

**BEFORE THE PUBLIC SERVICE COMMISSION
STATE OF MISSOURI**

In the Matter of Veolia Energy Kansas City) **File No. HT-2020-0223**
Inc.'s Adjustment to its PACC Tariff)

**VICINITY ENERGY KANSAS CITY, INC.'S RESPONSE TO ORDER APPROVING
STIPULATION AND AGREEMENT RESOLVING ISSUES ARISING FROM THE CITY
OF KANSAS CITY'S CHANGE IN SEWER BILLING**

COMES NOW Vicinity Energy Kansas City, Inc. (“Vicinity” or the “Company”) and for its Response to Order Approving Stipulation and Agreement Resolving Issues Arising from the City of Kansas City's Change in Sewer Billing states as follows:

1. In its Order Approving Stipulation and Agreement Resolving Issues Arising from the City of Kansas City's Change in Sewer Billing issued on December 30, 2020, the Commission ordered: “No later than ten days after the effective date of this Order, Vicinity shall file any tariff sheets necessitated by this Order; or otherwise file pleadings explaining the resulting tariff sheet status.”

2. No new tariff sheets or changes to existing tariffs are necessitated by the Commission’s December 30 Order. The nonunanimous Stipulation and Agreement Resolving Issues Arising from the City of Kansas City Change in Sewer Billing was intentionally crafted to allow the impact of the City of Kansas City’s billing change on the Production Adjustment Cost Clause (“PACC”) calculation to be mitigated without the need to modify the existing PACC tariffs.

WHEREFORE, Vicinity respectfully submits this Response to the Commission’s Order Approving Stipulation and Agreement Resolving Issues Arising from the City of Kansas City's Change in Sewer Billing.

Respectfully Submitted,

By: /s/ Lewis Mills
