COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 P R O C E E D I N G S 2 3 (Hearing commenced at 6:30 p.m.) 4 5 6 7 JUDGE WOODRUFF: Good evening everyone. 8 Welcome to our local public hearing here in St. 9 Joseph. My name is Morris Woodruff. I'm one of the 10 regulatory law judges for the Commission, and I'll be presiding here this evening. 11 This is Case Number GR-2004-0209, and it 12 13 concerns Missouri Gas Energy's Tariffs to Implement a General Rate Increase for their natural gas 14 service. 15 And with me this evening is Commissioner and 16 17 Chairman of the Commission Steven Gaw, to my left 18 here. 19 The purpose of this hearing is to take comments from the public about the proposed rate increase so 20 21 the Commission can have some idea of what your 22 concerns and interests might be in this matter. 23 I've got a sign-up list here with, it looks 24 like, about six names on it. What I'm going to ask 25 you to do is to come up and come forward, and I'll COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1	swear you in as a witness, just like on television,
2	and have you state your peace. Then I'm going to
3	give the attorneys here a chance to ask you some
4	follow-up questions, if they want to, and, of
5	course, Chairman Gaw and myself might have some
6	questions for you, also.
7	To get things started, we're going to take
8	entries of appearance from the attorneys who are
9	here. And we'll begin with MGE.
10	MR. HACK: Robert Hack for MGE.
11	JUDGE WOODRUFF: Thank you. And for the Staff.
12	MR. BATES: Bruce Bates for the Staff of the
13	Commission.
14	JUDGE WOODRUFF: All right. And Public
15	Counsel.
16	MR. COFFMAN: John B. Coffman appearing on
17	behalf of the Office of the Public Counsel.
18	JUDGE WOODRUFF: Are there any other parties
19	here who are represented by counsel? All right. I
20	don't see anyone. Let's begin then with Chairman
21	Gaw, and ask if he has any opening statements to
22	make.
23	CHAIRMAN GAW: Thank you, Judge. I just thank
24	those of you who are here. I know everyone has a
25	lot of things on their schedule, and it means a lot
	COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 to us that you show up here. We want to hear from 2 you. Those commissioners who are not here will have 3 a chance to read what you had to say in a transcript that's being taken down by the court reporter. And 4 5 so and they will -- they will be able to hear what you had to say, as well. Again, thank you. We 6 7 appreciate your time. 8 Thanks, Judge. 9 JUDGE WOODRUFF: Thank you. If I can ask you 10 for a favor, Mr. Ochoa, if you can control the microphones up there for us. 11 MR. OCHOA: I can do that. 12 JUDGE WOODRUFF: All right. Let's go ahead and 13 14 call the first witness on the sign-up list here, which is Carolyn Porter. Will you come forward, Ms. 15 Porter. Just come up to the lectern there. Thank 16 17 you. 18 CAROLYN PORTER, called as a witness herein, having been 19 first duly sworn, testified as follows: 20 21 22 JUDGE WOODRUFF: All right. And could tell us 23 your name, please? 24 WITNESS PORTER: Carolyn Porter. 25 JUDGE WOODRUFF: And do you live here in St. COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 Joseph? WITNESS PORTER: Yes, I do. 2 3 JUDGE WOODRUFF: What would you like to tell 4 us? 5 WITNESS PORTER: I visited the Southern Union 6 website, one section on there, and they were right 7 with their annual report. They were assuring their stockholders that they could look forward to 8 9 increased safety of their investment, but, also, 10 increased profits because of the rate case that is 11 being filed. And one of those is pending with MGE. One thing I -- as a consumer, I'm more 12 13 interested in what is this rate increase going to do 14 for me. I'd like to see improved customer service. It seems like since I've lived on the St. Joseph 15 side of the river, that there's been a lot of 16 17 miscommunication between the MGE corporate office 18 and dispatch in St. Joseph and some of the office 19 people in St. Joseph and maybe even between dispatch 20 and the servicemen. 21 Also, I'd just heard this year that some gas 22 leaks aren't considered unsafe. Even though 23 consumers are told, whenever you smell a gas leak,

24 you always report it. It turns out that if there's 25 a little bitty minimum leak just around by the COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

meter, that's safe. However, at seventy-five cents per CCF, it might not be unsafe, but it sure can get expensive. And so I want to increase the customer service if I'm going to pay more for my utilities. And I think that's what most of us will want. Thank you.

JUDGE WOODRUFF: Have you had any specific
problems with customer service when you've tried to
call in?

WITNESS PORTER: We've been able to resolve 10 everything, but it seems like it takes a long time. 11 12 With the first house I lived in, when Missouri Gas 13 Energy and Southern Union subcontracted moving all 14 of their meters out of basements. And their 15 subcontractors switched my meters. And it took about six months to convince Missouri Gas Energy 16 that the meters were backwards and I was paying for 17 18 my neighbor's and they were paying for mine. 19 JUDGE WOODRUFF: How long ago was that? 20 WITNESS PORTER: That was probably 2000, right 21 after the meters were -- '99 or 2000. 22 JUDGE WOODRUFF: Chairman Gaw, do you have any 23 questions? 24 CHAIRMAN GAW: Thank you. Ms. Porter, I'd like 25 for you to tell me, if you could, a little more COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1	specifics about when you say it takes a long time.
2	Do you have other examples, and can you be more
3	specific about how much time it takes between a
4	contact and when you receive
5	WITNESS PORTER: Well, here's an example of a
6	misunderstanding. I'm not I had trouble with my
7	meter this winter. There was a leak for a couple of
8	weeks at the meters. It turned out that, even
9	though it was costing me a little extra, it wasn't
10	dangerous is what I'm told. And I called Missouri
11	Public Service Commission to make sure they wasn't
12	going to explode. But the I was able to get a
13	pipeline discount, but about two to three weeks ago,
14	there was a note on my door that my meter was going
15	to be removed. And the gas company left it on
16	because I wasn't home. I had already made
17	arrangements because the March bill was the high
18	bills finally caught up with me. In March, I had to
19	make arrangements to pay. So they weren't supposed
20	to take the meter out. And so I called. They said
21	they're not supposed to take the meter out. They're
22	supposed to give you a new meter or a different
23	meter and take the old one out to have it tested.
24	So I called back and made an appointment to have
25	that have that done. And that was supposed to be
	COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1	yesterday. And I had an appointment, so I stayed
2	home all afternoon. And I had to change some other
3	appointments so I could be there for the gas service
4	person. Today, the gas service person came. They
5	didn't come at all yesterday. And they said, well,
6	if they'd known it was an appointment, they would
7	have come yesterday. So there's a lot that can be
8	improved I think.
9	CHAIRMAN GAW: When did you make that call,
10	again? When did you make the call to set up the
11	time?
12	WITNESS PORTER: Probably a week ago.
13	CHAIRMAN GAW: And was it your understanding
14	that they would come on a particular day when you
15	made the call?
16	WITNESS PORTER: Yes. And, yesterday, I called
17	to verify and they said yesterday afternoon,
18	about 2:30, I called and they said they called
19	dispatch and said, yes, they would be there. Well,
20	when he came today, he said, "Well, I'm supposed to
21	pull the meter." And he said, "But that's not
22	right, is it? You're supposed to get a switched-out
23	meter." So he called and got that corrected. So
24	there's a lot I think maybe your employees need
25	some more customer service training or something.

There's a lot of lack of communication. 1 2 CHAIRMAN GAW: Okay. WITNESS PORTER: Which is costing you more 3 4 money. 5 CHAIRMAN GAW: You're talking about -- when you 6 say me, you're talking about the company; is that 7 what you're talking about? WITNESS PORTER: Well, I don't have any 8 9 specific names, but I'm --CHAIRMAN GAW: No. I mean, you're talking 10 about MGE; right? 11 12 WITNESS PORTER: Right. 13 CHAIRMAN GAW: Okay. We have your information, Ms. Porter. Do we have your information on your 14 telephone number and --15 WITNESS PORTER: Yes. And everything's taken 16 17 care of now, but I wanted to bring that to your 18 attention. Because even though I feel like I'm the 19 only one that's happened to, I'm sure I'm not. 20 CHAIRMAN GAW: I appreciate that. Thank you 21 very much. 22 JUDGE WOODRUFF: Ma'am, just wait. There may 23 be some questions from the attorneys. Let me ask 24 them first before you leave. 25 Do any of the attorneys have any questions for

WITNESS COOK: I am a principal at an 1 elementary school here in St. Joseph, Hosea 2 3 Elementary, and I would like to share the prospective that we have from our business 4 5 partnership that we have with Missouri Gas Energy. 6 Because they really give a lot back to our 7 community. And I'm not sure that everyone realizes how much they give back to our community. They've 8 supported us financially with student needs and 9 10 teacher needs and, you know, group needs, such as 11 sponsoring field trips, funding special events for 12 sixth graders, at holidays, adopting some of our Hosea Elementary families that have those needs. 13

14 Also, they share their human resources with us. 15 They come down and educate our students and teach us some crisis awareness and such things as gas leaks 16 17 and, also, like safety issues around the holidays 18 and Halloween and those kinds of things. Also, one 19 of the big things that Missouri Gas Energy does is, 20 they always come and attend our career and business 21 days and share with our kids what different careers 22 there are within their company. And so I just 23 wanted to make everyone aware that they do give back 24 tremendously to our community.

very familiar to you, Commissioner Gaw, because he was very involved in previous discussions we've had on this consortion I'm about to speak to. Basically, I'd like to relate a very positive experience we've had with Missouri Gas Energy over the last several years and how they've helped not only the St. Joseph school district, but numerous others on this side of the state. To back up just a little bit, in the early 1990's, Missouri School Boards Association afforded the possibility of creating an aggregate natural gas purchasing consortion for school districts. We had basically twofold reason for that. Obviously, the first would be to explore savings opportunity for the school districts whereby they could realize a lesser energy cost. The second was basically focused on greater financial certainty. We have a lot of school districts that are indeed magnified even more now because of the current financial status of the state. School districts are very concerned about keeping a constant level of expense, if they can do so, in projecting the number of their energy costs. And that's what we've been after in this program. In the late 90's, specifically 1999, we began a purchasing consortion for natural gas.

COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 We had ten school districts enrolled in the program. And the utilities, investor-owned utilities, had to 2 file tariffs with the Missouri Public Service 3 Commission at that time and before November of '99. 4 5 Unfortunately, the tariffs which were filed, which 6 were all filed appropriately, they were set up so 7 that the smaller schools couldn't economically afford to be in the program. And we went to the 8 9 legislature in 2002. We had roughly ten districts 10 that qualified for the program. And we went to the 11 legislature in 2002 and got some language inserted 12 which, again, we went through -- before the Missouri Public Service Commission in speaking with the other 13 14 utilities. Basically, it opened the door, if you 15 will, for any size school to participate in this natural gas program. One of the -- one of the 16 17 utilities that was extremely cooperative from the 18 very beginning -- there was basically two that were 19 extremely cooperative, and one was Missouri Gas 20 Energy. And MGE worked very closely with our staff, 21 with our program administrator and consultants to 22 provide a program that we thought would ensure 23 district savings. They worked very closely on the 24 reporting aspect of it and also on the billing side of it. And these are -- again, I think they're 25 COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 extremely important to our school districts. As I stated, ten districts began the program in November 2 3 of '99. Of those, eight were MGE customers. We had some that were served by AMRON, a little farther 4 5 west, but five in the Kansas City area and three 6 down in the southwest corner of the state that started the program. Savings were realized pretty 7 8 much immediately, to be quite honest. And through the year 2003, roughly, November or December of last 9 10 year, we've been able to see a savings to school 11 districts of over \$2 million in natural gas costs. 12 So the program is working and working very well. And these funds -- if they save ten percent, twenty 13 percent, those are funds that they're not getting a 14 15 piece of. That will be ten or twenty that goes directly to the district and they can use that in 16 17 their district however they so mean, whether it be 18 personnel or equipment or supplies or what have you. 19 That's the school's money. And we're very proud of 20 the fact that they can invest those funds. 21

In summary, this program has been a huge benefit to public schools. And we are working with private schools now for legislation. But I'd just like to state that Missouri Gas Energy has been very instrumental in this program since day one. In COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1	these difficult financial times, savings
2	opportunities are even more magnified, even more
3	valuable. Schools look for money where they can
4	find it. And this program is providing some aid in
5	that area. So I'd just like to say, we've been
6	extremely pleased and proud of the cooperation shown
7	by the Missouri Public Schools, and we look forward
8	to expanding the program and working with them in
9	this professional relationship.
10	JUDGE WOODRUFF: Thank you very much.
11	Chairman Gaw, do you have any questions?
12	CHAIRMAN GAW: I don't think so. I might say
13	that, Jim, thanks very much for taking the time to
14	come in here. You came up from Columbia?
15	WITNESS CHERRINGTON: Yes.
16	CHAIRMAN GAW: We appreciate you taking the
17	time to do that. By the way, I'm just curious, who
18	was the other utility?
19	WITNESS CHERRINGTON: AMRON was pretty
20	cooperative, right off the bat. We had a couple
21	that drug their feet, you know, but all seven were
22	very cooperative. I mean, it's been a wonderful
23	program. I wouldn't talk bad about it.
24	CHAIRMAN GAW: Thank you very much.
25	JUDGE WOODRUFF: Questions from any of the

           attorneys?
 2
                MR. HACK: No, thank you, sir.
                JUDGE WOODRUFF: Thank you, sir. The next name
 3
           on the list is Sarah Burks.

           name, please.
10
                WITNESS BURKS: My name is Sarah Burks, and I'm

12
           the elementary principal at Pershing Elementary.
13
                JUDGE WOODRUFF: Is that here in St. Joseph?
14
                WITNESS BURKS: Yeah, in St. Joseph.
15
                JUDGE WOODRUFF: What would you like to tell
          us?
16
17
                WITNESS BURKS: I'd like to tell you that rate
18
           increases are inevitable to keep up with rising
19
           costs, but I'd also like to tell you about some of
20
           the benefits our elementary students at Pershing
21
           received because of our business partnership with
22
           MGE. Most local businesses have one school that
23
           they partner with. And I would like to point out
24
           that MGE is one of the few businesses that has two
25
           schools that they take care of, and not only Hosea,
    COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289
```

1	but Pershing reaps the benefits from that
2	partnership. At every PTA conference, open house or
3	other family nights, MGE has a booth that gives out
4	information to our parents and patrons. In second
5	grade, Barbara comes in and gives a lesson to the
6	second graders to tie it with their curriculum on
7	gases and gas safety. They're an active business
8	partner. They donate to our school for our sixth
9	grade tea. She continually calls and makes contact
10	with our school to make sure, if there are any needs
11	that come up, that she is free to help take care of
12	our students. And she is in regular contact with
13	us. We've had a partnership with MGE for ten years.
14	And I would like to say that I'm very pleased with
15	that partnership. Thank you.
16	JUDGE WOODRUFF: Thank you.
17	Chairman Gaw, do you have any questions?
18	CHAIRMAN GAW: Ms. Burks, are you just for
19	clarification, are you in support of the company's
20	request for a rate increase?
21	WITNESS BURKS: Yes.
22	CHAIRMAN GAW: And is that because of the fact
23	that you believe the rate increase is warranted or
24	because of the work and the partnership MGE has with
25	your school?

1
                WITNESS BURKS: I believe it's probably
 2
           warranted, but my fear is, if they have to cut
 3
           costs, like most places do when there are no rate
           increases, that we might suffer in that rate
 4
 5
           increase. So I would be in agreement of the rate
 6
           increase, as necessary.
 7
                CHAIRMAN GAW: So you're anxious for them to
           continue to partnership the work they have been
 8
 9
           doing?
                WITNESS BURKS: Very much so.
10
                CHAIRMAN GAW: And you have some concern it
11
           might not continue if the rate increase is not
12
13
           allowed?
                WITNESS BURKS: They've not indicated that,
14
           but, in all fairness, I'm sure that there would have
15
           to be cuts made somewhere.
16
                CHAIRMAN GAW: Okay. Thank you. I don't have
17
18
           any other questions.
19
                JUDGE WOODRUFF: Questions from the attorneys?
20
               MR. HACK: No. Thank you very much.
21
               CHAIRMAN GAW: Thanks.
22
               JUDGE WOODRUFF: John Welch.

1
    JOHN WELCH, called as a witness herein, having been first
    duly sworn, testified as follows:
 2
 3
 4
                JUDGE WOODRUFF: And can you tell us your name,
 5
           please?
                WITNESS WELCH: My name is John Welch. I am
 6
 7
           clergyman and pastor of the Hyde Valley and South
           Park United Methodist Churches, which are located
 8
           toward the south side of the city of St. Joseph. I
 9
10
           am also a resident of the city.
11
                First of all, a couple of facts. To my
12
           knowledge, you're the only gas company in town,
13
           natural gas company. You've got the -- you are the
14
           only people who can deliver the product that most
15
           people have to have for heating and cooking. And,
           unfortunately, there are lots of people who are
16
           having a very difficult time paying for that product
17
18
           now. This last winter, I received a lot of calls
           from individuals. I could not even start to tell
19
20
           you the number or their names. Yet, there were
21
           people who called saying they needed help paying
22
           utilities. Gas bills happened to be one of them
23
           that happened to be one of the highest utilities.
24
           Now, the gas bills for the buildings that I have to
25
           work and serve out of are also very high. We do
    COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289
```

1 well to pay our bills. We are not a goldmine, contrary to popular opinion about churches by many 2 3 people. Yet, folks that call in needing this help 4 are, in many cases, young people who have not had 5 the opportunities to prepare themselves for really significant paying jobs or they can't work at all. 6 7 Another segment of our population is the elderly. We have people who are retired and, in many cases, 8 9 really too old or unhealthy to work. And, 10 therefore, they find themselves on fixed incomes and 11 they find that they have to make a decision as to 12 whether or not they're going to pay their heating 13 bill, which sometimes is a little bit more because 14 they have to have their homes warmer than other 15 facilities, maybe, or whether they're going to get some other things like medicine or food. And my 16 17 concern is, I know you have your overhead. We all 18 do. But we also have people that are your customers 19 that just may not be able to pay for it sometime. 20 What are you going to do about that? I'll leave 21 that with you. Any questions? 22 JUDGE WOODRUFF: Thank you, sir. 23 Chairman Gaw, do you have any questions? 24 CHAIRMAN GAW: Yes, sir. In your capacity as 25 pastor of your church --

COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 WITNESS WELCH: Yes, sir. 2 CHAIRMAN GAW: -- do you have a lot of interaction with individuals who are having 3 difficulty paying their bills? 4 5 WITNESS WELCH: Most of the people who call in needing help with utilities -- most of our church 6 7 members do not tell me they can't pay, just asking a question how are they going to continue to pay with 8 9 things going up and up and up. 10 CHAIRMAN GAW: Are you familiar with any difference in this last winter in people having more 11 or less difficult time in keeping up with their 12 13 heating bills than they had in other years? WITNESS WELCH: I received more calls. It 14 seems there's a higher volume of calls that came in. 15 CHAIRMAN GAW: Did you make -- do you make 16 17 referrals to any agencies for funding assistance? 18 WITNESS WELCH: Yes. I explain that we do not 19 have the ability to help them pay their utility expenses. However, I do tell them there are 20 21 agencies, but I'm frequently told they've been that 22 route and can't get any more help. 23 CHAIRMAN GAW: Did you experience that this 24 winter? WITNESS WELCH: I did. 25

1
                CHAIRMAN GAW: Do you know whether or not the
 2
           funds sources, in your experience, this winter ran
 3
           out earlier or later; do you know?
                WITNESS WELCH: I do not know that information.
 4
 5
                CHAIRMAN GAW: The homes that some of the
 6
           people that you have contact with, the homes they
 7
           live in, are some of those older homes?
                WITNESS WELCH: Yes.
 8
 9
                CHAIRMAN GAW: Are those heating bills
10
           sometimes higher because of poor insulation?
                WITNESS WELCH: It could be. But, again, if
11
           they can't pay the gas bill, they probably can't pay
12
13
           for more insulation either.
14
                CHAIRMAN GAW: I understand. I'm just trying
           to -- I've get a bigger picture in mind here. I
15
           appreciate your patience with me.
16
17
                In St. Joseph itself, does St. Joseph have a
18
           large percentage of older homes?
19
                WITNESS WELCH: Yes, it does.
20
                CHAIRMAN GAW: Do you know whether or not there
21
           are any programs in St. Jo that impact St. Jo in
22
           dealing with upgrading insulation or heating
23
           efficiency in those homes?
24
                WITNESS WELCH: I do not know that. That
25
           doesn't mean it doesn't exist. It just --

           you don't know, too. I'm just curious.
 3
                I think that's all I have. I appreciate you
 4
           taking the time to come out, Pastor.
 5
                JUDGE WOODRUFF: Questions from the attorneys?
                MR. HACK: No. Thank you very much.
 6
 7
                JUDGE WOODRUFF: Thank you, sir. The next name
           on the list then is Robert Hart.
 8
 9
   ROBERT HART, called as a witness herein, having been first
10
    duly sworn, testified as follows:
11
12
13
                JUDGE WOODRUFF: Will you tell us your name?
14
                WITNESS HART: My name is Robert Hart, and I'm
15
           an employee with Missouri Gas Energy.
                JUDGE WOODRUFF: What would you like to tell
16
17
           us?
18
                WITNESS HART: Well, I think MGE is a good
19
           company. It cares about its customers. It cares
           about its employees. I also know that I am the
20
21
           president of the local union PACE 5267. And we meet
22
           quite a bit about discussing the future of MGE and
23
           what we can resolve, differences between our union
24
           and the company, and try to make it better in order
25
           to help the customers of the city of Kansas City,

1	whatever, St. Jo, wherever we're at. That's what we
2	do. And we do meet monthly. And we do a very good
3	job in trying to accommodate people for helping them
4	out, whether it's going to their house and checking
5	their meters out, whatever. We also can't do that
6	all the time. We need financial support because we
7	have to have money to lay out for the trucks that we
8	use, tools, computers and stuff like that to help us
9	go on to really actually support and help give good
10	quality professional customer utility, as we are.
11	That's basically all I have.
12	JUDGE WOODRUFF: Thank you.
13	Chairman Gaw, do you have any questions?
14	CHAIRMAN GAW: Mr. Hart, how long have you been
15	living in the area?
16	WITNESS HART: Twenty years. I've been with
17	the gas company twenty years, but I've been here all
18	my life.
19	CHAIRMAN GAW: That's what I was asking. But
20	you've worked with MGE for twenty years?
21	WITNESS HART: Correct.
22	CHAIRMAN GAW: And your position with the
23	union, did you say?
24	WITNESS HART: I'm president of the PACE Local
25	5267.

           position?
 3
                WITNESS HART: It's been going on two years
 4
           now.
 5
                CHAIRMAN GAW: Is there anything in particular
           -- you mentioned that the equipment needed to be
 6
 7
           kept up to date and things of that sort. Is there
           anything in particular that you think is problematic
 8
           with the current status of the equipment that you
 9
10
           use or the facilities that you have to work with?
                WITNESS HART: The thing about what we do is,
11
           we get out there and we work. And our customers are
12
13
           counting on -- because we use them so much.
           Compressors and just basically hand tools. And we
14
15
           can't really actually get -- you know, we can't just
           -- when we buy them, I mean, that costs the company.
16
17
                CHAIRMAN GAW: Do you have a problem with the
18
           current status of the tools and trucks and equipment
19
           that you are utilizing or are you saying --
                WITNESS HART: No, not at this moment. We
20
21
           usually try to get what we need, whether it be
22
           written down and get it or --
23
                CHAIRMAN GAW: Do you feel like you get
24
           adequate tools and --
25
                WITNESS HART: We do. We get adequate tools,
```

COVERING MISSOURI ST. LOUIS TO ST. JOSEPH 1-800-633-8289

1 yeah. 2 CHAIRMAN GAW: Your concern is, you may not be able to do it --3 WITNESS HART: Correct. When we get on a 4 5 budget crunch, we can't actually -- when they tell 6 us we want to buy something -- you know, we say, 7 well, we need this really bad, but we can't because 8 we're under a crunch and we need to hold back. 9 That's not the way to be if you're a professional 10 company. You know, if you need to have tools, you 11 need to have tools. We're a professional. 12 CHAIRMAN GAW: Yes, sir. Are you under that 13 kind of pressure right now? 14 WITNESS HART: Right now, no. Not right at this moment. 15 CHAIRMAN GAW: Okay. Thank you. 16 17 JUDGE WOODRUFF: Questions from the attorneys? 18 MR. HACK: Thank you very much. 19 JUDGE WOODRUFF: Thank you, sir. That was the last name on the list. Is there anyone here that 20 21 would like to testify that didn't get their name on 22 the list? I don't see anyone. 23 Any closing comments, Chair Gaw? 24 CHAIRMAN GAW: Just thank everyone for taking 25 the time to come out. We appreciate it. And I COVERING MISSOURI ST. LOUIS TO ST.            Kansas City and Blue Springs and Joplin; is that

                JUDGE WOODRUFF: That's correct.
 6
 7
                CHAIRMAN GAW: And this is the last one?
                JUDGE WOODRUFF: This is the last local public

           hearing.
                CHAIRMAN GAW: Okay. We do have -- the hearing
10
           is scheduled when for this?
11
                JUDGE WOODRUFF: June 21st will be the hearing
12

           that will take place in Jefferson City for the
           formal presentation of evidence.
