

Greg H Olson, SAINT LOUIS, MO.
Dear FERC Commission members,

This pipeline is vital and critical infrastructure supplying natural gas to approximately 650,000 which includes but is not limited to; military installation(s), homes, businesses, hospitals, daycare, senior centers/assisted living facilities, homeless shelters, and animal shelters in the St. Louis area. Commerce and every day living will be negatively impacted in a state that is recovering successfully from the pandemic.

We ask that the Commission not revoke the Spire permit and KEEP THE PIPELINE OPEN. Its function fuels everyday life and activity of St. Louis citizens and the successful business recovery from the pandemic in Missouri.

Respectfully,
Greg H. Olson
Resident and Spire Natural Gas Pipeline Customer
