGE WOODRUFF: Mr. DeFord, you might want to
- 18 jump in here.
- 19 MR. DEFORD: Your Honor, it's -- it's the
- 20 proprietary information of a party not to this case. It's
- 21 Omega information, and no one here represents Omega.
- 22 COMMISSIONER CLAYTON: And we're -- forgive me
- 23 for asking for this clarification. And I really -- I just
- 24 -- listening to the reference to a Secret Company A, B and
- 25 C, I didn't understand why that information was secret.

```
1 MR. DEFORD: Well, your Honor, it's not secret.
```

- 2 That's -- that's a mischaracterization. That's something
- 3 I think that came out in Staff's open. It's highly --
- 4 they're highly confidential. The names of the customers
- 5 -- the customers' specific information is highly
- 6 confidential. It's proprietary information of Omega. So
- 7 we couldn't disclose it, so we had to classify it in our
- 8 testimony, as did Staff, as highly confidential.
- 9 There's nothing secret about the customers.
- 10 We just don't have authority to -- to disclose information
- 11 about them.
- 12 COMMISSIONER CLAYTON: Do we have the authority
- 13 to disclose that information?
- 14 MR. DEFORD: Your Honor, I don't -- I don't
- 15 know. I certainly know that we don't.
- 16 MS. SHEMWELL: I would like to ask if Mr. DeFord
- 17 considers even the names of the companies to be highly
- 18 confidential as opposed to specific customer information
- 19 because he's referring to specific customer information,
- 20 and that's quite different than the existence of a
- 21 customer, the simple existence of a customer.
- 22 Staff, however, has been prevented, I guess, from
- 23 revealing the names because Mr. DeFord didn't declassify
- 24 them. So we've been very careful about that. Or tried to
- 25 be.

```
1 COMMISSIONER CLAYTON: Okay. Well, I -- I just
```

- 2 -- I raised the question because there's certain bits of
- 3 information I don't understand why they're confidential.
- 4 And I don't know what our duty is to a non-party. No
- 5 one's chiming in. So I'm not sure maybe perhaps at one
- 6 point we can -- we can open that information just for
- 7 clarification in the record. For the record that everyone
- 8 can see, anyway.
- 9 Q (By Commissioner Clayton) So, Mr. Schallenberg,
- 10 let's get back to my ramblings here. So Omega's acting as
- 11 an LDC at Fort Leonard Wood. And I think you discussed
- 12 with Commissioner Murray that they -- that Omega Pipeline
- 13 Company does not hold a Certificate of Convenience and
- 14 Necessity with the Commission; is that correct?
- 15 A Yes. That's true.
- 16 Q Okay. And why is that if it's acting as an LDC?
- 17 A My understanding is because it's acting as an
- 18 LDC on I think the federal property or federal onclave.
- 19 Q Federal onclave?
- 20 A That -- that's not within the jurisdiction of
- 21 the State and, therefore, there's no certificate that we,
- 22 the Public Service Commission, could give them for that.
- 23 Q Okay.
- 24 A So as long as they stay on the Fort's property
- 25 or serve customers on the Fort's property that the Fort

- 1 allows them to serve, they do not need a -- an area
- 2 certificate from the Public Service Commission.
- 3 Q Did they say they don't need a certificate? Or
- 4 does everybody agree that they don't need a certificate?
- 5 Is there any question about that?
- 6 A Well --
- 7 Q And I don't ask you as a lawyer to make an
- 8 interpretation. But just in the general course of
- 9 dealings at the Commission, your years of service, what is
- 10 -- does everybody just generally agree that --
- 11 A I would say that question was part of the
- 12 investigation. And I think there is a consensus that at
- 13 least the Staff has accepted that as long as Omega stays
- 14 -- provide -- the LD -- the distribution system stays on
- 15 the Fort that they do not need a certificate in order to
- 16 do that.
- 17 Q Okay. Now, how is Omega Pipeline Company acting
- 18 as a marketer to Fort Leonard Wood? Is that a secret
- 19 customer?
- 20 A No.
- 21 Q It's not a secret customer?
- JUDGE WOODRUFF: Fort Leonard Wood is not a
- 23 secret customer.
- 24 Q (By Commissioner Clayton) Well, now that you've
- 25 said it, I can say it. Fort Leonard Wood. How are they

- 1 acting as a marketer and an LDC to Fort Leonard Wood?
- 2 A Omega is the gas supplier to Fort Leonard Wood.
- 3 At various times while it was an LDC, other entities could
- 4 serve the gas supply function to bring gas.
- 5 Q Does Omega actually own the pipeline? Does it
- 6 have pipe in the ground?
- 7 A It has pipe on the ground within the federal
- 8 onclave. It has -- it owns the distrib -- the natural --
- 9 Q In the -- in the nature of a
- 10 distribution pipe. But does it have a -- does it have a
- 11 transmission pipeline from the MGC line or the -- or the
- 12 other line?
- 13 A It -- no. The -- well, there's a break-off
- 14 where their distribution system interconnects to MGC. And
- 15 where that break takes place, they own -- Omega owns the
- 16 pipe up to that interconnection point, the delivery point
- 17 per the tariff, and MGC owns the plant on the other side
- 18 of that delivery point.
- 19 Q So -- so, basically, MGC brings the gas up to
- 20 the Fort Leonard Wood gate, so to speak, and that's where
- 21 Omega Pipeline Company would begin?
- 22 A That's -- that's --
- 23 Q At the -- at the Fort gate?
- 24 A That would be the LDC function. They would --
- 25 because they provide bundled service, they provide gas

- 1 supply under their contract with the Fort, they would
- 2 contract -- or have contracts with gas suppliers to, in
- 3 essence, bring gas to that delivery point.
- 4 Currently, Omega is that gas supplier. But in
- 5 the past, Omega and the LDC has had other gas suppliers.
- 6 Q And that is -- that is different than any other
- 7 LDC. No other LDC is -- isn't it different with -- with
- 8 any other LDC?
- 9 A No. Generally speaking, most --
- 10 O Or is that the same?
- 11 A Most LDCs would have gas supplies. Now, the
- 12 arrangement that you could have with the marketer is
- 13 whether the LDC will own or hold transportation on other
- 14 pipelines or whether the marketer holds that. And you
- 15 could see where some LDCs will hold the transportation
- 16 agreement on MGC or MPC and Panhandle.
- 17 There's -- there's only five pipelines that
- 18 would be -- that can impact the service to these
- 19 customers. One is MGC. One is MPC. And then there's --
- 20 the three interstates are Mid-Missouri Interstate Gas,
- 21 MRT, which is -- could -- could bring in gas, and
- 22 Panhandle Eastern.
- 23 And some LDCs will hold transportation on those
- 24 and then have a marketer deliver the gas into their
- 25 pipeline. And sometimes they will buy the gas and have

- 1 the marketer bring it to their city gate. And there are
- 2 -- they could do either one of those.
- 3 Q Okay. What makes a marketer different than an
- 4 LDC? Is it -- is it the fact that there's no
- 5 infrastructure? They don't own the pipe or there's not
- 6 infrastructure in the ground, or is it because the
- 7 marketer is selling to the wholesale level rather than
- 8 retail? What is the -- what is the difference between the
- 9 two?
- 10 A The -- the difference, generally speaking, is
- 11 that a marketer will be dealing with the -- the -- the
- 12 entity that owns the distribution system. Very seldom --
- 13 like an LDC, the municipal, sometimes they'll deal with an
- 14 end user, a transportation customer, but it has to be
- 15 distributed.
- 16 Marketers, I would say, generally do not own or
- 17 control the distribution to the end users.
- 18 Q When you say distribution, you mean the -- you
- 19 mean the end user being a retail customer?
- 20 A Retail customer. Or in the case of an LDC,
- 21 where the -- the marketer will sell the gas, like, say, to
- 22 Ameren or they would sell it to Laclede or they'd sell it
- 23 to the City of Cuba. And then Ameren, the City of Cuba,
- 24 and I can't remember the third one I mentioned, would
- 25 actually deal with the end user.

```
1 Q Okay. Is it possible -- who -- who else could
```

- 2 the Fort buy from, if not -- well, I guess they -- the
- 3 Fort buys it from Omega as the LDC. Omega LDC, how many
- 4 choices does it have from whom it would buy --
- 5 A Well, in its history.
- 6 Q -- its gas?
- 7 A It's had Utilicorp. I think it was --
- 8 Q Well, just -- I don't want any history. I'm
- 9 just talking about right now. Omega Pipeline Company, the
- 10 LDC, how many choices does it have from whom it buys gas?
- 11 I mean, does it have to buy it from itself? Or, I mean,
- 12 can it buy it directly in from MGC or MPC?
- 13 A MGC and MPC cannot sell gas.
- 14 Q Okay.
- 15 A So they only can transport gas. So if it wanted
- 16 to have gas, it would have to buy from some entity that
- 17 would actually be able to buy and hold title to gas.
- 18 The number of entities that could do that is --
- 19 is fairly broad. The ones that have operated on the
- 20 system, that's a much narrower group, but there are
- 21 multiple choices.
- 22 Q Okay. Is there -- if -- if I say I'm a gas
- 23 shipper, who would I $\operatorname{\mathsf{--}}$ what type of company would I be
- 24 talking about? Would that be Omega, or would that be MGC
- 25 or neither?

```
1 A If I'm -- if you use the term gas shipper --
```

- 2 Q Uh-huh.
- 3 A -- that would be a customer of MGC or MPC
- 4 because you would need to move your gas through the
- 5 pipeline in order to get to one of the customers.
- 6 Q So you'd be an LDC or, what, a high volume user?
- 7 A You could be. I mean, you could be an end user.
- 8 Some end users hold transportation to get their gas
- 9 through. Other ones can be LDCs that hold that.
- 10 Q Okay. I want to go through just very quickly --
- 11 Commissioner Murray covered a lot of ground today, and I
- 12 hope I'm not going to be repeating. I may repeat a
- 13 little, but I'm going to try to move through these counts
- 14 quickly. On Count 1, basically, you're alleging a
- 15 violation of the company's tariff on Sheet 39. Well,
- 16 actually, you're alleging three violations. The first is
- that they applied the rates inappropriately between
- 18 affiliates and non-affiliates.
- 19 Two, they did not maintain separate facilities
- 20 with an affiliate. Three, they failed to submit quarterly
- 21 reports. And I believe you're alleging that's a violation
- 22 of Sheet 3 and various paragraphs on that sheet. Is that
- 23 correct?
- 24 A I would -- the Sheet 3 --
- 25 Q Sheet 39.

- 1 A Sheet 39.
- 2 Q 39.
- 3 A That sounds more --
- 4 Q I would have taken it out of your testimony, so
- 5 I hope I got it.
- 6 A Yeah. The sheet number is 39. Yes.
- 7 Q So that would be a violation of their tariff --
- 8 or failing to follow their tariff and not violating any
- 9 particular rule of the Commission, correct? Or do we have
- 10 separate rules that relate to these issues?
- 11 A The only rule that I know that have been alleged
- 12 in this process has been the affiliate transaction rule.
- 13 So I -- in turn -- other than that, that's the only rule
- 14 that I know has been in play in this document.
- Okay. What is the difference between the
- 16 violation of the Count 1 for failing to offer -- failing
- 17 to sell gas in a non-discriminatory manner among
- 18 affiliates and non-affiliates compared to what Count 3
- 19 alleges, which -- which makes reference to providing the
- 20 transportation service at a discounted rate for non -- for
- 21 a non-affiliate? What is the difference between those two
- 22 provisions in the complaint?
- 23 A In terms of Count 1, Count 1 would be a -- a
- 24 failure to comply -- take actions that -- that are
- 25 inconsistent with what's required by tariff. Count 3 is

- 1 not only do you fail to comply with your tariffs, but the
- 2 tariffs have -- it has an impact on what rate you can
- 3 charge.
- 4 Count 3 is then you did -- you charged your
- 5 customers rates that were inconsistent with what you were
- 6 authorized to charge. So one is the action wasn't
- 7 consistent with your tariffs, one. And three is after you
- 8 engaged in that action, you charged your customers a rate
- 9 that was not authorized.
- 10 Q So it's the same thing. The same allegations in
- 11 Count -- basically, Count 1, sub 1 are the same as Count
- 12 3, and it's -- you -- and Count 3, you are alleging an
- 13 impact on other ratepayers, which I would assume leads to
- 14 a different remedy?
- 15 A Yes. Other than Count 1 has more actions in it
- 16 than just the discounts. The preferential treatment was
- 17 broader than just the discounts. But that element is in
- 18 Count 1 and Count 3.
- 19 Q Okay. Is there a time period where all of the
- 20 allegations in all of the counts occurs? Is that the
- June/July '03 through May 31st, 2006? Are those dates
- 22 consistent for all the counts and all the activities or
- 23 omissions?
- 24 A Yes.
- 25 Q Count 4 is not in your testimony. And I'm

- 1 assuming -- is that in someone else's testimony?
- 2 A I -- I know one count was addressed by
- 3 Mr. Imhoff.
- 4 Q That must be it.
- 5 COMMISSIONER CLAYTON: Is that his, Ms.
- 6 Shemwell?
- 7 A And I don't have his testimony in front of -- in
- 8 front of me.
- 9 MR. WOODSMALL: Here you go.
- 10 Q (By Commissioner Clayton) Your testimony leaves
- 11 out Count IV, so that's why I'm --
- MS. SHEMWELL: That's the failure to report
- 13 their offer of discounted services in the second and third
- 14 quarter. Yes.
- JUDGE WOODRUFF: Is that Mr. Imhoff's testimony?
- MS. SHEMWELL: Yes.
- 17 MR. SCHALLENBERG: Yes.
- JUDGE WOODRUFF: Commissioner, you may not be
- 19 aware that we've had some discussion about Mr. Imhoff.
- 20 His daughter is in the hospital, and he may not able to
- 21 answer any further questions.
- 22 If you have specific questions about that count,
- 23 you might want to direct them to Mr. Schallenberg.
- 24 COMMISSIONER CLAYTON: Do you want to get him on
- 25 the phone or something?

```
1 JUDGE WOODRUFF: No.
```

- 2 COMMISSIONER CLAYTON: I'm just kidding.
- 3 Q (By Commissioner Clayton) Let me ask you this:
- 4 Count 4 is based on No. 4, and you said, Is your answer
- 5 the same with regard to the third part of Count 1 being
- 6 the same information as part of Count 4, you're just
- 7 requesting a different remedy because there was a failure
- 8 to report in Count 1 as well?
- 9 A I'll look exactly at Count 4.
- 10 Q I have the complaint around here somewhere.
- 11 A Yes. The answer to the question would be yes.
- 12 Q So, basically, you're -- you're re-alleging and
- 13 then alleging a different level of damage or -- or remedy
- 14 or something like that, I'm -- I'm assuming; is that
- 15 correct?
- 16 A Yes. There's -- it's going through the specific
- 17 -- the specifics of not only did it just not comply with
- 18 the tariff, but there is a consequence beyond just
- 19 non-compliance with Count 4.
- 20 Q Okay. On Count 5, I think it refers to Secret
- 21 Customer B. The allegations of Count 5 -- and I -- this
- 22 is in your testimony, so I think you're -- you're the man
- 23 for this one, too, correct?
- 24 A Yes.
- 25 Q The allegations are that -- that someone -- is

- 1 it either Omega or the pipeline paid to install some
- 2 additional infrastructure; is that correct?
- 3 A The pipeline -- so I -- the pipeline paid for
- 4 modifications to the pipeline and an extension of the
- 5 pipeline to serve Secret Customer B, which was the
- 6 customer of Omega.
- 7 Q Okay. Has the -- has the Respondent sought to
- 8 add that in that investment to its regulated books?
- 9 A It's recorded on its regulated books.
- 10 Q It is recorded. But it wouldn't be reflected in
- 11 its current rates, correct?
- 12 A No. The -- the current rates were the rates
- 13 that were initially charged when you granted the
- 14 certificate.
- 2 So they're -- they're old. They're older
- 16 since --
- 17 A Yeah. There's been no rate case for MGC since
- 18 its certificate.
- 19 Q So there wouldn't -- for Count 5, there would be
- 20 no harm to the ratepayer until after -- until after a rate
- 21 case that included, perhaps, that additional
- 22 infrastructure?
- 23 A There would be no showing that it's been in
- 24 rates. The extent that they record it and show it in
- 25 annual reports, it would tend to create the impression

- 1 that their cost of service is greater than it would be
- 2 absent that recording.
- 3 So there would be that harm when you -- when you
- 4 give us the annual report and you report the higher
- 5 investment and you do a calculation, you will -- because
- 6 of this action, you will tend to believe their cost of
- 7 service is greater than it would be without it.
- 8 But there has not been a rate case that has
- 9 actually been developed by including that specific cost in
- 10 it.
- 11 Q Which -- which means that there is no ratepayer
- 12 impact as far as what the ratepayer is paying, what the --
- 13 what the other customers are paying?
- 14 A Yes, sir.
- 15 Q Okay. If -- if the Respondent did not record
- 16 that investment in its books, would there still be a
- 17 violation of the tariff? Would that -- would there still
- 18 be a Count 5 in this complaint?
- 19 Does the company have the ability to improve
- 20 infrastructure on behalf of a customer, but just not seek
- 21 recovery of it? Do you know?
- 22 A I -- the tariffs didn't specify that. The --
- 23 and the trouble with it is they have a line certificate,
- 24 and the line certificate doesn't allow them to go outside
- 25 the line certificate without the Commission approval. So

- 1 your question is -- one is if they went outside the line
- 2 certificate and built it but they didn't charge it, will
- 3 they still be okay by going outside their line
- 4 certificate. And I would probably say no.
- 5 I mean, I -- I think the -- in terms of dollar
- 6 impact, there would be no dollar impact on other shippers
- 7 and customers if they did it, but I'm not sure that there
- 8 wouldn't be a concern about the pipeline building outside
- 9 its line certificate.
- 10 Q What would have been the -- the proper method of
- 11 addressing this circumstance where Secret Customer B needs
- 12 improvements on its line? Would they file a tariff sheet
- 13 that would make it available for everyone? Is that the
- 14 proper way of addressing this type of circumstance, or is
- 15 it never allowed?
- 16 A Oh, no. The -- the way -- the baseline to use
- 17 for the conduct that they could have done in this would
- 18 have been to file to get the Commission to modify their
- 19 line certificate to build this lateral and make whatever
- 20 modifications that were necessary to serve this customer
- 21 on the basis that -- and then put in the justification
- 22 that the -- you know, the economics of this is beneficial,
- 23 and it should be done.
- 24 And then if the Commission finds in such a way,
- 25 it will modify its line certificate and the expenditure

- 1 would be included in its plan of service.
- Q Okay. What is the relief sought in Count 5?
- 3 A As I recall, on -- I think it's on page 9. I
- 4 think the Staff relief was that it would require Omega to
- 5 pay MPC for the Willard -- or Secret Customer B lateral.
- 6 Q Willful violation of the tariff.
- 7 A And remove its costs from the books and records
- 8 of MGC.
- 9 COMMISSIONER CLAYTON: Okay. Thank you very
- 10 much, Mr. Schallenberg. Judge, I don't think I have any
- 11 other questions.
- 12 JUDGE WOODRUFF: All right. Thank you. Then
- 13 any additional re-cross based on those questions?
- MR. WOODSMALL: Very briefly, your Honor.
- 15 JUDGE WOODRUFF: Go ahead.
- 16 RECROSS EXAMINATION
- 17 BY MR. WOODSMALL:
- 18 Q Mr. Schallenberg, you were just asked about harm
- 19 associated with Count 5. That is the building of the
- 20 lateral to Secret Customer B. Do you recall that?
- 21 A Yes.
- 22 Q You were -- can you -- if Secret Customer B --
- 23 if the pipelines had not built in lateral to Secret
- 24 Customer B, would Secret Customer B have been able to
- 25 receive gas through alternative methods?

```
1 A Secret Customer B could be served from the city
```

- 2 that is near Secret Customer B if the city chose to build
- 3 and -- and had the authority to build its distribution
- 4 system out to Secret Customer B.
- 5 Q Okay. So by building this lateral without a
- 6 certificate, the pipeline was able to steal this customer
- 7 away from that municipality; is that true?
- 8 A Well, steal is a -- if you file -- if you would
- 9 have filed for a modification of your line certificate to
- 10 do -- to do the service that was there, this -- this
- 11 entity that had the alternative would have had the
- 12 opportunity to come to the Commission and suggest that
- 13 service would be better done or the service would be
- 14 better provided to the Secret Customer B through whatever
- 15 commitments they were willing to make.
- Now, in the history of this pipeline, it -- it
- 17 was clear that the pipeline was not to bypass LDCs and
- 18 municipals. And -- but you could get a waiver of those
- 19 requirements.
- 20 So by not having that opportunity and making
- 21 that filing, the other -- the City didn't have an
- 22 opportunity to present its side, which may not have
- 23 prevailed. That's why I'm not agreeing with the stealing.
- Q Okay. But at least the municipality was harmed
- 25 by not being able to present itself as an alternative for

```
1 the gas needs of Secret Customer B?
```

- 2 A They lost that opportunity arguably that the
- 3 municipal could file a complaint as well.
- 4 MR. WOODSMALL: Okay. Thank you.
- 5 JUDGE WOODRUFF: Any questions from Ameren?
- 6 MS. DURLEY: No, your Honor.
- 7 JUDGE WOODRUFF: All right. Public Counsel is
- 8 not present. Pipeline have any questions?
- 9 MR. DEFORD: None, your Honor.
- 10 JUDGE WOODRUFF: Any redirect on those questions?
- 11 MS. SHEMWELL: Briefly. Thank you.
- 12 REDIRECT EXAMINATION
- 13 BY MS. SHEMWELL:
- 14 Q Mr. Schallenberg, Commissioner Clayton asked you
- 15 about Omega Pipeline Services. Was Omega Pipeline
- 16 Services an affiliate of MPC and MGC?
- 17 A Yes.
- 18 Q I was -- do you have an opinion as to why Omega
- 19 Pipeline Services was formed or how -- let me ask, how --
- 20 do you have an opinion as to how it was used?
- 21 A Yes.
- 22 Q What is that?
- 23 A Certain customers, Secret Customer A and Secret
- 24 Customer C, made its payments to Omega Pipeline Services
- 25 separate from paying Omega Pipeline Company, which then

1 put those funds in play differently than they would be if

- 2 they were given to Omega Pipeline Company.
- 3 Q Let's talk about what you mean by in play.
- 4 Which -- were they paid to a different bank account?
- 5 A Yes.
- 6 Q So Secret Customer A and Secret Customer C paid
- 7 a different bank account?
- 8 A Their payments went to a different bank account
- 9 than the other bank account for the other Omega Pipeline
- 10 Company customers.
- 11 Q Do you have information as to whether or not the
- 12 controller of MPC and MGC knew about Omega Pipeline
- 13 Services? Do you have knowledge about that?
- 14 A Yes.
- 15 Q What is that?
- 16 A It's in the deposition of Mr. Lod -- Lodholz.
- 17 Q Lodholz?
- 18 A Excuse me.
- 19 Q And did you attach that to your testimony?
- 20 A Yes, I did.
- Q What did he know?
- 22 A What he didn't know is he wasn't aware of Secret
- 23 Customer A. It's in the deposition. And, actually, he
- 24 was one that actually alerted us to the distinction
- 25 between the two entities. Because when he was shown the

- 1 invoices from Omega Pipeline Companies, he noted that the
- 2 payments were not going to Omega Pipeline Company. They
- 3 were going to Omega Pipeline Services.
- 4 Q At a different bank account?
- 5 A And a different bank account.
- 6 Q Did -- you testified earlier today that Staff
- 7 did -- or Commissioner Clayton asked you about why we're
- 8 calling them secret customers. These customers, it was
- 9 your testimony, were kept secret from the Staff; is that
- 10 correct?
- 11 A Well, if you mean by keeping secret that they
- 12 didn't tell them -- tell us about it until we found out
- 13 about it from alternative means and then they acknowledged
- 14 that it was true, I could accept that definition of
- 15 secret.
- 16 Q Commissioner Clayton was asking you about a rate
- 17 case, and you indicated no rate case has been filed. Do
- 18 you have information to indicate that Missouri Gas Company
- 19 was required to file a rate case?
- 20 A Yes.
- 21 Q What is that information?
- 22 A Their certificate required that within their
- 23 first 18 months of operation they were to file a -- a rate
- 24 case, a general rate case so that -- which is fairly
- 25 common, so that the initial rates can be revised based on

- 1 actual cost of service and operations.
- 2 Q Did they file that?
- 3 A No. Not since they've had that -- no. That's
- 4 for MGC. But, no, not since they've had their
- 5 certificate.
- 6 Q And when did they get their certificate, just
- 7 approximately?
- 8 A It's -- I think it's in the early 1990s. I know
- 9 the pipeline goes into operation by 1992, so --
- 10 Q Are we well past 18 months?
- 11 A Yes.
- 12 Q We had some discussion about Count 5, I believe,
- 13 with Commissioner Clayton, and he was asking about a
- 14 tariff violation. You made the distinction of a line
- 15 certificate.
- MS. SHEMWELL: Well, strike that. I don't -- I
- don't have any more questions. Thank you.
- 18 JUDGE WOODRUFF: All right. Thank you.
- 19 Mr. Schallenberg, you can step down. Does the Staff have
- 20 any other evidence?
- 21 MS. SHEMWELL: We do, Judge. We propose to take
- 22 a brief time to present some evidence from Mr. Wallen and
- 23 Mr. Simpson.
- 24 JUDGE WOODRUFF: And this will be by deposition?
- 25 MS. SHEMWELL: It will be by deposition. And we

- 1 have Blane Baker who would propose -- I will read the
- 2 questions, and he will read in the answers. And we have
- 3 the designations available for all of the parties so that
- 4 we should be able to get through all of this very quickly.
- 5 JUDGE WOODRUFF: How long do you estimate that
- 6 it would take?
- 7 MS. SHEMWELL: I'm estimating for Mr. Wallen,
- 8 under 20 minutes, maybe 15.
- 9 JUDGE WOODRUFF: I'll get to you in a second.
- 10 And 20 for Mr. Wallen. How long for Mr. Simpson?
- 11 MS. SHEMWELL: I can only estimate, but I'm
- 12 thinking about the same. We intend to move through this
- 13 quickly, but we have to, of course, allow for the court
- 14 reporter.
- 15 JUDGE WOODRUFF: Certainly. But is there any
- 16 reason why this needs to be done verbally rather than just
- 17 handing the Commission the depositions? I'm concerned
- 18 about the time.
- 19 MS. SHEMWELL: This allows us to pinpoint very
- 20 specific parts of the deposition.
- 21 MR. DEFORD: Your Honor --
- JUDGE WOODRUFF: You couldn't do that by -- by
- 23 highlighting on a piece of paper?
- 24 MS. SHEMWELL: I suppose we could highlight it
- 25 on a piece of paper. The entire depositions are in, so we

- 1 could highlight on a piece of paper, but I'm thinking that
- 2 this would not take very long, so it's --
- 3 MR. DEFORD: Your Honor, I think --
- JUDGE WOODRUFF: Yes, Mr. DeFord. I know you're
- 5 anxious. Go ahead.
- 6 MR. DEFORD: We're obviously going to object --
- JUDGE WOODRUFF: I figured you would.
- 8 MR. DEFORD: -- to the introduction of any of
- 9 this in that it should have been in the direct or
- 10 surrebuttal case of the Staff. Beyond that, we would
- 11 object to reading only portions of the depositions because
- 12 we didn't have an opportunity to make a designation, a
- 13 counter designation.
- 14 Staff failed to designate any portions of the
- 15 depositions to us so that we could make a counter
- 16 deposition -- or counter designation, so we would ask that
- 17 the entire depositions be read if they're going to read
- 18 them in. If you're going to read any of it, you have to
- 19 read all of it.
- 20 MS. SHEMWELL: Let me say this: Mr. Simpson's
- 21 deposition wasn't taken until after Staff filed its
- 22 testimony. But we actually think that it would make the
- 23 record much shorter if we were permitted to read in
- 24 certain sections.
- 25 If the Commission prefers, however, we can just

- 1 put the entire things in.
- JUDGE WOODRUFF: Well, I think it's appropriate
- 3 to -- to make designations within the record and -- of
- 4 what -- portions of that deposition you think are
- 5 important for the commission to see. I would certainly
- 6 give the pipeline companies an opportunity after the
- 7 hearing to make a similar designation.
- 8 MS. SHEMWELL: And, certainly, they --
- 9 JUDGE WOODRUFF: I don't think it's necessary to
- 10 read it into the record because that creates confusion
- 11 into the transcript. And, plus, it takes up time, time
- 12 that may be limited in this case.
- 13 I'm not sure -- how much time we're going to
- 14 need tomorrow, and I don't want to be here at 8:00
- 15 tomorrow after -- tomorrow evening unnecessarily.
- MS. SHEMWELL: I certainly agree. I think that
- 17 we have someone coming in for the City of Cuba tomorrow to
- 18 testify. And then the pipelines. Would it be helpful if
- 19 the pipelines were permitted to do cross designations if
- 20 we gave them this and they could do their designations
- 21 this evening?
- JUDGE WOODRUFF: And -- and still reading the
- 23 documents in?
- MS. SHEMWELL: Yes. That was my thought.
- 25 JUDGE WOODRUFF: Mr. DeFord is shaking his head

- 1 back there.
- 2 MR. DEFORD: Absolutely not, your Honor. We'd
- 3 object to that. Certainly, we're entitled to more than 12
- 4 hours to look at what you're doing and respond.
- I mean, you've -- you've had -- you've certainly
- 6 had Mr. Wallen's deposition for many, many months. So --
- 7 MS. SHEMWELL: Mr. -- Mr. DeFord certainly
- 8 attended and had the opportunity to ask questions. We're
- 9 not trying to hide the ball. We're simply trying to
- 10 reduce the size of the record, Judge.
- 11 MR. DEFORD: Neither are we. We think the
- 12 entire deposition can go in.
- MS. SHEMWELL: Right. Then we offer them into
- 14 evidence the depositions. I believe they're already in,
- 15 but just --
- JUDGE WOODRUFF: Where are they at, actually?
- 17 MS. SHEMWELL: But just to make the record clear
- 18 -- where is my exhibit list? Perhaps it's going to be
- 19 quicker if I simply assign them new numbers and just --
- JUDGE WOODRUFF: That would be fine. Sure.
- 21 MS. SHEMWELL: Let's make them 78 and 79, 78
- 22 being Mr. Wallen's deposition. And I -- I would like, of
- 23 course, the attachments of the exhibits to go in.
- JUDGE WOODRUFF: Okay.
- 25 MS. SHEMWELL: And Mr. Simpson's deposition will

```
1 be 79. And I -- just to make sure, I think we had three
```

- 2 or four exhibits with Simpson.
- JUDGE WOODRUFF: And they'll all be attached to
- 4 it or --
- 5 MS. SHEMWELL: Yes.
- 6 JUDGE WOODRUFF: Okay. I mean, they're in the
- 7 record now?
- 8 MS. SHEMWELL: They're in the record.
- 9 JUDGE WOODRUFF: Attached to the deposition?
- 10 MS. SHEMWELL: It's my belief that they are.
- 11 But if not, I would offer them.
- 12 JUDGE WOODRUFF: Okay. Were they attached to
- 13 somebody else's -- how would they have been in the record
- 14 otherwise, I guess?
- MS. SHEMWELL: Mr. Wallen was attached --
- 16 deposition was attached, right, to Mr. Schallenberg's
- 17 testimony.
- JUDGE WOODRUFF: Mr. Simpson's apparently
- 19 wouldn't be, right?
- MS. SHEMWELL: Mr. Simpson's would not be,
- 21 that's correct, because it was taken afterward.
- JUDGE WOODRUFF: I don't want to empha --
- 23 emphasize too much that -- I certainly expect the parties
- 24 to tell the Commission what's important in these
- 25 documents. I just don't want -- don't believe that it's

```
1 necessary to read them into the record at this point.
```

- MS. SHEMWELL: Okay.
- JUDGE WOODRUFF: And the only time limit on
- 4 actually doing that, of course, would be in the briefs.
- 5 MS. SHEMWELL: Certainly.
- 6 JUDGE WOODRUFF: So Exhibit 78 and 79, the
- 7 Wallen deposition and the Simpson deposition, have been
- 8 offered into evidence. Are there any objections to their
- 9 receipt?
- 10 MS. SHEMWELL: I believe they're HC.
- JUDGE WOODRUFF: All right. We'll --
- 12 MS. SHEMWELL: Has Wallen been declassified?
- 13 MR. DEFORD: I believe we've marked all but
- 14 Mr. Simpson's. We haven't marked his yet.
- MS. SHEMWELL: So we will make sure that both
- 16 are available.
- 17 JUDGE WOODRUFF: All right. And they're both HC
- 18 at this point. And I didn't hear any objection to them.
- 19 All right. They will be received into evidence.
- 20 (Exhibit Nos. 78 and 79 were admitted into
- 21 evidence.)
- JUDGE WOODRUFF: Anything further from Staff?
- MS. SHEMWELL: We will have Cuba tomorrow.
- JUDGE WOODRUFF: Okay. And --
- 25 MS. SHEMWELL: That -- that witness apparently

- 1 was only available tomorrow.
- JUDGE WOODRUFF: Okay. And is he part of your
- 3 direct testimony or just simply rebuttal, understanding
- 4 this is a possible rebuttal witness?
- 5 MS. SHEMWELL: That is correct.
- 6 JUDGE WOODRUFF: So he may not be called
- 7 depending upon what happens with the direct?
- 8 MS. SHEMWELL: That's possible. Yes.
- 9 JUDGE WOODRUFF: Or excuse me. With the
- 10 pipeline's testimony.
- MS. SHEMWELL: Pipeline.
- 12 JUDGE WOODRUFF: Mr. DeFord, it looks like you
- 13 want to say something.
- MR. DEFORD: We're going to object to any kind
- 15 of live rebuttal. Again, we've had prepared direct.
- 16 We've had rebuttal. We've had surrebuttal.
- 17 You know, I don't understand where we're making
- 18 up these rules as we go along. And, I mean, if -- if I
- 19 knew we were going to play by those kind of rules, I would
- 20 have handled this case much differently.
- JUDGE WOODRUFF: Well, again, if Staff wishes to
- 22 offer this testimony tomorrow, they can make a motion at
- 23 that time, and I'll make a ruling at that time.
- 24 I'm not at this time saying whether the
- 25 Commission will allow that or will not. Okay? All right.

- 1 Then at this point, we will move on to testimony from the
- 2 pipeline companies. You can call your first witness.
- 3 MR. DEFORD: Call Chris John.
- JUDGE WOODRUFF: Hello, Mr. John. Please raise
- 5 your right hand.
- 6 CHRIS JOHN,
- 7 being first duly sworn to testify the truth, the whole
- 8 truth, and nothing but the truth, testified as follows:
- 9 DIRECT EXAMINATION
- 10 BY MR. DEFORD:
- 11 JUDGE WOODRUFF: You may be seated. And you may
- 12 inquire.
- MR. DEFORD: Thank you, your Honor.
- 14 Q (By Mr. DeFord) Mr. John, would you state and
- spell your name for the record, please?
- 16 A My name is Christopher A. John, and my last name
- is spelled J-o-h-n.
- 18 Q And by whom are you employed and in what
- 19 capacity?
- 20 A I'm employed by the energy consulting firm of
- 21 Brown, Williams, Moorehead & Quinn, and I'm the Vice
- 22 President.
- 23 Q And have you caused to be prepared rebuttal and
- 24 surrebuttal testimony that have been marked for
- 25 identification as Exhibits 300 and 301?

- 1 A Yes.
- 2 Q Do you have any corrections to those exhibits?
- 3 A No.
- 4 Q And if I were to ask you the same questions set
- 5 forth therein here today, would your answers be
- 6 substantially the same?
- 7 A Yes, they would.
- 8 Q And would those answers be true and correct to
- 9 the best of your information and belief?
- 10 A Yes.
- 11 MR. DEFORD: I'd offer Exhibits 300 and 301 and
- 12 tender Mr. John for cross.
- JUDGE WOODRUFF: All right. Thank you.
- 14 Exhibits 300 and 301 have been offered into evidence. Are
- 15 there any objections to their receipt? Hearing none, they
- 16 will be received into evidence.
- 17 (Exhibit Nos. 300 and 301 were admitted into
- 18 evidence.)
- 19 JUDGE WOODRUFF: And for cross-examination,
- 20 we'll begin with Ameren.
- 21 MS. DURLEY: No questions, your Honor.
- JUDGE WOODRUFF: Thank you. And Public Counsel
- 23 is not present. Municipal Gas Commission?
- MR. WOODSMALL: No questions, your Honor.
- JUDGE WOODRUFF: Staff?

1 CROSS-EXAMINATION

- 2 BY MR. REED:
- 3 Q Mr. John, good afternoon.
- 4 A Good afternoon.
- 5 Q Mr. John, your -- your deposition in this case
- 6 was taken on November 15th, 2006. You were in Washington
- 7 D.C. at that time, were you not?
- 8 A Yes, I was.
- 9 Q And you were -- I think present with you was
- 10 Tino Monaldo; was that correct?
- 11 A That's correct.
- 12 Q What is Mr. Monaldo's role with Missouri
- 13 Pipeline and Missouri Gas Company?
- 14 A I'm not exactly sure what his exact title is. I
- 15 know he's -- does work for those companies.
- Q Can you explain to me why he was with you?
- 17 A I didn't ask him that question.
- 18 Q Did you talk about anything before the
- 19 deposition?
- 20 A No, we did not.
- 21 Q So it was --
- 22 A Not -- not related to my testimony.
- 23 Q All right. So Mr. Monaldo came to your office
- 24 in Washington D.C. where you were deposed, but you didn't
- 25 talk about the substance of this case before the

- 1 deposition?
- 2 A No, we didn't.
- 4 deposition?
- 5 A Did we talk about the substance of the case
- 6 during the deposition itself?
- 7 Q Right.
- 8 A No.
- 9 Q After the deposition?
- 10 A To tell you the truth, I had to leave right
- 11 after the deposition, so I didn't really have a chance to
- 12 talk to Mr. Monaldo after that.
- 13 Q All right. How about -- how about in the time
- 14 since the deposition up to today? Today, you're
- 15 testifying?
- 16 A Yes.
- 17 Q So have you spoken with Mr. Monaldo about this
- 18 case, about your deposition, about anything related to
- 19 your testimony?
- 20 MR. DEFORD: I'm going to object, your Honor.
- 21 This is getting into attorney/client privilege.
- 22 Mr. Monaldo is outside counsel for the companies. And to
- 23 the extent he's had any discussions of any sort with the
- 24 client, it would be attorney/client privilege.
- MR. REED: Who is the client?

```
1 MR. DEFORD: The pipeline companies,
```

- 2 Respondents. Mr. Monaldo is outside counsel for both.
- 3 MR. REED: All right. And you're saying that
- 4 this hired expert is the client?
- 5 MR. DEFORD: To the extent Mr. Monaldo was
- 6 speaking on behalf of the pipeline company, certainly.
- 7 MR. REED: Well, this gentleman is a hired
- 8 expert, Judge. He is not employed by the pipeline
- 9 companies, so attorney/client privilege does not apply.
- 10 MR. DEFORD: It -- it certainly does, your
- 11 Honor. I mean, it's work product. It's preparation for
- 12 -- for trial. I don't know how much more clear that could
- 13 be.
- JUDGE WOODRUFF: Would you agree it would be
- 15 work product if --
- MR. REED: It is not. Once the expert is
- designated to testify, the work product rule does not
- 18 apply.
- 19 JUDGE WOODRUFF: What's -- what's the relevance
- 20 of this inquiry?
- 21 MR. REED: well, I want -- I want to know what
- 22 the discussions were between this witness and anyone from
- 23 the pipeline company because this is a hired expert.
- 24 There is no attorney/client privilege, and I want to know
- 25 if there was any -- any suggestions or influence with

- 1 regard to the prefiled testimony or anything that he's
- 2 going to say today at the hearing.
- JUDGE WOODRUFF: Well, it's apparently not
- 4 attorney/client, as you indicated. He's not -- not the
- 5 client of the attorney. It might be work product, and I'm
- 6 not sure where that would be going.
- 7 MR. REED: Well, so far -- I'm sorry.
- 8 JUDGE WOODRUFF: I'll allow you to go forward
- 9 with this for a while. And if -- if it gets into anything
- 10 that you believe is protected, Mr. DeFord, pipe up again.
- 11 MR. DEFORD: Fair -- fair enough.
- 12 MR. REED: well, I think so far he's indicated
- 13 that he really hasn't had any discussions.
- JUDGE WOODRUFF: That's right. That's why I'm
- 15 letting it go forward for a while.
- MR. REED: so I may be looking for something
- 17 that's not there.
- 18 Q (By Mr. Reed) Your prefiled testimony, the
- 19 written testimony, you filed rebuttal and surrebuttal.
- 20 Did anyone offer edits or comments to that testimony? In
- 21 other words, did you prepare testimony, circulate a draft
- 22 and then receive any sort of comments or edits?
- 23 A Yes, I did.
- Q From whom?
- 25 A I received comments from Mr. Monaldo and Mr.

- 1 Ries.
- 2 Q Did -- do you recall how that changed the
- 3 prefiled testimony in any way?
- 4 A In any substantial way?
- 5 Q Yes.
- 6 A It did not.
- 7 Q What about for any particular issue that you
- 8 recall?
- 9 A No, it didn't. There were no significant
- 10 additions or subtractions from my testimony.
- 11 Q All right. I have noticed that in the pre -- in
- 12 the prefiled testimony that you have here that there's not
- 13 much analysis of the contracts or the business activities
- 14 with Secret Customer No. 3. Do you know which one that
- 15 is?
- 16 A It's Secret -- you mean Customer No. C or --
- 17 Q Customer No. C. I'm sorry. Not 3. C.
- 18 A There's not much analysis of that?
- 19 Q Right.
- 20 A No. I didn't think I needed to do that analysis
- 21 with the -- what I was presenting in the basis for what I
- 22 was presenting.
- 23 Q All right. Since -- let's see. Since your
- 24 testimony has been filed and your deposition was taken in
- 25 November, have you reviewed any additional documentation,

- 1 had any additional discussions with anyone in order to
- 2 prepare for the hearing?
- 3 A I basically reviewed Staff's testimony that was
- 4 filed after my deposition was taken. I have not had
- 5 conversations or discussions with Mr. Monaldo on those --
- 6 on that point, no.
- 7 Q Well, let me -- let me be a little more
- 8 specific. What about have you reviewed anything like
- 9 additional e-mails between the Staff and Mr. Ries that may
- 10 have come about back in 2002?
- 11 A I had already looked at those.
- 12 Q You had already looked at those. All right.
- 13 Any additional payment records from Omega to MPC or MGC?
- 14 A No. I had the same set of invoices that was
- 15 provided to Staff for January -- starting January 2004
- 16 through March 2006.
- 17 Q Have you -- have you had any discussions or have
- 18 you reviewed any reports regarding the system in balance?
- 19 A No, I haven't.
- 20 Q And what about investigating the difference
- 21 between line certificates and area certificates?
- 22 A Have I done any further --
- 23 Q Since your testimony was filed.
- A No, I haven't.
- Q Have you looked into who Omega Pipeline Services

- 1 is?
- 2 A No.
- 3 Q All right. Before you were hired in this case,
- 4 it appears from your -- I think from your deposition that
- 5 you were previously hired to work on a case involving
- 6 Missouri Interstate Gas; is that right?
- 7 A That's correct.
- 8 Q That's the one we call MIG. That's currently
- 9 FERC regulated, is it not?
- 10 A Yes, it is.
- 11 Q It's a six-mile pipeline under the river near
- 12 St. Louis?
- 13 A That's correct.
- 14 Q Now, MIG is connected to MPC and MGC, and those
- 15 three are affiliates, are they not?
- 16 A Yes, they are.
- 17 Q And previously, these three, MIG, MPC, MGC were
- 18 connected to Omega, and those all three were affiliates as
- 19 well?
- 20 A When you say they were connected to Omega I
- 21 don't know what you mean by that.
- 22 Q I mean, I guess what I'm getting at is all four
- 23 of those entities were at one time affiliates?
- 24 A Omega Pipeline Company, MPC, MGC and MIG were
- 25 affiliates, yes.

- 1 Q The work that you're doing on that FERC
- 2 petition, does that have to do with the tariffs?
- 3 A Yes.
- 4 Q Now, is the plan for MIG, MPC, MGC to somehow
- 5 come under FERC jurisdiction so that the pipelines, MPC
- 6 and MGC, won't have to deal with the State Commission
- 7 anymore? Is that the plan?
- 8 A I don't know if that's -- that's not how it was
- 9 characterized to me. I was just told that they would like
- 10 to move to FERC jurisdiction.
- 11 Q How -- that was it? They just told you they
- 12 want to move to FERC jurisdiction?
- 13 A Well, I don't even know that they told me. I
- 14 knew -- I was asked to look at the tariff and -- that MIG
- 15 had and to see what modifications would be necessary to
- 16 bring MPC and MGC under that.
- 17 Q Well, this case, GC-2006-0491, was filed June
- 18 21st, 2006. The FERC application was filed -- was that
- 19 June 28th, 2006?
- 20 A It was around that time period. I don't know
- 21 the exact time. I wasn't involved with drafting the
- 22 transmittal letter or the submittal itself.
- 23 Q Now, you worked -- you worked with FERC for a
- 24 number of years?
- 25 A Yes. I was at FERC for 23 or 24 years.

```
1 Q Now, is it -- in your experience there, is it
```

- 2 common for utility companies who come under the gun, so to
- 3 speak, by state regulators to somehow reach out for FERC
- 4 jurisdiction to avoid those kind of problems? Do you see
- 5 that -- did you see that often there at the FERC?
- 6 A I -- I know that there were entities that moved
- 7 from intrastate status as to interstate status during that
- 8 time period, but I don't know that I was aware of exactly
- 9 why they were doing that.
- 10 Q Can you give me an example of where a person who
- 11 sets transportation rates on a pipeline is also a shipper
- 12 on the pipeline?
- 13 A A person who sets transportation rate on the
- 14 pipeline is also a shipper on the pipeline?
- 15 Q Yes.
- 16 A Well, the setting of the -- the rates on the
- 17 pipeline are proposed by the pipeline company itself, and
- 18 then they'll go through a review of Commission. And then
- 19 it will be decided whether those rates are just and
- 20 reasonable.
- 21 Typically, there's no reason that a pipeline
- 22 itself, like MGC, would need to hold capacity on the
- 23 pipeline itself. They're in the business of selling that
- 24 capacity.
- 25 Q If -- if transportation rates are set but you

- 1 have a shipper who is able to -- to change those
- 2 transportation rates for itself, that would be unusual,
- 3 would it not?
- 4 A If you -- the shipper would not be able to
- 5 change those transportation rates.
- 6 Q Don't -- isn't that what we have here? Don't we
- 7 have Omega negotiating different transportation rates on
- 8 the MPC and MGC pipelines?
- 9 A Not at all. What you have here is Omega, the
- 10 marketer, acting under an agency agreement providing
- 11 services as a marketer to certain end users and to an LDC.
- 12 And you have the pipeline company offering its
- 13 transportation services, and one of its customers is --
- 14 was an affiliate.
- 15 Q But the affiliate is negotiating the rates,
- 16 which reduced transportation charges, correct?
- 17 A I don't agree with that.
- 18 Q All right. I want to look at some of the FERC
- 19 filings that you had attached to your rebuttal testimony
- 20 here, Appendices A, B, C, D?
- 21 A Okay.
- 22 Q At least those in particular at present. Those
- 23 -- these are filings before the FERC -- between March
- 24 31st, 2004, and August 3rd, 2004. This is a point in time
- 25 where MIG, MPC, MGC and Omega are all affiliates, and

1 they're seeking a waiver of certain standards of conduct?

- 2 A That's correct.
- 3 Q This is 2004, correct?
- 4 A That's correct. FERC, in 2004, issued a rule
- 5 that changed the standards of conduct, and all regulated
- 6 entities were required to make compliance filings to
- 7 comply with those.
- 8 Q These -- these appendices that you've attached,
- 9 if we look at No. B, the petition of MIG for the waiver,
- 10 when you look through that petition, what you see is that
- 11 Omega Pipeline Company is described as an unregulated
- 12 local distribution affiliate which distributes gas on Fort
- 13 Leonard Wood, Missouri.
- 14 You can see that on page -- I think it says page
- 15 2 of -- of the Petition itself. And also page 5?
- 16 A I see that on page 5.
- 17 Q There's no mention in this petition of Omega
- 18 Pipeline Company acting as a marketing affiliate? It's a
- 19 yes or no question.
- 20 A No.
- 21 Q Now, this is 2004, but at that point in time,
- 22 Omega was engaging in marketing activities off of Fort
- 23 Leonard Wood?
- 24 A Yes.
- 25 Q While this petition was pending at the FERC for

- 1 waiver of standards of conduct, Omega was doing deals with
- 2 all three of these secret customers that we had talked
- 3 about, correct, A, B and C?
- 4 A Was doing deals? I think for the most part,
- 5 those -- a couple of those agency agreements, there's none
- 6 regulated non-jurisdictional agency agreements that were
- 7 already in place.
- 8 Q Now, the pipelines -- I mean, MIG never did
- 9 amend that FERC petition to say anything about Omega's
- 10 marketing activities off of the Fort, did they?
- 11 A No. And as I said in my deposition, it really
- 12 didn't matter in the context of -- what FERC was doing in
- 13 this new rule was they had broadened their definition of
- 14 what fell under that standards of conduct rule to
- 15 encompass all energy affiliates.
- Therefore, Omega would have fallen under the
- 17 requirements of the order of 2004, which is the standards
- 18 of conduct order.
- 19 Q I understand that.
- 20 A Okay.
- 21 Q But I -- but I looked back at this petition, and
- 22 what I see is -- is a representation that Omega is a
- 23 distribution system on Fort Leonard Wood. That's all it
- 24 said in this petition.
- 25 A Yes. That's what it says.

```
1 Q Okay. Now, you look at Staff's protest. By
```

- 2 Staff, I mean the Missouri Public Service Commission,
- 3 through its Staff, filed a protest and Notice of
- 4 Intervention. This is Appendix C.
- 5 A Okay.
- 6 Q When you look through this protest, nowhere do
- 7 you see any reference by the Staff, the Public Service
- 8 Commission, to Omega a market affil -- marketing affiliate
- 9 off of Fort Leonard Wood?
- 10 A In this petition, they did not say that. But
- 11 Staff did have that view as far back as at least 2003.
- 12 Q There's no mention in this appendix, though, in
- 13 this protest about Omega being a marketing affiliate?
- 14 That's my question. Yes or no?
- 15 A No.
- 16 Q Now, are you aware that in 2006 Omega Pipeline
- 17 Services -- Omega Pipeline Company itself again
- 18 represented that Omega owns and operates a gas pipeline
- 19 distribution system within the confines of Fort Leonard
- 20 Wood?
- 21 A And you're referencing what for that statement?
- 22 Q I'm asking your -- I'm asking you if you are
- 23 aware of that representation by Omega as late as 2006.
- 24 A I -- I don't know what you're referring to, but
- 25 I -- I'm -- so I really couldn't answer that.

```
1 Q Are you aware that in 2006 the Commission itself
```

- 2 issued an order making a finding, based upon
- 3 representations by Omega Pipeline Company, that Omega had
- 4 no customers off of the Fort?
- 5 A That this Commission did?
- 6 Q Yes.
- 7 A I'm not aware of that.
- 8 MR. REED: Your Honor, at this point, I would
- 9 ask the Commission to take judicial notice of Case No.
- 10 GC-2006-0378 in the Order that was issued by this
- 11 Commission on May 16th, 2006. It's an order granting
- 12 motion to dismiss Omega Pipeline Company as a party to
- 13 that case.
- JUDGE WOODRUFF: Yes. I remember it well. The
- 15 Commission -- any objection to the Commission taking
- 16 notice of that document from another case? The Commission
- 17 will take notice of that document.
- 18 Q (By Mr. Reed) Now, you've indicated that you
- 19 believe that the Staff was aware of this marketing
- 20 activity off of Fort Leonard Wood, and I just wanted to
- 21 bring to your attention this order from May of 2006
- 22 wherein this Commission made a finding based upon
- 23 representations by Omega that in its role as a local
- 24 distribution company, it, meaning Omega, does not serve
- 25 any customers aside from the Department of Defense. Now

- 1 you're aware of that, correct?
- 2 A Now that you said that, yes.
- 3 Q All right. Do you know -- let me withdraw that.
- 4 I want to ask you about the fees that you've charged in
- 5 this case, Mr. John.
- 6 A Okay.
- 7 Q I have a copy of your -- I think one of your
- 8 invoices dated October 11th, 2006. Do you recall giving
- 9 this to Mr. DeFord --
- 10 A Yes.
- 11 Q -- who then gave it to us? Had your testimony
- 12 been filed, all of it, by that time?
- 13 A What -- what was the date of that?
- Q October 11th, 2006. I think if the surrebuttal
- 15 was probably filed -- no. Surrebuttal was filed November
- 16 17th?
- 17 A November 17th, right.
- 18 Q Now, what I have -- what I have, at least as of
- 19 October 11th, 2006, is that at \$500 an hour, you were up
- 20 to \$35,893. Sound about right?
- 21 A That's not what I charge. No.
- 22 Q Oh, okay. What you had charged up to that point
- 23 in time was \$29,500?
- A My hourly rate is \$250. No.
- 25 Q I have -- let me make sure I have the right one.

- 1 Your hourly rate is \$250 an hour. Okay. Now, how much
- 2 time have you put into this case since this bill was
- 3 rendered October 11th?
- 4 A A considerable amount of time.
- 5 Q Quite a bit of time. What do you think your
- 6 bill is up to now?
- 7 A I don't really know.
- 8 Q Do you think we're going to reach 100,000?
- 9 MR. DEFORD: Your Honor, I'm going to object to
- 10 the relevance of this. I don't think it matters how much
- 11 we spent on expert testimony.
- 12 JUDGE WOODRUFF: Do you want to respond?
- 13 MR. REED: I don't know that I need to. It goes
- 14 to bias. It goes to credibility.
- JUDGE WOODRUFF: I'll overrule the objection.
- MR. REED: Maybe it just matters to me, that I
- 17 want to know.
- 18 MR. DEFORD: And I think he's answered the
- 19 question, so --
- 20 JUDGE WOODRUFF: What was -- what was the
- 21 answer?
- MR. REED: I think I asked him it was going to
- 23 reach 100,000, and he said he didn't know.
- 24 A That's --
- JUDGE WOODRUFF: Okay.

```
1 Q (By Mr. Reed) Now, this is a separate bill from
```

- 2 what you're billing for the MIG, FERC work, correct?
- 3 A Yes.
- 4 Q How far -- how high are you up -- how much have
- 5 you been paid on that one?
- 6 A I would have to go back and review my records.
- 7 I've only worked on one aspect of that file.
- 8 Q The tariffs, right?
- 9 A Yes.
- 10 Q All right. I noticed that in your testimony you
- 11 don't address the in balance on the system.
- 12 A That's correct.
- 13 Q Now, did anyone tell you not to bother with
- 14 that, that somebody else would take care of that?
- 15 A No. Actually, in the time frame that I had to
- 16 prepare for this case, it was an issue that I didn't have
- 17 time to adequately look at. And, therefore, I -- I didn't
- 18 take up that issue.
- 19 And it was something that Mr. Ries had more
- 20 day-to-day, you know, ability to answer questions on the
- 21 in balances and the factors that go into those in
- 22 balances.
- 23 Q Okay. I just have a few more questions,
- 24 actually. If an affiliate of MPC/MGC is allowed to stay
- 25 out of balance while other -- other customers are not,

- 1 does that discriminate against those other customers?
- 2 A You know, I think that's a question you're
- 3 really going to have to -- I think you have to look at a
- 4 lot of factors that are involved and why those factors are
- 5 there and why Omega was taking that position of basically
- 6 correcting all the system in balances.
- 7 I think that's a question that Mr. Ries probably
- 8 would be able to answer better. And I -- I will tell you
- 9 that there were no over-run or in balance penalties
- 10 imposed by the pipeline, so --
- 11 Q There were no in balance penalties imposed by
- 12 MPC or MGC against Omega?
- 13 A Against any customer, to my knowledge.
- Q Do you know how big the in balance?
- A As I said, I really don't know --
- 16 Q Do you know how big the in balance is with
- 17 Omega?
- 18 A As I said, I didn't look at that issue or my
- 19 bill would have been higher.
- 20 Q Okay. You -- I would think that in your
- 21 experience you do have -- you have looked at some in
- 22 balances and you would have some idea of how -- I don't
- 23 know. Is there -- how far out of balance do you have to
- 24 get before a penalty might apply, I mean, hypothetically?
- 25 A I think each pipeline sets their in balances

- 1 differently. There's usually a tolerance range where
- 2 customers are allowed to flex above and below what their
- 3 nominations are. Sometimes that's 5 percent. Sometimes
- 4 it's 10 percent.
- 5 Q So it might be a hundred decatherms, a thousand
- 6 decatherms?
- 7 A It -- it could be, depending on the pipeline
- 8 itself decides the customer --
- 9 Q Could it be 10,000 decatherms?
- 10 A Could it be 10,000 decatherms? You know,
- 11 without knowing what you're talking about, I really -- you
- 12 know, if you're talking hypothetically.
- 13 Q Yes, hypothetically.
- 14 A Could an in balance reach that amount on MGC?
- 15 Q Yes.
- 16 A I really don't know.
- 17 Q What about a couple hundred thousand decatherms?
- 18 Is it that possible? And no penalties be applied?
- 19 A Mr. Reed, obviously you know that there were --
- 20 you know, you're getting into what was actually on the
- 21 invoices. I don't know that -- I don't have that
- 22 knowledge as to what the in balance actually reached, no.
- 23 Q In -- in your -- in your testimony, I think it's
- 24 your rebuttal at page 4, you had testified that MPC and
- 25 MGC have transportation agreements with all shippers?

- 1 A That's correct.
- 2 Q But you are aware that -- let's see. Secret
- 3 Customers A and B do not have signed transportation
- 4 agreements?
- 5 A Customers A and B are not shippers on the
- 6 system.
- 7 Q They're not shippers?
- 8 A That's correct.
- 9 Q Have you looked at the Missouri rules, Missouri
- 10 CSR, defining shipper?
- 11 A I don't know that I have looked at that, no.
- 12 Q So when you say they're not a shipper, are you
- 13 implying FERC definitions?
- 14 A No. I'm implying that they have transportation
- 15 agreements with -- to be a shipper on the system, you
- 16 would have to have an effected transportation agreement in
- 17 place to be considered one.
- 18 Q Okay. Now, Customers A and B don't have
- 19 transportation agreements. You say they're not shippers.
- 20 So you're saying they don't need one?
- 21 A I'm saying that they are moving that gas under
- 22 currently effective transportation agreements on MGC and
- 23 MPC.
- Q Okay. Let's look at Customer B.
- 25 A Okay.

```
1 Q Are you saying that Customer B is moving gas
```

- 2 using Cuba's transportation agreement?
- 3 A Customer B currently -- the transportation
- 4 portion of that bundled service between Omega and Customer
- 5 B is provided under the Omega contract with MGC and MPC.
- 6 Q Okay. And you're saying it's moved under
- 7 Omega's transportation agreement?
- 8 A Yes. And that's where it's reflected on the
- 9 bills.
- 10 Q And what about Customer A? They don't have a
- 11 transportation agreement. You say they're not a shipper,
- 12 but they're -- are you saying that their -- their gas is
- 13 moved under Cuba's transportation agreement? Is that what
- 14 you're saying?
- 15 A I'm saying -- that's exactly what I'm saying.
- 16 Customer A has an agency agreement with Omega, and Omega
- 17 provides the transportation portion of that through their
- 18 -- through the Cuba transportation agreement.
- 19 Q I want you to -- I want to turn your attention
- 20 to page 17 of your rebuttal.
- 21 A I have that.
- 22 Q If you look at lines 7 through 9, you'll see
- 23 that it says MPC/MGC are providing its services to
- 24 Customer --
- 25 A B.

```
1 Q -- B. Thank you. Under a valid and binding
```

- 2 firm transportation service agreement with the City of
- 3 Cuba through the City's agent.
- 4 A Yes.
- 5 Q All right. I -- I thought you just told me a
- 6 moment ago that they were not using Cuba's transportation
- 7 agreement, they were using Omega's transportation
- 8 agreement.
- 9 A The transportation service provided to Customer
- 10 B was originally or in the early part of the time period
- 11 we're talking about here provided under the Cuba
- 12 transportation. It was moving -- the transportation
- 13 portion was moving under the Cuba transportation
- 14 agreement.
- 15 Q Okay.
- 16 A Subsequent to that, Omega Pipeline Company
- 17 entered into a transportation agreement with the
- 18 pipelines. And the transportation portion of the agency
- 19 agreement with that customer is now moving under the Omega
- 20 agreement.
- 21 Q The --
- 22 A So that's the difference.
- 23 Q Okay. The -- Cuba's transportation agreement
- 24 was signed the -- was it 1999?
- 25 A I think that's the --

- 1 Q Right?
- 2 A -- the date, yes.
- 3 Q And then the agency agreement with Omega was
- 4 entered in 2003?
- 5 A Yes.
- 6 Q Is there anything in those contracts that
- 7 mentions Customer B?
- 8 A No.
- 9 Q Have you spoken with anyone at Cuba who knew
- 10 about Customer B?
- 11 A No.
- MR. REED: That's all. Thank you.
- JUDGE WOODRUFF: All right. Thank you,
- 14 Mr. Reed. And then we'll come up for questions from the
- 15 Bench. Commissioner Murray?
- 16 CROSS-EXAMINATION
- 17 BY COMMISSIONER MURRAY:
- 18 Q Good afternoon.
- 19 A Good afternoon, Commissioner.
- 20 Q Mr. John, I think you just stated in your
- 21 answers that the customer referred to on page 17 of your
- 22 rebuttal testimony was provided services under an Omega --
- 23 Omega agreement. Is that what you said?
- 24 A Presently, the transportation services provided
- 25 to Customer B are moving on the MGC/MPC system onto the

- 1 currently effective Omega contract.
- 2 Q And that is an Omega contract with whom?
- 3 A That is an Omega contract with MPC and MGC. The
- 4 contract with MGC is Contract No. MG-1103-TAF. And with
- 5 MPC, it's Contract No. MP-1103-TAF.
- 6 Q Okay. And do you think that the agreement
- 7 between Omega and MGC, MPC, the agreements provided a
- 8 discount to Omega?
- 9 A The agreements between MPC and M -- let me just
- 10 split it up, actually. The agreement between MPC and
- 11 Omega is at a maximum rate. The --
- 12 Q MPC?
- 13 A MPC is at the tariff or maximum rates. The
- 14 contracts that Omega has with MGC does provide a -- a
- 15 little bit of a discount on the commodity portion of the
- 16 charge, yes.
- 17 But as I said, if you look at a contract, it is
- 18 still that Omega contract is paying the highest rate on
- 19 this system.
- 20 Q And didn't Staff take the position that another
- 21 marketer paid a higher rate?
- 22 A There was another marketer before the Omega
- 23 contract that paid a different rate, yes. And I think
- 24 there's reasons for that.
- 25 Q Would you state what you think those reasons

- 1 might be?
- 2 A I think the contract that was in existence prior
- 3 to the Omega/MGC/MPC contracts was a short-term contract
- 4 that could be terminated within three months notice, I
- 5 believe.
- 6 The contract that Omega committed to with MGC
- 7 and MPC was a ten-year contract. So that's -- that's one
- 8 factor. The -- the length of the contracts was something
- 9 that gave the pipeline some certainty.
- 10 The contract was obviously entered into at a
- 11 different point in time than the prior contract. The
- 12 economic circumstances could have changed since then as
- 13 far as competitive nature of what MGC and MPC had to do.
- 14 Q How much later in time was it?
- 15 A I don't know exactly. I haven't -- I don't
- 16 think that I've seen the contracts that pre-existed the
- 17 Omega contracts to when that -- when the effective date of
- 18 that was.
- 19 Q Okay. Are there any other reasons that you
- 20 noted that the -- that would warrant a different -- a
- 21 higher price to the previous contract?
- 22 A I don't know about the competitive nature. You
- 23 know, that was -- who was competing with both entities
- 24 when they entered into these contracts. That is another
- 25 thing I think would come into play as far as what the

- 1 pipeline decided to do as far as a discount.
- 2 Q Now, were there any other marketers during the
- 3 same time period that Omega provided service under these
- 4 contracts who paid a higher rate?
- 5 A Omega -- you mean Omega's contracts. Omega is
- 6 the marketing affiliate. MGC and MPC would have been the
- 7 ones that entered into the transportation agreements.
- 8 O Did --
- 9 A To my knowledge, I don't think there were other
- 10 marketers that held capacity on those systems, no.
- 11 Q During that same time period?
- 12 A Yes. I'm sorry.
- 13 Q So are you saying there's really no other
- 14 marketer that we can actually compare as oranges and
- 15 oranges that -- that the other comparison would involve a
- 16 different time period?
- 17 A As -- to my knowledge, that's correct. Yes.
- 18 Q Forgive me, but I can't recall whether you
- 19 addressed this in your testimony. But the allegation by
- 20 the Staff that Omega was receiving -- Omega had a contract
- 21 for a certain price, but it charged the City of Cuba a
- 22 higher price, did you review that allegation?
- 23 A To -- to be honest, I think the path to that
- 24 just came to light to me today as -- as direct testimony
- 25 by Mr. Schallenberg here today.

```
1 I did review the agreements that underlie the --
```

- 2 the transportation part of this. And there is only one
- 3 set of affiliate contracts in place on the pipeline, and
- 4 that's between MGC and MPC and Omega Pipeline that was
- 5 entered into under those contracts that I cited earlier,
- 6 the 1103 contracts. There's no other affiliate contracts
- 7 on the system, the MPC system.
- 8 Q And in your opinion, did -- should there have
- 9 been other contracts?
- 10 A No. What Staff is basically saying is that
- 11 Omega entered into agency agreements, a -- which provided
- 12 for a bundled service to certain end users and to LDC and
- 13 that the transportation component that they've developed
- 14 from looking at different things, which is different --
- 15 from what is in the agency agreement itself, dictates that
- 16 -- you know, there's a discount provided there.
- 17 I think you're really comparing some -- two
- 18 things that are not comparable. You're comparing terms
- 19 and conditions of service under a regulated agreement, the
- 20 transportation agreements that were in place, with a
- 21 non-regulated, non-jurisdictional agency agreement and
- 22 plucking from those agency agreements, to my mind, for the
- 23 first time, some transportation rates saying that those
- 24 transportation rates require that transportation
- 25 agreements be in place, and that from their formulation

- 1 that there was discounts provided under those created
- 2 transportation agreements.
- 3 The volumes that were moved under the agency
- 4 agreements were moving under valid existing transportation
- 5 -- firm transportation agreements on the MGC and MPC
- 6 system. And I think the simplest way for me to show you
- 7 that -- I could show you on a chart exactly what I am
- 8 talking about.
- 9 Q Is that chart in evidence?
- 10 A No.
- 11 Q Are you suggesting that you draw it for us or --
- 12 A Yes.
- 13 Q I think anything that could be helpful would be
- 14 appreciated.
- 15 A Okay. If I could get the flip chart?
- JUDGE WOODRUFF: Certainly. I'll ask, does
- anyone know how to use the Smart Board to do this? I'm
- 18 technologically challenged myself, but -- I don't hear
- 19 anybody jumping up and down saying they know how, so we'll
- 20 -- we'll go back to the paper.
- 21 MR. DEFORD: I'm not sure I know how to use
- 22 this.
- JUDGE WOODRUFF: Go on up. If you -- if you
- 24 could move the microphone over to you as near as possible
- 25 so we --

```
1 A Okay. I think the charges with the discounts
```

- 2 relate to really three agency agreements and those have
- 3 been designated as Customers A, B and C. And the Customer
- 4 A, Customer B and Customer C entered into a non-regulated,
- 5 non-jurisdictional agency agreement with Omega.
- 6 Omega provided a bundled service for those
- 7 customers to their benefit. That's what they sought
- 8 because, a lot of times, smaller customers use agents in
- 9 order to provide -- get the service that they need. Thank
- 10 you.
- 11 Q All right.
- 12 A And this -- these are --
- 13 Q Explain -- excuse me -- what went into the
- 14 bundled service. What did that include?
- 15 A For the most part, it included the -- doing
- 16 nominations and scheduling of volumes moving on the
- 17 pipeline systems. They took care of the bills for those
- 18 customers, and they also provided bundled -- sales
- 19 service. So it's a bundled service that is being provided
- 20 there.
- 21 And the contracts themselves had rates for the
- 22 services. And these are non-jurisdictional agreements.
- 23 None of them -- none of these -- none of these agreements
- 24 are between affiliates. So these are between Omega and
- 25 end users. Or, in this instance, all these customers are

- 1 end users.
- 2 How they did that is they -- they moved the
- 3 volumes needed for the agency agreements under these
- 4 currently effective firm contracts on MGC and MPC. The --
- 5 the contract with Omega, I think, is 1103. And I think
- 6 the contract with Cuba is MG-1025-TAF. And I'm not sure
- 7 of the MPC number.
- 8 So these are the currently effective
- 9 transportation agreements that are -- you know, these
- 10 services are being provided on the transportation portion.
- 11 The only affiliate transaction that exists between MGC and
- 12 others is between MGC and Omega. Cuba's not an affiliate.
- 13 None of these are affiliates. This contract pays the
- 14 highest rate on the system.
- 15 Q Why do you have -- I think I missed something
- 16 there. You have two --
- 17 A Two Omega/MPC.
- 18 Q Oh, two Omega --
- 19 A They both go under that agreement. Omega has
- 20 contracted with the pipelines for a maximum daily quantity
- 21 as Mr. Schallenberg stated. And within that maximum daily
- 22 quantity, they're providing, as a marketer, certain, you
- 23 know, transportation services to these customers and using
- 24 that Omega contract to do so.
- 25 And it's -- certainly, on the interstate system,

- 1 that's a common practice and that's a common practice to
- 2 have agents even on the -- with regard to the customers on
- 3 these systems.
- 4 Most of these LDCs have agents that do their
- 5 service, you know, do a lot of their -- certain of the
- 6 functions for them. This is -- these are regulated
- 7 contracts that require them to, you know, be provided
- 8 under the tariff.
- 9 These are non-regulated, non-jurisdictional that
- 10 aren't subject to the MPC and MGC tariff. And what Staff
- 11 is seeking to do is to say, Hey, these guys violated a
- 12 part of the tariff. And I just think that they're two
- 13 distinct things. And one of them is a non-jurisdictional
- 14 agreement, and the other is a jurisdictional agreement
- 15 that must abide by the tariff.
- So to go and require these people to now have
- 17 the transportation agreement, I think, would be a
- 18 significant change in what has been allowed in the past.
- 19 And you're dealing -- and, basically, say, I want to do
- 20 that retroactively.
- 21 Q Now, Omega has the transportation agreements --
- 22 A Yes.
- 23 Q -- under the jurisdictional agreements?
- 24 A Yes.
- 25 Q And you're saying that Staff's complaint with --

- 1 if -- if accurate, would require there to be additional
- 2 transportation contracts?
- 3 A Well, that's what they are saying is necessary.
- 4 I -- you know, my understanding -- and this is something
- 5 that -- Mr. Clark Smith is -- would be the next witness
- 6 and has a lot of actual experience in negotiating these
- 7 contracts.
- 8 I have more experience on a regulatory basis as
- 9 to the agency agreements themselves. But they are being
- 10 provided. And if you look at the bill, all these volumes
- 11 are moving -- that are moving under these contracts are
- 12 reflected on those invoices.
- 13 Q So you believe that the invoices reflect that
- 14 the tariff rates were the rates that were actually charged
- in each instance?
- 16 A The invoices reflect the charges for the
- 17 reservation units that Cuba or Omega had paid and that is
- 18 paid by either Cuba or Omega. And the commodity rate is
- 19 reflected on those bills, too, for each of those
- 20 customers.
- 21 I think our basic disagreement is how we view
- 22 these agency agreements and whether they are
- 23 jurisdictional or could become jurisdictional because of
- 24 Staff's views. And I think that that's a big departure
- 25 from past practice, as far as I'm concerned, as to what

1 you know about the -- what's happened in the past as far

- 2 as agency agreements.
- 3 Q Have you testified in any cases in Missouri
- 4 before?
- 5 A No, ma'am.
- 6 Q Okay. And you take the position that Omega is
- 7 paying the highest rates on either system, is that
- 8 correct, the highest -- the highest rates at the time in
- 9 question?
- 10 A Yes, I do. If you look at my rebuttal testimony
- 11 at page 26, I believe -- and on that page -- I'm sorry.
- 12 Q Okay.
- 13 A Do you have that? On that page, I have provided
- 14 a chart that shows the MGC shippers compared on a 25
- 15 percent load factor basis as it's required by the tariff
- 16 itself. And when you do that conversion to the 25 percent
- 17 load factor as I show here, Omega is paying the highest
- 18 rate on the system.
- 19 Now, Mr. Schallenberg did have a good criticism
- 20 of this chart and of my testimony when he said that the
- 21 last customer I have on here, UM Rolla, is an
- 22 interruptible customer. And he's right on that.
- 23 And -- and I -- that's the -- the reason I put
- 24 it in there is because it was one of the customers that he
- 25 claimed refunds were due, and it was the only

1 interruptible customer that wasn't receiving firm service,

- 2 also.
- 3 So if you took Rolla out of there, what you're
- 4 doing is comparing FT contracts to FT contracts, which is
- 5 what I believe the correct comparison should be, not FT
- 6 contracts to rates that are derived from agency agreements
- 7 themselves.
- 8 Q And on the other hand --
- 9 JUDGE WOODRUFF: Commissioner Murray, would you
- 10 check that your microphone is on?
- 11 COMMISSIONER MURRAY: Thank you.
- 12 Q (By Commissioner Murray) On the other hand, Mr.
- 13 Schallenberg was comparing between firm transportation and
- 14 interruptible transportation.
- 15 A He was comparing some transportation rates that
- 16 he derived from these agency agreements. He wasn't
- 17 comparing actual interruptible to firm. No. He didn't do
- 18 that. And, you know, his criticism was right. You should
- 19 only be comparing FT to FT.
- 20 Q Look at page 27 of Mr. Schallenberg's -- I'm not
- 21 sure if that was his direct or -- it must have been his
- 22 direct testimony. There are two charts there.
- 23 A I don't have it.
- Q You don't have it?
- 25 A No.

- 1 Q Oh.
- 2 MR. DEFORD: May I approach, your Honor?
- 3 Q (By Commissioner Murray) I'm looking on page 27
- 4 of your testimony.
- 5 A My testimony.
- 6 Q Yes. Where you --
- 7 A Oh, I see that. Yes.
- 8 Q Well, it is page 27 of your testimony. It's
- 9 also page 27 of Mr. Schallenberg's.
- 10 A Page 27.
- 11 Q And your statement there that the rate levels
- 12 reflected -- am I on the right --
- 13 A Yes. Yes.
- 14 Q As far as the right page?
- 15 A As far as my testimony, yes.
- 16 Q But, I mean, am I on the right page as far as
- 17 the testimony of Mr. Schallenberg you were referring to?
- 18 A Yes.
- 19 Q Okay. And those rate levels reflected in -- you
- 20 say chart. Which chart? Are you speaking of both charts?
- 21 A Well, it's -- he makes cumulative adjustments to
- 22 the charts. I think there's a series of five charts, and
- 23 each one has a different adjustment based upon agency
- 24 agreements.
- 25 And this is, I believe, the last chart that sort

- 1 of brings all those adjustments to -- into one. And what
- 2 I'm saying on page 27 is if you're not going to allow MGC
- 3 and MPC -- if you're going to require them to charge zero
- 4 rates for reservation charges on MGC, zero rates for
- 5 reservation charges on MPC and to reduce the firm rates
- 6 down to significant reduction from the tariff rates,
- 7 you're not going to allow the pipelines the opportunity to
- 8 recover prudently incurred costs.
- 9 They won't be able to recover their fixed costs
- 10 and probably not some of their operating costs.
- 11 Q So that is if the adjustments are made as a -- a
- 12 remedy that the Staff is requesting --
- 13 A Yes.
- 14 Q -- in this case?
- 15 A Yes, ma'am.
- 16 Q But is that something we should even take into
- 17 consideration if there were, in fact, over-charges?
- 18 A I think you would have to take into
- 19 consideration what the impact is going to be because it
- 20 could ultimately be to the detriment of the -- the
- 21 shippers if this happens.
- 22 If the pipeline is not allowed to recover its
- 23 prudently incurred costs, including fixed costs, it would
- 24 be very hard for them to continue operations in that
- 25 manner for a long time. So I -- I think in that regard I

1 think you would -- it's a factor that I believe should be

- 2 considered.
- 3 Is it the primary factor? No. I -- I think you
- 4 have to look at the facts and -- of what was presented by
- 5 Staff and what we had presented. And I think we have a
- 6 totally different view of what is appropriate and all the
- 7 discounts that he's referring to in this chart and the
- 8 previous charts are derived from non-affiliated
- 9 agreements.
- 10 He -- you know, on this page, he refers to the
- 11 (Name was removed due to being Highly Confidential as
- 12 instructed by Judge Woodruff) agreement. That's not an
- 13 affiliate contract.
- 14 Q I think maybe we better not --
- 15 A Oh, I'm sorry.
- 16 Q Better be careful about which names are --
- 17 A Excuse me.
- 18 JUDGE WOODRUFF: Actually, if the court reporter
- 19 when she's preparing the transcript could remove that last
- 20 name.
- 21 THE COURT REPORTER: Okay.
- 22 COMMISSIONER MURRAY: Just -- Judge, I'm sorry.
- 23 I'm just trying to make sure --
- JUDGE WOODRUFF: That's all right.
- 25 COMMISSIONER MURRAY: Make sure I've covered

- 1 what I need to.
- 2 Q (By Commissioner Murray) In your discussion of
- 3 the ability to use multiple delivery points for -- thank
- 4 you. For a shipper to be able to use multiple delivery
- 5 points, are you referring there to Omega being able to
- 6 deliver to Customers A, B and C?
- 7 A Yes. And there's other customers that deliver
- 8 to multiple points.
- 9 Q And some of the deliveries to A, B and C were
- 10 through -- were billed to the City of Cuba, were they not?
- 11 A Could you just -- could you ask that again?
- 12 Q Some of the deliveries to A, B and C were billed
- 13 by Omega to the City of Cuba; is that correct?
- 14 A No. They were billed by MGC and MPC to Omega.
- 15 And Omega -- I don't -- I don't know that I've seen the
- 16 Omega bills themselves, so I -- I don't know how the
- 17 adjustment was made on the bill that went from Omega to
- 18 the end users or the City of Cuba.
- 19 Q Do you think it would make a difference if Omega
- 20 were billing City of Cuba for one or all of those
- 21 Customers A, B and C? Would -- would that make a
- 22 difference to you?
- 23 A I think that customer A certainly -- there was a
- 24 benefit derived from the City of Cuba from that agency
- 25 agreement being in place because they were recovering

- 1 their -- the distribution charges on the City of Cuba
- 2 itself because Customer A is behind that city gate. So
- 3 there was a benefit derived through that agency agreement
- 4 for the City of Cuba.
- 5 Q All right. And what about Customers B and C?
- 6 Were they behind the city gate?
- 7 A To -- to my knowledge, no. Customer B was not
- 8 behind the city gate. And Customer C was -- and that is
- 9 not tied to the Cuba contract.
- 10 Q Okay. On page 16 of your surrebuttal testimony,
- 11 lines 11 and 12 -- actually, 10, 11 and 12, you say,
- 12 Rather than assess a penalty, MPC/MGC could be required,
- 13 which it is not currently, to identify which parties are
- 14 acting as agents on their system to the Commission.
- 15 Why do you say -- are you saying it's not current --
- 16 currently required to identify which parties are acting as
- 17 agents?
- 18 A I think that the pipeline itself is aware of
- 19 that. I don't know that that information presently needs
- 20 to be submitted to the Commission in any form.
- 21 Q Did you hear Mr. Schallenberg's testimony this
- 22 morning regarding -- I believe it's the tariff language or
- 23 contract language concerning the duty to report to the
- 24 Commission anyone who's -- with whom they have an agency
- 25 relationship?

- 1 A I think he was saying that under the
- 2 transportation agreement itself, the City of Cuba had an
- 3 obligation to inform the pipeline itself, not the
- 4 Commission.
- 5 And I know that the invoices reflect that the
- 6 bills are being charged and sent to Omega. So I -- I
- 7 don't know that there was written notification in the form
- 8 that Mr. Schallenberg would like. But I think there was
- 9 certainly notification to the pipelines that there was an
- 10 agency agreement in place.
- 11 Q Okay. But you don't agree that the pipeline has
- 12 a current obligation to report -- to identify those
- 13 parties to the Commission?
- 14 A I'm not aware of that, Commissioner.
- 15 Q You raised the point that -- and I'm looking at
- 16 page 22 of your surrebuttal testimony -- that many of the
- 17 issues and allegations raised by Staff are not new, that
- 18 they're now raising allegations that -- regarding issues
- 19 that have been known to them for several years, including
- 20 Mr. Ries's positions at Omega and MPC and MGC.
- 21 A Yes.
- 22 Q What are you trying to indicate there by
- 23 pointing out that Staff may have known these things for
- 24 several years?
- 25 A I -- I think that there was sort of a reliance

- 1 on Staff's knowledge of the -- that Omega was an
- 2 affiliate, that Mr. Ries was the president of MGC/MPC and
- 3 Omega.
- 4 Certainly, there was a letter from Warren Wood
- 5 that basically even stated that the Commission considered
- 6 Omega to be a marketing affiliate, and that was in 2003.
- 7 You know, I think that the Omega situation was
- 8 brought to Staff's attention in meetings and through
- 9 e-mails and letters. And MGC/MPC sought the advice and
- 10 Counsel of Staff as to whether they could use Omega as a
- 11 marketing affiliate as far back as 2002.
- 12 And to my knowledge, they never got a response
- 13 that they couldn't. And, in fact, it was -- I think it
- 14 was Staff's present -- preference in one of the letters
- 15 that the MPC and MGC use a marketing affiliate to do those
- 16 bundled transactions.
- 17 Q What is your understanding of the harm that
- 18 Staff is alleging has occurred as a result of what Staff
- 19 claims are violations of the tariffs for Commission rules?
- 20 A I -- my view is that the counts that have been
- 21 brought up by Staff, I totally disagree with, and I think
- 22 it would be a big departure from the way the Commission
- 23 has treated agency agreements in the past.
- I think you would be, in effect, regulating now
- 25 what was considered non-regulated, non-jurisdictional

- 1 contracts and bringing them under the -- you know, the
- 2 Commission's requirements to file a tariff, basically,
- 3 because they're alleging that, you know, they're --
- 4 they've violated tariff provisions.
- 5 The agency agreements themselves aren't -- don't
- 6 have a tariff attached to them and aren't, to my mind,
- 7 subject to tariff of MGC or MPC.
- 8 COMMISSIONER MURRAY: I think I'll stop now.
- 9 Thank you.
- 10 MR. JOHN: Thank you.
- JUDGE WOODRUFF: Commissioner Appling.
- 12 CROSS-EXAMINATION
- 13 BY COMMISSIONER APPLING:
- 14 Q Mr. John, how are you doing?
- 15 A I'm doing fine. Thank you.
- 16 Q You're living in Washington D.C. now?
- 17 A I live in Washington half the time, and I live
- 18 in western Maryland half the time.
- 19 Q Okay. Well, I'm going to ask you a question to
- 20 try to put 10 pounds in a 5-pound sack. They usually do
- 21 that in Washington D.C. a lot, so -- would you go to your
- 22 rebuttal testimony, please, and go to page 4 and 5?
- 23 A Yes.
- Q And these are in your own words and all this.
- 25 You'll see on there on line 4, 14, 18 --

```
1 A Right.
```

- Q -- all of the six counts, right?
- 3 A Yes.
- 4 Q I would also like to say that I consider
- 5 Mr. Schallenberg a very knowledgeable and probably one of
- 6 the most credible witnesses that is around. I'd
- 7 appreciate it if you didn't tell him that, though. But,
- 8 you know, so it -- his head don't get too big there.
- 9 But anyway, in that, in your analysis, did the
- 10 Missouri Gas Company -- from your own analysis, did they
- 11 violate any of these six counts? Give me your -- give me
- 12 your thoughts on it.
- 13 I'm asking you to -- to cover a lot of ground
- 14 here in a very short period of time, and you can take your
- 15 time and take each one of those counts one by one, or you
- 16 can just give me your thoughts on all six of them.
- 17 A I think I'll go through count by count,
- 18 Commissioner, if --
- 19 Q Okay.
- 20 A If that's okay. Count 1 is -- basically has a
- 21 number of elements under it. I -- I addressed the
- 22 separation of personnel issue and the discrimination issue
- 23 as far as the transportation agreements.
- As far as the sharing of personnel, with an
- 25 entity the size of MGC and MPC, it's not unusual for them

- 1 to have a limited number of personnel and to have shared
- 2 officers than do multiple functions. The -- I -- I also
- 3 know that, you know, from looking at e-mails and -- and
- 4 letters from Staff that as far back as 2002 and early 2003
- 5 that the Commission Staff -- and I'm not saying
- 6 Mr. Schallenberg. He said this morning he didn't know
- 7 till 2006. And that could be very well. I don't disagree
- 8 with that.
- 9 But I know that somebody at the Commission knew
- 10 that. And Mr. Wood, basically, you know, acknowledged
- 11 that in the letter of 2003. So -- and when they went in
- 12 -- what you have to do there is, you know, ask for, you
- 13 know, some sort of waiver, at least at the FERC level if
- 14 you're going to -- to have shared personnel.
- 15 Q Okay.
- 16 A And when you have shared personnel, I think one
- of the big issues is, yeah, the President will have
- 18 knowledge. But how does he use that knowledge? Is he
- 19 using it in a discriminatory fashion or in a way that, you
- 20 know, benefits him or the system?
- 21 And to my mind, that didn't happen. The only
- 22 affiliate transaction that -- set of affiliate
- 23 transactions that took place were the Omega contracts that
- 24 were in -- entered into in 2005.
- 25 And as I showed on page 26, I believe, that my

- 1 view is that they were paying the highest rate. And I
- 2 know Mr. Schallenberg has a different view of that. And I
- 3 dis -- I totally disagree with that.
- 4 So I -- on Count 1, I don't think that the
- 5 failure to maintain separate operational personnel is
- 6 something that they didn't know. And I think that Staff
- 7 -- MGC and MPC relied on, you know, their explaining to
- 8 Staff in several meetings and e-mails that they did have
- 9 those shared personnel.
- 10 O Okay.
- 11 A So to bring that up in 2006 I think is a little
- 12 late or disingenuous. And as far as the contract, as I
- 13 said, I think -- my view is that they were paying the
- 14 highest rate on system. So I don't believe there was
- 15 preference given to them.
- On Count 2, it's -- this goes back to my view
- 17 of, you know, what the difference is between a
- 18 non-jurisdictional, non-regulated agency agreement and the
- 19 actual firm transportation agreements that were in place
- 20 on MGC and MPC.
- 21 And my view is that the Staff is trying to bring
- 22 in elements from these non-regulated agency agreements
- 23 which provides a bundled service, and try to compare those
- 24 to a transportation agreement which is just that. It just
- 25 provides for one function. And they've called out certain

- 1 portions of the invoices to try to, you know, justify
- 2 that.
- 3 I -- I really think that it's a non-regulated
- 4 agreement and that -- that they're not comparable. So as
- 5 far as that, the only -- to my mind, the only agreements
- 6 that are affiliate transactions were those two agreements
- 7 that I talked about on -- with Omega and MGC and MPC.
- 8 Count 3 deals with the discount issue. And once
- 9 again, it -- a number of these issues are inter-related
- 10 and basically go to the same, you know -- are based off of
- 11 the same belief by Staff.
- 12 I do not believe that MGC and MPC provided
- 13 discounts to affiliates. As I showed on the chart there,
- 14 the agency agreements are between Omega and end users.
- 15 Those are not affiliate transactions. The only affiliate
- 16 transaction that MGC and MPC has entered into is the one
- 17 with Omega.
- 18 Count 4 deals with the discount reports, and --
- 19 and Mr. Ries basically addresses that. But what Staff is
- 20 saying, not -- you know, we believe you should have had
- 21 these transportation agreements, and because you didn't
- 22 have these transportation agreements, you're in violation
- 23 of the requirement to file discount reports.
- 24 So it's sort of saying, at this point in time,
- 25 you know, we're changing our view of what these are and

- 1 applying that back retroactively, which I -- I have a
- 2 problem with that.
- 3 On Count 5, I understand Staff's view in reading
- 4 of the tariff. And my view is that the company made a
- 5 business decision to extend the lateral to Willard based
- 6 upon what it believed it -- you know, the economics were
- 7 of that, and that there was a sufficient pay-back period
- 8 for -- to recoup -- for them to recoup the cost of that
- 9 lateral.
- 10 And as Commissioner Clayton, you know, pointed
- 11 out, there hasn't been a rate case, so the ratepayers are
- 12 not subject to that -- those costs at this point in time.
- 13 And, in fact, if that shipper -- I mean, if that -- those
- 14 volumes contribute -- continue to be on the system when
- 15 they would file a rate case, it would benefit everybody
- 16 because you would have more volume to spread the cost
- 17 over.
- 18 Okay. So that's -- that's my view of the -- and
- 19 Count 6 has now been dropped.
- 20 Q So -- so you're telling me that this Staff and
- 21 other Missouri Public Service Commission has this wrong?
- 22 A They have their view, Commissioner, and I think
- 23 we have a different view of that. And I do believe that
- 24 they're wrong on this, yes. I'm not saying that they
- 25 don't have the right to bring those views before you, no.

```
1 COMMISSIONER APPLING: Okay. Thank you very
```

- 2 much.
- JUDGE WOODRUFF: I have a couple of clarifying
- 4 questions that confused me.
- 5 CROSS-EXAMINATION
- 6 BY JUDGE WOODRUFF:
- 7 Q I believe you testified that Customer B recently
- 8 was moving gas under the Cuba contract with the pipelines,
- 9 and then subsequently it started moving gas under the
- 10 Omega contract?
- 11 A Yes.
- 12 Q When -- when was that change made?
- 13 A I think it was when Omega effected a
- 14 transportation agreement in 2005 with the pipelines.
- 15 Q Okay.
- 16 A Early February, I think, 2005 is when that
- 17 contract -- those contracts were entered into.
- 18 Q Okay. And is that the same Omega contract they
- 19 used to provide gas to the Fort?
- 20 A Yes.
- Q Okay. Is that when they got the contract back
- 22 for the Fort?
- 23 A I believe so.
- Q Okay. Do you know if that's the reason why they
- 25 negotiated that contract with the pipeline?

- 1 A I really don't know --
- 2 Q Okay.
- $A ext{ }$ -- the answer to that.
- 4 JUDGE WOODRUFF: That's all the questions I had.
- 5 Before we go to re-cross, we're due for a break, so we'll
- 6 take a break at this time. We'll come back at ten minutes
- 7 till 4.
- 8 (Break in proceedings.)
- 9 JUDGE WOODRUFF: All right. Let's come to
- 10 order, please. All right. Welcome back, everyone. Looks
- 11 like everyone is back. We've finished up questions from
- 12 the bench for Mr. John, so now we'll go to re-cross
- 13 beginning with Municipal Gas.
- MR. WOODSMALL: No, your Honor.
- JUDGE WOODRUFF: AmerenUE?
- MS. DURLEY: No, your Honor.
- 17 JUDGE WOODRUFF: Public Counsel is not present.
- 18 The pipeline? Oh, I'm -- I'm sorry. Not the pipeline.
- 19 Staff?
- MR. REED: Yes.
- 21 RECROSS EXAMINATION
- 22 BY MR. REED:
- 23 Q Just a couple follow-up questions, Mr. John. I
- 24 wanted to -- in response to questions from Commissioner
- 25 Appling, in particular, you had run through the counts,

1 and you were asked whether there was a violation of any of

- 2 the tariffs, and I think you said even including Count 5
- 3 regarding the line extension. Is that -- is that the one?
- 4 You indicated that that would not be a violation of the
- 5 tariff?
- 6 A I didn't give any opinion, I think, on that,
- 7 whether it was a tariff violation or not. I just
- 8 explained that, as far as a business decision, why I
- 9 thought that was an appropriate expenditure for the
- 10 MGC/MPC.
- 11 Q Is it a violation of the tariff or not?
- 12 A The tariff in itself requires that there be
- 13 reimbursement. And as Mr. Schallenberg explained, there's
- 14 -- there has -- there can be waivers. They can request
- 15 waivers.
- 16 And to my knowledge, I think in a previous case,
- 17 there was a similar issue that came up and -- with Laclede
- 18 laterals, and I think that they were allowed to remain in
- 19 rate base.
- 20 Q Is that as close as I'm going to get you to a
- 21 yes or no?
- 22 A It is not in compliance with the tariff as
- 23 written.
- Q Do the tariffs allow capacity release?
- 25 A I don't think that there -- there's a capacity

- 1 release provision in the tariff.
- 2 Q And with regard to the -- the chart that you had
- 3 drawn -- and under agency agreements, you have Omega A, et
- 4 cetera. I think you would agree with me that between
- 5 Omega and A, there is no agency agreement?
- 6 A Omega and A? No. There is an agency agreement
- 7 between Omega and A. And I attached to that as Appendix K
- 8 as my testimony.
- 9 Q Appendix K would be natural gas sales agreement,
- 10 right?
- 11 A That is what it says. But it -- Omega is acting
- in an agency role for them, yes.
- 13 Q And then what about Omega? And I think it's C,
- 14 Customer C. That one is also denominated a natural gas
- 15 sales agreement with no mention of agency.
- 16 A That is how it's entitled, yes.
- 17 MR. REED: All right. Thank you.
- JUDGE WOODRUFF: Thank you, Mr. Reed. Any
- 19 redirect?
- 20 MR. DEFORD: Your Honor, I have no redirect, but
- 21 I would like to preserve the diagram or the chart somehow
- 22 for the record and --
- JUDGE WOODRUFF: Okay.
- MR. DEFORD: I would love any advice on how you
- 25 think to best do that.

```
1 JUDGE WOODRUFF: Well, somebody can copy it down
```

- 2 into -- on a smaller form. If you noticed, also, I had it
- 3 on the camera, which is preserved on a disk. But it's not
- 4 marked as an exhibit or anything. It is on the disk if
- 5 somebody wanted to see it.
- 6 MR. DEFORD: Yeah. Maybe if we just mark it as
- 7 an exhibit and, then we can figure out at a later date.
- 8 Maybe we can reduce it and --
- 9 JUDGE WOODRUFF: Is that acceptable to Staff and
- 10 other parties?
- 11 MR. WOODSMALL: As long as he figures out a way
- 12 to distribute it to the parties so we have it on the
- 13 record going forward.
- JUDGE WOODRUFF: It needs to be in evidence at
- 15 some point. Of course, we've got all day tomorrow to
- 16 figure that out, I guess. Let's go ahead and mark it.
- 17 Let's see. You're up to number -- 313 would be your next
- 18 number, I believe.
- 19 I'm just going to describe it's a flip chart
- 20 demo. And it's been offered into evidence. Any objection
- 21 to its receipt? Hearing none, it will be received into
- 22 evidence.
- 23 (Exhibit No. 313 was admitted into evidence.)
- JUDGE WOODRUFF: And, Mr. DeFord, I'll leave it
- 25 to you to get it into a form where we can preserve it in

- 1 the record.
- 2 MR. DEFORD: I think what I may ask is -- is
- 3 that Mr. John copy is down on a -- on a normal size sheet
- 4 of paper.
- 5 JUDGE WOODRUFF: That's fine. And if you'd
- 6 share with the other parties, and we'll deal with it --
- 7 submit it at the time when you get that done.
- 8 MR. DEFORD: Sure. Thank you.
- 9 JUDGE WOODRUFF: Okay. Mr. John, you can step
- 10 down. Thank you. You can call your next witness.
- 11 MR. DEFORD: Call Clark Smith.
- 12 JUDGE WOODRUFF: Please raise your right hand.
- 13 CLARK SMITH,
- 14 being first duly sworn to testify the truth, the whole
- 15 truth, and nothing but the truth, testified as follows:
- 16 DIRECT EXAMINATION
- 17 BY MR. DEFORD:
- JUDGE WOODRUFF: You may be seated.
- 19 Q (By Mr. DeFord) Mr. Smith, would you please
- 20 state your name and spell your name for the record?
- 21 A My name is Clark Cummings Smith, C-l-a-r-k.
- 22 Middle name is C-u-m-m-i-n-g-s.
- 23 Q And, Mr. Smith, by whom are you employed and in
- 24 what capacity?
- 25 A I'm the Managing Director of a private company

- 1 called Engage, E-n-g-a-g-e, Investments, LP.
- 2 Q And have you caused to be prepared and filed in
- 3 this docket rebuttal testimony that's been marked for
- 4 purpose of identification as Exhibit 303?
- 5 A Yes, I have.
- 6 Q Do you have any corrections to that testimony?
- 7 A No, I don't.
- 8 Q Mr. Smith, if I were to ask you the questions
- 9 set forth therein, would your answers be substantially the
- 10 same?
- 11 A Yes, they would.
- 12 Q And would those answers be true and correct to
- 13 the best of your information and belief?
- 14 A Yes.
- MR. DEFORD: I would offer Exhibit 303 and
- 16 tender Mr. Smith for cross.
- JUDGE WOODRUFF: You just have the one exhibit,
- 18 303?
- 19 MR. DEFORD: Correct.
- JUDGE WOODRUFF: All right. Exhibit 303 has
- 21 been offered into evidence. Any objections to its
- 22 receipt? Hearing none, it will be received into evidence.
- 23 (Exhibit No. 303 was admitted into evidence.)
- JUDGE WOODRUFF: For cross-examination, we'll
- 25 begin with Ameren.

```
1 MS. DURLEY: I have none.
```

- JUDGE WOODRUFF: Public Counsel is not present.
- 3 Municipal Gas Commission?
- 4 MR. WOODSMALL: No, thank you, your Honor.
- JUDGE WOODRUFF: Staff.
- 6 CROSS-EXAMINATOION
- 7 BY MR. REED:
- 8 Q Good afternoon, Mr. Smith.
- 9 A Good afternoon, Mr. Reed.
- 10 Q Where are you from?
- 11 A Houston.
- 12 Q Now, your rate is 500 per hour?
- 13 A Yes, it is.
- 14 Q All right. What -- what's the total up to now?
- 15 A I billed -- I gave you all a copy of the bill
- 16 from September, which covered preparation of the rebuttal
- 17 testimony, and I believe that was -- I believe there was
- 18 20 hours involved.
- 19 I don't -- I don't recall. I'd have to go back
- 20 and look at it. And then there will be a bill for the
- 21 deposition that occurred in November. Then there will be
- 22 a bill for this activity.
- 23 Q 20,000?
- 24 A I believe it's around 20,000.
- 25 Q I figured we might as well know, just get it out

- 1 there, so --
- 2 A The total wouldn't be anywhere close to 100,000,
- 3 by the way.
- 4 Q Okay. Your testimony, you filed rebuttal,
- 5 correct?
- 6 A Yes, sir.
- 7 Q Thirteen pages of testimony, correct?
- 8 A Correct.
- 9 Q The point of that testimony is, as I understand
- 10 it, and you can correct me if I'm wrong, but you looked at
- 11 the sales and agency agreements and concluded that -- that
- 12 they are independent, valid and binding?
- 13 A Correct.
- 14 Q Right?
- 15 A That's correct.
- 16 Q Now, you're not a lawyer?
- 17 A I'm not a lawyer.
- 18 Q Up -- you were part of El Paso Merchant Energy
- 19 when they were investigated by the FERC?
- 20 A That's correct.
- 21 Q Were you a part of that?
- 22 A I -- I came to El Paso -- this is in my
- 23 deposition with Ms. Shemwell. I came to El Paso through a
- 24 merger with the Costal Corporation. And the investigation
- 25 was underway after I -- or before I got there. I did

- 1 participate in negotiating a settlement.
- 2 Q All right. How much was paid by El Paso in that
- 3 case?
- 4 A I think the net present value, it covered all
- 5 parties, and it was about \$900 million.
- 6 Q Net present value?
- 7 A Yeah. It was paid out over 20 years.
- 8 Q What total was paid out over 20 years?
- 9 A It would have been \$1.5 billion.
- 10 Q Okay. Do you know if any of the contracts that
- 11 you've looked at have been amended verbally?
- 12 A Which contracts? The ones that --
- 13 Q Any -- any of the contracts that you've looked
- 14 at.
- 15 A Like the natural gas sales and agency agreement
- 16 between City of Cuba and Omega.
- 17 Q Yeah.
- 18 A These -- okay. I don't have knowledge that
- 19 they've been amended verbally, other than the fact that
- 20 you can tell from the activities -- the marketing
- 21 activities and transportation activities that there has
- 22 been deliveries at receipt points -- excuse me --
- 23 deliveries to delivery points in -- and there may have
- 24 been some change in billing. So there's things that have
- 25 probably been verbally agreed to, but I'm not knowledge --

- 1 I don't have knowledge of them.
- 2 Q You don't have knowledge of any written change
- 3 in the contracts. You're saying there may have been
- 4 verbal changes, correct?
- 5 A There may have been verbal.
- 6 Q You mentioned delivery points. Can you give me
- 7 an example?
- 8 A Well, there's -- oftentimes in transportation
- 9 agreements, parties will seek to transport gas to
- 10 different delivery points, and the original agreements may
- 11 have some base -- I would call base language in there in
- 12 terms of identifying what those points are. Those points
- 13 can change, and it's often done verbally.
- 14 Q Are you talking about like a different customer?
- is that what you mean by a different delivery point?
- 16 A Could be a different customer, different
- 17 delivery point.
- 18 Q For instance, using the Cuba contract to serve
- 19 Customer B?
- 20 A Correct.
- 21 Q Is that what you're talking about?
- 22 A I'm talking about it could be any of the
- 23 Customers A, B, C or anywhere on the system.
- 24 Q And you -- you would -- you would think that
- 25 Cuba would have some knowledge of Customer A, B or C and

- 1 have agreed verbally?
- 2 A Well, not necessarily.
- 3 Q Not necessarily. Why not?
- 4 A No. Because there would be -- Omega Pipeline
- 5 Company was acting as agent. And to the extent they're
- 6 acting as an agent and administering that transport, it
- 7 may have been used with or without their knowledge.
- 8 Q With or without Cuba's knowledge?
- 9 A Yeah. I don't know if Cuba had knowledge or
- 10 not. I haven't talked to them.
- 11 Q In your experience, have you -- have you seen a
- 12 case where the person who sets transportation rates is
- 13 also a shipper on the system?
- 14 A Well, this gets back to something I think
- 15 Mr. John alluded to. This is a very small pipeline
- 16 company, a very, very small marketing company. And you
- would typically see a company like that have personnel
- 18 that are involved on both sides of those businesses
- 19 because it's so small.
- 20 And I -- and I would want to point out even in
- 21 the larger companies, ultimately, the unregulated, which
- 22 is your marketing, and your regulated, which is your pipe,
- 23 would come together at some common point.
- 24 So it -- in any organization, regardless of
- 25 size, that happens. So it doesn't surprise me that there

1 would be activities inside MPC and MGC that would involve

- 2 a common management group.
- 3 Q Have you answered my question?
- 4 A Your question was does one person set rates and
- 5 negotiate?
- 6 Q Sole shipper.
- 7 A I think so.
- 8 Q Have you seen that?
- 9 A Yeah. I think I've seen that in the past.
- 10 Q Can you give me an example?
- 11 A No. But it goes back to the 1980s and '90s when
- 12 these companies were evolving. There were situations
- 13 where that would have happened.
- 14 Q Haven't seen it since then?
- 15 A Well, I have -- no. I haven't been involved in
- 16 companies that -- this is a very small operation, and I
- 17 haven't been involved in something this small.
- 18 Q Is it appropriate for Omega, the affiliate of
- 19 the pipelines, the two pipelines, to negotiate
- 20 transportation discounts on the pipelines for Omega's
- 21 customers?
- 22 A You're asking could Omega, as agent, negotiate
- 23 the transport on the pipelines? Yeah. I think they could
- 24 do that.
- 25 Q Transportation discounts?

- 1 A Yeah. I think that could happen.
- 2 Q For themselves?
- 3 A For the -- no. For the -- for the shipper.
- 4 With the shipper, City of Cuba, here.
- 5 Q So Omega would negotiate the discount with
- 6 themselves, basically, correct?
- 7 A No. With the pipelines.
- 8 Q But Mr. Ries would be negotiating with the
- 9 pipelines, and Mr. Ries is also President of the
- 10 pipelines, correct?
- 11 A Well, I don't know who was involved in a meeting
- 12 that determines those rates. But you're asking me -- the
- 13 first question you asked me was, Could Omega, as a
- 14 marketing company, unregulated marketing company, act on
- 15 behalf of shipper that they're acting as agent for and
- 16 negotiate transport rates. The answer is yes.
- 17 Q I think what I was trying to get to was whether
- 18 Mr. Ries could negotiate with himself for rates on behalf
- 19 of the principal?
- 20 A I don't know if he did that. I mean, I don't
- 21 have knowledge of that. But the first question the answer
- 22 is, I think, yes.
- MR. REED: That's all. Thank you.
- JUDGE WOODRUFF: All right. Thank you.
- 25 Questions from the Bench. Commissioner Murray?

```
1 CROSS-EXAMINATION
```

- 2 BY COMMISSIONER MURRAY:
- 3 O Hello.
- 4 A Hi.
- 5 Q Good afternoon. It's your understanding -- or
- 6 it's your -- it's getting late. I'm getting tired. It's
- 7 my understanding that your testimony is that the
- 8 discounts, the transportation discounts provided by MGC
- 9 were to Cuba, City of Cuba and not to Omega --
- 10 A Correct.
- 11 Q -- is that correct? And you're basing that
- 12 solely upon the fact that Omega was acting as an agent for
- 13 the City of Cuba?
- 14 A Correct.
- 15 Q So any -- any deliveries that were -- were made
- 16 with Omega's -- this -- this discounted rate, let's put it
- 17 that way, where they all -- were they all made on behalf
- 18 of the City of Cuba?
- 19 A Unless otherwise transported by Omega at a later
- 20 point in time. I think at some point in time, some of
- 21 these customers, Omega became the shipper itself. But
- 22 during the time period I think in question, yeah, the City
- 23 of Cuba was the shipper. And this is not -- I might add,
- 24 not uncommon in the industry at all.
- 25 Q So during the time period relevant to this

- 1 complaint, the City of Cuba was the sole beneficiary of
- 2 the discounted rate that had been achieved by -- by Omega
- 3 on behalf of Cuba? Is that what you're saying?
- 4 A The transportation rate was for the City of
- 5 Cuba. Omega was acting as their agent.
- 6 Q I was going to reference one of your
- 7 attachments, but I've forgotten which one it was.
- 8 A It was an agreement?
- 9 Q Yes. It was one of the agreements. I can't
- 10 tell how your attachments to your testimony are numbered.
- 11 It's --
- 12 A Do you want me to give you a list of -- the City
- 13 of Cuba sales and agency agreement is Appendix I. The
- 14 direct sales agreement by Omega to Customer A is Appendix
- 15 K.
- 16 Q Okay. I do -- I think I'm looking at Appendix
- 17 I.
- 18 A Okay.
- 19 Q Because the page labeled Appendix I is blank.
- 20 So I'm assuming that next page that begins with the
- 21 agreement dated November 27, '03, 5/17/03 with one
- 22 signature, so --
- 23 A That's correct.
- 24 Q And my mic isn't on again. Sorry. Were you in
- 25 the room earlier when Mr. Schallenberg was being

- 1 questioned about the difference in what Omega paid for
- 2 delivery of gas to the City of Cuba versus what the City
- 3 of Cuba was being billed by Omega?
- 4 A Going in and out, I believe.
- 5 Q This contract that we're looking at on
- 6 Appendices -- I think these aren't -- I'm not getting into
- 7 highly confidential stuff, right?
- 8 A No. This is not one of the confidential ones.
- 9 Q I'm a little gun-shy. Okay. The fixed fee of
- 10 3.50. Now, if certain customers were delivered gas for a
- 11 lesser amount under this contract, can you -- can you
- 12 figure out how that could happen or why that would happen?
- 13 A Well, it could happen. This is a sales and
- 14 agency agreement. This is not a transport agreement. So
- 15 if you were to look at this and then look at, let's say, a
- sale to Customer A or B or C, all of them are going to
- 17 have individual pricing terms.
- 18 Some are sold by a an agency agreement. Some
- 19 are sold bundled all the way up to the city gate. So
- 20 every one of them has a different pricing provision, so
- 21 it's hard to compare them. It would be kind of apples and
- 22 oranges.
- 23 COMMISSIONER MURRAY: I think that's all the
- 24 questions I have. Thank you.
- 25 JUDGE WOODRUFF: Thank you, Commissioner Murray.

```
1 I -- I have a couple questions for you.
```

- 2 MR. SMITH: All right.
- 3 CROSS-EXAMINATION
- 4 BY JUDGE WOODRUFF:
- 5 Q Your -- your rebuttal was filed on October 6, I
- 6 believe?
- 7 A Correct.
- 8 Q When did Staff take your deposition?
- 9 A November -- I think it was the second week in
- 10 November.
- 11 Q Okay. And I -- you testified that Cuba -- that
- 12 it could have been verbal, certain verbal changes to the
- 13 contract with Cuba about delivery points, I believe. And
- 14 you indicated Cuba might not have knowledge of that.
- 15 Is there something in the contract that would
- 16 allow that kind of change to be made without Cuba being
- 17 aware of that?
- 18 A Well, this goes to the heart of -- most of the
- 19 contracts will say in standard boiler plate that you will
- 20 do everything on a written basis. I'm just -- it's my
- 21 opinion, based on my 28 years in the business, that an
- 22 incredible amount of business is done verbally in terms of
- 23 adjusting transport agreements in particular because the
- 24 commercial people are often moving gas different
- 25 directions. And so it doesn't -- it's not unusual for

- 1 them to call in and change a receipt point. It gets
- 2 documented through the billing process. It will be
- 3 documented that the gas moved to a different point.
- 4 Q So -- so when City of Cuba got a bill from
- 5 Omega, they would have -- they would have gotten the bill
- 6 from Omega, right?
- 7 A Had they'd gotten a bill, they would have seen
- 8 that. I don't know if they got a bill. But if there was
- 9 a communication -- well, for example, I think there was an
- 10 issue where the agency -- there wasn't a formal agency
- 11 explan -- or document sent to the pipelines when the
- 12 Ameren agreement ended and Omega began this -- this new
- 13 agreement.
- 14 Well, it's pretty obvious at the pipeline level
- 15 that Omega has -- has become the agent.
- 16 Q Okay.
- 17 A They were sending the bills in care of Omega.
- 18 O Now --
- 19 A So there was a paper trail generally afterwards
- 20 that even if there isn't perfect written instructions,
- 21 there's -- there's understanding that there is going to be
- 22 -- there are going to be verbal deals that are there
- 23 from that standpoint.
- Q Before Omega got this contract with the City,
- 25 you indicated Ameren had the contract of MPC --

- 1 A I believe.
- Q -- or an affiliate of Ameren or something?
- 3 A It was -- I think back when they were in the
- 4 retail gas business, they had a sales and agency agreement
- 5 very similar to what Omega did.
- 6 Q Do you know if -- when Ameren had that contract,
- 7 did they get similar deals with transporting for other
- 8 customers?
- 9 A I don't know.
- 10 Q But you've seen that with other agency contracts
- 11 around the country?
- 12 A Yeah. Agency agreements generally give --
- 13 they're -- part of the reason you do them is it gives you
- 14 latitude in terms of use of the assets. That's kind of
- 15 part of the bargaining.
- 16 So this is not uncommon around the country for
- 17 companies that are acting as agent have the leeway to do
- 18 things like that.
- 19 Q Is there any harm to the City of Cuba by this
- 20 activity?
- 21 A I'm not aware of any. Now, I would point out
- 22 not only is the City of Cuba agreement, but one thing that
- 23 stood out to me in all the direct sales agreements,
- 24 regulated agreements, all of them are short term. City of
- 25 Cuba and all these customers have the right with a very

- 1 short period of notice to terminate if they thought there
- 2 was any problems with the service or that they were being
- 3 treated unfairly. And I thought that was kind of
- 4 important all the way through this. They weren't locked
- 5 in ten years. Most of them were short, one year or less,
- 6 and 90 days notice they could terminate.
- 7 Q Okay. So the harm to Cuba would be -- would
- 8 there be any benefit to Cuba by them doing this?
- 9 A I don't know. I mean, I'm not in --
- 10 O There could be --
- 11 A There could have been, but I'm not --
- 12 Q What kind of benefit could there be?
- 13 A Well, there may have been a benefit where
- 14 there's a -- a chance, for example on customer, this could
- 15 kind of get into the -- the palliative value of this
- 16 situation. Do you want to go in-camera, and I could
- 17 explain something to you?
- 18 JUDGE WOODRUFF: All right. We'll go in-camera.
- 19 MR. SMITH: Okay.
- JUDGE WOODRUFF: Anyone who needs to go ahead
- 21 and leave --
- 22 REPORTER'S NOTE: At this point, an in-camera
- 23 session was held, which is contained in Vol. 6, pages 489
- 24 through 492.

```
JUDGE WOODRUFF: All right. We're back in open
```

- 2 session again.
- 3 COMMISSIONER MURRAY: Judge, can I just ask the
- 4 witness to identify which part --
- JUDGE WOODRUFF: Sure.
- 6 COMMISSIONER MURRAY: Which exhibit he referred
- 7 to as the letter?
- 8 A The letter. Okay. Let me see if I can -- make
- 9 sure that's right.
- 10 MR. DEFORD: Your Honor, I believe it's Appendix
- 11 U.
- 12 A Thank you. Got it.
- 13 COMMISSIONER MURRAY: Is that the letter you
- 14 were referencing? Thank you.
- JUDGE WOODRUFF: Did you want to ask any other
- 16 questions about that, Commissioner? Okay. For re-cross,
- 17 then, the, not necessarily confidential, Ameren?
- MS. DURLEY: None, your Honor.
- 19 JUDGE WOODRUFF: Public Counsel is not here.
- 20 Municipal Gas Commission?
- MR. WOODSMALL: No, your Honor.
- JUDGE WOODRUFF: Staff?
- MR. REED: No, thanks.
- JUDGE WOODRUFF: Any redirect?
- MR. DEFORD: None, your Honor.

```
1 JUDGE WOODRUFF: All right. Then you can step
```

- 2 down. And we had some discussions off the record earlier
- 3 indicating that we would wait till tomorrow to do Mr.
- 4 Ries. Is that everyone's understanding? All right.
- 5 Mr. Reed, you also indicated you might have a
- 6 rebuttal witness from the City of Cuba. Do you know if
- 7 you're going to actually call that witness?
- 8 MR. REED: Judge, my plan is to have that
- 9 witness here available, Bob Baldwin, by 1:00 tomorrow
- 10 afternoon.
- JUDGE WOODRUFF: Okay.
- MR. REED: That's what I've relayed to him.
- JUDGE WOODRUFF: And did the testimony of
- 14 Mr. Smith trigger your desire to call that witness, or is
- 15 this something that's --
- MR. REED: I think it's still up in the air a
- 17 bit, Judge.
- JUDGE WOODRUFF: Okay.
- 19 MR. REED: We'll see what tomorrow's testimony
- 20 brings.
- JUDGE WOODRUFF: All right. Well, it's up in
- 22 the air, then, as far as the Commission's ruling as well.
- 23 So anything anyone else wants to bring up while we're
- 24 still on the record?
- 25 MR. WOODSMALL: We have those two tomorrow. Is

```
Imhoff done, or where did we leave things with him?
 2
              JUDGE WOODRUFF: I believe Ms. Shemwell
    indicated she did not intend to call him back.
 4
             MR. WOODSMALL: So just the two tomorrow?
              JUDGE WOODRUFF: I believe it will be just the
 5
 6
     two. Anything else?
 7
              All right. With that, then, we are adjourned
8
    until 8:30 tomorrow morning. Thank you all.
