We need to get together and talk about the "bundled" transportation offer to customers on their system. My initial thoughts come down to "probably ok". They will not be charging more than their tariffed rates and will continue to operate per their tariffs in all respects (as best I can tell). I spoke with Dave again on the defaulting customer scenario and who pays for the interstate capacity in this situation...Dave said they would "eat it" if they couldn't resell it.

Let me know what your availability tomorrow and Friday is. I just cancelled my trip to Labadie tomorrow so I'm here. Dave assured me again after some pushing that we will not be presented with a past losses recollection filing. Thanks,
Warren
