

proposed tariff sheets and the company's tariff for determining PACC. Staff stated that there is currently no customer Reconciling Adjustments calculated in the PACC adjustment, however, Staff expects Veolia to file a reconciliation on or after April 1, 2017 for the recovery period that will end on March 31, 2017.

On March 3, 2017, Staff filed its recommendation and stated that the tariff sheets were in compliance with Veolia's Tariff Sheet Nos. 36 and 37 and the Commission Report and Order in Case No. HR-2014-0066. Staff recommended the Commission approve the PACC tariff sheets to become effective on April 1, 2017. However, on March 22, 2017, Veolia filed substitute revised tariff sheets and notified the Commission that it had made an inadvertent omission with regard to its steam revenue. Veolia also filed a motion for expedited treatment requesting that its tariff revisions become effective on April 1, 2017. The Commission directed Staff to file an additional recommendation and any other parties to respond on an expedited basis.

The Staff filed its second recommendation on March 27, 2017. Staff reported that it had reviewed the revised tariff sheets and that it is correct and in compliance with the Report and Order and the tariff sheets. Staff continued to recommend approval of the tariff sheets effective April 1, 2017 as requested.

Based on the revised direct testimony of Matthew Digeronimo and the recommendation of Staff, the Commission will approve Veolia's PACC tariff sheets. Since there are no objections to the proposed tariff sheets and Staff recommends approval for service on and after April 1, 2017, the requested effective date, the Commission will allow this order to go into effect in less than thirty days.
