Brief Description Interruptions

Due Date 10/29/2008

On January 17, 2008 an E-mail was sent to the Company's Marketing Representatives in the Northeastern Missouri area cautioning of a cold blast affecting the Hannibal/Bowling Green area for Saturday, January 19, 2008. Because of operational problems with the Hannibal propane tank facility, the Company had limited peaking capacity. In order to protect the gas system, an on system OFO was issued for Saturday applicable to our transportation customers in Hannibal, Canton, Palmyra and Bowling Green. In addition a curtailment was issued for the Bowling Green Prison effective 9:00 a.m. Saturday, January 19, through 9:00 a.m. Sunday, January 20. This was a one day curtailment as weather conditions were predicted to be warmer on Sunday. The affected customers were contacted in compliance with our tariff and asked to hold to their noms.

In addition to Bowling Green Prison, the affected customers were General Mills, Internet, Watlow Industries, and Hannibal Hospital. The charges associated with this curtailment were assessed on General Mills and Internet. The OFO charges were on the January 2008 cashout back-up for these customers. The amounts were included in the cashout credit to gas costs in January.

Also on January 18, 2008, there was a gas line rupture in Kirksville affecting Truman State University and Hollister. These customers were curtailed until the rupture was repaired.

On May 11, 2008, the pipeline (MRT) in Piedmont had a fire at their station and had to cut the gas that feeds the town. The cause was suspected to be lightning.
