RE: Electric Service for Nancy and Ron Gilkey, Jr.
Service Address: 603 E. Haw, Rich Hill, Missouri

Dear Mr. Davis:

My clients, Mr. and Mrs. Ron Gilkey, Jr., desire to change the electric utility provider for their residence located at 603 E. Haw, Rich Hill, Missouri, which is located on the city limit line. They wish to change from City of Rich Hill service to Osage Valley Electric Cooperative. The reason for this request is due to safety concerns because there is something wrong with their electrical service and they fear there could be a fire. My clients have been working with the City of Rich Hill for quite some time to get the problem corrected; however Rich Hill does not have the equipment required to determine where the problem is on the line. Osage Valley Electric Cooperative does possess the necessary equipment to make the determination.

Because Rich Hill can not locate the problem on their line, they have agreed to release my clients from their electrical service. A copy of their letter to that effect is enclosed for your information. Additionally Osage Valley Cooperative is willing to accept serving the Gilkey's home if the Public Service Commission approves the service change. A copy of their letter is also enclosed for your information.

Re: Change of power supplier

The purpose of this letter is to inform you that Osage Valley is willing to accept serving your house from the City of Rich Hill if the Missouri Public Service Commission approves the change.

To start the process and help better inform your legal counsel of the circumstances, we have contacted the City of Rich Hill and with their assistance will be installing the double meter adapter with Osage Valley's meter and the City of Rich Hill's meter.

If you have any further questions then please call me at 1-800-889-6832.

Sincerely,

Wm. Brett Burns
