RE: File NO. EO-2022-0283

Dear Mr. Woodruff:

Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri" or the "Company") filed its second corrected *2021 RES Compliance Report* ("Report") to correct the Report on page 5, Section (8)(A)1B to show the correct jurisdictional revenue from the total retail electric sales to Missouri customers as measured at customers' meters. After the Company submitted the filing, an inadvertent error showing the previous total retail electric sales was discovered in the public version. With this filing, Ameren Missouri is amending the public version to show the corrected jurisdictional revenue on page 5, Section (8)(A)1B of the public version of the Report.

Please contact me if there are any questions.

Sincerely,

Wendy K. Tatro
