

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of KCP&L Greater Missouri                    )  
Operations Company’s Submission of Its 2017            )       File No. EO-2017-0272  
Renewable Energy Standard Compliance Plan            )

**KCP&L GREATER MISSOURI OPERATIONS COMPANY’S RESPONSE TO  
STAFF REPORT ON RENEWABLE ENERGY STANDARD COMPLIANCE PLAN**

COMES NOW KCP&L Greater Missouri Operations Company (“GMO”) and for its *Response to Staff Report on GMO’s Renewable Energy Standard Compliance Plan* (“Response”) states as follows:

1. On May 30, 2017, Staff (“Staff”) for the Missouri Public Service Commission (“Commission”) filed its *Report on GMO’s Renewable Energy Standard Compliance Plan* (“Staff Report”).

2. The Staff’s Report notes an error by GMO in the calculation of its Retail Rate Impact (“RRI”).<sup>1</sup>

3. GMO is in agreement with the findings in Staff’s Report as detailed above and will correct the RRI calculation in its 2018 Renewable Energy Standard Compliance Plan as the error does not significantly alter the 2017 RRI calculation.

WHEREFORE, GMO respectfully provides its Response to Staff Report, as detailed above.

---

<sup>1</sup> “GMO has made an error in the calculation of its retail rate impact, specifically the carry-forward amount from previous years. 4 CSR 240-20.100(5)(G) states: “The initial cumulative carry-forward amount shall be equal to the sum of the annual carry-forward amounts for the period January 1, 2015, through December 31, 2015.” Additionally, the Commission’s Final Order of rulemaking makes clear that the carry-forward calculation will start with the period beginning on January 1, 2015...The result of this error alters the RRI calculation, but does not cause RRI to exceed 1 percent and therefore Staff recommends the Commission order GMO to make this correction in its 2018 Plan rather than requiring a revised RRI calculation for 2017.” (Staff Report, p. 5)

Respectfully submitted,

*/s/ Roger W. Steiner*
