OF THE STATE OF MISSOURI

In the Matter of an Investigation into Compliance)
with the Required Registration of Sellers of Electricity) **Case No. GO-2004-0195**
and Gas for Use or Consumption Within Missouri.)

**ORDER OPENING CASE, ADDING PARTIES, DIRECTING NOTICE
AND SETTING PREHEARING CONFERENCE**

On October 24, 2004, the Staff of the Missouri Public Service Commission filed a motion requesting that the Commission open a case to investigate the sale or distribution of gas and electricity in Missouri by entities that are not certificated by the Commission. In its motion, Staff states that it received a request from the Assistant Superintendent of Salem R-80 Schools for information about a company offering natural gas service. After investigating, Staff determined that the company, Cornerstone Energy, Inc., is not certificated with the Missouri Public Service Commission to provide energy service under Section 393.299, RSMo 2000. Additionally, Staff had no information regarding Cornerstone's financial health or its customer service record with regard to the sale of natural gas.

Based on information gathered by Staff and the specific example of Cornerstone, Staff states “it appears that energy services are likely being offered in Missouri by entities not registered with the Commission, in violation of Sections 393.297-.302, RSMo 2000.” Staff therefore moves the Commission to open a case, directing that Staff investigate and report on issues regarding the sale and distribution of energy services in the State of

Missouri. Staff also recommends that the Commission notify certain entities, listed in Exhibit 3, attached to Staff's motion. Staff further recommends that the Commission order a prehearing conference to be held 30 days after the mailing of the requested notice.

The Commission has reviewed Staff's motion and finds that Staff's request is reasonable and will grant the motion. The Commission will require that Staff investigate and report on the following items:

- a. What sellers are providing "energy services" as defined by Sections ~~393.297-302, RSMo 2000?~~
- b. Of these sellers providing "energy services," which ones are operating without the required certification from the Commission?
- c. Are any of these sellers affiliated with electric and gas distributors in Missouri?
- d. Are these sellers registered with the Missouri Secretary of State to do business in Missouri?
- e. Should the Commission's certification process be modified to address the financial, technical, and managerial capabilities of sellers providing service in Missouri?
- f. What plan of action do the parties in this case recommend to ensue full compliance with the statutes by all energy sellers?

The Commission will make the following entities parties to this matter and require that its

Data Center send a copy of this order to those companies as listed:
