**NOTICE REGARDING IMPACT OF THE
INFLATION REDUCTION ACT ON RELIEF SOUGHT**

Union Electric Company d/b/a Ameren Missouri (“Company” or “Ameren Missouri”) hereby notifies the Commission of those portions of the relief sought in its Application in this case that are no longer required given the impact of the federal Inflation Reduction Act (“IRA”) and, for its notice, states as follows:

1. As previously outlined by the Company to both Commission Staff and the Office of the Public Counsel Company, the Company will not utilize tax equity financing for the Huck Finn solar facility that is the subject of this case because utilization of production tax credits authorized by the IRA is more favorable for its customers. Consequently, the Company will not offer the Direct Testimony of Company witness Mitch Lansford into evidence because witness Lansford’s testimony relates solely to the use of a tax equity partnership and is therefore irrelevant and moot given that tax equity financing will not be used for this particular facility.

2. As a result, the following relief originally sought by the Company is no longer required:

- a. Authority to utilize a tax equity partnership (1st bulleted item on Application Page 13);
- b. Authority to complete the merger and asset transfer that would have been necessary had a tax equity partnership been used (2nd bulleted item on

Application Page 13)¹; and

- c. The authority described in the 3rd bulleted item on Application Page 13, and in the 4th bulleted item on Application Page 13.

Respectfully submitted,
