Service Commission

RE: Case No. GO-2004-0195

Dear Sir:

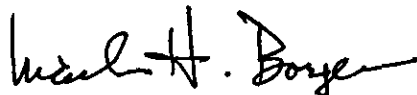

I write to make you aware that Summit Energy Services, Inc., "Summit", of Louisville, KY, has erroneously (I believe) been made a party to the above referenced case, and asking that you help remove Summit from the proceedings.

Summit does not sell or distribute gas, electricity or any other form of energy, as defined in sections 393.297-.302 RSMo 2000. While it is logical to see how the company name could lead parties to think we sell or distribute energy, this is not the case. Summit acts solely in an advisory capacity to clients; Summit does not buy or sell, take title to or deliver, energy. I should point out that over the past few years, other companies (now defunct, I believe) having a similar name have been actual merchants of energy, but not Summit Energy Services, Inc., located in Louisville, KY.

It is my hope that the Commission not require that Summit retain legal representation in Missouri to correct this situation, which would impose costs to correct a matter Summit could not have, by the exercise of reasonable diligence, avoided.

Thank you for your consideration. My contact information is listed below.

Respectfully,

Mark H. Boyer
Executive Vice President, Chief Operating Officer
Summit Energy Services, Inc.
